INTRODUCTION

VILLAGE OF RYE BROOK NEW YORK

Village Board of Trustees

Jason A. Klein - Mayor

Susan R. Epstein - Trustee

Stephanie J. Fischer - Trustee

David M. Heiser - Deputy Mayor/Trustee

Salvatore W. Morlino - Trustee

Village Administration

Christopher J. Bradbury - Village Administrator

Patricia A. Lepre - Village Treasurer

Laurence Simmons - Deputy Treasurer

Gregory Rivera - Administrative Aide

Robert Bertolacci - Superintendent of Parks & Recreation

Elizabeth Rotfeld - Deputy Village Clerk/Senior Coordinator

Gregory Austin - Chief of Police

Michal Nowak - Superintendent of Public Works

Steven Fewes - Building Inspector

Paul Vinci - General Foreman

Fred Seifert - Communication Services Coordinator

Transmittal Letter

May 1, 2024

Honorable Mayor and Trustees
Village of Rye Brook
938 King Street
Rye Brook, New York 10573

Dear Members of the Village Board:

I am pleased to transmit the adopted budget for the Village of Rye Brook for the fiscal year beginning June 1, 2024 and ending May 31, 2025 (FYE2025).

This is the second year the Village of Rye Brook has prepared the budget online using ClearGov to provide fiscal transparency for the public. The interactive Digital Budget Book provides interested readers with additional information and comparisons of prior fiscal history and performance.

In accordance with Village Law, the tentative budget was filed with the Village Clerk on Wednesday, March 20, 2024. Budget work sessions are currently planned for April 1st and April 8th, followed by a public hearing on April 9th. The FYE2025 budget was later adopted at the regular meeting of the Village Board on April 24th.

This is the thirteenth (13th) year that the tax cap legislation is in effect for local governments in New York State. The NYS tax cap limits the levy increase to 2% or the cost of inflation, whichever is less, before adjustments and credits are applied. The village has remained under the tax cap every year except FY2019, when debt payments increased for a large, planned capital improvement project and two unanticipated tax certiorari settlements.

If the goal is to maintain the current level of municipal services, the restrictions of this cap on the tax levy continues to make budget preparation difficult without a subsequent reduction in unfunded state mandates. In developing a fiscally responsible budget, it is important to consider the long-term stability of the organization in performing essential services while maintaining capital investments. With these impacts in mind, the goal remains to: (1) keep the tax levy as low as possible; (2) deliver essential and quality programs desired by the community; and (3) continue to re-invest in the village's infrastructure and equipment. The FY2025 adopted budget achieves those goals while staying below the allowable NYS tax cap for the Village of Rye Brook.

In preparation of the FY2025 budget, department managers were asked to only request expenditures that are necessary and appropriate given the current financial restrictions, and if additional resources are needed, to provide additional information supporting these requests. In recent years, departments have had to cut back or developed alternative revenues to continue to operate at current service levels. In other cases, non-essential service levels have been reduced with minor operational impacts.

The consideration of this budget allows for the continuation of a high-quality, full-service municipal operation that strives to continually meet resident expectations, while maintaining one of the lowest tax burdens of villages in Westchester County. In trying to meet this goal, certain services had to be adjusted in several areas.

Noteworthy Items in the FY2025 Adopted Budget:

- For the twelfth (12th) time in thirteen (13) years the NYS tax cap has been in existence, the budget is below the allowable tax cap.
- The budget includes a village **tax levy increase of 3.86%** which is \$11,127 *below* the 3.92% maximum levy allowed for Rye Brook to remain under the NYS tax cap.
- The village's total assessed value goes up \$249M (+7.62%) compared to FY2024. The Homestead property values increase \$233M (+8.36%) and the non-homestead property values increase slightly at \$16M (+3.34%) compared to FY2024.

- In order to stay within the tax cap, municipalities must keep the increase within the *Allowable Tax Levy Growth Factor* which is the *lesser* 2% or the rate of inflation. Since inflation is 4.37 for villages with fiscal years beginning June 1, 2024, the NYS Comptroller's Office has determined that the allowable tax levy growth factor for the upcoming fiscal year is 2.00%, plus items excluded from the tax levy calculation or the reserve built up from the prior fiscal year which adds some flexibility above this limited percentage. The FY2024 adopted budget was \$20,323 below the tax cap, so this amount is available as a supplemental tax cap reserve for FY2025.
- The *Tax Base Growth Factor* is a factor determined by NYS for each individual municipality and considers items such as new construction, newly taxable status of existing property, or measurable improvements to taxable property within Rye Brook. In general, the higher the tax base growth factor, the more a municipality can increase the levy. For FY2025 purposes, the village's Tax Base Growth Factor is 1.0134 which is slightly higher than the 1.0079 in FY2024.
- The village's undesignated fund balance as of May 31, 2025 is projected to be \$5.8M which is 22.4% of the general fund and special maintenance accounts. This is after a transfer of \$1.5M committed to a Designated for Capital Projects Fund Balance to pay for future capital projects to reduce the need for additional tax levy or debt support at that time.
- There are several short-term factors that are impacting the FY2025 budget including rising inflation, rising retirement system costs, and higher interest rates.
- Several large commercial properties show future promise to increase the non-homestead tax base but have not yet started construction (900 King Street) or are just starting their plan review phase (975 Anderson Hill Road). The former site of the Westchester Hilton has not yet disclosed their future plans.
- Building Department revenues are expected to meet projections in the FY2024 adopted budget, and are increased to \$800,000 with site work anticipated on some of the larger commercial developments.
- The local share of the additional 1% County Sales Tax approved by NYS that became effective on August 1, 2019 has been a boost to the Village's revenues overall, although these revenues appear to be slowing and trending slightly down since the peak in FY2023.
- It is projected that Mortgage Tax revenues will not meet budget in FY2024 due to higher interest rates and less property owners refinancing. As a result, the FY2025 adopted budget decreased this revenue by \$85,000 compared to the FY2024 budget.
- However, higher interest rates have increased Interest Earnings for the Village, with FY2024 projections exceeding the budget by \$510,000. The village has budgeted \$475,000 in Interest Earnings for FY2025.
- Hotel tax, which used to bring in over \$700,000 in revenues, remains budgeted at \$0 and is likely to remain that way for several more years.
- In terms of staffing, funding is provided in FY2025 to eliminate a vacant full-time Senior Recreation Leader position, and to add a Police Officer position and to restore the Laborer position eliminated in the FY2024 adopted budget.
- The NYS Retirement System payments remain a significant part of the village's budget (\$2.2M) and the premiums are based on a percentage of the employee salaries. For the FY2025 budget, NYS Employee Retirement System rates are 17.8% of payroll (Tier 4) and the Police and Fire Retirement System rates are 34.8% of payroll (Tier 2). These percentages are also affected by the annual salaries and overtime for the employees in these systems.
- Health insurance premium rates increased 6.02%-7.48% in 2024 and are projected to increase 8% in 2025. A total of \$3,335,000 is budgeted in FY2025 for this purpose.
- The village has committed to a sound capital improvement program to maintain our fleet and infrastructure. Capital projects total \$2,365,900 for fifteen (15) projects and are funded from a transfer from the *Fund Balance (Designated for Capital Projects)* account (\$1,162,650), \$950,000 from Debt Service (BAN), CHIPS revenue (\$90,000), and grant funding (\$32,250). The largest projects are to replace a fire engineer (\$950,000), road resurfacing (\$500,000) and sanitary sewer improvements (\$300,000).
- Certain fees are modified as indicated in the *License and Permit Fee Schedule* located at the end of this budget document.

The FY2025 adopted budget includes all village funds, including the operating general fund budget, special maintenance accounts, and the capital budget. The impact of all these funds is included in the overall tax levy and tax rate. Since revaluation and the adoption of homestead, the tax levy is a more appropriate indicator of the impact on property taxes than the tax rate since the property assessments will fluctuate year-to-year to reflect the full values of village properties which can greatly impact the rate but not necessarily the property taxes.

Overall, the FY2025 budget includes a property tax levy of \$19,431,581, which is an increase of 3.86% over the prior year and is \$11,127 *below* Rye Brook's allowable tax levy under the NYS tax cap. The residential (i.e., Homestead) portion of the tax levy increases 4.98% while the non-homestead tax levy decreases 0.11%.

The total budget for the General Operating Fund and Special Accounts is \$25,717,453, which is an increase of \$1,211,514 (4.94%). There is an additional \$1,223,650 in expenditures for the Capital Fund. All FY2025 expenditures result in a total municipal budget of \$26,941,103, an increase of \$1,163,965 (+4.52%) compared to the prior year. An allocation of \$300,000 from a Debt Service Reserve is also included to offset property taxes.

The largest expenses of any local government service operation are the personnel costs (salaries and benefits) of the people that perform these essential services. In Rye Brook, these expenses account for 65.5% of the total general fund expenditures (including Special Accounts), with salaries, health insurance, NYS retirement system, workers compensation, and social security payments being the largest expenditures.

The village's latest financial audit for the year ending May 31, 2023 determined the general fund undesignated/unreserved fund balance to be \$7,259,289. It is recommended that \$1,500,000 be transferred by FYE2024 from the general fund unassigned balance to the village's "*Fund Balance- Designated for Capital Projects*". The result would be an anticipated unassigned fund balance of \$5,759,289 on May 31, 2024, which would represent 22.39% of the operating budget (general fund and special maintenance accounts). It would result in a balance of \$2,926,206 in the village's "*Fund Balance- Designated for Capital Projects*" account prior to the allocation of \$1,223,650 for FY2025 capital projects leaving a balance in this account of \$1,702,556.

