

Agenda Item No: 6.a
Meeting Date: January 19, 2021

SAN RAFAEL CITY COUNCIL AGENDA REPORT

Department: City Manager

Prepared by: Cristine Alilovich,
Assistant City Manager

City Manager Approval: _____ 

TOPIC: TEMPORARY MORATORIUM ON CERTAIN RENT INCREASES

SUBJECT: URGENCY ORDINANCE ENACTING A TEMPORARY MORATORIUM ON RENT INCREASES FOR TENANTS RESIDING IN CERTAIN RESIDENTIAL UNITS AND IN U.S. CENSUS TRACTS MOST DISPROPORTIONATELY IMPACTED BY COVID-19 AND SETTING FORTH THE FACTS CONSTITUTING SUCH URGENCY

RECOMMENDATION:
Adopt an urgency ordinance enacting a temporary moratorium on rent increases for tenants residing in certain residential units and in census tracts most disproportionately impacted by COVID-19 and setting forth the facts constituting such urgency.

EXECUTIVE SUMMARY:
The proposed urgency ordinance would temporarily prohibit rent increases for tenants residing in certain residential units and in specific census tracts in San Rafael in order to support the long-term recovery of those most disproportionately impacted by COVID-19, lower the risk of displacement through eviction, and to limit the accumulation of debt related to COVID-19. The temporary prohibition on rent increases (i.e., rent freeze) would take effect and would expire on December 31, 2021.

BACKGROUND:
The County of Marin passed a resolution that implemented a countywide eviction moratorium that was in effect from March 27, 2020 through September 30, 2020. The resolution specified that landlords could not recover possession of a rental unit if the tenant provided notice to the landlord that they were unable to pay within 30 days after the date that rent was due because of financial impacts related to COVID-19.

Then on August 31, 2020 the State passed AB 3088, which established a statewide eviction moratorium that is set to expire on January 31, 2021. Both the County and State eviction moratoriums are limited to evictions based on non-payment of rent due to COVID-19 and do not prohibit other types of evictions.

FOR CITY CLERK ONLY

File No.: _____

Council Meeting: _____

Disposition: _____

In August 2020, a coalition of community organizations representing health, education, and non-profit sectors came together to encourage swift and bold action by policy makers and to specifically address the economic and public health crises facing the Canal neighborhood in San Rafael.

In September 2020, City and County elected officials and staff joined representatives from the Canal Alliance, Community Action Marin, and Legal Aid of Marin to form the Canal Policy Working Group (CPWG). This group was formed to work collaboratively on the development of a range of actions aimed at keeping residents in their homes and addressing the growing burden of rental debt. The CPWG has been working urgently towards a path to recovery that puts equity front and center, for residents, businesses, and landlords alike. The Canal Policy Working Group quickly identified housing instability as the most critical issue facing the community.

On November 2, 2020, City Council adopted [Resolution 14867](#), which recognized the disproportionate impact that COVID-19 has had on historically marginalized and under-resourced communities of color in Marin County and committed to pursuing bold, collaborative solutions to address this crisis. The resolution also articulated the City Council's commitment to protect housing for our essential workers and to preserve the ability for many community members to stay in their homes in San Rafael. On November 3, the Marin County Board of Supervisors adopted [a matching resolution](#).

The State legislature is currently considering a new bill, AB 15, which would extend the statewide eviction moratorium through the end of 2021 and would prohibit late fees on rent owed during this period. Additionally, the State is considering a second bill, AB 16, which would provide funding and a framework for disbursing rental assistance. The City sent a letter of support to both Senator Mike McGuire and Assembly member Mark Levine, urging them to vote yes on AB 15 and 16. The California State legislature returned to session on January 11, 2021. However, the upcoming expiration of AB 3088 on January 31, 2021 has created uncertainty for tenants and our community partners are warning that without reassurance at the local level that eviction protections will stay in place, some residents will choose to self-evict. Self-evictions result in negative outcomes for the community at large; landlords suffer financial losses due to the property's vacancy and residents of the community may choose to leave San Rafael due to financial hardship.

In December 2020, the County, with the support of city staff, began disbursing \$2.8 million in rental assistance funding. Approximately half of the \$2.8 million was allocated from emergency Community Development Block Grant (CDBG) funding with the remaining funds provided by the Marin Community Foundation. This is in addition to the \$2.9 million in rental assistance that was disbursed in April and May of 2020, of which the City of San Rafael received 46%. County and City staff are working together to ensure that the current round of funding is disbursed by January 28th. Of the rental assistance requests processed by the County since December, approximately 57% are San Rafael residents.

Tables 1 and 2 show detail on sources and distribution of the rental assistance funding for the program. Table 3 provides a breakdown of the number of households that have received/will receive rental assistance through the above-mentioned County program

Table 1: Rental Assistance Funding Sources

	CDBG Funding	MCF Funding	County Funding	Total Available
Rental Assistance Distributed in April and May	\$900,000	\$1,000,000	\$1,000,000	\$2,900,000
Current Round of Rental Assistance	\$1,343,246	\$1,500,000		\$2,843,246
Total Funding	\$2,243,246	\$2,500,000	\$1,000,000	\$5,743,246

Table 2: Rental Assistance Funding Distribution

	Total Disbursed Countywide	San Rafael Total Received	Percentage
Rental Assistance Disbursed in April and May	\$2,900,000	\$1,329,209	46%
Current Round of Rental Assistance	Underway	Underway	

Table 3: Number of Households Receiving County Rental Assistance¹

	Total - Countywide	San Rafael Residents
Rental Assistance Disbursed in April and May: Total households that received assistance	1,476	596
Current Round of Rental Assistance: Includes those who have received assistance and those who have been processed by the County and are waiting for funds	383	218
Waiting to be Processed	1,537	Not yet available

Additionally, the County has a second program, the COVID-19 Positive Disaster Relief program, that provides resources to lower income residents who are either presumed or confirmed COVID-19 positive in order to reduce the spread of COVID-19 in our community. The program provides direct payments as well as food to help low-income tenants stay home during their time of quarantine and slow community transmission. The direct payments are to be used for rent, food, and other critical expenses. As of January 12, 2021, the County has distributed over \$1.6 million in direct payments, serving 1,265 Marin County residents with an average relief payment of about \$1,300. They have also provided food to 3,005 residents in order to support them during their period of isolation and quarantine.

On January 12, 2021, the County Board of Supervisors reinstated the [local eviction moratorium](#) to become effective on February 1, 2021. This countywide moratorium prohibits evictions based on non-

¹ This data is as of the morning of January 8, 2021. The numbers for the current round of rental assistance and those waiting to be processed are changing daily.

payment of rent due to COVID-related financial impacts and prohibits property owners from charging late fees on rent owed in this period. It will be effective through June 30, 2021, unless superseded by local action, or state or federal law. If AB 15 passes, the County will evaluate how that law impacts the local countywide eviction moratorium.

ANALYSIS:

Approximately 10,700 households in Marin are at imminent risk of displacement and/or eviction, with an estimated 8,270 children living in those households. Attachment 2 provides additional data on the eviction risk, rent burdens, and equity measures in Marin County. In addition to the threat of eviction, many households are facing an overwhelming accumulation of rental debt due to pandemic-related job and income loss. Based on the applications for rental assistance received by the County since December, it is clear that a high percentage of those facing this crisis live within San Rafael, and specifically the Canal neighborhood. In normal times, it is very difficult to gather data on evictions because most evictions take place informally, without being processed through the courts. During the pandemic, this has been especially true.

With employment and income decreasing over the course of the pandemic, any rent increase compounds the accumulated debt which renters that have been disproportionately impacted by COVID-19 face. As of October 15, 2020, unemployment rates for low wage earners in Marin have increased more than 40% since the beginning of the year.² National trends further show those that are still employed are experiencing wage stagnation and even declines in income.³ Even before the crisis, 52.3% of renter households in Marin paid more than 30% of their income towards rent, and 27.7% paid more than 50%.⁴ These households were rent burdened before the COVID-19 pandemic, and now are facing rent increases that they cannot afford, putting them at further risk of falling behind financially and possible future eviction if they cannot return to work.

While the countywide eviction moratorium which goes into effect on February 1, 2021 is critical to keeping residents housed, it does not address the growing burden of rental debt that tenants, particularly low-income tenants, are facing. To provide relief beyond the moratorium, the City is proposing a ‘rent freeze’ through the end of 2021 in San Rafael census tracts with high housing instability and that have been disproportionately impacted by COVID-19. The goal of this action is to limit the accumulation of debt and to support the long-term recovery of these historically marginalized communities.

Currently, rent increases in Marin are limited by the California Tenant Protection Act of 2019 (“AB 1482”). AB 1482 establishes a statewide rent cap on certain residential units which is set at 5% plus a Cost-of-Living-Adjustment (COLA) based on regional CPI through 2025. In Marin, this figure is currently 6.1% (5% base + 1.1% CPI), meaning that rent cannot be increased by more than 6.1% within the calendar year on residential units subject to the AB 1482.⁵ Table 4 shows the average monthly increase that households in San Rafael could expect to experience with current statewide rent restrictions. For a household that is experiencing declining employment, declining or no income, and a growing burden of debt, any rent increase would make financial recovery even more difficult.

² <https://tracktherecovery.org/>

³ https://bfi.uchicago.edu/wp-content/uploads/BFI_WP_202058-1.pdf

⁴ [2018 American Community Survey](#).

⁵ AB 1482’s statewide rent cap applies to residential units in multifamily properties constructed more than 15 years ago (this is a rolling date meaning units built in 2006 are covered by AB 1482 in 2021, units built in 2007 would be covered in 2022, and so on); duplexes if the owner does not live in either unit; units in condominiums and single family homes if they are owned by a corporation or REIT; and units in which the tenant has resided for one year or more.

Table 4: Average Monthly Rents and Allowable Rent Increases Under Current Laws

	Monthly Rent	Allowable increase under current laws (6.1%)
Average Cost of One Bedroom Apartment in San Rafael	\$2,470 a month	\$2,620.67 a month A monthly increase of \$150.67
Average Cost of Two Bedroom Apartment in San Rafael	\$3,110 a month	\$3,299.71 a month A monthly increase of \$189.71

City Staff, in collaboration with the CPWG, have been considering holistic solutions that not only address the rental debt burden of tenants who have been most disproportionately affected by COVID-19, but also the needs of the local landlords and helping to mitigate the impacts they face. Over the past weeks, staff have met with local property owners to discuss the proposed policy options and to solicit their input.

