INFORMATION / BACKGROUND

State law requires all cities with business licensing to update codes by the end of the year as set forth below.

Business license and city B&O tax simplification.

In the 2017 session, EHB 2005 (RCW 35.90) passed requiring three actions by cities with business licenses and local B&O taxes. This law does the following:

1. Requires cities with business licenses to establish a workgroup to create a model business license with a licensing threshold by July 2018 for adoption by all business license cities by January 1, 2019;
2. Requires all cities with business license to administer their business license through the state’s Business Licensing System (BLS) by 2022 or FileLocal by 2020; and
3. Establishes a task force on local B&O tax service apportionment under RCW 35.102.130 to report to the Legislature by October 2018.

Final model ordinance for local business licenses – minimum threshold.

Cities were required to develop a model ordinance for business licensing by July 1, 2018. The ordinance includes a mandatory definition of “engaging in business” and a minimum threshold (or occasional sale) exemption to establish when out-of-town or transient businesses are required to be licensed. All business license cities must adopt it by the end of the year (RCW 35.90.080).

What is in the model?

The model threshold has two pieces: a model threshold and a definition of “engaging in business.”

1. The model business license threshold language would:
 - a. Apply a minimum threshold of \$2,000 per year in the city for businesses that do not have a location in the city;
 - b. Require a license for businesses with a location in the city without regard to the threshold;
 - c. Allow cities the option to require registration with no fee for businesses under the threshold; and
 - d. Only apply to general business licenses, not regulatory licenses or local taxes.
2. The definition of “engaging in business” includes examples of what constitutes business activities in cities that would subject a business to license requirements, as well as those activities that would not. The model language is adapted from the definition that the 45 cities with local B&O taxes have already adopted for the definition of “engaging in business” in the B&O tax model ordinance.

What are the deadlines for all cities with business licenses to adopt the model?

Cities with a business license must adopt the model by January 1, 2019. However, cities that currently partner with the state’s Business Licensing Service (BLS) for business licensing administration have a deadline of October 17, 2018, because they must provide BLS 75-day notice of any changes to their business licenses (including this mandatory change).

The City is already using the State to administer its business licenses. Thus the deadline is October 17, 2018.

Revisions to the Ruston code.

As the City started reviewing its business licensing code in order to comply with the state-mandated update, it became clear that the City’s code is in need of a major overhaul as it was quite out of date and lacking many procedures (such as revocation and appeal procedures) that are found in most business licensing codes. The City used the Tacoma Business Licensing Code as a model for many of the new chapters. Tacoma’s code, however, has many more additional chapters that were not included in the new ordinances either because Ruston deals with those issue already (i.e. adult entertainment, alarms permits) or because these are things the City has never specifically licensed with special licenses (i.e. food trucks, sign erectors, scrap metal dealers, gambling, septic and side sewer contractors) and thus any of these businesses would be covered under the general business license. The five ordinances addressed in this package of amendments are:

ORD #	Chapter Name/Number	Purpose
1507	Chapter 5.05 – General License Provisions	General provisions for business licensing code
1508	Chapter 5.05A – Annual Business License	Requirements for an annual business license

1509	Chapter 5.05B – Sales – Door-to-Door Soliciting	Sets forth requirements for certain door to door sales
1510	Chapter 5.05C – Temporary Business License – Sales or Shows	Sets forth requirement for occasional or special event business licensing
1511	Chapter 5.05D – Short Term Rental License	Set forth the procedures and requirements for short term rental uses (i.e. AirBnB and the like)

Ordinance No. 1511 is a new type of license to Ruston. At the time the business license code was being re-drafted, the Planning Commission was taking up zoning regulations for short term rentals in the City. Therefore the drafting of the new Chapter 5.05D dovetails nicely timing-wise with the upcoming zoning code change to regulate this use.

Master Fee Resolution – Informational Only.

Updating the licensing code also requires an update to the City’s Master Fee Resolution. The updated business license fees match what the City of Tacoma is charging and are found in Section 4 of the Master Fee Resolution. In addition, an update to the City’s overweight truck regulations in Chapter 16.07 will be forthcoming and these fees are contained in Section 7.

The Master Fee Resolution is being shared as part of the business license ordinance package, but is not yet ready for action. It will be finalized and adopted when the business license ordinances are adopted, currently scheduled for September 4, 2018.

Deadline for adopting updates to business licensing code.

The last Council meeting in which the business license code updates required by the State can be adopted is October 16th as these need to be transmitted to the State no later than October 17th for collection starting on January 1, 2019.

FISCAL CONSIDERATION

The package of amendments to the business licensing code will result in additional licenses and the related licensing fees as set forth in Section 4 of the draft Master Fee Resolution.

RECOMMENDATION / MOTION

No Action Requested. This is on for first reading. Unless directed otherwise, this matter will return on September 4th for Second Reading and Action. At that meeting, the Master Fee Resolution (RES 690) will also be on for action in conjunction with these ordinances.

Section 2.5 - Revisions and additions to applications.

- A. The City may assess an additional fee for the plan examination of previous designs if a subsequent redesign of a project is submitted prior to permit issuance if the costs of review exceed or are projected to exceed the deposit. The revision fee shall be assessed at the DPD hourly rate not to exceed the fee that would have been charged for the original design, provided that if the application is a Land Use application that requires additional Land Use review, the Land Use hourly rate in effect at the time the revision is filed shall be charged for that portion of the work. The total fee is the fee for the final design plus the revision fee.
- B. The City may assess a fee in addition to fees already charged for the original permit if the applicant makes an amendment to an existing unexpired or reestablished permit. The applicable fees will be assessed for all work necessary to process the amendment, including review by the other departments, including engineering, environmental, building, electrical, etc. associated with the submitted amendment.

Section 2.6 - Fees for Land Use Review.

- A. Land Use Review Fees. The land use review fee for Master Use Permits, Council and Hearing Examiner approvals, environmentally critical area reviews and other miscellaneous reviews, research and services shall be charged according to Table C-1 unless otherwise specified. Land Use hourly rate also includes time spent preparing for and defending the City's decision or recommendation if appealed to the Hearing Examiner.