Property tax revenues increase by \$722,200 or 3.86% above the FY2024 adopted budget. This budget anticipates that property taxes consist of 75.56% of the general operating (non-capital) expenditures. 'Other Revenues' increase by \$489,314 compared to the prior year. Most non-property tax revenues are relatively flat with the following exceptions: interest earnings (+\$385,000), police fees (SRO) (+\$81,040), after-school program (+35,000) inspection fees (+\$50,000) and mortgage tax (-\$85,000). Based upon experience in recent years, police contractual revenue is budgeted at \$150,000 with an equal expenditure offset budgeted in the same amount. The budget also appropriates \$1,223,650 from Fund Balance (Designated for Capital Projects) to help support capital projects, and \$300,000 from a debt service reserve.

In August 2019 Westchester County was able to increase the County sales tax by an additional 1% to 8.375%. A portion of this County sales tax is shared by most Westchester municipalities including Rye Brook. This additional revenue has significantly helped the Village, but the totals seem to be leveling or decreasing slightly in the past year.

To reduce the reliance on the property tax as a source of revenue, the FY2025 budget includes several alternative revenue sources. It is important to continually re-evaluate and consider alternative revenue sources other than the property tax to offset this tax burden in future years. In recent years, several revenue sources such mortgage tax, interest earnings, sales tax, and building revenues have become more volatile and economy-driven making revenue predictions in these areas difficult. Stable revenues from the compost site and escalating payments in the village's cell tower lease have somewhat offset these other negatively impacted revenues.

While some fees are increased or new fees have been added, many of the fees remain unchanged or minimally changed. Any recommended changes in the License and Permit Fee Schedule can be found in the last budget tab.

The adopted budget includes a total net increase of one (1) full-time position for a new total of 76 full-time employees. The position eliminated is a Senior Recreation Leader that became vacant following a retirement. The two additional positions is the restoration of the Laborer position eliminated in the FY2024 budget, and a Police Officer position which is partially offset from revenues from the Port Chester School District with the funding for a new School Resource Officer (SRO) position rotating in their middle and high school.

There are currently two (2) vacant positions in the police department. When the FY2025 tentative budget was initially filed, one Parks Groundskeeper position was vacant but a new employee began employment on April 1st prior to the FY2025 adopted budget.

In terms of union contracts, the Police agreement expired on June 1, 2023, the Fire agreement expires on June 1, 2028, and the Teamsters (Public Works and Parks) agreement also expires on June 1, 2028.

This has been another challenging budget to prepare, and the staff remains committed to work with the Village Board members to maintain a budget that is in the best interests of the taxpayers of Rye Brook.

The FY2025 adopted budget is available on the village website at www.ryebrook.org, and is available in the Village Clerk's office in Village Hall at 938 King Street.

This budget could not be developed without the valued assistance of the dedicated staff members and the support and guidance of the Mayor and Village Board. All department heads and their administrative staff have significantly contributed to the development of this budget. A special word of appreciation goes to Village Treasurer Patricia Lepre, Deputy Treasurer Laurence Simmons, and Administrative Aide Gregory Rivera for their hard work in the development of this budget throughout the past year.

Respectfully submitted,

Christopher J. Bradbury
Village Administrator/Clerk

History of the Village of Rye Brook

THE VILLAGE OF RYE BROOK – A HISTORICAL PERSPECTIVE

The story of the Village of Rye Brook is the most recent chapter in the continuing development of the Town of Rye. It is the shared heritage of four communities.

Town history began in 1640 when land was purchased from Native American inhabitants. The first colonists to move into the area were settlers from Greenwich, Connecticut. In 1660 they negotiated a treaty with Shenarockwell, a Mohican chief, for all the land along Long Island Sound between the Mamaroneck and Byram Rivers. It is supposed that the town was named after Rye, in Sussex, England, the former home of some of the settlers.

Communities within the Town eventually established themselves as four separate municipalities. Port Chester was the first of the areas to incorporate as a village. Its charter is dated 1868. In 1895, Mamaroneck officially became a village with its western section in the Town of Mamaroneck and its eastern section, east of the Mamaroneck River known as “Rye Neck” in the Town of Rye. In 1904 Rye Village was incorporated but, in 1942, it seceded to become a city and is no longer part of the Town. Rye Brook remained the last unincorporated area in the Town until it became a Village on July 7, 1982.

In 1940, the unincorporated area (now the Village of Rye Brook) had a population of less than two thousand residents. It had large estates, farmland, and open space. The area relied on the Town government for services and administration. The number of residents grew to 2,661 by the 1950 census. In 1960 the count exceeded 6,000 and by 1980 it had grown to 8,000. Nevertheless, the unincorporated area had only a small voice in the Town Council as it represented only a fifth of the Town’s voting block.

The concept of becoming self-governing began with an 1981 Pace University examination and study. A group of residents in the unincorporated area began to discuss, even before the Pace Study was published, what the Pace Study could bring out and what effect it would have on their neighborhood. They concluded that the only safe and certain way of achieving independence, self-determination, and protection of its tax base would be to form their own village. The group, later known as The Independent Civic Association or ICA, met over a period of about eighteen months. This led to a petition process followed by a referendum which was approved by the residents of the unincorporated area voted on June 23, 1982 to create the Village of Rye Brook. At that time it was the first village created in New York State in 54 years.

The ICA established two principles concerning future governance that have proven their durability. One is that candidates for public office would seek election on a non-partisan basis without the label or support of any major political party. The other is that our elected public officials would serve without compensation thus helping to instill a cost saving ethic in government.

The 2020 census estimated that the Village of Rye Brook had grown to a population of 10,047 over its 3.5 square miles. Rye Brook residents continue to enjoy the outstanding shared facilities of the Town of Rye such as Crawford Park, Rye Town Park, and Oakland Beach, while the Village now provides a full array of services and programs to its residents including police, fire (with Port Chester), EMS (with Port Chester and Rye City), administration, public works, parks and recreation, senior services, treasury, building and engineering. It is governed by a non-partisan Village Board that serves without compensation, along with many volunteer boards, commissions and committees.

Population Overview

TOTAL POPULATION

9,920

▲ **.1%**
vs. 2021

GROWTH RANK

586 out of **1529**
Municipalities in New York

* Data Source: U.S. Census Bureau American Community Survey 5-year Data and the 2020, 2010, 2000, and 1990 Decennial Censuses

DAYTIME POPULATION

12,568

Daytime population represents the effect of persons coming into or leaving a community for work, entertainment, shopping, etc. during the typical workday. An increased daytime population puts greater demand on host community services which directly impacts operational costs.

* Data Source: American Community Survey 5-year estimates

POPULATION BY AGE GROUP

Aging affects the needs and lifestyle choices of residents. Municipalities must adjust and plan services accordingly.

* Data Source: American Community Survey 5-year estimates

Household Analysis

TOTAL HOUSEHOLDS

3,405

Municipalities must consider the dynamics of household types to plan for and provide services effectively. Household type also has a general correlation to income levels which affect the municipal tax base.

** Data Source: American Community Survey 5-year estimates*

Economic Analysis

Household income is a key data point in evaluating a community's wealth and spending power. Pay levels and earnings typically vary by geographic regions and should be looked at in context of the overall cost of living.

08/15/2024

Basis of Budgeting

The Village of Rye Brook utilizes the modified accrual basis of accounting in the budget document.

Modified accrual budgeting refers to an accounting method that combines cash-basis accounting and accrual-basis accounting. It follows the cash-basis method to record short-term events and follows the accrual method to record long-term events. The modified accrual method of accounting is created by the Government Accounting Standards Board (GASB). It does not comply with the Generally Accepted Accounting Principles (GAAP).

Financial Policies

The Village of Rye Brook has a Comprehensive Financial Policy that is adopted by the Village Board. The Village of Rye Brook believes that the financial policies contained in this document represent the best practices of governmental financial management. Adhering to these policies will help to ensure that we maximize our revenues, minimize our expenditures, preserve the safety of our public funds, and maintain a strong position in the financial community. The adoption of this Comprehensive Financial Policy confirms the Village's commitment to responsible financial management.

Budget Timeline

The Village of Rye Brook annual budget preparation process begins in December each year. After conferring with the Village Board for overall budget direction, a budget memorandum is prepared by the Village Administrator and Treasurer that is transmitted to all department managers providing guidance on requests for revenues, expenditures, and capital projects. Resources such as current trends and past history of accounts is also provided.

The department managers then submit their budget requests for the accounts that they are responsible for, and the Village Administrator and Treasurer meet with them to review their requests and listen to any operational issues or concerns that may have a budgetary impact.

The Village Administrator and Treasurer may modify the requests for the department managers, and they complete the other budgetary accounts, which ultimately becomes the submission of a tentative budget that is filed with the Village Clerk by March 20th each year as required by Village Law.

At that time the tentative budget becomes the fiscal responsibility of the Village Board, who meets with the Village Administrator, Treasurer, and other department managers to review and modify the tentative budget as they deem appropriate. A public hearing is also held to solicit public comments, and the final budget must be adopted by May 1st or the tentative budget (plus any modifications approved by the Village Board to date) becomes the budget for the ensuing fiscal year.

May 1, 2024

Budget must be adopted by this date or tentative budget (with any approved changes) becomes the Village budget.