The City recognizes the burden placed upon local property owners and are advocating to secure additional support for them. The rental assistance provided through the CDBG and Marin Community Foundation funding is targeted at supporting tenants in greatest need; it also provides financial relief to landlords as the payments are made directly to the property owner. Additionally, as mentioned above, the State is considering adopting AB 16, which would secure additional financial assistance for tenants and property owners.

On January 6, Governor Newsom announced plans to quickly and accountably deploy \$2.6 billion in federal rental assistance, with Marin County expected to receive an estimated \$7.7 million of that funding. At the local level, the County has cancelled tax penalties for qualifying small businesses, including property owners, allowing them to delay tax payments into 2021.

Based on this analysis, the City is proposing the adoption of an urgency ordinance that would establish a temporary rent freeze in census tracts that have been most disproportionately impacted by COVID-19 and that have the greatest level of housing instability (see Attachment 1). The ordinance would take effect on February 1, 2021 and would expire on December 31, 2021. In addition, per the Costa Hawkins Rental Housing Act of 1995, the rent freeze would not apply to single family homes, properties containing only one or two units, accessory dwelling units, and units for which an initial certificate of occupancy was dated on or after February 1, 1995.

Because the City already has rent control in place for all mobile homes within the City pursuant to Title 20 of the San Rafael Municipal Code, the rent freeze would not apply to mobile homes, which are already protected from drastic rent increases. All mobile homes within the City were recently subject to a rent increase pursuant to Title 20 and the procedures for increases in rent of Title 20. Because of this, tenants of mobile homes may not have their rent increased again, in any amount, prior to 2022 and are thus already protected in the same manner that the proposed Ordinance protects eligible rental units.

The proposed rent freeze would be applied only in two census tracts in San Rafael (1122.01 and 1122.02), which make up the Canal neighborhood. To make this determination, staff utilized the same indicators that were used by the County to determine the allocation of the recent round of CDBG rental assistance; those factors are those census tracts with the highest rates of COVID-19 and the highest

rates of overcrowding. Per the U.S. Department of Housing and Urban Development, which administers CDBG funding, this round of CDBG funding was to be allocated based on public health need, COVID-19 risk and case rates, economic and housing market disruptions, and other factors. The County chose to use COVID-19 case rates and overcrowding indicators as measures of COVID-19 impact and housing market instability in allocating CDBG funding.

In San Rafael, only census tracts 1122.01 and 1122.02 are in the top 10% of Marin census tracts in terms of COVID-19 case rates *and* in the top 10% in terms of overcrowding. According to Marin Health and Human Services data, census tract 1122.02 has more than an 8% COVID-19 positivity rate and census tract 1122.01 has a 15.35% positivity rate, compared to a 3% positivity rate Countywide. The 2018 U.S. Census American Community Survey shows that in these two census tracts more than 25% of renters live in overcrowded housing, while only 5% of renter households Countywide are considered overcrowded. Overcrowded households are more likely to include individuals who are essential workers which cannot be perform their jobs remotely, increasing the likelihood of COVID-19 exposure. High overcrowding rates also indicate that additional income streams are required to sustain a household's rental costs, putting them at greater risk of housing instability should income be reduced. The [California Healthy Places Index](#) further ranks these two census tracts in the bottom tenth percentile statewide in terms of the percentage of low-income renters who pay more than 50% of their income on housing costs. Additionally, [the California Fair Housing Task Force](#) has identified that both census tracts are at risk of further segregation and concentration of poverty.

The combination of overcrowded housing, occupations that can only be performed in person, and increase risk of displacement creates a vicious cycle where overcrowded households are at increased risk for COVID-19 exposure, are financially unable to respond to the quarantine requirements if exposed, and are more likely to be displaced to a situation at even greater risk of COVID-19 exposure. Based on these factors, staff have determined that the two Canal census tracts (1122.01 and 1122.02) have been disproportionately impacted by COVID-19 and are at greatest risk for housing instability. The proposed rent freeze provides targeted support to these tracts, which are detailed in the map provided as Attachment 3.

While the rent freeze would not apply to areas of the City outside of the Canal neighborhood, all San Rafael renters would still have access to a suite of additional renter protections. These protections include the recently adopted Countywide eviction moratorium which extends until June 30, 2021; a statewide rent cap of 5% + CPI (which would limit current rent increases in Marin to 6.1%); rental assistance provided through County, State and federal funding sources; and long-term rent cap policies established for mobile homes in San Rafael.

Enforcement

Enforcement of the proposed rent freeze will be relatively straightforward, as any rent increase in the affected census tracts would be considered a violation of the ordinance. Legal Aid of Marin would serve as the first point of contact for tenants that believe their rent has been illegally increased. If the urgency ordinance is approved, the City of San Rafael will provide Legal Aid of Marin with a database/tool to help determine whether a tenant is in a census tract that is covered by the rent freeze or not.

Right to Fair Return

The proposed urgency ordinance includes a provision for a "fair return" hearing, which allows a landlord to petition the City for a rent increase, despite the rent freeze, on the grounds that the increase is needed to allow the landlord a fair and reasonable rate of return. This provision is included because the City's denial of such a fair and reasonable return on investment would constitute an unconstitutional taking of property requiring compensation. The ordinance provides that the landlord's petition would be heard by a hearing officer appointed by the City Manager, and the landlord would have the burden to present

evidence demonstrating that the increase is necessary to provide the landlord with a fair rate of return. The ordinance provides that the hearing officer's decision would be final, subject only to challenge in court. The ordinance also provides that the City Council delegates to the City Manager the authority to establish the specific policies and procedures implementing the fair return hearing petition process.

Conclusion

If adopted, this urgency ordinance would provide tenants in the Canal neighborhood with a measure of needed financial relief. However, it is important that this action is viewed in the broader context of complementary actions that are being taken at the County, State, and Federal levels, as well as to recognize that more will be needed to address the crisis facing those most impacted by COVID-19. In addition, it is important to note that the intention of this action is to provide temporary relief to those most disproportionately impacted by COVID-19, from a public health perspective, as well as economic.

City staff will continue to evaluate the needs of both renters and property owners and provide the City Council with an update prior to the proposed expiration of the rent freeze. The proposed rent freeze is just an initial step along the path to recovery. The City will continue to work with our partners in the CPWG to support the long-term recovery and resilience of our community and will continue to pursue additional policy and program solutions. The next step in our work will be to evaluate the specifics of the laws if both AB15 and AB16 are passed in order to determine how that impacts our local policies.

The proposed ordinance would be adopted as an urgency ordinance under Government Code section 36937(b). Ordinarily, to adopt a City ordinance, the City Council would introduce the ordinance and hold a public hearing, and then schedule the final adoption for a second meeting, with publication of a summary of the ordinance in between. The ordinance would not go into effect until 30 days after the final adoption. As an urgency ordinance however, the proposed ordinance would be adopted in a single meeting and could become effective immediately, if it is approved by 4/5 of the Council members. In this case, instead of taking immediate effect upon adoption, the urgency ordinance provides that it will go into effect on February 1, 2021, after the expiration of AB 3088. In order to be adopted under section 36937(b), the ordinance must include findings explaining that the urgency ordinance is necessary to protect the public peace, health or safety. The ordinance includes these findings which mirror the analysis described in the staff report and generally establish that residents of certain census tracts in the City have been disproportionately impacted by COVID-19 and are subject to greater risks of housing instability, displacement, debt, and health risks related to higher rates of COVID-19.

COMMUNITY OUTREACH:

Through the Canal Policy Working Group meetings, staff have met with the Canal Alliance, Community Action Marin, and Legal Aid of Marin since September to better understand the needs of the community and to develop collaborative actions that support those disproportionately impacted by COVID-19. On January 4, 2021, community leaders sent a letter to City and County officials summarizing the policy actions they are advocating for into the following: 1. Extend and expand eviction protections through 2021, including preventing evictions except for health and safety reasons; and 2. Freeze rents countywide; hold rents and eliminate late charges and other surcharges through 2021. The full letter is included in Attachment 4.

During the November 2, 2020 City Council meeting, where the adoption of Resolution 14867 was being considered, numerous residents voiced their support for emergency policies that provided additional renter protections, including a rent freeze. Additionally, during the December 18, 2020 City Council meeting, Councilmembers heard from residents sharing stories of housing instability and advocating for emergency eviction and rental protections.

On December 22, 2020, a community meeting was held with property owners and property management stakeholders who, including representatives from the Marin Rental Property Association, the California Apartment Association, the Marin Organizing Committee, and the Community Land Trust Association of West Marin. They shared their concerns that they are bearing the burden of subsidizing tenant debt and they are worried about significant debt accumulation among their renters. This debt accumulation impacts both the tenants' ability to recover from the pandemic and the financial viability of the property owner. Many of the property owners shared that they themselves are not currently raising rents in their properties, recognizing the financial strain that would put on their tenants. They also noted the complexity and burden placed on small property owners of trying to navigate the various levels of housing policy. The property owners emphasized the need for financial support, particularly for small landlords, as well as the importance of keeping the policies simple, consistent at local and state levels, and easy to implement. They noted their perspective that is critically important that there be a clear end date for any eviction moratorium and/ or rent protection policies.

In addition, messaging regarding this urgency ordinance has been included in the City's Social Media (Twitter, Facebook, Nextdoor, Instagram). All outreach materials and online announcements were written to emphasize readability and to increase accuracy of translation available through Google Translate on all websites created by staff.

A courtesy notice (Attachment 5) of this public meeting was mailed to stakeholders, agencies, and special interest groups prior to this meeting. Those noticed included, among others, all neighborhood and homeowner associations within the two US Census Tracts 1122.01 and 1122.02, groups and organizations representing property owners, housing advocacy groups, and the San Rafael Chamber of Commerce. Further, during the process of assessing and vetting the potential moratorium for a rent freeze, staff held a number of meetings with the various stakeholders participating in this process.

In addition, information regarding the City's efforts, in collaboration with the Canal Policy Work Group (CPWG), to support those most disproportionately impacted by COVID-19 can be found on the City's website, at <https://www.cityofsanrafael.org/supporting-those-most-disproportionately-impacted-by-covid-19/>.

FISCAL IMPACT:

There is no immediate financial impact to the City's budget.

OPTIONS:

The City Council has the following options to consider on this matter:

1. Staff's recommended action approve urgency rent freeze ordinance.
2. Adopt resolution with modifications.
3. Direct staff to return with more information.
4. Take no action.

RECOMMENDED ACTION:

Adopt, by 4/5 vote, an urgency ordinance enacting a temporary moratorium on rent increases for tenants residing in certain rental units and in specific census tracts most disproportionately impacted by COVID-19 and setting forth the facts constituting such urgency.

