## City of San Rafael Station No. 52 Project

July 2018  
Issue 12

### Executive Summary

In November 2013, Measure E was passed by the voters of San Rafael extending for 20 years an existing 0.5% sales tax and adding 0.25% in an effort to set aside funds to begin to address the aging public safety facilities in San Rafael. In July 2015 the City Council approved a strategic plan for essential public safety facilities which updated the 2003 facility condition assessments, developed space needs of essential facilities, feasibility studies of improving existing and new public safety facilities, developed project budgets and funding plan, prioritized projects, and developed a phasing and implementation schedule. The plan recommended seven projects including a new public safety center housing both the police and fire departments as well as the rebuilding of Fire Station 51, 52 and 57. In addition, the plan recommended upgrades to the other fire stations for seismic safety and operational improvements. In late 2015, architect and construction management team began the design process for the Phase 1 projects, which included Fire Station 51, 52, 57 and the Public Safety Center.

**This report provides a current update on the progress of Fire Station 52 located on the corner of 3rd Street and Union.**

### Project Description/Scope

The new 10,973 square foot, two-story fire station, will remain located at 210 Third Street, San Rafael, California, and will house five on-duty fire fighters. The new station is designed to accommodate six on-duty personnel should additional staffing be required to better serve the community. The core elements of the new station include three drive-through apparatus bays, apparatus support spaces, public lobby, accessible restroom, office, kitchen, dining, dayroom, laundry room, private sleeping quarters, unisex restrooms, mechanical, electrical, communications rooms and staff parking. Other notable site/adjacent improvements include a second new structure will be a four-story training tower. The new 3,322 square foot, 46' high, pre-engineered building will be located at the south/east corner of the site and will provide a variety of training scenario opportunities, not only for SRFD, but also for other neighboring fire departments. Finally, the third new building on the site will be a 1,297 square foot, 24-person, training classroom. The facility will serve as a training academy by day and will be utilized in the evening for certification training/meetings, CPR classes, and other fire prevention functions.

## Project Progress

During the month of July, Alten Construction continued MEP rough-in and framing at the Main Building. Fire proofing was completed. Exterior roofing/sheathing commenced. Drywall tape/finish occurred at the Classroom, as well as TPO roofing. The concrete decking for the Training Tower was completed while finishes commenced. Work began for the on-site/off-site utilities and storm drain.

**Project Schedule Information** – Note: Contractor's schedule shows work is behind schedule. July 29 is the original completion date.

## Project Budget Information

FS 52		
Alten Constr. Hard Cost (Incl CO 1-VE)	\$10,016,542	\$6,877,154
CO 003	\$142,037	
CO 005	\$19,970	
Remaining Construction Contingency	\$338,819	
Early Demolition	\$166,003	\$165,937
Project Soft Cost - Design & Admin	\$2,852,973	\$2,121,385
<b>TOTAL</b>	<b>\$13,536,345</b>	<b>\$9,164,476</b>

### Project Activities this Month

- ▶ Fire Station
  - 2<sup>nd</sup> Floor MEP+FP Rough-In.
  - Continue framing including clerestory & roofing.
  - Complete fire proofing.
  - Commence exterior roofing/sheathing.
- ▶ Classroom
  - Tape and finish drywall.
  - TPO roofing.
- ▶ Training Tower
  - Complete concrete decks.
  - Commence finishes.
- ▶ Commence on-site and off-site utilities and storm drain

### Anticipated August 2018 Activities

- ▶ Fire Station
  - Continue MEP Rough-In
  - Continue framing
  - Continue roofing/TPO.
  - Commence storefronts/glazing
- ▶ Classroom
  - T-Bar Installation
  - Commence finishes
- ▶ Training Tower
  - Continue finishes and prop installation
- ▶ Continue on-site and off-site utilities and storm drain