BUDGET OVERVIEW

Executive Overview

Overall FY2025 Adopted Budget:

- The Tax Levy increases by **3.86%**, which is \$11,127 below the maximum tax levy allowed in the NYS Tax Cap. The Village could have increased the tax levy by 3.92% and remained tax cap compliant.
- The General Fund & Special Accounts expenditures total \$25,717,453, which is an increase of \$1,211,514 over the prior year adopted budget. This is an increase of 4.9%.
- Capital improvement projects total \$2,365,900, with \$1,223,650 funded through the Capital Projects Fund.
- Total full-time personnel is increased from 75 to 76 with the elimination of one vacant Senior Recreation Leader position and the addition of a Laborer and a Police Officer.
- The new Police Officer expenses are partially offset by revenues from the Port Chester School District to provide a School Resource Officer that will rotate between the high school and middle school.
- In terms of significant additional non-property tax revenues, interest earnings increase by \$385,000.

Homestead and Non-Homestead Tax Levies, Tax Rates, and Base Proportions:

- The Homestead tax levy increases 4.98% and the Non-Homestead tax levy decreases 0.11%.
- The Homestead tax rate decreases 3.11% and the Non-Homestead tax rate decreases 3.34%.
- *In municipalities that have adopted Homestead legislation, the tax levy is a much better indicator of overall spending and taxes.*
- The adopted homestead base proportion for FY2025 is 78.787636 and the Non-Homestead base proportion is 21.212364. If homestead legislation was not adopted in 2005 (following the Town of Rye's revaluation), the actual base proportions this year would be 85.9658630 for homestead properties and 14.0341370 for non-homestead properties.

Overall Taxable Assessed Value:

- The total assessed value increased \$249M (7.62%).
- The Homestead assessed value increased \$233M (8.36%).
- The Non-Homestead assessed value increased \$16M (3.34%).

Average Single Family Home Price in Rye Brook and Village Tax Impact:

- The average single family home assessed value in Rye Brook, based upon the 2023 assessment roll (Class 210) is \$995,130, which is 6.8% higher than last year (\$931,507)
- The average single family homeowner would therefore pay \$5,035, which is an increase of \$167 or 3.4% over the \$4,868 paid in the prior year.

Short-term Factors

There are several short-term factors that are impacting the FY2025 budget. These include:

- Inflation is higher than FY2024 (*CPI up 3.2% Feb 2023 to Feb 2024*)
- Interest rates remain high. (*03.17.2024 national avg 30-year fixed refinance APR was 7.29%*)
- The NYS Tax Cap is still in effect every year although promised mandate relief from the state never occurred.
- Health insurance premium rates increased 6.02%-7.48% in 2024 and are projected to increase 8% in 2025.
- NYS Employee Retirement System rates are 17.80% of payroll (Tier 4) and the Police and Fire Retirement System rates are 34.8% of payroll (Tier 2).
- The site plan approved for senior development at 900 King Street but has not begun.
- The 975 Anderson Hill Road proposed project is just beginning a site plan review process.
- The former Westchester Hilton property that remains vacant.

Budgetary Mission

The budgetary mission for the Village of Rye Brook is to:

1. Keep the tax levy as low as possible while
2. Providing high-quality municipal services in the most effective manner while
3. Continuing to re-invest in the Village's infrastructure while
4. Maintaining financial stability

Personnel Changes

The total number of full-time personnel would be increased by one position from 75 to 76 employees with the reduction of one vacant Senior Recreation Leader position and the addition of a Laborer and Police Officer position. The Laborer position is a priority and was eliminated in the FY2024 budget to remain under the NYS tax cap. The Police Officer position is needed as the village is now providing a School Resource Officer (SRO) that will rotate between the Port Chester High School and Port Chester Middle School. The school district will be partially offsetting the village cost of this SRO assignment.

Capital Fund

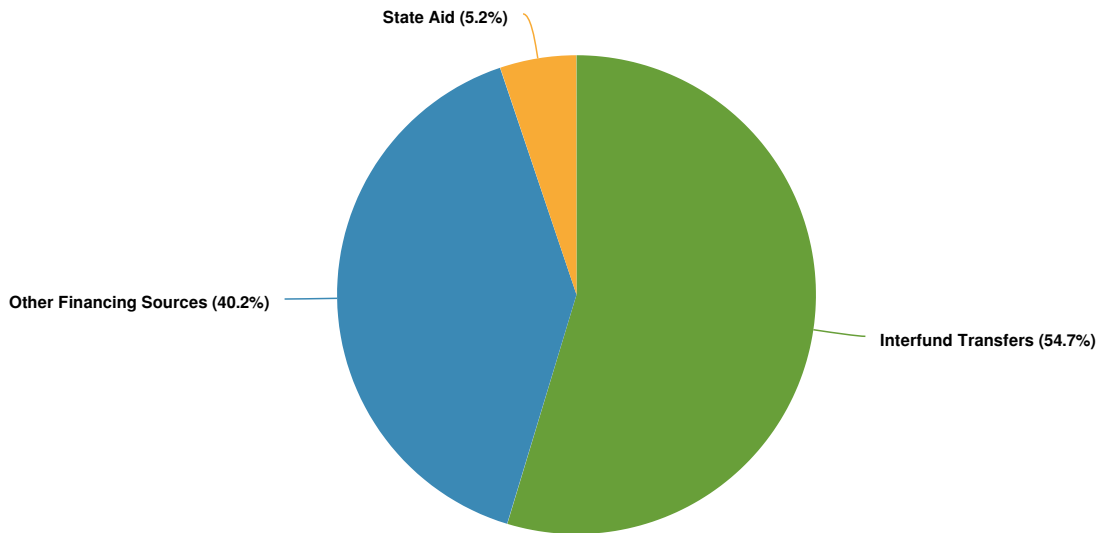

The Capital Fund is a governmental fund that represents the planned capital projects in the given fiscal year. To be eligible for listing in this fund, a project must meet or exceed \$12,000 and typically involves an improvement to a facility, vehicle or equipment needed to serve the community.

Summary

The Village of Rye Brook is projecting \$2.37M of revenue in FY2025, which represents a 56.0% increase over the prior year. Budgeted expenditures are projected to increase by 56.0% or \$849.1K to \$2.37M in FY2025.

Non-Property Taxes Summary

The Non-Property Taxes account includes Sales tax, Gross Receipts tax and Cable TV Franchise fee revenues.

At \$2.48M projected in FY2025, Sales Tax represents the largest revenue in this summary. Municipalities are experiencing significant increases in this revenue source as a result of NYS's approval of the additional 1% County sales tax (to 4%) that began on August 1, 2019. The Village of Rye Brook receives a distribution of a portion of the sales tax collected in all municipalities in the County except for sales tax in Mt. Vernon, New Rochelle, White Plains, and Yonkers which have their own municipal sales tax.

Gross Receipts Tax (\$260,000) and Cable Television franchise fees (\$232,000) are two other forms of Non-Property Taxes collected.

\$2,967,000 **-\$8,000**
 (-0.27% vs. prior year)

Other Financing Sources Summary

Other Financing Sources includes the allocation of fund balance for capital projects, and the allocation of debt reserves to offset the need for additional debt.

A new Bond Anticipation Note (BAN) is authorized to replace a fire engine (\$950,000) although the financing will not occur until the new fire engine is delivered to Rye Brook. No new serial bonds are planned for FY2025 for capital projects.

Village Clerk

Expenditures Summary

The Village Clerk account includes 20% of the salaries of the Administration Office who are the same employees. This office prepares minutes of the Village Board meeting and is the filing repository for certain official records such as certified resolutions of several board with final approval authority. Some of the responsibilities of the department include notarizing documents, issuing handicapped permits, peddling and solicitation permits, parking permits, and film permits. The Administrator/Clerk is also the records management officer and approves FOIL requests. Expenditures such as costs for General Code, the agenda management system, legal ads, civil service fees, and Laser fiche costs come out of this account.

Contingency

Expenditures Summary

The Contingency account is primarily for unexpected or unanticipated expenses, or costs that are not yet known or that would not be budgeted in a specific account. An example is expenses incurred as a result of a significant emergency event such as a storm or flooding. The Village's comprehensive financial policy suggests a goal of having a Contingency account between 1%-2% of the general fund. The Contingency amount of \$477,990 in the FY2025 budget is 1.86% (not including Capital expenditures).

Public Safety Expenditures

Expenditures Summary

The FY2025 Public Safety Expenditures total \$7,341,029 and increase 2.78% over the prior year's adopted budget. This fund includes the main operational accounts of the Police Department, Fire Department, animal control, and the Building Department. FY2024 and FY2025 salaries for members of the police union are currently undetermined as the employment agreement expired on June 1, 2023.

The Police Department represents 60% of the Public Safety Expenditures at \$4.4M, followed by Fire protection representing 34% at \$2.5M.

Police

Expenditures Summary

The Police account expenditures include departments staffing, training, overtime, school crossing guards, office and detective supplies, electronics (body-worn cameras, radios, etc.), firearms, and annual contractual maintenance costs for service contracts including the new radio system.

Increases in police personnel salaries are not included in this account since the union agreement expired June 1, 2023.

The FY2025 budget includes the addition of one Police Officer. These costs are partially offset by revenues from the Port Chester School District to fund a School Resource Officer (SRO) position.