ORDINANCE NO.

**AN URGENCY ORDINANCE OF THE CITY
COUNCIL OF THE CITY OF SAN RAFAEL
ENACTING A TEMPORARY MORATORIUM ON
RENT INCREASES FOR TENANTS RESIDING IN
CERTAIN RESIDENTIAL UNITS AND IN U.S
CENSUS TRACTS MOST DISPROPORTIONATELY
IMPACTED BY COVID-19 AND SETTING FORTH
THE FACTS CONSTITUTING SUCH URGENCY**

WHEREAS, there is a widespread, ongoing global outbreak of respiratory illness known as COVID-19 that can be spread from person-to-person, and on February 26, 2020, community transmission was confirmed by the Centers for Disease Control and Prevention (CDC) in the Bay Area; and

WHEREAS, on March 4, 2020, California Governor Newsom declared a state of emergency in the State of California on March 4, 2020; and

WHEREAS, on March 16, 2020, a Shelter in Place Order for all of Marin County was issued by the Marin County Health Officer; and

WHEREAS, these conditions are likely to be beyond the control of the services, personnel, equipment, and facilities of the City of San Rafael; and that the aforesaid conditions of peril to the safety of persons and property warrant and necessitate the proclamation of the existence of a local emergency; and

WHEREAS, the City Council hereby finds that the above-described conditions of extreme peril did warrant and necessitate the proclamation of the existence of a local emergency in the City of San Rafael; and

WHEREAS, on March 17, 2020, the City Council ratified and confirmed the Proclamation of Local Emergency; and

WHEREAS, the COVID-19 pandemic has disproportionately impacted our historically marginalized and under-resourced communities of color, and whose contributions are critical to the success of our local and regional economies as they are clients to our local businesses, and are members of the essential workforce; and

WHEREAS, the disproportionate impacts of COVID-19 have only reaffirmed the racial inequalities that exist in our County and have highlighted the urgent need to pursue bold, collaborative solutions that place equity at the forefront of our actions; and

WHEREAS, this Ordinance is a temporary moratorium intended to promote stability and fairness within the residential rental market in the City during the COVID-19 pandemic, and to prevent avoidable homelessness by temporarily preventing rent increases that would increase financial instability for thousands of individuals and families struggling during this time to pay their bills and feed their families due to being out of work, thereby serving the public peace, health, safety, and public welfare; and

WHEREAS, displacement through eviction creates undue hardship for tenants through additional relocation costs, stress and anxiety, and the threat of homelessness due to the lack of alternative housing, which could lead to increases in health issues (including COVID-19 infection), exacerbation of existing health issues, and increase in risk of earlier death; and

WHEREAS, the City Council and City staff have found that certain geographic locations, specifically two census tracts (1122.01 and 1122.02) in the Canal neighborhood have been disproportionately impacted by COVID-19; and

WHEREAS, such geographic locations have suffered and continue to suffer disproportionate impacts from COVID-19, which have materialized in higher risk of COVID-19 transmission and number of cases compared to the national average, and higher risk of economic and housing instability as compared to the remainder of the City; and

WHEREAS, the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) signed into law on March 27, 2020, appropriated \$5 billion in additional Community Development Block Grant (CDBG) Program funding to state and local governments; and

WHEREAS, the CARES Act directs the Department of Housing and Urban Development (“HUD”) to administer these funds pursuant to Section 106 of the Housing and Community Development Act of 1974 (42 U.S.C. 5306). This provision calls for HUD to allocate the supplemental funds to CDBG grantees—including eligible local governments, states, and insular areas—proportional to their conventional Fiscal Year 2020 CDBG allocation, as published by HUD in April 2020; and

WHEREAS, CARES Act funding is intended to prevent, prepare for, and respond to the COVID-19 based on public health needs, risk of transmission, number of cases compared to the national average, and economic and housing market disruptions; and

WHEREAS, HUD has provided clear direction that the CARES Act funding be allocated based on public health need, risk of transmission of coronavirus, number of coronavirus cases compared to the national average, and economic and housing market disruptions, and other factors, as determined by the Secretary; and

WHEREAS, in reliance on this HUD directive, the County of Marin developed an adjusted allocation methodology for CARES Act funding disbursements based on U.S. Census Tract data in which COVID-19 cases are proven most prevalent; and

WHEREAS, data on COVID-19 cases, supplied by the County of Marin Health and Human Services (HHS), and data on overcrowding, gathered from the U.S. Census American Community Survey, were utilized to determine the communities with the greatest risk for coronavirus transmission; additionally, data from HUD’s CHAS/Consolidated Plan tool were utilized to determine the percentage of low-income households in each community, in line with the use of HUD dollars to be used for low-income individuals and households, who make below 80% of the area median income.

WHEREAS, the above described data resulted in a CARES Act allocation within the County of Marin as follows:

- San Rafael: 52.7%, \$943,853.84
- Novato: 27.1%, \$485,359.37
- County Other: 20.2%, \$361,780.79; and

WHEREAS, in allocating CARES Act funding, the County of Marin relied upon data from the Marin County Health and Human Services regarding COVID-19 positivity rates, and relied upon U.S. Census American Community Survey 2018 5-year estimates regarding rates of overcrowding; and

WHEREAS, this data showed that two U.S. Census Tracts within the City of San Rafael have suffered the most disproportionately high rates of COVID-19 positivity since March 2020, and are statistically more overcrowded than other Census Tracts within the County of Marin as detailed below:

Name	Percent of population tested COVID+
Census Tract 1122.02: San Rafael: Canal	8.70%
Census Tract 1122.01: San Rafael: Canal	15.35%
Countywide Percent	3.12%

	Renter occupied units with more than 1 occupant per room
Census Tract 1122.01, Marin, CA	66.67%
Census Tract 1122.02, Marin, CA	27.51%
Countywide	5.12%

WHEREAS, overcrowded households are also more likely to include individuals with lower wage occupations which cannot be performed remotely, increasing the likelihood of COVID-19 exposure; and

WHEREAS, to limit the exponential spread of COVID-19, County Public Health

Guidelines require any individual testing positive or coming into contact with someone who has tested positive to quarantine for at least ten (10) days, and due to these Public Health requirements individuals and entire households may be required to quarantine, thereby losing income; and

WHEREAS, the California Fair Housing Task Force (the “Task Force”), established by the State of California Department of Housing and Community Development was established to provide research, evidence-based policy recommendations, and other strategic recommendations to HCD and other related state agencies/departments to further the fair housing goals (as defined by HCD); and

WHEREAS, the Task Force has determined that certain geographic locations and U.S. Census Tracts within the City are at risk of further segregation and concentration of poverty, and in reliance on such facts, the Task Force created opportunity maps to identify areas of every region of the State whose characteristics have been shown by research to support positive economic, education, and health outcomes for low-income families, particularly long-term outcomes for children (<https://belonging.berkeley.edu/2021-tcac-opportunity-map>); and

WHEREAS, one of these Census Tracts has been identified as Low Resource opportunity category (Census Tract 1122.02) and one of these Census Tracts has been identified as High Segregation and Poverty opportunity category (Census Tract 1122.01) (<https://belonging.berkeley.edu/2021-tcac-opportunity-map>); and

WHEREAS, the Healthy Places Index (HPI), developed by the Public Health Alliance of Southern California, tracks 25 separate indicators of community health and wellbeing, including five indicators related to housing; and

WHEREAS, according to the HPI, Census Tracts 1122.01 and 1122.02 are in the bottom 10th percentile of census tracts statewide in terms of renters that spend more than 50% of their income on housing costs, while the City of San Rafael as a whole is in the 29th percentile; and

WHEREAS, Census Tracts 1122.01 and 1122.02 are also amongst those identified for CARES Act allocations; and

WHEREAS, this combination of overcrowded housing, occupations that can only be performed in person, and increase risk of displacement creates a vicious cycle where overcrowded households are at increased risk for COVID-19 exposure, are financially unable to respond to the quarantine requirements if exposed, and are more likely to be displaced to a situation at even greater risk of COVID-19 exposure; and

WHEREAS, the City has found and declares that while there are other Census Tracts in the City experiencing overcrowding and high rates of COVID-19, no other Census Tracts in the City are experiencing overcrowding, COVID-19 infection rates, financial instability and risk of displacement at the same rates and levels as Census Tracts 1122.01 and

1122.02; and

WHEREAS Census Tracts 1122.01 and 1122.02 have the highest rates of COVID-19 infections in all of San Rafael and have higher rates of COVID-19 infections than 90% of all Census Tracts in the County of Marin, placing these two Census Tracts in the top 10% of the entire County of Marin in terms of COVID-19 case rates and overcrowding; and

WHEREAS, in reliance on this data and so as to strike a balance between the economic stability of property owners and landlords within the City and the grave risks that residents of Census Tracts 1122.01 and 1122.02 face, the City finds that the rent freeze should apply only to Census Tracts 1122.01 and 1122.02 which are at the absolute highest risk of displacement, financial instability, and COVID-19 infection rates within the City; and

WHEREAS, the facts, research, and conclusions utilized by the Federal and State governments and the County of Marin as described more fully above, establish that poverty, overcrowding, and high COVID-19 infection rates in U.S. Census Tracts 1122.01 and 1122.02 have led and will continue to lead to disproportionate risks of displacement, COVID-19 infection rates, and financial and economic instability; and

WHEREAS, in reliance on this data and the facts establishing that residents of Census Tracts 1122.01 and 1122.02 are disproportionately at risk of displacement, debt, and contraction of the COVID-19 virus, the City finds and declares that there is an urgent risk to take measures to protect residents of these Census Tracts against further risk of displacement, debt, disease; and

WHEREAS, implementation of a complete rent freeze in these two vulnerable Census Tracts will reduce the likelihood of displacement, debt, and continued increases in COVID-19 positivity rates by limiting the accumulation of debt due to rent increases, thereby supporting the long-term recovery of these residents; and

WHEREAS, the City has previously adopted and implemented rent control upon mobilehomes located within the City pursuant to Title 20 (Mobilehome Rent Stabilization) of the San Rafael Municipal Code; and

WHEREAS, Title 20 protects homeowners and residents of mobilehomes from arbitrary, capricious and unreasonable rent increases while ensuring owners of mobilehome park properties receive a fair and reasonable return; and

WHEREAS, because Title 20 already provides those protections to homeowners and residents and mobilehomes that this Ordinance seeks to provide, the City Council finds and declares that this Ordinance need and shall not apply to mobilehomes already protected from unreasonable rent increases pursuant to Title 20; and

