

FOR MEMBER OF SAN RAFAEL BOARD OF EDUCATION

Natu Tuatagaloa

Age 52

Occupation: Consultant – Design/Build Sustainable Facilities & Technology Infrastructure

Education and Qualifications:

During the last seventeen years as President, Vice President and Trustee, I have seen academic achievement improving throughout the School District. With the support of the community, we continue to modernize our schools, so that every student and staff member spend the school day in a 21st Century learning environment. With the leadership of the Board and Superintendent we have addressed many issues with the State Budget crisis to maintain a positive certification for the District Budget while maintaining a strong educational program for all students. We are a Governance Team of trustees that are truly concerned about all facets of our education community.

My ongoing vision for the district includes: Providing an exemplary learning environment for all students, strong community partnerships, comprehensive teacher support and schools where students are safe and well known. I am committed to raising overall achievement while closing the gap between the highest and lowest performing students to achieve College and Career readiness. Our mission: Lifting student achievement. Every student, every day.

As a San Rafael native, UC Berkeley Graduate, who attended pre-school through high school in San Rafael, I would be honored to continue to serve our community. Thank you for your consideration and your vote.