Control of Animals

Expenditures Summary

The Control of Animals account is for a contract with the Westchester Shore Humane Society to act as Rye Brook's community animal shelter. The contract fee changes based upon the increase in the All-Urban CPI for the New York, New Jersey Metropolitan Area for the twelve months ending December 31st of the previous calendar year, which was 3.4% in December 2023. NYS requires that dog control services be provided by the local municipality.

Health Services (EMS)

Expenditures Summary

The FY2025 Health Expenditures (Ambulance Services) total \$426,513 and increases \$38,034 (9.79%) over the prior year's adopted budget. This fund includes the contractual payment for the Port Chester-Rye-Rye Brook EMS that serves the three (3) municipalities. Several multi-year initiatives are being implemented for this essential emergency service to assist with recruitment and retention, improve service coverage, and create more parity with other essential emergency services.

Ambulance Services

Expenditures Summary

The Ambulance Services account has a planned increase again in FY2025, going up \$38,034 (9.79%) over the prior year for the contract with the Port Chester-Rye-Rye Brook EMS (PCRRB EMS).

In order to improve recruitment and retention and to reduce burn-out of remaining employees, a multi-year plan has been implemented to raise salaries closer to the other essential emergency employees (police and firefighters). A plan has also been implemented to have more supervisors available for overnight shifts.

The PCRRB EMS has a calendar year budget so the Village of Rye Brook has already approved the EMS budget for 2024.

Human Services (Seniors)

Expenditures Summary

The Human Services (Seniors) account includes all expenses relating to the salaries of the full-time and part-time staff, professional training, municipal memberships, instructors, programs & classes, transportation, meals, and building supplies and maintenance contracts. The senior center is available to seniors ages 55 and older and has over 260 resident members and 150 non-resident members. Non-resident members join at higher rates and also pay the full-cost of meals. The village pays \$5 per meal for Rye Brook senior residents to offset the full cost of \$10.

Snow Removal

Expenditures Summary

The Snow Removal account is for personnel costs (i.e. overtime) to salt, apply liquid chemicals to salt, and plowing the roadways, municipal parking lots, and municipal sidewalks.

Due to a light winter in 2023-24, the Village is projecting an estimated savings of \$70,000 in FY2024. The adopted FY2025 budget reduced this account by \$17,000 based upon experience in the last few years.

Recreation

Expenditures Summary

The Recreation account includes the expenditures for the full-time and seasonal personnel that administer and coordinate the various programs, activities and events of the village. One of the largest programs is the School Aged Child Care (SACC) program operated after school for the entire school year at the Ridge Street elementary school. A few of the other larger programs are the summer day camp and travel camp, and the youth baseball, softball and basketball programs.

This account also includes the costs for special events which are budgeted at \$32,000 in FY2025, the payment for janitorial services when the village uses the school facilities, and the costs for maintaining the village parks.

Individuals with Disabilities

Expenditures Summary

The Individuals with Disabilities account is for an annual contract with the Southeast Consortium. This agency provides a wide variety of programs and activities for individuals with disabilities for the twelve (12) municipal members in the sound shore area. The municipal members are also represented on their board, and facility space is sometimes provided to this consortium for their programs. After many years with no increase, the annual cost of this contract is going up \$757 to \$8,138.

Home and Community Services

Expenditures Summary

The FY2025 Home and Community Services Expenditures total \$1,770,800 and increases 2.28% over the prior year's adopted budget. This fund includes expenses relating to taking minutes and videotaping the Planning and Zoning Board meetings, the Sewer Account, Refuse Collection and Disposal, and the Shade Trees account.

The two largest expenditure accounts are Refuse Collection and Disposal (\$1.37M) and the Sewer Account (\$300k). It is noted that the sanitation service agreement expires on May 31, 2024.

Interfund Transfers

Expenditures Summary

The FY2025 Interfund total \$1,223,650 which is 3.7% less than FY2024.

These funds are transferred from an account designated by the Village Board for capital projects. The designated funds are largely from excess operating funds accumulated over past years and are designed for these non-recurring capital expenses.

Capital Fund

Expenditures Summary

The FY2025 Capital Projects Expenditures represent the continuation of Rye Brook's investment in its buildings, vehicles, and equipment. Capital requests total \$2,365,900 for fifteen (15) projects, with \$1,223,650 of that amount transferred from a fund designated for capital projects with funds that have accumulated largely from operating surplus in prior years. Other funding sources include a \$950,000 BAN (or debt service), \$90,000 from CHIPs, and \$32,250 from a grant.

The largest capital projects include \$950,000 to replace a fire engine, \$500,000 for annual road resurfacing to continue to increase the overall road ratings, and \$300,000 for sewer maintenance projects identified from video inspection of pipes and manhole inspections. This continued re-investment in the sewer system is also required in a settlement with Save the Sound.

Other projects requested by departments are also important but were not able to be funded in the current fiscal year. In some cases, grants may be obtained to assist in funding certain projects. In other cases, other funding sources could be considered such as park improvement projects using accumulated funds available in the Recreation Trust and Agency account.

DEBT OBLIGATION

Government-wide Debt Overview

This summary provides an overview of total debt obligations of the village. One BAN in the amount of \$950,000 is authorized to replace a fire engine. No new serial bonds are anticipated.

As of June 1, 2024, for FY2024 the Village has total outstanding debt in the amount of \$15,247,427, which is 7.1% of the Village's Constitutional Debt Limit of \$213,783,504. Following the adoption of the FY2025 budget, the Village projects a new Constitutional Debt Limit of \$222,668,292.

The projected debt outstanding at FYE2025 is \$13,105,550 which is a 7.6% decrease in comparison to the \$14,180,727 debt outstanding at FYE2024.

Although total debt load remains low, a serial bond issued for the new Public Works and Parks Facility increased the amount of outstanding debt in 2019.

Additional information including debt schedules can be found in the "Additional Documents" section of this budget.

The columns below reflect FYE at 05/31/XX.

Financial Summary	FY2024	FY2025	% Change
All Funds	Unaudited	Projected	
Government-wide Activities	\$14,180,727	\$13,105,550	-7.6%
Total All Funds:	\$14,180,727	\$13,105,550	-7.6%

Government-wide Activities

Financial Summary	FY2024	FY2025	% Change
Government-wide Activities	Unaudited	Projected	
Governmental Funds	\$14,180,727	\$13,105,550	-7.6%
Total Government-wide Activities:	\$14,180,727	\$13,105,550	-7.6%

Debt Snapshot

This snapshot shows the total *actual* amount of debt outstanding between Bond Anticipation Notes (BANS) and serial bonds for the *unaudited* fiscal year-end 2024 and *projected* fiscal year-end 2025.

Unaudited FYE2024:

- o At \$1,180,727, BANS represent approximately 8% of the total outstanding debt.
- o At \$13,000,000, serial bonds represent approximately 92% of the total outstanding debt.

Projected FYE2025:

- o At \$600,550, BANS represent approximately 5% of the total outstanding debt.
- o At \$12,505,000, serial bonds represent approximately 95% of the total outstanding debt.

The columns below reflect FYE at 05/31/XX.

Assessor's Exemption Impact Report - 2023

Pursuant to Real Property Tax Law Section 495 villages are required to attach a real property exemption report to the tentative budget. The exemption report is required to show how much of the total assessed value on the final assessment roll used in the budgetary process is exempt from taxation. These exemptions are reductions in property taxes granted to certain groups of property owners such as non-profits, veterans and seniors, which are offset with increases in property taxes on the remaining taxpayers.

Values have been equalized using the Uniform Percentage of Value. The Exempt amounts do not take into consideration, payments in lieu of taxes or other payments for municipal services.

Amount, if any, attributable to payments in lieu of taxes: _____

Constitutional Tax Limit

Real Property taxes are the single largest source of revenue for local governments in New York State. In the standard budget process, property taxes are used to cover the difference between appropriations and estimated non-property tax revenues. The New York State Constitution places a legal limit on the authority of villages, as well as counties and cities, to impose property taxes. Statutes intended to enforce these constitutional provisions require the Comptroller to withhold certain local assistance payments if taxes are levied in excess of a municipality's tax limit.

For the FY 2025 Adopted Budget, the *Constitutional Tax Limit*, which is the maximum amount of real property tax that may be levied in any fiscal year, is 2% of the five-year average full valuation of \$3,180,975,602 or \$63,619,512. The *Tax Levy Subject to Tax Limit* of \$17,741,300 is the tax levy approved in the FY 2025 Adopted Budget of \$19,431,581 less \$1,690,281 in *Total Exclusions*. The *Total Exclusions* are comprised of the total *Debt Exclusions* of \$1,563,881 in bonds and notes to finance capital improvements, less amounts applied against Debt Service, \$300,000, plus \$426,400 in budgetary appropriations for an object or purpose for which a period of probable usefulness has been determined by law under Local Finance Law Sec. 11.00. The *Percentage of Tax Limit Exhausted*, 27.89%, represents the *Tax Levy Subject to Tax Limit* of \$17,741,300 divided by the *Tax Limit* of \$63,619,512. The *Constitutional Tax Margin* of \$45,878,212 represents the *Tax Limit* of \$63,619,512 less the *Tax Levy Subject to Tax Limit* of \$17,741,300.

Pursuant to Article VIII of the State Constitution and Title 9 of Article 2 of the Local Finance Law, the Village is subject to a "*Constitutional Debt Limit*". The debt limit is calculated by taking 7% of the latest five-year average of the full valuation of all taxable real property within the Village, \$3,180,975,602. At May 31, 2025, under the FY 2025 Adopted Budget, the Village has the authority to issue \$222,668,292 of general obligation long-term debt.