WHEREAS, for the reasons set forth herein, there is currently an urgent and imminent threat necessitating the immediate need to freeze rents in certain geographic locations but because the COVID-19 Tenant Relief Act of 2020 (enacted on August 31, 2020 as

AB 3088), prohibits cities from enacting any ordinance in response to the COVID-19 pandemic to protect tenants from eviction which would become effective prior to February 1, 2021, the City finds and declares that this Ordinance should become effective immediately on the earliest date allowed by the State of February 1, 2021; and

WHEREAS, this Ordinance will lower the risk of displacement of vulnerable populations, which is essential for public health, will keep tenants from falling even further behind during the state of emergency and will help tenants experiencing poverty and high segregation in good standing after the Ordinance expires; and

WHEREAS, so too will this Ordinance help ameliorate the broader public health, safety, and welfare effects of the emergency; failure to suspend rent increases in geographic locations disproportionately impacted by COVID-19 will worsen the already severe impacts of COVID-19 in these areas; and

WHEREAS, this Ordinance is temporary and not a general ordinance in force required to be codified; and

WHEREAS, this Ordinance is expressly authorized by State law because the Ordinance is more protective than the provisions of section 1946.2 of the California Civil Code, which was adopted pursuant to the Tenant Protection Act of 2019, because this ordinance provides tenant protections that are neither prohibited by nor established by other provisions of applicable law;

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SAN RAFAEL:

SECTION 1. Declaration of Threat to Public Health, Safety, and Welfare Necessitating Urgency Ordinance

The City Council of the City of San Rafael hereby finds and declares that there is a current and immediate threat to the public health, safety and welfare and a need for the immediate preservation of the public health and safety that warrants this urgency ordinance, which finding and declaration is based upon the facts, findings, and declarations stated in the recitals of this Ordinance, and all oral and written testimony presented at the January 19, 2021 San Rafael City Council meeting.

SECTION 2. Title

This Ordinance shall be known as the “COVID-19 Temporary Rent Freeze Ordinance.”

SECTION 3. Term

This Ordinance shall become effective on February 1, 2021 upon its adoption by a 4/5 vote of the City Council of the City of San Rafael pursuant to section 36937(b) of the

California Government Code and shall remain in effect until December 31, 2021 unless repealed or extended by the City Council.

SECTION 4. Definitions

“Condominium” means an estate in real property described in subdivision (f) of Section 1351 of the Civil Code.

“Dwelling Unit” means one (1) or more rooms occupied as living quarters, with a kitchen, sleeping facilities, and sanitary facilities for the exclusive use of one (1) household.

“Housing Services” means all services provided by a Landlord related to use or occupancy of a Rental Unit, including without limitation insurance, repairs, replacement, maintenance, painting, utilities, heat, water, elevator service, laundry facilities, refuse removal, parking, storage, furnishings, and security services.

“Landlord” means an owner, lessor, or sublessor who receives or is entitled to receive rent for the use and occupancy of any Rental Unit or portion thereof.

“Rent” means the consideration, including any funds, labor, bonus, benefit, or gratuity, demanded or received by a landlord for or in connection with the use and occupancy of a Rental Unit and the housing services provided therewith, or for the assignment of a rental agreement for a Rental Unit. A decrease in Housing Services is considered an increase in Rent.

“Rental Unit” means any Dwelling Unit in any real property, including a building, structure, or part thereof, and the land appurtenant thereto, rented or available for residential occupancy, and located in the City. The following shall not be considered Rental Units:

1. Units in hotels, motels, inns, tourist homes, and rooming and boarding houses which are rented primarily to transient guests for a period of fewer than thirty days;
2. Units in any hospital, convent, monastery, extended care facility, emergency residential shelter, residential care facility, residential service facility, nonprofit home for Senior Citizens (as defined in the Unruh Act, as may be amended), or in dormitories owned and operated by an institution of higher education, a high school or elementary school;
3. Units which a government entity owns, operates, or manages, or in which governmentally-subsidized Tenants reside, if applicable federal or state law or administrative regulation specifically exempt such units from municipal rent control.
4. Single family homes;
5. Units in a building, structure, on a single property, or part thereof, containing only one (1) or two (2) Dwelling Units;
6. Condominiums;

7. Accessory Dwelling Units as that term is defined in Government Code section 65852.2;
8. Mobilehomes subject to Title 20 (Mobilehome Rent Stabilization) of the San Rafael Municipal Code and mobilehomes exempt from rent control pursuant to any applicable federal or state law;
9. Units for which an initial certificate of occupancy was dated on or after February 1, 1995.

“Single-Family Home” means a detached building containing a single residential dwelling unit separately alienable from any other dwelling unit.

"Tenant" means a person entitled by written or oral agreement, or by sufferance, to the use or occupancy of a Rental Unit.

"Tenant household" means all tenant(s) who occupy any individual Rental Unit, and each minor child, dependent, spouse or registered domestic partner of any tenant whose primary residence is the Rental Unit.

SECTION 5. Geographic Scope

This Ordinance applies to all Rental Units located within the following U.S. Census Tracts, which are depicted in Figure A of this Ordinance (U.S. Census Tracts Subject to Scope of Ordinance) and have been identified based on the declared threat to public health, safety and welfare within these U.S. Census Tracts:

U.S. Census Tract Number	Location
1122.01	San Rafael; Canal
1122.02	San Rafael; Canal

SECTION 6. Moratorium on Rent Increases

A. During the Term of this Ordinance, a Landlord may not increase the Rent for any Rental Unit except pursuant to the provisions and procedures set forth in Section 7 of this Ordinance (Right to Petition for Fair Return).

B. Any pending increase in Rent and/or increase in Rent which becomes effective during the Term of this Ordinance, whether such increases are authorized pursuant to a lawfully served notice or an existing written or oral rental agreement, shall not be collected and shall not become effective during the Term of this Ordinance.

C. No requests, notices or demands for increases in Rent which would become effective after the Term of this Ordinance, shall be served, given or provided to any Tenant or Tenant Household during the Term of this Ordinance.

D. Upon repeal or expiration of this Ordinance a Landlord's right to impose rent increases on Tenants and Tenant Households of Residential Units shall immediately resume, subject to any other applicable federal, state, or local limitations that may be in place.

E. Notwithstanding the limitations in subsections A through E of this Section, a landlord may establish any new, base Rent for tenancies which commence after the effective date of this Ordinance.

SECTION 7. Right to Petition for Fair Return

A. Fair Return Petition. To effectuate the purposes of this Ordinance and the requirements of law, a Landlord may file a petition for an upward adjustment of the Rent for any given Rental Unit to ensure a fair and reasonable rate of return. There is a rebuttable presumption that maintenance of net operating income on the date of adoption of this Ordinance, as adjusted by inflation over time, provides a Landlord with a just and reasonable rate of return on a Rental Unit. It is the intent of this Article that individual upward adjustments in Rent be granted only when the Landlord demonstrates that such adjustments are necessary to provide the Landlord with a fair rate of return.

B. Procedures for Petition. A Landlord may file a petition for a fair return hearing pursuant to this Section on a form provided by the City. The City Council hereby delegates authority to and directs the City Manager to adopt policies and procedures to implement the fair hearing petition process that are consistent with this Section.

C. Hearing Officer Appointed. A Hearing Officer, appointed by the City Manager, shall conduct a hearing to act upon a petition for an upward adjustment of the Rent for any given Rental Unit. The Hearing Officer shall have the power to administer oaths and affirmations, and to render a final decision on the merits of the petition, subject to the provisions of this Section and the petition procedures established by Resolution.

D. Failure to Comply with Ordinance. No upward adjustment of Rent shall be authorized by a Hearing Officer under this Section if the Landlord has failed to comply with any provision of this Ordinance or regulations adopted by separate resolution of the City Council or implementing policies and procedures adopted by the City Manager, or has failed to maintain the Rental Unit in compliance with any applicable Federal, State, or local law or administrative regulation.

E. Upward Adjustment of Rent. In making an upward adjustment of Rent based on a Landlord's Petition to ensure a fair rate of return, the Hearing Officer shall approve an adjustment in accordance with the following criteria:

1. Right to Fair Return. No provision of this Ordinance shall be applied so as to prohibit the Hearing Officer from granting a fair return adjustment of Rent that is

demonstrated by the Landlord to be necessary to provide the Landlord with a fair rate of return.

2. Maintenance of Net Operating Income. The Petition shall establish and the Hearing Officer shall consider a Landlord's ability or inability to maintain a fair rate of return on any given Rental Unit. The Hearing Officer shall consider a Landlord's ability to maintain net operating income for any given Rental Unit. Net operating income equals gross income minus operating expenses.

3. Gross income equals the following:

- a) Gross rents; plus
- b) Interest from security or other deposits, except to the extent that said interest is payable to the Tenant; plus
- c) Income from services or parking; plus
- d) All other income or consideration received or receivable in connection with the use or occupancy of Rental Units;
- e) For purposes of calculating gross income, the Hearing Officer may take into account factors necessary to assure that the Landlord receives a fair and reasonable return on their investment.

4. Operating expenses includes the following expenses:

- a) Real property taxes;
- b) Unsecured property taxes;
- c) Utility costs that are not reimbursed by tenants; plus
- d) Management expenses, including but are not limited to, necessary and reasonable advertising, accounting, insurance, and allowable necessary and routine legal expenses;
- e) Repair and maintenance expenses;
- f) Owner performed labor, which shall be counted at reasonable rates;
- g) License and registration fees required by law that are not reimbursed by the Tenant;
- h) Capital improvements, provided they are not compensated by insurance proceeds, subject to the following conditions: 1) that said expenses be amortized, and 2) capital improvements constructed in the interior areas of the Rental Unit can be included only to the extent required by state or local laws.

