

PERMANENT STANDBY BACKUP GENERATOR
PERMIT APPLICATION & FILING INSTRUCTIONS

BUILDING DEPARTMENT, VILLAGE OF RYE BROOK, NY

(914) 939-0668

www.ryebrook.org

NOTE * Generators proposed on commercial properties must receive approval from the Planning Board and Architectural Review Board in accordance with Village Code §250-4.1, and §209.
(please contact the Building Department for further information)

APPLICANT'S INITIAL SUBMISSION TO THE BUILDING DEPARTMENT MUST INCLUDE:

1. A properly completed application with notarized signatures where indicated.
2. Application filing fee: (Application fees are non-refundable)
Residential: \$100.00
Commercial: \$400.00
3. Permit Fee:
Residential: \$15.00 / \$1,000.00 of Construction Cost with a minimum fee of **\$100.00.**
Commercial: \$25.00 / \$1,000.00 of Construction Cost with a minimum fee of **\$275.00**
4. Two (2) copies of a current, accurate survey of the subject property.
5. One full size set and one scaled 11" x 17" set of the proposed site plan depicting the exact location of the proposed generator, fuel tank if applicable, *(a separate permit is required for fuel tanks)* & all required screening, showing all relevant dimensions and setbacks from structures & property lines.
(maximum allowable plan size = 36" x 42")
6. Two (2) copies of the generator manufacturer's specification & information sheets.
7. Your contractor's valid Westchester County Home Improvement License.
8. Your contractor's valid proof of liability insurance. (Village of Rye Brook must be listed as certificate holder)
9. Your contractor's valid proof of workers compensation insurance.
(Form # C105.2 or Form # U26.3 / or NY State Workers Compensation Waiver)
10. Westchester County Licensed Electricians & Plumbers must file separately for their respective permits.
11. An electronic (disc) copy of all materials submitted.

Please note that once the permit is issued, it is the responsibility of the applicant, homeowner or person in responsible charge of the project to schedule all required inspections with the Building Department. *Electrical inspections must be scheduled through the Village's third party electrical inspection agency by your licensed electrician.

§ 250-4.1. Permanent standby backup generators. [Added 2-13-2007 by L.L. No. 4-2007; amended 9-10-2013 by L.L. No. 5-2013]

- A. Placement of a permanent standby backup generator in a commercial district or for a commercial business in a residential district shall require site plan approval. Notwithstanding any provision of this chapter to the contrary, site plan approval shall also be required for the placement of a permanent standby backup generator on common property within a planned unit development or conservation subdivision.
- B. Placement of a permanent standby backup generator in a residential district, including single- or two-family residential uses in a planned unit development or conservation subdivision, must comply with the following:
 - (1) Any person seeking to install a permanent standby backup generator must file an application with the Building Department prior to installation.
 - (2) Generators and related fuel tanks must be placed in the rear or side yard of any residential property.
 - (3) To the extent practicable, generators shall be collocated with other existing or proposed outdoor mechanical equipment, such as an air conditioning unit, but in no event shall a generator be located closer to the nearest point of the house of any adjacent neighbor(s) than the house serviced by the generator.
 - (4) Generators shall be placed as close to the house as possible as per parameters of manufacturer's recommendations.
 - (5) All permanently installed standby backup generators, and fuel source containers, shall be placed and adequately screened and maintained (with landscape or other appropriate material as approved by the Building Department) so as to minimize the visual impact on adjacent properties and the public right-of-way. Appropriate native landscape material shall include a mix of needle and broadleaf evergreen shrubs or a mix of evergreen and deciduous shrubs that will grow to a sufficient height and width to obscure views of the generator. Generators which are adequately screened by landscape material to obscure views from adjacent properties and the public right-of-way shall not be subject to review by the Board of Architectural

Review. Any non-natural screening not exceeding four feet in height shall be approved by the Building Department but not be subject to the permitting requirements in any ordinance of the Village.

- (6) The generator shall be used only during electrical power outages and as required by the manufacturer for maintenance purposes. Exercise of the generator shall only take place during daylight hours between 10:00 a.m. and 5:00 p.m., not to exceed once a week for a maximum of 30 minutes, excluding emergency repairs.
 - (7) The generator shall operate only on liquid propane or natural gas. (Other fuel sources are not permitted.)
 - (8) Generator sound levels shall not exceed 75 dBA as measured under full load at 23 feet (seven meters) per manufacturer's specifications.
 - (9) Applicants for a standby backup generator shall obtain all permits as required under federal, state and local laws, including the New York State Uniform Fire Prevention and Building Code and the Village of Rye Brook Code.
 - (10) All generators, fuel tanks and related equipment, including automatic transfer switches, shall be installed and maintained in compliance with all federal, state and local laws, including the New York State Uniform Fire Prevention and Building Code and Village of Rye Brook Zoning Code, as amended from time to time.
- C. Any person who has obtained a permit for the installation of a standby backup generator prior to the effective date of this section shall be exempt from complying with the siting provisions of this section. Generators which previously had a permit may be replaced in the same exact location, provided that it is in compliance with all other provisions of this section.
- D. A permit shall be required for the installation of a permanent standby backup generator. Application for the permit shall be made to the Village Building Inspector, or his or her designee, on a form provided by the Village, and subject to applicable fees which can be found in the Schedule of Fees on file in the Village Clerk's office. All application materials shall be submitted in electronic file format acceptable to the Building Department in addition to at least one original signed application form and three paper copies of all plans and surveys, or such other format or

amount as determined by the Building Department. The Building Department may waive the electronic submission requirement only in extraordinary cases of technical infeasibility. **[Added 10-28-2014 by L.L. No. 9-2014]**
