INFORMATION / BACKGROUND

The Interlocal Cooperation Act¹, authorizes the City is to contract with other governmental agencies to perform any function that the City is authorized to perform.² Pierce County is willing to contract with Ruston to provide on-call roadway repair and maintenance services. These services may include road and traffic maintenance, including roadway markings; roadway striping; raised pavement markers; general street repair; material hauling; street sanding; street sweeping; vactor service; snow plowing; grading; street resurfacing; and providing specialized technical services, advice and recommendations. Street resurfacing projects may include, but are not limited to, full depth asphalt grinding; HMA patching; and chip seal resurfacing. The County in its discretion may also provide de-icing services and products.

These services are provided at the hourly rates established on Attachment 1 of the Agreement with equipment rental hourly prices established in Attachment 2. The cost to hire the County for this service is far below what this would cost under public bidding by a private sector contractor.

The Agreement does not require the City to have any work done, but allows the City to provide annual project lists to the County for the County to perform at the rates in the Agreement. The Agreement expires at the end of this calendar year but will renew annually unless either party provides notice of non-renewal by November 1st of each year.

The Agreement is coming forward now as the City has the need for chip and seal repair work on certain streets which are part of its adopted TIP project list. The streets we anticipate having chip sealed/resurfaced this year are:

¹ Chapter 39.34 RCW

² RCW 39.34.080.

- 50th Street (from Pearl to Winnifred)
- Bennett Street (from City limits to Court Street)
- Shirley Street (from City limits to 49th Street)

Next summer, we anticipate having the follow street chip sealed/resurfaced:

- Rust Way (from Winnifred to Baltimore)

The resurfacing for all of these streets is covered under a current grant agreement.

FISCAL CONSIDERATION

The Agreement allows the City to have the County perform certain road maintenance and repair work at far less than public bidding prices from the private sector. All projects anticipated in 2020 and 2021 are covered by grants. The projects for 2020 are in the City's 2020 Budget.