5. The following are excluded from operating expenses:

- a) Avoidable and unnecessary increases in expenses;
- b) Penalties, fees, or interest assessed or awarded for violation of this or any other law with respect to the Rental Unit;
- c) Depreciation of the property;

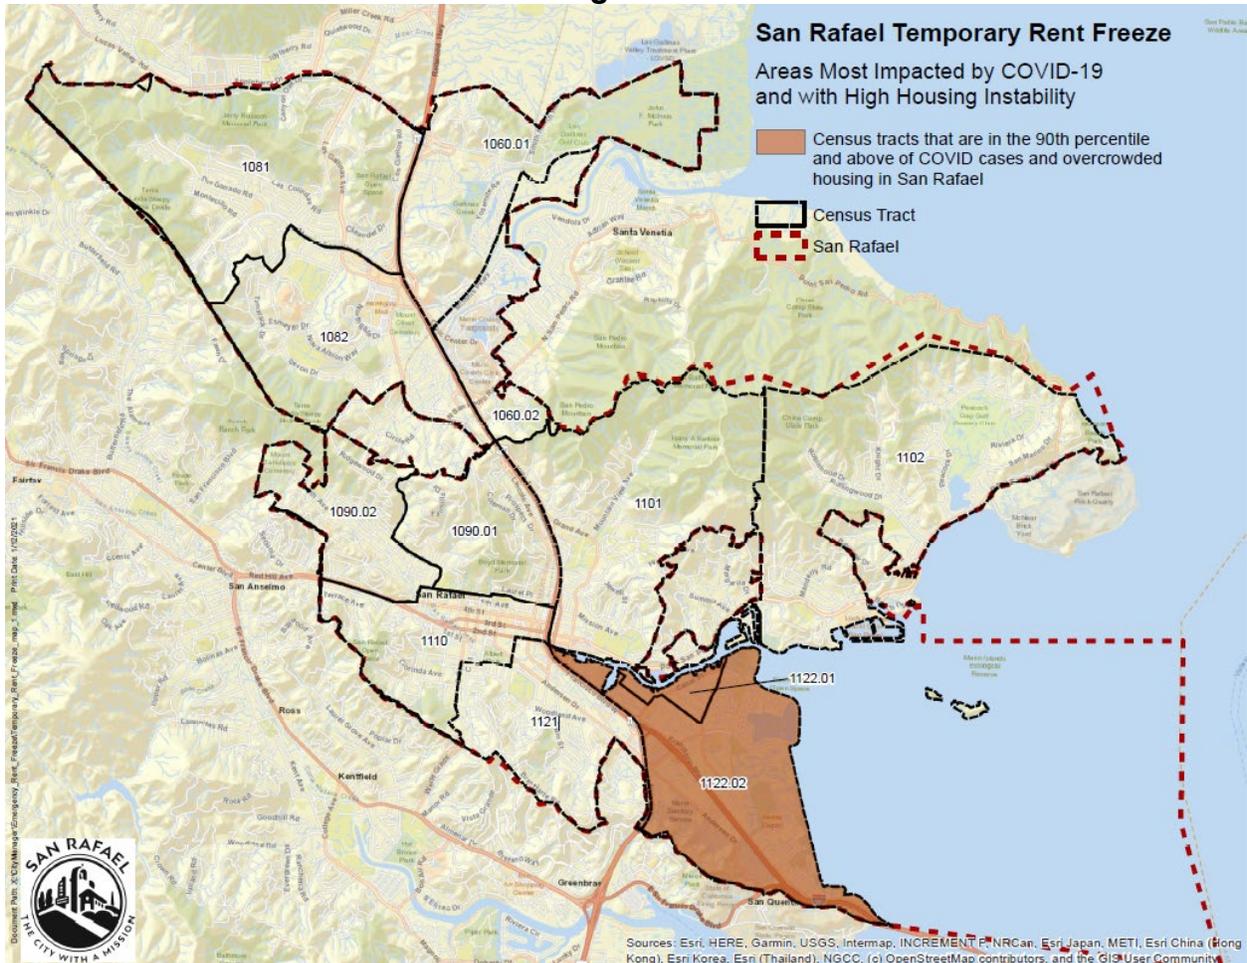

- d) Any expense for which the Landlord has been reimbursed by any security deposit, insurance settlement, judgment for damages, settlement, or any other method;
- e) Mortgage interest or principal, or similar financial instruments used to purchase or finance rental property, unless incurred for purposes of financing capital improvements; and
- f) Income taxes.

SECTION 8. Affirmative Defense to Eviction; Civil Remedies

A Landlord’s failure to comply with any provision of this Ordinance shall constitute an affirmative defense in any unlawful detainer action based upon nonpayment of rent. A Landlord that fails to comply with this Ordinance may further be subject to civil proceedings for displacement of Tenants or Tenant Households initiated by Tenants, Tenant Households or the City for actual and exemplary damages.

SECTION 9. Figure A – U.S. Census Tracts Subject to Scope of Ordinance

Figure A

SECTION 10. Severability

If any provision or clause of this ordinance or the application thereof to any person or circumstance is held to be unconstitutional or to be otherwise invalid by a final judgment of any court or competent jurisdiction, such invalidity shall not affect other provisions or clauses or application, and to this end, the provisions and clauses of this ordinance are declared to be severable.

SECTION 11. California Environmental Quality Act

The City Council finds that the adoption and implementation of this Ordinance are exempt from the provisions of the California Environmental Quality Act under section 15061(b)(3) in that the City Council finds there is no possibility that the implementation of this Article may have significant effects on the environment.

KATE COLIN, Mayor

ATTEST:

LINDSAY LARA, City Clerk

I, LINDSAY LARA, City Clerk of the City of San Rafael, certify that the foregoing Ordinance was passed by the City Council of the City of San Rafael, California, by a vote of at least four-fifths (4/5) of the members thereof, at a regular meeting held on Tuesday, the 19th day of January 2021 by the following vote, to wit:

AYES: Councilmembers:

NOES: Councilmembers:

ABSENT: Councilmembers:

LINDSAY LARA, City Clerk

A Crisis Deferred COVID-19 Evictions

A Growing Risk for Families in Marin County

Households at imminent risk of eviction

10,700

Estimated households who have been unemployed and not received replacement income¹

8,270

Children in these households²

Households who will become at risk for eviction in the next 6 months

3,780

Households that will lose benefits/all income during ~next 6 months³

2,920

Children in these households⁴

Rental Burden:

52.3%

of renter households spending more than 30% of their income on rent⁵

27.7%

of renter households spending more than 50% of their income on rent⁶

12%

of households in Marin have zero net worth and thus no financial cushion in a time of crisis⁷

Homelessness in Marin County:

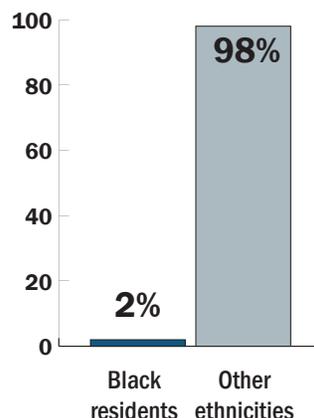

1,034

Individuals experiencing homelessness counted at point-in-time.⁸

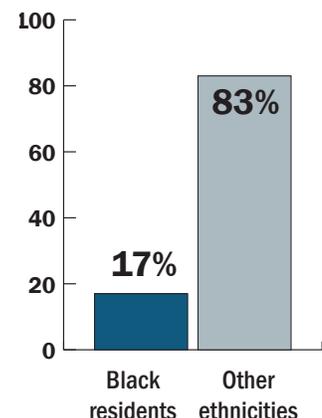

1,137

Students experiencing severe housing instability⁹

Marin County Total Population by Race/Ethnicity

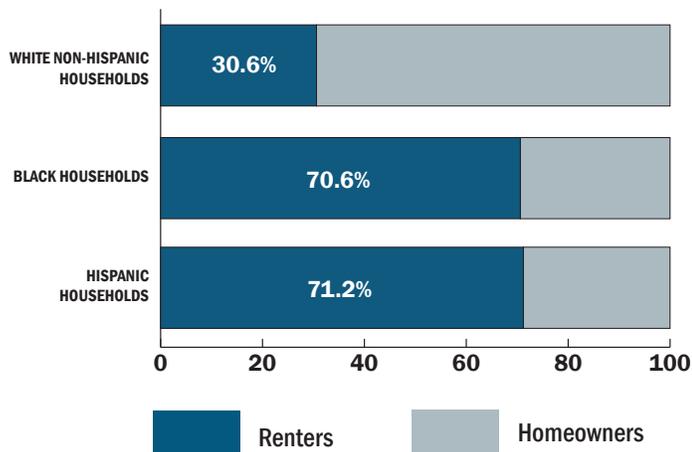

Marin County Homeless Population by Race/Ethnicity

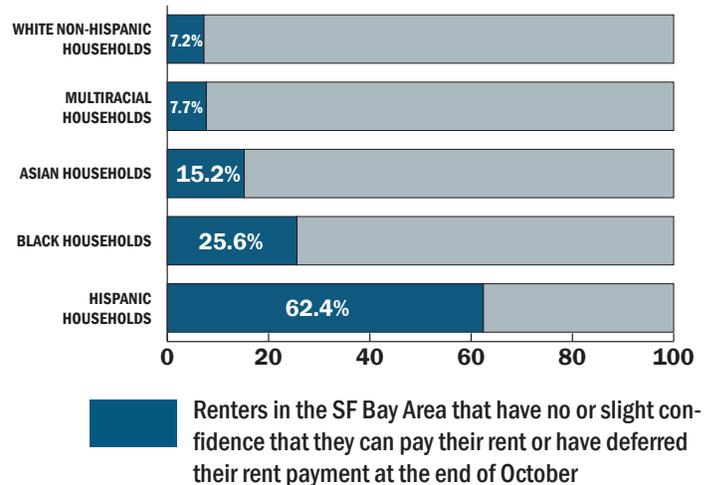

In other Bay Area communities, approximately 12% of homeless individuals reported eviction as being the primary cause of their homelessness. Increases in homelessness as a result of eviction would stall the progress Marin has made, come at a large financial cost, and exacerbate existing racial inequities.