Fiscal Stress Monitoring

The Office of the New York State Comptroller Fiscal Stress Monitoring System is designed to assess the budgetary solvency for each county, city, town, village and school district. The system analyzes financial data submitted to OSC by local governments and schools against a set of uniform financial and environmental factors which include year-end fund balance, operating deficits & surpluses, cash position, use of short-term cash-flow debt issuance and fixed costs.

At fiscal year-end May 31, 2023 the Village of Rye Brook has a fiscal stress score of "No Designation", which means the Village of Rye Brook does not meet the established point thresholds of the Fiscal Stress Monitoring System for classification in one of the stress categories. Therefore, the Village of Rye Brook is not susceptible to fiscal stress.

APPENDIX

CENTRAL GARAGE REQUESTS

New Mechanic Service Truck

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Central Garage
Type	Capital Equipment
Project Number	2024 G1 Truck

Description

The current utility truck utilized by the mechanic is a 2003 Ford truck with a mechanic body, fuel transfer tank and tailgate lift. This is the oldest truck currently in the fleet. While the truck has been operating properly, it is reaching that time to replace it. We have in the past replaced the fuel system due to contamination. The truck is hard starting due to the past issue from contamination. The replacement truck is a one ton truck with the same style body and capabilities, 4x4 and plow capable. The truck is utilized a lot by parks department and highway staff during community events. The truck has a 50 gallon diesel transfer tank that is used to fuel generators during storms and or fire trucks when needed. ****ADMIN ADJ MOVE TO FY2026 FOR CONSIDERATION****

FIRE DEPARTMENT REQUESTS

Replace Fire Engine

Overview

Request Owner	Patricia Lepre, Village Treasurer
Department	Fire Department
Type	Capital Equipment

Description

4/1/2024 BOT capital project addition

New fire engine - 2025 fire apparatus. This engine is not considered a refurbishment as it will be considered a new apparatus from the manufacturer & dealer. It will have a new chassis and cab, and they will be re-using (with modifications) the pump enclosure, fire pump, and compartment body.

Chris Bradbury talked to Jeff Gaskin, our fire truck consultant, who provided the following estimated schedule to replace the fire engine:

- Jeff has been working on the spec and is planning on having it completed by the of April.
- The bid document would go out the 1st week in May.
- 45 days to return bid.
- Bid to be awarded in July 2024.
- 2 years to build and deliver fire engine.
- Payment due upon delivery.
- Estimated cost is between \$800k-\$900k. BAN resolution to be planned for \$950k

Although the funding needs to be approved prior to accepting a bid, the bond will not be taken out until necessary since the payment for the truck is made upon delivery, which is expected to take 1-2 years.

HIGHWAY MAINTENANCE REQUESTS

Assistant General Foreman Small Pickup

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Highway Maintenance
Type	Capital Equipment
Project Number	24 ASST Foreman Pickup

Description

The Assistant General foreman currently utilizes a hand me down Police car. The car has a transmission issue that we have been working with. The Assistant foreman is slated to get the current foreman 2012 Pickup when we receive his new truck. As of 12/23 the foreman truck had begun to have a engine knock that is known to occur in that particular brand and size motor and as a result will need replacement. This has been a chronic issue for the long term life of the Hemi 5.7 Engines. The truck is in good condition overall but would require about \$11,000 to replace the motor with a remanufactured motor.

For consideration is to purchase a small Ford Pickup based on the Maverick. It is a small AWD truck 4 cylinder engine with enough room to store tools and equipment and have 4,000 pounds of towing capability. While being small, it does have ample room to perform the needed tasks the Assistant foreman does day to day such as utility markouts, site inspections, manhole opening, and similar. price of the truck is around 30,000 and with additional lights, bed cover, spare tire total would be approximately 34,500.

While this is a small pickup, the next-sized "midsize truck", The Ford Ranger is around 38,000 and with funds to add warning lights and a bed cap, total price would increase to around 42,500. ****ADMIN ADJ MOVE TO FY2026 FOR CONSIDERATION****

Hook Lift

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Highway Maintenance
Type	Capital Equipment
Project Number	Hook Lift

Description

The Village is seeking to add another hook lift combination truck to the fleet. This truck will handle snow plowing, salting, hauling, and leaf pickup. As the Village begins to collect more and more leaf piles on private roads (which the Village has not done in the past), Staff will not be able to keep up on demand with minimal workforce. Hook lift trucks are very efficient, and can handle a large load with one operator. This truck is complete with all accessories to operate fully moving forward without a need for any other attachments.

Line Striping Machine

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Highway Maintenance
Type	Capital Equipment
Project Number	2024 Line Lazer

Description

The Current line striping machine is approximately 15 years old and is nearing the end of its useful life. Machine is beginning to show fatigue in various hoses and the frena is beginning to rust. Replacement is for the same dual nozzle unit with a additional glass bead hopper that aids in dispensing reflective beads into wet paint. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

New Street Sweeper

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Highway Maintenance
Type	Capital Equipment
Project Number	Sweeper

Description

The existing Elgin sweeper is slowly nearing the end of its useful life. Sweepers have typically a 10 to 12 year lifespan due to the abuse they receive. Our sweeper operated almost 12 months out of the years and as a result has very high mileage Averaging 31,000 miles a year and thousands of run time hours. Replacement unit is a newer model vacuum sweeper that can clean our permeable surfaces and also has a catch basin vacuum for times when we need to perform incidental cleaning of basins for repairs and or after a storm.

Supplemental Attachments

HUMAN SERVICES REQUESTS

AJP - HVAC Equipment

Overview

Request Owner	Elizabeth Rotfeld, Senior Services Coordinator/Deputy Clerk
Department	Human Services
Type	Capital Improvement
Project Number	Replacement of Air Handlers and Condensing Units

Description

The Anthony J. Posillipo Community Center has 4 Air Handlers and Condensing Units that need to be replaced. These units regulate and circulate air as part of the heating, ventilation and air conditioning system. It is better to be proactive, plan for their replacement now and apply for CDBG funding. As with any of our equipment, we never know when they will fail. The proposal is to remove all existing AC condensers from the roof as well as the existing hydro-coils in the basement. 32.5 tons of air conditioning in total shall be installed (one each 15 ton, 10 ton, 4 ton, 3.5 ton). All 4 condensers will be rigged to the rooftop. 4 new hydro-coil evaporator fans will be installed in the basement. All necessary piping, sheet metal transitions and duct insulation will be supplied. This will include installing new isolation relays to interlock new fan coils with existing boilers. All necessary labor and materials to complete these installations will be supplied.

This is an additional funding request for existing FY2022-2023 capital project 901-6772-569. Approved FY2023 budget \$100,000 (\$50K I/T Designated Capital FB + \$50K CDBG +\$75K). There will be a \$50,520 unexpended balance transfer from FY 2022-2023 capital project AJP Walkway & Boiler 901-6772-568, plus requested budget FY2025 \$75K. TOTAL PROJECT ALLOCATION FROM COMBINED SOURCES WILL BE \$225,520.00

Basement Air Quality Improvement Project

Overview

Request Owner	Elizabeth Rotfeld, Senior Services Coordinator/Deputy Clerk
Department	Human Services
Type	Capital Improvement

Description

The Anthony J. Posillipo Community Center has an extremely large basement. While many items are stored there, we have never addressed the air quality. It is dark and damp. In order to remedy this so that our basement is able to fully function as a storage area, I would like to have an HVAC Company install a dehumidifier and exhaust fan with an automated louver. Install 2 basement unit space heaters. Clean out and if necessary, replace the existing louvers that are clogged as well as other related work. Air quality improvement is beneficial to the health of staff that is being asked to work in the basement on various projects. Currently, it is difficult to breath down there for those with allergies which has forced us to put off any cleaning and reorganization projects. We have managed, however, it would be a safer atmosphere and prolong the life of the items stored in our basement, many which are documents from all of the Village departments. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

Building Addition/Patio Enclosure for the AJP Community Center

Overview

Request Owner	Elizabeth Rotfeld, Senior Services Coordinator/Deputy Clerk
Department	Human Services
Type	Capital Improvement
Project Number	Building Addition/Patio Enclosure for the AJP Community Center

Description

The Anthony J. Posilipo Community Center has an unused patio space that would make a great indoor space/storage. We are proposing for half of the space to be enclosed with glass and skylights to be used for lectures, small classes, and growing plants/gardening. The other half would be used for storage, which the main floor of the building is severely lacking. The facility lacks an elevator to bring heavy items up and down our basement stairs. With a very busy senior program and rentals on the weekend, staff must move furniture around the building and clear spaces for exercise classes only to have to reset for parties shortly thereafter. We store tables in other parts of the building, the conference room and even in the coordinator's office, as well as store our chair racks in the lobby when we have large functions. They are heavy, and it's not an easy task moving the chair racks onto the lobby carpet. Moving the heavy, large furniture pieces around causes damage to our walls. We really do need a storage room to avoid overcrowding other areas of our building, sometimes making them unusable. While attending aging conferences, they discuss senior center planning and one of the key items they mention is proper storage. It is not only beneficial from an organizational standpoint, but cluttered areas can cause safety hazards as well. We have made due with the present situation for many years. However, this program has grown tremendously over the past several years. Membership is very diverse, necessitating a wide array of programs which occur simultaneously. Space is a major issue. With no plans or space for a lift or elevator, this is a solution worth looking into. In addition, this project would also need to include a new fence that separates our patio from our neighbor. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

