The Automatic License Plate Reader (ALPR) the Department purchased on a 2022 mini-grant from the State of Washington are completely installed and operational. The data collected has been instrumental in providing leads for crimes in the area, including one shooting in Ruston. We also provide data from this asset to the Tacoma Police Department and South Sound 911.

Officer Wayne Lake has been on light duty since November after suffering an injury in a foot pursuit with a felony suspect. We learned he will not require surgery and he expects to return to full duty end of February.