Equity measures:

Share of Households who are Renters in Marin¹⁰

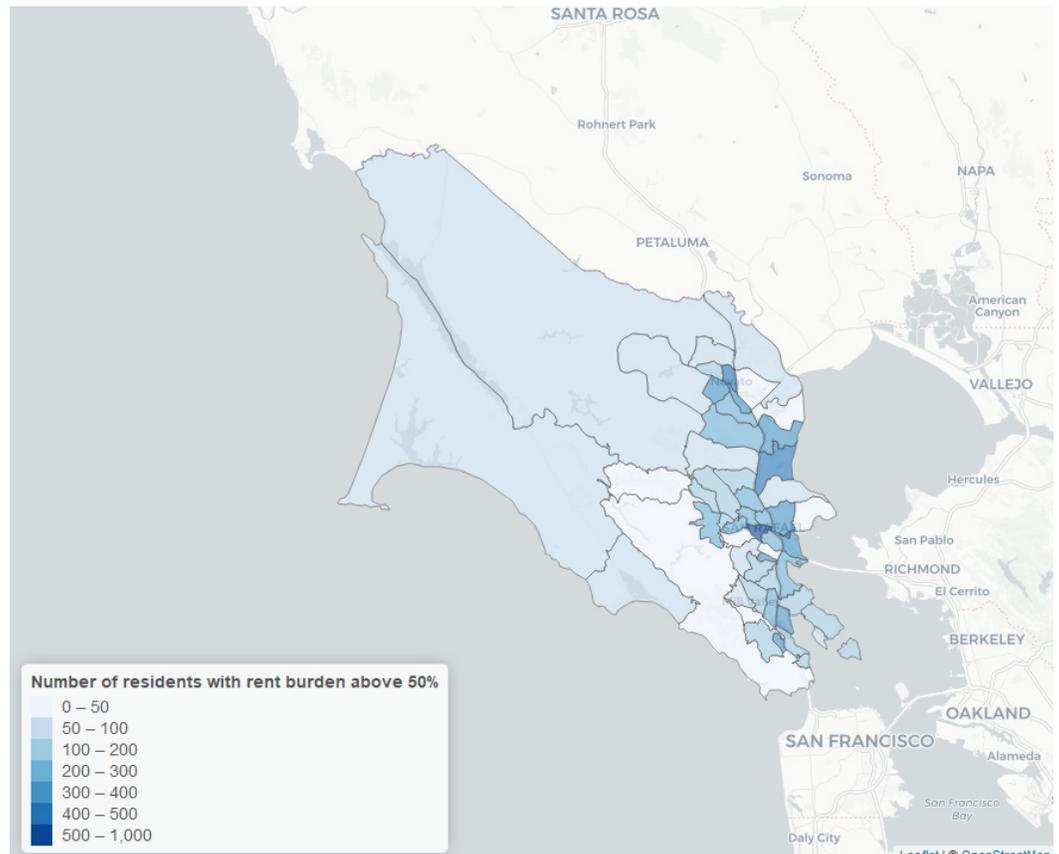

Confidence in Paying Rent¹¹

Where is Help Needed Most in Marin County?

While need is concentrated in certain areas, with the Canal neighborhood standing out in the 99th percentile of areas in California most vulnerable to housing instability, it is also widespread, with jobs lost and unsustainably high rental burdens throughout the county.¹²

Mayor Kate Colin
Members, San Rafael City Council
Members, Marin County Board of Supervisors

Re: Open Letter re Canal Policy Working Group and Pandemic Relief

Esteemed Marin County Officials:

In August we, the leaders of Canal Alliance, Community Action Marin, and Legal Aid of Marin, joined together with local nonprofit and business leaders to call for action to protect Marin County residents hardest hit by the Covid-19 pandemic, with the aim to best position the community and county for recovery. We called to place the voices and interests of hardest hit Latinos at center.

Since that time, the City of San Rafael and County of Marin have passed a resolution to act. Meanwhile, the crisis in the Canal community and countywide has worsened, primarily for low-wage workers and people of color. Debt has accumulated. The health status of our county has worsened.

While recognizing that early action is most protective of our county's vital workforce, officials have pointed to the need to come to consensus in order to act.

We ask that you enact immediate and preventive measures so that the county can get back to normal when the pandemic is eradicated, specifically to:

- 1. Extend and expand eviction protections through 2021, including preventing evictions except for health and safety reasons; and**
- 2. Freeze rents countywide; hold rents and eliminate late charges and other surcharges through 2021.**

Federal and state officials may act; or, they may not. Meanwhile, the Canal Policy Working Group (through the diligent efforts of city and county staff, as well as our organizations' staff members), has compiled extensive research in support of these policies. Some of the most relevant data is included as an appendix here, expressly for the benefit of decision makers and elected officials who are not part of the working group.

Millions of dollars in rent help have supported local property owners countywide, with more forthcoming. The policies we recommend be enacted now jointly serve to balance out relief to prevent evictions and establish a stable landscape until recovery may truly begin.

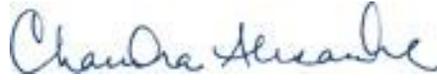

We call on the City of San Rafael to lead by resolving to support these policies. We call on the County of Marin to lead by supporting and enacting these policies, in concert with local cities.

Thank you for your tenacity, your leadership, and your example.

Very truly yours,

Omar Carrera
CEO, Canal Alliance

Chandra Alexandre
CEO, Community Action Marin

Stephanie Haffner
ED, Legal Aid of Marin

Background

Latinos make up 16% of Marin County’s population, but account for almost 80% of coronavirus cases the largest racial disparity of any Bay Area County. Over half of Marin County’s cases are concentrated in the Canal. The Canal has a positivity rate of 20% — roughly three times higher than Marin County’s average.

The socioeconomic factors that put Latinos at greater risk include lack of access to healthcare, low income, the inability to stop working, preexisting health conditions, and the dense living conditions. The local community support network is overextended: Over the past few weeks, all of the Canal food pantries have seen an increase of at least three times the usual number of participants.

An estimated 14,000 to 15,000 undocumented people live in Marin meaning that thousands of people are not eligible for federal financial programs. Even when eligible, many are too afraid to risk seeking help, fearing deportation or the risk of losing the opportunity for immigration status in the future.

Meanwhile, approximately 36% of Marin households are renters.¹ But fully 71.2% of Marin Latinx households rent, despite only representing 16% of Marin’s population. Similarly, 70.6% of Black households in Marin rent, while representing just 2.2% of Marin’s total population.² Furthermore, these communities already suffer the majority of overcrowded housing³, hold (or lost) the majority of low-income and essential jobs⁴, are already rent burdened⁵, and are disproportionately testing positive at higher rates than the rest of Marin.⁶

According to the Marin Economic Forum, “[T]he nation has moved from ‘recession’ to ‘recovery.’ ... But a drill-down in the data shows differing circumstances across the resident population, suggesting that our recovery will need to be targeted, rather than one size fits all.”⁷ “There are two ... groups of residents who remain critical to our recovery. The first group are Marin’s lower-income residents.”⁸ The Marin Economic Forum draws attention to a Public Policy Institute of California report which “showed that rates of unemployment from coronavirus in California range from 25 to 30 percent for families with incomes under \$30,000, compared to 5 to 10 percent for families with incomes above \$150,000.”⁹ The Forum goes on to report, “Mean income data for Marin County will always be skewed by a large concentration of high-income earners, but according to the most recent [Census data](#), **almost 23% of households in Marin have incomes of \$50,000 or less**. What is more concerning about the findings of the PPIC report was that **based on the last recession (2008), low-income families in the Bay Area**

took on average 11 years to recover versus just 5 years for high-income families. The [Institute] report also confirms that income inequality widened following the last 4 recessions in California, suggesting the same phenomena could occur this time as well.”¹⁰

Preventing evictions protects the community’s health

Marin is experiencing a disturbing spike in COVID cases and, as of December 16, there were no ICU beds available. According to Dr. Matt Willis, Marin County’s Public Health Officer, “policies that limit mobility” are necessary to control the pandemic.¹¹ Evictions – whether effectuated by our legal system or by tenants themselves weighed down by accumulating debt – force tenants to violate shelter-in-place.

A recent study published in the Journal of Urban Health found a direct correlation between eviction moratoria and preventing the spread of COVID, stating, “In light of the undisputed connection between eviction and health outcomes, eviction prevention, through moratoria and other supportive measures, is a key component of a pandemic control strategies to mitigate COVID-19 spread and death.”¹² It is no surprise then that Marin’s low-income, geographically isolated communities are faring far worse during this pandemic in terms of both health and economics.¹³

In Spring and Summer 2020, Marin County enacted a series of eviction moratoria in response to our current pandemic and resulting economic changes. These allowed residents to remain at home instead of on the streets, shelter in place and preserving their opportunities that come with being housed, such as a stable place for children to learn.

Now, it is estimated that 10,700 households are at risk of eviction, including 8,270 households with children.¹⁴ Too many renters face the end of the eviction moratorium with no means to pay full rent February 1st, no way to pay the thousands of dollars in back rent by March 5th to avoid a money judgement against them (often including late fees and recent rent increases), and no place to go if forced to leave their homes.

Earlier action is most protective for members of our community facing an uncertain future. Scholarly research establishes that it is often not the actual act of eviction that sways outcomes for families, but the expectations families and landlords have around it, and setting expectations will help address this harm. Eviction scholar Eva Rosen work documents how landlords may try to keep tenants in non-payment so that they can consistently on the threat of eviction to ensure that tenants don’t have legal recourse.¹⁵ This then creates scenarios where low-income tenants face “substantial negative impacts for their sense of safety, home, and community.”¹⁶ Matthew

Desmond document similar effects in his Pulitzer Prize-winning book, *Evicted*.¹⁷ The further in advance the possibility of eviction is ruled out, these harms are greatly reduced; the longer we wait to see what others do, the greater the risk families will receive or perceive pressure and move while they are in limbo.

The County and Cities can act to **limit mobility and there by protect public health**, to give **certainty to Marin's hardest hit residents**, and to **support Marin's economic recovery**.

Temporarily Freeze Rents

With the monthly fair market rent for a two-bedroom apartment in Marin County at \$3,339¹⁸, too many poor tenants are facing seemingly insurmountable debt and almost certain eviction, causing many already to start self-evicting. Absent local change, under state law¹⁹ property owners may raise rent 6.1%, or \$203 per month, based on the average cost of a two-bedroom apartment. For the thousands of renters who are already behind in rent any rent increase adds to economic pressure on poor families disproportionately impacted by the pandemic economy, and risks jeopardizing Marin's best opportunity for recovery.

Marin renters already were struggling with month-to-month rent payments before the Covid-19 Emergency. The National Low Income Housing Coalition reports that the average Marin renter can afford rent of \$1,169 per month – far below the median rent.²⁰ Now they are facing large amounts of accrued rental debt before the recovery has begun in earnest for them – risking long-term displacement particularly in the Canal community - that threatens Marin's economic health as a whole.

Legal Aid of Marin has received at least 20 calls regarding rent increases just since August 31. Callers are daily leaving urgent messages and phoning multiple times to get relief through administering nonprofit agencies. Each day, more than 100 calls come into nonprofits working to alleviate the crisis and keep people housed. Many of these callers are already thousands of dollars behind in rent. For them, a rent increase just adds pressure to move. Unable to find alternative housing or even pay first month's rent and security deposit if they do manage to find an alternative rental, renters are forced to overcrowd already overcrowded homes of friends and family, or move into cars and homeless encampments – all of which threatens our county's ability to control the pandemic and begin economic recovery. Some are moving out of the county, serving to exacerbate the racial inequalities Marin has unfortunately become known for.²¹

Also important is that a rent freeze is self-enforcing. Unlike the complex and difficult to explain Assembly Bill 3088, a rent freeze is straightforward – for the time that it is in effect, any rent increase is invalid.