Construction of a Unilock Segmental Retaining Wall

Overview

Request Owner	Elizabeth Rotfeld, Senior Services Coordinator/Deputy Clerk
Department	Human Services
Type	Capital Improvement
Project Number	Construction of a Unilock Segmental Retaining Wall

Description

The wall along the entrance of the property that goes from Garibaldi Place straight to the back of the parking lot has been deteriorating for some time. Initially we had hoped to repair the wall, but it is deteriorating in so many areas. This wall is holding up the property next door which is much higher than our property. This was also identified as a priority by Lothrop Associates and their engineers a few years ago. Not only is the deterioration worsening, it is an eyesore that runs the entire length of the property. We are unable to complete any landscaping until this project is completed. The Board allocated capital funds in the past for this project, but it was severely underfunded. After conducting a bidding process, we found that the work to repair it was much higher than what was given to us and there was no guarantee it would be a long-term solution. A solution has been proposed to construct a new wall in front of the existing block and fill in between the two as being the most cost-effective way to reinforce the existing wall. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

Generator Replacement

Overview

Request Owner	Elizabeth Rotfeld, Senior Services Coordinator/Deputy Clerk
Department	Human Services
Type	Capital Improvement
Project Number	Generator Replacement

Description

The Anthony J. Posillipo has a Genset Generac Generator. Model # 11077920200, Serial # 2102912, 150 K.W that was installed in 2009. It is 15 years old and has chronic program issues, has had the fuel system rebuilt due to failure and is nearing the end of its useful life. The Center acts as a heating and cooling center and reliability is critical. I am requesting funding to replace the generator, tank, delivery setup install and wiring. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

Replacement of AJP Flooring

Overview

Request Owner	Elizabeth Rotfeld, Senior Services Coordinator/Deputy Clerk
Department	Human Services
Type	Capital Improvement
Project Number	Replacement of AJP Flooring

Description

Each year we spend money replacing sections of flooring. The current floor is from January 2007. Had the underflooring been concrete, it would last much longer, but it is a thin layer of wood, which constantly warps. Since 2007 we have replaced large sections here and there which is quite costly. In fact, we are out of the tiles that match and are no longer available unless they are purchased in bulk from a distributor in Florida where there is a minimum to order. In speaking with the company that does our repair work, there are various options for replacement. One option I am looking into is using Quartz Tiles. From what I have read, they are great for heavy traffic areas, used in hospitals, and are 3,100 pounds per square inch (psi) vs. VCT which is typically 125. The tiles that are made from quartz are more durable and require less waxing, which will cut down on maintenance costs. Were we to go the other route and put down thicker plywood underneath, this would create the problem of having to change out all of our doors to compensate for the rise in the floor. Post pandemic, the cost of lumber has dramatically increased. There is no doubt, many areas underneath have rotting wood. This would mean the removal of everything in the building and closure while the work is being done. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

MANAGEMENT INFORMATION SERVICES REQUESTS

Desktop Workstations

Overview

Request Owner	Fred Seifert, Communications Services Coordinator
Department	Management Information Services
Type	Capital Equipment

Description

Our desktop workstations will be five years old on 10/24. It's time to replace them. In May 2024, I purchased workstations for the Police Department. They were \$889 each. I will be purchasing the same configuration in an upgraded format. I budgeted \$1,000 for each workstation and \$500 for installation.

After talking with DragonTek they might have to have 32meg of memory instead of 16meg. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

Virtual Server and Infrastructure

Overview

Request Owner	Fred Seifert, Communications Services Coordinator
Department	Management Information Services
Type	Capital Equipment

Description

I met with DragonTek and the \$45,000 is an estimate to replace all of our servers (6). Our current servers will be 5 years old in October and are ready for replacement.

4/1/2024 Board of Trustees adjustment below to increase budget from \$45,000 to \$86,000

On March 18, 2024 revised estimate given \$56,000 to pay for cost of equipment for server and an additional \$30,000 for labor to put together the server load operating software, update firmware and drivers and migration from one server to the next.

POLICE REQUESTS

Police and Fire Department Training Room Renovation

Overview

Request Owner	Greg Austin, Police Chief
Department	Police
Type	Capital Improvement

Description

The Police Department needs a space that can be used for training that is not accessible to the public or used for storage of files and excess property. The police department needs a location to store police department training equipment. The current location, the storage shed in the parking lot is too damp to store equipment, and the basement of Village Hall has rodents. The police department training area should also be private and away from public view.

The upstairs space in the firehouse is perfect for Police and Fire Department Training. There is enough space to build separate storage areas for both Fire Department and Police Department training equipment.

I am requesting \$76,040.00 to renovate the upstairs area of the firehouse to a training area for the police and fire departments.

Please see the attached memo and itemized cost estimate. ****ADMIN ADJ MOVED TO FY2026 FOR CONSIDERATION****

Police Electronic Radar Units (2)

Overview

Request Owner	Chris Bradbury, Village Administrator
Est. Start Date	06/01/2024
Est. Completion Date	05/30/2025
Department	Police
Type	Capital Improvement

Description

This capital project will add one permanently mounted electronic radar sign on Ridge Street near Crawford Park and a second portable solar sign that can be used throughout the Village (i.e. Lincoln Avenue).

Details

Type of Project	Other improvement
-----------------	-------------------

Location

Benefit to Community

The goal is to reduce speeds on Ridge Street through awareness and enforcement, especially near the Crawford Park entrance. Other areas are also a priority for speed reduction initiatives such as the straight, wide roadway on Lincoln Avenue.

Police Vehicles (2)

Overview

Request Owner	Greg Austin, Police Chief
Department	Police
Type	Capital Equipment

Description

Each year, the village seeks to purchase two or three police vehicles on alternating years. In FY 2024, one police vehicle was included in the Capital budget but because of delivery delays, vehicles that were ordered were delivered together almost 18 months after the orders were placed. It is important that we keep to the purchasing schedule of at least two vehicles per year. Since the village purchased one vehicle last year, the Chief advises that he anticipates there will be a vehicle shortfall once the vehicles in service begin to experience mechanical issues, which we usually experience once the cars have 60,000 to 70,000 miles.

Additionally, over the past three years, Con Edison has been doing large-scale utility work in the village, and they have been hiring one or two officers per day for traffic control. The water company has also hired officers for traffic control, so these utility traffic posts, along with our regular patrol, there have been times when there were not enough police vehicles for the officer who worked these posts.

The Police Chief Requested funding to purchase 3 Ford Police Interceptor Hybrid vehicles, which the Village Administrator modified to two vehicles in the FY2025 tentative budget.

The cost breakdown can be found below and in the attached memo.

Scanning Police Records

Overview

Request Owner	Greg Austin, Police Chief
Department	Police
Type	Capital Improvement

Description

The entire record system of the police department up to 1997 is on paper and stored in the unfinished room in the Rye Brook Fire House. In 1997, the department record system became computerized, but the existing files were never scanned or archived digitally. In a separate Capital Request, I am requesting that the area where these records are stored be finished and utilized as a training room for the Fire and Police Department. In order to accomplish this, the records that are stored in the proposed training room need to be scanned and archived on Microfiche.

Below is an estimate to scan the police department record. There will be 50% of the funding received from NYS Archives - Local Government Records Management Improvement Fund (LGRMIF)

52 bankers box \$0.15 per impression - OCR \$0.06 per page - \$33,000.00

Filing cabinets - estimated 2,500 documents per drawer - \$31,500.00

Total: \$64,500.00

Supplemental Attachments

Resurface Tennis Courts at Harkness Park

Overview

Request Owner	Robert Bertolacci, Supt. of Parks and Recreation
Est. Start Date	08/01/2024
Est. Completion Date	08/23/2024
Department	Recreation
Type	Capital Improvement

Description

4/1/2024 BOT addition to the capital budget

This project is on a 4 year recycling schedule. The courts need a lot of attention this year.

Replace Atria / Bellefair Pump Station Generator

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Sewer Account
Type	Capital Improvement
Project Number	Gen Replacement

Description

PROJECT DESCRIPTION:

Replace existing generator at Pump station service Atria and Bellefair. Generator is Original to the pump station.

PROJECT JUSTIFICATION (HOW WILL THIS PROJECT IMPROVE SERVICES OR HEALTH AND SAFETY OF RYE BROOK CITIZENS OR EMPLOYEES? IS IT MANDATED OR REQUIRED BY LAW? DOES IT RELATE TO THE 2014 RYE BROOK COMPREHENSIVE PLAN?)

This is the only source of emergency power for the pumps located at this lift station.

IF THIS PROJECT IS DELAYED 1 YEAR BEYOND THE PLANNED SCHEDULE, HOW WILL VILLAGE SERVICES BE AFFECTED? WHAT ABOUT DELAYS 5 YEARS BEYOND THE PLANNED SCHEDULE?

Project has been delayed a few years. Current company has noted that the lifters have needed adjustment and that the exhaust piping is coated in wet diesel symbolizing incomplete fuel burn.

