**ADDENDUM NO. 1
RFP FOR ENGINEERING DESIGN SERVICES
FOR THE
LOS GAMOS & OLEANDER DRAINAGE STUDY PROJECT**

PLEASE ACKNOWLEDGE RECEIPT OF THIS ADDENDUM BY STATING AS SUCH AS PART OF YOUR PROPOSAL'S COVER LETTER.

This addendum is issued to answer questions submitted during the Question and Answer period of this RFP, as well as extend the proposal deadline to **Friday, February 2nd, 2018 at 2:00 pm.**

Questions & Answers

1. What is your budget for this project?
Our budget for this study is \$20,000.
2. Is there existing hydrology or hydraulic data available?
No.
3. Are preparation of Plans, Specifications and Estimates part of this work?
No.
4. Is a cost estimating needed to be included in the report?
Yes, we'd like a rough estimate, along with stated assumptions (i.e. unknown utility impacts, etc.).
5. Do you have topography for the City more refined than the USGS?
No.
6. What is the level of detail of your storm drain database?
The City maintains a GIS database that includes such information as approximate pipe location and routing, size and material, and drainage direction. The GIS also includes the names and types of structures, such as catch basins, pump stations, swales and gutters. All information is approximate and may not be complete. The database does not include elevation information.
