Chris:

Regarding design costs and construction admin/inspection costs, the original proposal for the flood study did note that preparation of design drawings would be in accordance with the rates used by Westchester County DPW, this is typically about 10% of construction budget. Therefore we suggest that rate be used for any grant application/budget purposes.

The following fees can be estimated based on a construction cost of \$6,337,507.00 and assuming a 9 month duration:

Survey/Geotech:	\$40,000.00
Engineering Design/Construction plans:	\$633,750.00
Construction Administration and inspection:	\$200,000.00

LMK if you need any additional info,
thanks

Anthony Oliveri, PE