¹⁷Matthew Desmond, *Evicted* (Broadway Books, 2016).

¹⁸[Out of Reach 2020, National Low-Income Housing Coalition.](#)

²⁰[Out of Reach](#)

²¹[Menendian, S., Gambhir, S., Racial Segregation in the Bay Area \(2018-2020\).](#)

The pandemic has further widened the information gap experienced by low-income, immigrant communities. State law currently in effect – Assembly Bill 3088 – is complicated. Recognizing this, since its enactment on September 1st, Legal Aid staff members have spent at least 477 hours on outreach alone. A temporary freeze on rent increases, in contrast, is easy to convey and enforce.

Extend the current eviction moratorium and only allow evictions to protect health and safety through 2021

Along with expanding eviction protections, *communicating early* that current protections remain in place for the duration of 2021 is an integral element to securing Marin’s economic recovery for all. AB 3088 expires January 31, 2021. Absent change, full rent again will be due February 1, 2021 or face eviction for the inability to pay – but the recovery will not be here yet. Moreover, on March 5, 2021, landlords will be able to seek back rent in court.

Not only would an extended and expanded eviction moratorium protect public health, but it would also provide certainty for renters and property owners alike. For tenants, they would feel less susceptible to threats of eviction and anticipatory moves in fear of eviction.²² By eliminating the possibility of eviction, these harms are greatly reduced and provides the time low-income families need to regain employment, and for economic solutions to be put in place.

AB 3088, expiring January 31, is a *non-payment* protection. While managing the extraordinary amount of unpaid rent that threatens both residences of tenants and the solvency of landlords is crucial during this time, preventing evictions is a separate issue not met by AB 3088. Evictions themselves are a public health and economic risk. Absent local action, evictions that can still go forward under AB 3088 (and after it expires) include when an owner wants to move into the residence, alleged minor lease violations, and allegedly withdrawing the unit from the rental market.²³

An 82-year-old Legal Aid of Marin client has lived in Sausalito, in the same apartment, for 31 years. Her only income is \$1600 a month from social security. She does not have a car. On February 1, the property owner will begin eviction proceedings against her if she is unable to move claiming that a family member will move in. The client has made hundreds of calls throughout Northern California to find affordable senior housing. Most do not pick up their phones and don’t allow her to leave a message. She managed to get on a waitlist in Petaluma, but the property manager cannot confirm a time frame for an available unit. She’s hoping that someone might temporarily rent her a room in their home, but she is terrified of being exposed to COVID during this process. Forcing this senior tenant to search for alternative accommodations and move from her home of 31 years during a pandemic not only threatens her health, but the health of all those she will now have to come in contact with.

Similarly, a recent commenter on Canal Alliance’s Facebook page reported they are current on rent, but have been given a 60-day notice to move – again because the owner has stated they

²² See generally, Desmond, Matthew, *Evicted: Poverty and Profit in the American City*, (Broadway Books, New York 2016).

²³ COVID-19 Tenant Relief Act of 2020, California Code of Civil Procedure § 1179.03.5 (a), et seq.

wish to move in. This individual states they simply cannot find any available place to rent in the Canal area.

In both cases, whether the property owner really intends to have a family member occupy the unit is unknown and can only be challenged *after* the person moves or is evicted.

Affirmatively Further Fair Housing

California law requires local governments to take “meaningful actions” to “address significant disparities in housing needs and in access to opportunity.”²⁴ Not only is local government thus required to take action, but it is also prohibited from “tak[ing]...action that is materially inconsistent with its obligation to affirmatively further fair housing.” Born out of the Civil Rights-era Fair Housing Act of 1968 and strengthened by the Department of Housing and Urban Development in 2015, the Affirmatively Further Fair Housing requirement in California was codified in 2018 through Assembly Bill 686.

“Opportunity” is broadly defined because it recognizes that a family’s housing situation has substantial impacts on many other aspects of their lives. The U.S. Department of Housing and Urban Development (“HUD”) defines “significant disparities in access to opportunity” as “substantial and measurable differences in access to educational, transportation, economic, and other important opportunities in a community.” 24 C.F.R. § 5.152, emphasis added. Because education and economics are inextricably linked to housing, “opportunity” includes educational and economic opportunities.

Eviction moratoria affirmatively further fair housing by protecting members of protected classes – Black and Latinx families that disproportionately rent – from eviction during a public health crisis. Preventing an eviction cliff is consistent with the obligation to affirmatively further fair housing.²⁵

Thank you for considering the certainty that renters need by passing an emergency resolution that temporarily freezes rent increases, extends the current moratorium, and prohibits all evictions unless required to protect health and safety. While the state is considering new legislation, its form and timeline is not known. Elected officials have the opportunity to provide certainty and hope to Marin’s renters, to give low-income families the time needed to regain employment, and to afford social services providers, lenders, and state and federal policymakers the time needed to address the solvency for both landlords and tenants and quicken the recovery from the pandemic.

²⁴ Cal. Gov. Code § 8899.50(a)(1).

NOTICE OF ONLINE PUBLIC MEETING – CITY COUNCIL

You are invited to view and participate online for the City Council meeting on the following proposed project:

PROJECT: Urgency Ordinance for Residential Rent Freeze - The City Council will consider an ordinance proposed to be adopted on an urgency basis that would enact a temporary moratorium on rent increases (“rent freeze”) for tenants residing in certain residential units through December 31, 2021. The proposed temporary moratorium would solely apply in two designated US Census Tracts, Tract Nos. 1122.01 (Canal Neighborhood) and 1122.02 (Southeast San Rafael and Canal neighborhood), which are areas that have been most disproportionately impacted by COVID-19 and have the greatest level of housing instability. The “rent freeze” would not apply to single-family homes, properties containing one or two housing units, accessory dwelling units, and residential units for which an initial Certificate of Occupancy was issued on or after February 1, 1995.

State law (California Environmental Quality Act - CEQA) requires that this project be reviewed to determine if a study of potential environmental effects is required. It has been determined that this project, which is a temporary moratorium on rent increases will have no physical impact on the environment. Therefore, this action is deemed to be exempt from review per California Environmental Quality Act Guidelines under 14 CRR Section 15061(b)(3), which is the general rule that CEQA applies only to projects that have the potential for causing a significant effect on the environment.

MEETING DATE/TIME/LOCATION: Tuesday, January 19, 2021, 7:00 p.m. COVID-19 ADVISORY NOTICE Consistent with Executive Orders No. -25-20 and No. N-29-20 from the Executive Department of the State of California and Marin County Shelter in Place Order, the San Rafael City Council meeting of January 19, 2021 will not be physically open to the public and the meeting will be streamed live to YouTube at <https://www.youtube.com/cityofsanrafael>. Instructions on how to participate online, will be available on the YouTube channel.

FOR MORE INFORMATION: Contact Catherine Quffa, Assistant Director of Library & Recreation at 415-485-3078 or Catherine.quffa@cityofsanrafael.org. **City offices are currently closed to public walk in, but you can contact Catherine Quffa for more information.** You can also view the staff report after 5:00 p.m. on the Friday before the meeting at <http://www.cityofsanrafael.org/meetings>.

WHAT WILL HAPPEN: You may comment on the proposed urgency ordinance. The City Council will consider public comment/testimony and provide feedback and recommendations on the draft policies.

HOW TO PROVIDE PARTICIPATE AND PUBLIC COMMENTS: You can send written correspondence by email to Lindsay Lara, City Clerk at lindsay.lara@cityofsanrafael.org address above prior to the meeting, you can comment online in real-time on YouTube. If you do not have access to internet, contact the City Clerk to discuss alternative options for remote participation at 415-485-3066.

Any records relating to an agenda item, received by a majority or more of the Council less than 72 hours before the meeting, shall be available for inspection online. Sign Language interpreters may be requested by calling (415) 485-3066 (voice), emailing Lindsay.lara@cityofsanrafael.org or using the California

Telecommunications Relay Service by dialing "711", at least 72 hours in advance of the meeting. Copies of documents are available in accessible formats upon request.

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,

Abdias enrique Rios hermandez

Dear City Clerk Lindsay Lara,

As the Director of Operations for the School of Liberal Arts and Education at Dominican University of California, I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic. Our students, staff, faculty, and their families need relief from some level of government, and I believe Marin County can be among the first in the country to assure citizens that local government is looking out for them.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

What District do you live in?

District 2

Using 200 words or less, highlight your relevant knowledge or skills that you will bring to the City Council:

I have over twenty years of experience in Leadership, Management, Administration, Arbitration, Mediation, Adjudication, Strategic Planning, Budget, Finance, Fundraising, Dispute Resolution, Consensus Building, Solution Implementation, and Mission Fulfillment. Additional experience includes Administrative Law, International Law, Labor Law, Implementation and Revisions of the Americans with Disabilities Act (ADA), Project Management, Diversity Training, Communications with a broad spectrum of people, and Processes and Procedures in the Governmental, Private, and Non-Profit Sectors.

Complementary experience includes 11 years of relevant service on Boards and Commissions of the City of San Rafael, 10 years of service Chairing a California State Board, 15+ years of service on non-profit Boards, Quasi-judicial federal and state decision making, Juris Doctorate from San Francisco Law School and a Bachelor of Arts and Sciences degree from Saint Mary's College of California.

Have you ever served as a member of a San Rafael Board, Commission or Committee?

Yes

If yes, please specify which Board(s), Commission(s) and/or Committee(s) and your length of service:

Yes, I have served on San Rafael City Boards and Commissions.

- Stand-in City Councilmember 2014-2020
- General Plan 2040 Steering Committee 2018-2020
- Park & Recreation Commissioner 2009-2018
- ADA / Accessibility Advisory Committee 2009-2018

1. Have you attended and/or participated in any civic meetings? If so, which ones and describe your participation.

Regular meetings of the Park and Recreation Commission, Commissioner/Chair 2009-2018

- Regular meetings of the ADA Accessibility Advisory Committee, Member 2009-2018
- Regular meetings of the General Plan 2040 Steering Committee, Member 2018-2020
- Chaired, City Hall Meeting for discussion and vote on the acquisition of Makin Grade Property, Stage Coach Road to Bolinas
- San Rafael Fire Department's Captain Selection Board, Civilian Member, interviewed and evaluated candidates for promotion
- Presenter at City Forum on Disability Rights and Responsibilities with the Center for Independent Living and Chamber of Commerce
- City Council Meetings (numerous), speaker, concerned resident, and accolades 2008-present

2. What do you consider to be the top 3 to 5 significant issues/priorities currently facing the City of San Rafael and why are they the most significant? What are your thoughts about how to address these issues?