COST ANALYSIS:

\$45,000

Verbal from Peak Power Systems

BASED UPON THE PROJECT COMPLETION, HOW WILL THE PROJECT AFFECT THE NUMBER OF PERSONNEL NEEDED AND THE AMOUNT OF OPERATING FUNDS NECESSARY TO UTILIZE THIS PROJECT? PLEASE DISCUSS ANY INCREASES IN COST AND ANY SAVINGS DUE TO IMPROVED EFFICIENCY:

No Change

Sewer Repairs & Relining STS

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Sewer Account
Type	Capital Improvement
Project Number	24 Lining

Description

The Village has an agreement with Save the sound for ongoing camera inspections and relining work village wide. The agreement calls for work in a grid system. The Village nowadays is about halfway through the cleaning and inspection of sewers and manholes. Work continues to be identified and repairs are ongoing. ****ADMIN ADJ CHANGE FY2025 REQUEST FROM \$350,000 TO \$300,000, TO BE FUNDED THROUGH I/T DESIGNATED FOR CAPITAL PROJECTS FUND BALANCE****

VILLAGE OFFICES REQUESTS

Electric Staff Vehicle

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Village Offices
Type	Capital Equipment
Project Number	2024 Electric Staff Vehicle

Description

****ADMIN ADJ CHANGED REQUEST TO (1) ELECTRIC STAFF VEHICLE (POOL CAR) NISSAN LEAF \$25,000****

Originally slated in the replacement rotation was a staff vehicle for the Parks Supt. The current vehicle would normally rotate to a daily staff car used for programs and other departments, while the oldest model will be retired. For consideration is a 2024 Chevrolet Equinox AWD gas powered at \$31,000. Alternatively, a Chevrolet Equinox in full AWD is available in 2024, however the price tag bumps up to 53,000 (this is dealer pricing, not Bid Pricing through OGS Marketplace) and as of this date ALL GM EV's have been placed on HOLD and are not for Sale due to computer issues. The Westchester County contract has 2 other vehicles that may be considered. There is a Toyota RAV4 AWD model that is a plug-in hybrid allowing for up to 42 miles on all electric per charge before the gasoline motor kicks in. Price tag for this is approximately 45,000. The Hybrid version of the vehicle without Plug in option is \$36,000. The second County Contract vehicle is a Plug in Hybrid Ford Escape. While this is a 2023-year contract, there may be a renewed option for 2024, pricing. The total for a AWD Ford Escape plug in hybrid is approximately \$41,000 . Discussion needs to be made regarding the transition to either plug in hybrid and or full electric options for fleet vehicles. If full Electric vehicles are to be considered, we need to standardize make and model.

Major consideration for Electric and Plug in vehicles is AWD or FWD. We try to keep all cars AWD as much as possible due to local weather patterns and vehicles used in storms.

Village Hall does have a Level 2 (dual Port) charger available and we have RFID cards for use with new fleet cars.

Village Hall Exterior Stucco & Brick Repairs

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Village Offices
Type	Capital Improvement
Project Number	VH Reno

Description

Village Hall is in need of work to keep it in acceptable condition to the public. There are various defects on the exterior brick facade from damage due to trucks hitting the building, stucco deteriorating, interior walls need repainting, and carpeting needs replacement. While some of this work was done in years past, further work is needed. As spaces are changed, employees are moved around, and or other work is done, maintenance is needed and the walls have taken a beating. Brightening up the space would help as well. Carpets for the most part are Ok, but need a good cleaning.

Village Hall Sewage Pump Station Upgrades

Overview

Request Owner	Michal Nowak, Supt. of PW/Eng
Department	Village Offices
Type	Capital Improvement
Project Number	2024 VH Pump Station

Description

The Village Hall building and Fire House sewage system is handled by a pump station behind the cell tower building. There are (2) 5 HP grinder pumps that process and pump sewage to a sewer trunk line on Arbor Drive. Over the past 3 years, the 2 pumps have had high resistance readings and, as such, are indicating deteriorating motor windings which in essence, means the motors are starting to fail. These pumps are believed to be the second set of pumps in the 30 plus years of the stations operation. Furthermore, The rails onto which the pumps connect and the flanges will need replacement as they are corroded and failing. The quote attached is budgetary.

Glossary

Abatement: A reduction or elimination of a real or personal property tax, motor vehicle excise, a fee, charge, or special assessment imposed by a governmental unit. Granted only on application of the person seeking the abatement and only by the committing governmental unit.

Accounting System: The total structure of records and procedures that identify record, classify, and report information on the financial position and operations of a governmental unit or any of its funds, account groups, and organizational components.

Accrued Interest: The amount of interest that has accumulated on the debt since the date of the last interest payment, and on the sale of a bond, the amount accrued up to but not including the date of delivery (settlement date). (See Interest)

Amortization: The gradual repayment of an obligation over time and in accordance with a predetermined payment schedule.

Appropriation: A legal authorization from the community's legislative body to expend money and incur obligations for specific public purposes. An appropriation is usually limited in amount and as to the time period within which it may be expended.

Arbitrage: As applied to municipal debt, the investment of tax-exempt bonds or note proceeds in higher yielding, taxable securities. Section 103 of the Internal Revenue Service (IRS) Code restricts this practice and requires (beyond certain limits) that earnings be rebated (paid) to the IRS.

Assessed Valuation: A value assigned to real estate or other property by a government as the basis for levying taxes.

Audit: An examination of a community's financial systems, procedures, and data by a certified public accountant (independent auditor), and a report on the fairness of financial statements and on local compliance with statutes and regulations. The audit serves as a valuable management tool in evaluating the fiscal performance of a community.

Audit Report: Prepared by an independent auditor, an audit report includes: (a) a statement of the scope of the audit; (b) explanatory comments as to application of auditing procedures; (c) findings and opinions. It is almost always accompanied by a management letter which contains supplementary comments and recommendations.

Available Funds: Balances in the various fund types that represent non-recurring revenue sources. As a matter of sound practice, they are frequently appropriated to meet unforeseen expenses, for capital expenditures or other one-time costs.

Balance Sheet: A statement that discloses the assets, liabilities, reserves and equities of a fund or governmental unit at a specified date.

Betterments (Special Assessments): Whenever a specific area of a community receives benefit from a public improvement (e.g., water, sewer, sidewalk, etc.), special property taxes may be assessed to reimburse the governmental entity for all or part of the costs it incurred. Each parcel receiving benefit from the improvement is assessed for its proportionate share of the cost of such improvements. The proportionate share may be paid in full or the property owner may request that the assessors apportion the betterment over 20 years. Over the life of the betterment, one year's apportionment along with one year's committed interest computed from October 1 to October 1 is added to the tax bill until the betterment has been paid.

Bond: A means to raise money through the issuance of debt. A bond issuer/borrower promises in writing to repay a specified sum of money, alternately referred to as face value, par value or bond principal, to the buyer of the bond on a specified future date (maturity date), together with periodic interest at a specified rate. The term of a bond is always greater than one year. (See Note)

Bond and Interest Record: (Bond Register) – The permanent and complete record maintained by a treasurer for each bond issue. It shows the amount of interest and principal coming due each date and all other pertinent information concerning the bond issue.

Bonds Authorized and Unissued: Balance of a bond authorization not yet sold. Upon completion or abandonment of a project, any remaining balance of authorized and unissued bonds may not be used for other purposes, but must be rescinded by the community's legislative body to be removed from community's books.

Bond Issue: Generally, the sale of a certain number of bonds at one time by a governmental unit.

Bond Rating (Municipal): A credit rating assigned to a municipality to help investors assess the future ability, legal obligation, and willingness of the municipality (bond issuer) to make timely debt service payments. Stated otherwise, a rating helps prospective investors determine the level of risk associated with a given fixed-income investment. Rating agencies, such as Moody's and Standard and Poors, use rating systems, which designate a letter or a combination of letters and numerals where AAA is the highest rating and C1 is a very low rating.

Budget: A plan for allocating resources to support particular services, purposes and functions over a specified period of time. (See Performance Budget, Program Budget)

Capital Assets: All real and tangible property used in the operation of government, which is not easily converted into cash, and has an initial useful life extending beyond a single financial reporting period. Capital assets include land and land improvements; infrastructure such as roads, bridges, water and sewer lines; easements; buildings and building improvements; vehicles, machinery and equipment. Communities typically define capital assets in terms of a minimum useful life and a minimum initial cost. (See Fixed Assets)

Capital Budget: An appropriation or spending plan that uses borrowing or direct outlay for capital or fixed asset improvements. Among other information, a capital budget should identify the method of financing each recommended expenditure, i.e., tax levy or rates, and identify those items that were not recommended. (See Capital Assets, Fixed Assets)

Cash: Currency, coin, checks, postal and express money orders and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits.

Cash Management: The process of monitoring the ebb and flow of money in an out of municipal accounts to ensure cash availability to pay bills and to facilitate decisions on the need for short-term borrowing and investment of idle cash.

Certificate of Deposit (CD): A bank deposit evidenced by a negotiable or non-negotiable instrument, which provides on its face that the amount of such deposit plus a specified interest payable to a bearer or to any specified person on a certain specified date, at the expiration of a certain specified time, or upon notice in writing.

Classification of Real Property: Assessors are required to classify all real property according to use into one of four classes: residential, open space, commercial, and industrial. Having classified its real properties, local officials are permitted to determine locally, within limitations established by statute and the Commissioner of Revenue, what percentage of the tax burden is to be borne by each class of real property and by personal property owners.

Collective Bargaining: The process of negotiating workers' wages, hours, benefits, working conditions, etc., between an employer and some or all of its employees, who are represented by a recognized labor union. regarding wages, hours and working conditions.

