**Subject:** SR BPAC meeting 6/5/24: bikeways through downtown

Dear BPAC members,

We are seniors who often use our bicycles to do errands, visit friends, shop, attend classes at College of Marin, etc. We tend to use 5th Street as my east-west connector because we prefer it to busier 4th Street. On busier 4th, which is currently designated the connector street going east-west through downtown, we're faced with more parking cars and pedestrians crossing the street outside of crosswalks, not to mention buses and heavier traffic overall. We would like to see 5th Street identified as a bicycle priority corridor and urge you to consider that as you continue to work on improving mobility for all in San Rafael.

Thank you,  
Janet Zanetto
