

Honorary Dean Allison Internship

The Dean Allison Public Service Internship was created to honor Dean Allison, the City's Public Works Director from September 2015 to March 2016 before his life was tragically cut short. He embraced the ideals of public service and transparency in his brief time with the City. Dean focused on the needs of the public and worked effectively with individuals and groups throughout San Rafael to respond decisively to a broad spectrum of needs both large and small in a creative and community focused way. This internship, focused on public service, celebrates his life and his time serving the citizens of San Rafael.