1) COVID-19 has caused a risk to our physical safety with special threat to our seniors and residents with preexisting health issues. Local steps in conjunction with the County guidance, must be followed to provide the best defense along with the encouragement of vaccinations against the virus. This includes wearing masks; encouraging vaccinations, social distancing, regular hand washing; and reevaluating allowance for outdoor dining under safe and reasonable operations.

2) LOCAL ECONOMY - At the same time, our local businesses are suffering as a result of the shutdown. Restaurants, hospitality, and retail shops are going out of business. This affects not only the social aspect of our community, but job security, and is creating a blight of vacant store fronts and diminution in tax base. We need to be nimble, creative, and responsive to keep our residents safe and healthy as well as in protecting our small businesses, to sustain our economic and community vitality. As Exalted Ruler of the San Rafael Elks, my Board and I closed/restricted operations in conformance to the order. As a non-profit, we worked together, and continue to do so, to find creative ways to sustain our business operations so we can continue to meet the needs of our members and the community programs we support, e.g. veterans support; educational scholarships; food for needs programs.

3) CITY OF SAN RAFAEL BUDGET Restraints – For all our best intentions and desires to do good and be responsive to our community, the one thing all our endeavors have in common is the need to pay for them. We, through open and frank consideration will have to be particularly engaged in planning and prioritization of needs and abilities in our fiscal responsibilities to do more with less.

3. Name a specific City of San Rafael issue of special interest to you (other than the issue described in your response to question #2. Tell us what suggestions you have for addressing it.

Accessibility and Safety

Disability Accessibility - I am the past President of the State Board of Guide Dogs for the Blind Past President of the San Francisco Chapter of the National Federation of the Blind. I served on our San Rafael ADA / Accessibility Committee. I am acutely aware of the necessity for an active and engaged community forum as the place for our residents to discuss the potential hazards and concerns of our disabled citizens. Those of us directly affected are best to describe solutions for implementation by the city. For example, we need:

- ♣ greater accessibility for public transit,
- ♣ sidewalk repairs to eliminate tripping hazards and wheelchair safety
- ♣ appropriate curb cut-outs
- ♣ safer traffic intersection control.

Along with "Amarillo" my Guide Dog, I have had several dangerous encounters due to unsafe designated crossing locations. Additionally, as a matter of accessibility, many of the city documents and forms I have attempted to utilize are not ADA compliant for screen readers for visually impaired people. These are among the issues I can help correct if I am appointed to the Council.

4. What do you believe is the most important contribution you can make as a member of the City Council? What

strength do you think you would bring to the City Council team?

I possess extensive experience listening to community concerns and addressing the issues in a quasi-judicial capacity, providing attention, fairness, and redress.

We each have our own experience, talents, and abilities. Thus, we all bring something of value to the table in our common goal to make San Rafael an ever more wonderful place to live, for ourselves and future generations to come.

My personal contribution to the Council (if you select me) is based on a wide experience of Service to others and deliberative process in decision making.

5. Give an example of how you would resolve a situation where your personal philosophy is at odds with what is best for the City.

My heart is in public service and the best interest of our city.

I believe in a city policy based in equity, fairness, representation, and vitality.

For example, as a federal adjudications officer, I checked my personal beliefs at the door and made my decisions without personal passion or prejudice (disinterested, not uninterested) in the interest of equity and consistent application of the law and justice. Similarly, as a Council member, I will work in the city's interest in every question before us. In this spirit, together we will define opportunities and craft solutions in a genuinely collaborative manner. Problem definition is the key to any solution in the exercise of prudence and community.

You know me. I've dedicated the past eleven years of my life building community and civility, doing my part to make San Rafael an ever better place to live.

6.a Housing/Homelessness

Homelessness

The issue of homelessness is complicated. On the one hand, homeless people include those who are a paycheck away from recovery to those, on the other hand, who are chronically homeless. To name a few, Issues surrounding PTSD, substance abuse, mental health, family abandonment make the issue of homelessness that much more complicated.

Early on, I was a member of the Ritter Center Board and Thursday Morning Group which was directly involved in the development and implementation of the Streets Team program. We used the Streets Team model as developed by the City of Seattle WA and scaled it to match San Rafael. As a result of our work, the Streets Team program was adopted by the City and County. This program was the foundation for developing individual abilities, self-worth, dignity, and sense of responsibility and accomplishment. Building upon this same foundational work, the City, County, and local partners launched the Marin Homeless Outreach Team (HOT) in early 2016. Other Community Solutions such as Built for Zero were launched. Built for Zero is a national movement of over eighty communities who are working to end chronic and veteran homelessness by using a shared methodology and data standards.

Affordable Housing

Genuine Affordable housing is also complicated as it requires creative land use initiatives to address a variety of economic challenges. Land use policies need to be integrated into new projects and dispersed throughout the community. Done carefully and with the involvement of our many resident stakeholders, we will create a sustainable and a healthy balance of mixed housing options.

6.b Economic Recovery

San Rafael's quality of life and economic health are closely linked; each supports and benefits the other. Business is drawn to San Rafael by amenities such as parks, schools, and public safety services. In turn, these businesses generate taxes, fees, and revenues which help sustain government services. As this cycle has shaped San Rafael, the

economy itself has become one of the city's amenities. San Rafael offers an array of goods and services, convenient shopping, restaurants, health care, and entertainment, creating an environment that attracts new residents and new jobs.

The COVID-19 pandemic has significantly impacted San Rafael's businesses, residents, and workforce, with repercussions for City revenues and service delivery. In the short-term, strategies are needed to facilitate recovery and provide economic assistance. Longer-term, the impacts on commercial real estate, shopping, workplaces, commute patterns, and other aspects of San Rafael's economy will need to be monitored and addressed.

Overall, the local economy will ebb and flow, but the long-term goals remain relevant. These goals include a healthy and resilient economy, a diverse and balanced business mix, and distinctive business districts. Economic vitality goals are complemented by policies throughout the General Plan that support San Rafael's economic health, including land use compatibility, transportation efficiency, good urban design, and improved access to education and jobs for all residents.

6.c Climate Change/Sustainability

Climate change impacts both human and natural ecosystems. Our natural environment must be conserved in order for it to be able to provide use (Clarify) to our residents, visitors, and future generations. Management of our climate will need to be addressed through not just through caring for our natural environment and resources but also by ensuring our human use and impact on it does not erode it to the point that we cannot sustain or repair it. I would look to helping San Rafael/Marin and its residents to look at our existing and future footprint and programs and policies that support clean resources, such as air and water; green energy use; and reduction of waste that deteriorates our natural environment and resources for current and future use.

6.d Racial Justice

Systemic racial injustice pervades our society and community. Even here in our wonderful City, the prejudice of social and economic challenges disproportionately affect people of color.

Progress requires ongoing community outreach and open communication on every level of decision-making, with the participation of All in our community. Equitable communication must be increasingly developed through continued, transparent discussion with community involvement, advocacy programs, and advisory committees.

The City has committed itself to the federal initiative "Mayor Pledge" and created a Task Force to review San Rafael's policing policies as to the 8 Can't Wait, guidelines on use of force, which the Council adopted in August. I commend the SRPD and Former Chief Bishop for their dedication and commitment to these changes.

Racial Justice impacts nearly every facet of life and involves housing, criminal justice, health care, employment, education, among other issues. We must be committed to this community awareness as we work comprehensively with every level of government; Local State, and Federal, and with the private sectors to guarantee mutual participation to advance public safety, economic opportunity, and dignity.

6.e City Finances

Finance is the key driver in the development and execution of our City's mission. The COVID-19 virus has detrimentally affected revenue collection throughout our community, leaving the City with a \$2.8M deficit and requiring the City to draw from its Emergency Funds. The City will need to reprioritize expenses dedicated to the development and maintenance of the City and its resources, and it will be essential that the reprioritization does not debilitate key services to our residents, and to the safety of our community. Looking at other ways to increase revenue is definitely going to be a challenge as COVID-19 continues to shutter our businesses from fully operating and bringing people in to shop, dine, and utilize our commerce centers. As the City recently has increased its Sales Use tax income, under Measure E, such will help but may take longer to realize while our businesses and commerce centers are under used. It will be important that all City Departments and City and Community leaders/stakeholders collaborate to make difficult decisions on what short term actions are needed to continue to keep our City in an acceptable operating state.

6.f Transportation, Transit, and Traffic

Efficient and effective mobility and access plans will help make our City accomplish many goals. Environmental quality can be greatly improved by the use of public transportation, cutting down on greenhouse gas emissions thus conforming to ecological justice and helping to reduce climate change. Economic vitality relies on a successful transportation network. This will not only help make travel more efficient, but again help on the aforementioned Environmental quality benefits. Furthermore, efficient access to and from key centers and supportive parking, as well as parallel public transportation routes to and from, will enhance the use of the areas and help grow these centers into a successful marketplace. Social equity can be further enhanced with the implementation of inexpensive modes of public transportation that are also more easily and readily available at time of need. Allowing for better navigation pathways that connects all points of our City will help people receive the services of our city more easily and cleanly. As San Rafael is a central thoroughfare to other areas/cities of Marin, management of the heavy traffic and patterns has to be balanced with safety between vehicles; pedestrians; and non-motorized transportation methods. This will be something that San Rafael and our neighboring communities must keep engaged in as we look to further develop our specific neighborhoods and commerce centers.

7. Why do you think you are the most qualified candidate to be appointed to the City Council?

My greatest vision is listening. I offer a vast array of experience in collegial, deliberative analysis to reach fair, equitable, and sustainable solutions. This, combined with my positive disposition, social engagement, numerous community activities, and deep civic commitment, qualify me well for inclusion with you on the San Rafael City Council.

Estimado(a) City Clerk Lindsay Lara,

(Esta es una comunicación bilingüe)

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Estimado(a) City Clerk Lindsay Lara,

(Esta es una comunicación bilingüe)

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,
Esteban Jarillo

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,
Gramajo Francisco

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,
Levi Hernández

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,
Leydi Briceno

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,
Margo Leardini

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,
Maria Aguire

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,
Martha Morales

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,
Marvin Mejia

Estimado(a) City Clerk Lindsay Lara,

(Esta es una comunicación bilingüe)

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Estimado(a) City Clerk Lindsay Lara,

(Esta es una comunicación bilingüe)

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,
Susan Peters

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,
Yenifer Lopez

We Need Bold, Innovative Actions for Pandemic Survival and Recovery Now

Yolanda Oviedo <Yolanda.Oviedo.404244813@p2a.co>

To: Lindsay Lara <Lindsay.Lara@cityofsanrafael.org>

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,
Yolanda Oviedo
