

**LET'S MAKE  
A  
BIRD FEEDER**

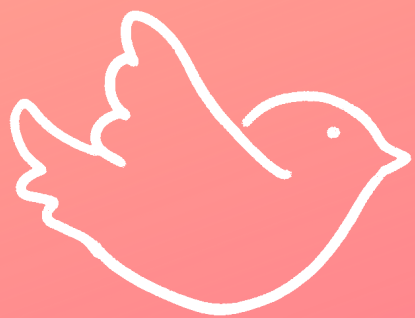

# what you need

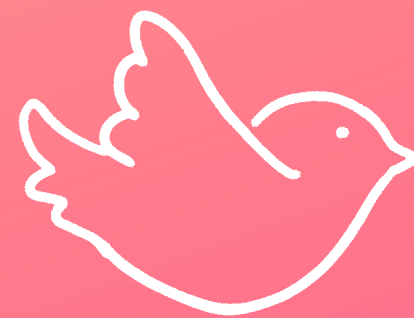

- empty plastic jug
- permanent markers
- cutting tools
- string
- sticks
- bird seed

# time to get *Creative!*

Carefully cut holes in jug.

Holes big enough for the birds to enter.

Poke hole in top, put string through & tie a big knot on inside of the top.

Use your markers and GET CREATIVE!

Bea-utiful!

Poke/cut holes on each side of jug.

Insert your sticks through jug.

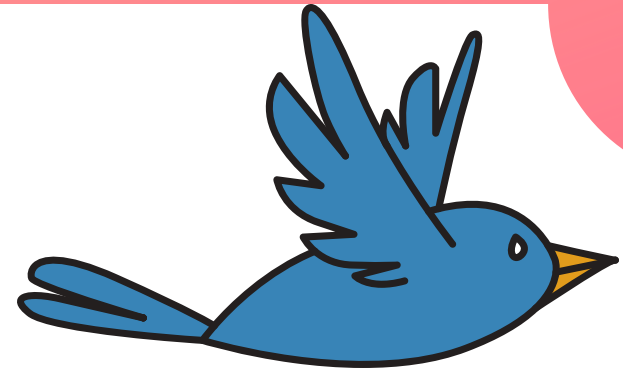

Attach the lid and fill with bird seed

Hang it up  
and watch the birds flock  
to your feeder!

# What birds did you see?

You can go to the Marin Audubon Society page to find out.