Consumer Price Index: The statistical measure of changes, if any, in the overall price level of consumer goods and services. The index is often called the "cost-of-living index."

Cost-Benefit Analysis: A decision-making tool that allows a comparison of options based on the level of benefit derived and the cost to achieve the benefit from different alternatives.

Debt Burden: The amount of debt carried by an issuer usually expressed as a measure of value (i.e., debt as a percentage of assessed value, debt per capita, etc.). Sometimes debt burden refers to debt service costs as a percentage of the total annual budget.

Debt Service: The repayment cost, usually stated in annual terms and based on an amortization schedule, of the principal and interest on any particular bond issue.

Encumbrance: A reservation of funds to cover obligations arising from purchase orders, contracts, or salary commitments that are chargeable to, but not yet paid from, a specific appropriation account.

Enterprise Funds: An enterprise fund is a separate accounting and financial reporting mechanism for municipal services for which a fee is charged in exchange for goods or services. It allows a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy, if any. With an enterprise fund, all costs of service delivery--direct, indirect, and capital costs—are identified. This allows the community to recover total service costs through user fees if it chooses. Enterprise accounting also enables communities to reserve the

"surplus" or net assets unrestricted generated by the operation of the enterprise rather than closing it out to the general fund at year-end. Services that may be treated as enterprises include, but are not limited to, water, sewer, hospital, and airport services.

Equalized Valuations (EQVs): The determination of the full and fair cash value of all property in the community that is subject to local taxation.

Estimated Receipts: A term that typically refers to anticipated local revenues often based on the previous year's receipts and represent funding sources necessary to support a community's annual budget. (See Local Receipts)

Exemptions: A discharge, established by statute, from the obligation to pay all or a portion of a property tax. The exemption is available to particular categories of property or persons upon the timely submission and approval of an application to the assessors. Properties exempt from taxation include hospitals, schools, houses of worship, and cultural institutions. Persons who may qualify for exemptions include disabled veterans, blind individuals, surviving spouses, and seniors.

Expenditure: An outlay of money made by municipalities to provide the programs and services within their approved budget.

Fiduciary Funds: Repository of money held by a municipality in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and other funds. These include pension (and other employee benefit) trust funds, investment trust funds, private- purpose trust funds, and agency funds.

Fixed Assets: Long-lived, assets such as buildings, equipment and land obtained or controlled as a result of past transactions or circumstances.

Fixed Costs: Costs that are legally or contractually mandated such as retirement, FICA/Social Security, insurance, debt service costs or interest on loans.

Float: The difference between the bank balance for a local government's account and its book balance at the end of the day. The primary factor creating float is clearing time on checks and deposits. Delays in receiving deposit and withdrawal information also influence float.

Full Faith and Credit: A pledge of the general taxing powers for the payment of governmental obligations. Bonds carrying such pledges are usually referred to as general obligation or full faith and credit bonds.

Fund: An accounting entity with a self-balancing set of accounts that are segregated for the purpose of carrying on identified activities or attaining certain objectives in accordance with specific regulations, restrictions, or limitations.

Fund Accounting: Organizing financial records into multiple, segregated locations for money. A fund is a distinct entity within the municipal government in which financial resources and activity (assets, liabilities, fund balances, revenues, and expenditures) are accounted for independently in accordance with specific regulations, restrictions or limitations. Examples of funds include the general fund and enterprise funds. Communities whose accounting records are organized according to the Uniform Municipal Accounting System (UMAS) use multiple funds.

GASB 34: A major pronouncement of the Governmental Accounting Standards Board that establishes new criteria on the form and content of governmental financial statements. GASB 34 requires a report on overall financial health, not just on individual funds. It requires more complete information on the cost of delivering value estimates on public infrastructure assets, such as bridges, road, sewers, etc. It also requires the presentation of a narrative statement the government's financial performance, trends and prospects for the future.

GASB 45: This is another Governmental Accounting Standards Board major pronouncement that each public entity account for and report other postemployment benefits in its accounting statements. Through actuarial analysis, municipalities must identify the true costs of the OPEB earned by employees over their estimated years of actual service.

General Fund: The fund used to account for most financial resources and activities governed by the normal appropriation process.

General Obligation Bonds: Bonds issued by a municipality for purposes allowed by statute that are backed by the full faith and credit of its taxing authority.

Governing Body: A board, committee, commission, or other executive or policymaking body of a municipality or school district.

Indirect Cost: Costs of a service not reflected in the operating budget of the entity providing the service. An example of an indirect cost of providing water service would be the value of time spent by non-water department employees processing water bills. A determination of these costs is necessary to analyze the total cost of service delivery. The matter of indirect costs arises most often in the context of enterprise funds.

Interest: Compensation paid or to be paid for the use of money, including amounts payable at periodic intervals or discounted at the time a loan is made. In the case of municipal bonds, interest payments accrue on a day-to-day basis, but are paid every six months.

Interest Rate: The interest payable, expressed as a percentage of the principal available for use during a specified period of time. It is always expressed in annual terms.

Investments: Securities and real estate held for the production of income in the form of interest, dividends, rentals or lease payments. The term does not include fixed assets used in governmental operations.

Line Item Budget: A budget that separates spending into categories, or greater detail, such as supplies, equipment, maintenance, or salaries, as opposed to a program budget.

Local Aid: Revenue allocated by the state or counties to municipalities and school districts.

Maturity Date: The date that the principal of a bond becomes due and payable in full.

Municipal(s): (As used in the bond trade) "Municipal" refers to any state or subordinate governmental unit. "Municipals" (i.e., municipal bonds) include not only the bonds of all political subdivisions, such as cities, towns, school districts, special districts, counties but also bonds of the state and agencies of the state.

Note: A short-term loan, typically with a maturity date of a year or less.

Objects of Expenditures: A classification of expenditures that is used for coding any department disbursement, such as "personal services," "expenses," or "capital outlay."

Official Statement: A document prepared for potential investors that contains information about a prospective bond or note issue and the issuer. The official statement is typically published with the notice of sale. It is sometimes called an offering circular or prospectus.

Operating Budget: A plan of proposed expenditures for personnel, supplies, and other expenses for the coming fiscal year.

Overlapping Debt: A community's proportionate share of the debt incurred by an overlapping government entity, such as a regional school district, regional transit authority, etc.

Performance Budget: A budget that stresses output both in terms of economy and efficiency.

Principal: The face amount of a bond, exclusive of accrued interest.

Program: A combination of activities to accomplish an end.

Program Budget: A budget that relates expenditures to the programs they fund. The emphasis of a program budget is on output.

Purchased Services: The cost of services that are provided by a vendor.

Refunding of Debt: Transaction where one bond issue is redeemed and replaced by a new bond issue under conditions generally more favorable to the issuer.

Reserve Fund: An amount set aside annually within the budget of a town to provide a funding source for extraordinary or unforeseen expenditures.

Revaluation: The assessors of each community are responsible for developing a reasonable and realistic program to achieve the fair cash valuation of property in accordance with constitutional and statutory requirements. The nature and extent of that program will depend on the assessors' analysis and consideration of many factors, including, but not limited to, the status of

the existing valuation system, the results of an in-depth sales ratio study, and the accuracy of existing property record information.

Revenue Anticipation Note (RAN): A short-term loan issued to be paid off by revenues, such as tax collections and state aid. RANs are full faith and credit obligations.

Revenue Bond: A bond payable from and secured solely by specific revenues and thereby not a full faith and credit obligation.

Revolving Fund: Allows a community to raise revenues from a specific service and use those revenues without appropriation to support the service.

Sale of Real Estate Fund: A fund established to account for the proceeds of the sale of municipal real estate other than proceeds acquired through tax title foreclosure.

Stabilization Fund: A fund designed to accumulate amounts for capital and other future spending purposes, although it may be appropriated for any lawful purpose.

Surplus Revenue: The amount by which cash, accounts receivable, and other assets exceed liabilities and reserves.

Tax Rate: The amount of property tax stated in terms of a unit of the municipal tax base; for example, \$14.80 per \$1,000 of assessed valuation of taxable real and personal property.

Tax Title Foreclosure: The procedure initiated by a municipality to obtain legal title to real property already in tax title and on which property taxes are overdue.

Trust Fund: In general, a fund for money donated or transferred to a municipality with specific instructions on its use. As custodian of trust funds, the treasurer invests and expends such funds as stipulated by trust agreements, as directed by the commissioners of trust funds or by the community's legislative body. Both principal and interest may be used if the trust is established as an expendable trust. For nonexpendable trust funds, only interest (not principal) may be expended as directed.

Uncollected Funds: Recently deposited checks included in an account's balance but drawn on other banks and not yet credited by the Federal Reserve Bank or local clearinghouse to the bank cashing the checks. (These funds may not be loaned or used as part of the bank's reserves and they are not available for disbursement.)

Undesignated Fund Balance: Monies in the various government funds as of the end of the fiscal year that are neither encumbered nor reserved, and are therefore available for expenditure once certified as part of free cash.

Unreserved Fund Balance (Surplus Revenue Account): The amount by which cash, accounts receivable, and other assets exceed liabilities and restricted reserves. It is akin to a "stockholders' equity" account on a corporate balance sheet. It is not, however, available for appropriation in full because a portion of the assets listed as "accounts receivable" may be taxes receivable and uncollected. (See Free Cash)

Valuation (100 Percent): The legal requirement that a community's assessed value on property must reflect its market, or full and fair cash value.
