To: Lindsay Lara <Lindsay.Lara@cityofsanrafael.org>

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,  
Angelica Ordóñez

---

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

Regards/Saludos,  
Blanca Salinas

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.

Los insto a buscar una manera de implementar un congelamiento de renta inmediato y promulgar mayores protecciones contra desalojos en todo el condado.

Únase a nosotros en esta campaña para una recuperación rápida, segura y viable.

To: Lindsay Lara <Lindsay.Lara@cityofsanrafael.org>

Dear City Clerk Lindsay Lara,

I urge you to immediately enact a rent freeze and put a stop to evictions during the pandemic.

It is imperative that we act with courage and conviction, in bold and proactive policy implementation.

You know the devastating impacts that the pandemic and the shelter-in-place policies have had on low-income families, essential workers, and residential & commercial landowners in our community and across the county. We need emergency measures at the local level to protect our families and businesses.

Recovery is inextricably linked across communities and sectors; only together can we rise to the challenge and achieve stability and recovery. Residents rely on businesses for employment and on landowners for housing; businesses rely on residents as employees and customers, and landowners rely on residents and businesses as tenants.

There is no emergency greater now—we must keep people housed for us all to be healthy. In Marin County, over 10,000 households are at imminent risk of eviction after January 31st when the moratorium ends. This will devastate families and will bring a major spike in COVID cases.

This is the time for bold, extraordinary, and proactive policies that protect our shared well-being. We need bold and innovative policies. According to economists, and experts in public health and housing, the most effective and urgent policies for recovery and stability are to implement a rent freeze and extend eviction protections.

I urge you to look for a way to implement an immediate rent freeze and enact greater eviction protections across the county.

Join us in this campaign for a rapid, safe, and viable recovery.

Regards,  
Jessica Marker

---

Le insto a que promulgue inmediatamente una congelación de alquileres y ponga fin a los desalojos durante la pandemia.

Es imperativo que actuemos con valentía y convicción en la implementación de políticas audaces y proactivas.

Usted conoce el devastador impacto que la pandemia y las políticas de refugio en el hogar han tenido en familias de bajos ingresos, trabajadores esenciales y propietarios de terrenos residenciales y comerciales en nuestra comunidad y en todo el condado. Necesitamos medidas de emergencia a nivel local para proteger a nuestras familias y empresas.

La recuperación está indisolublemente conectada entre comunidades y actividades; sólo juntos podemos hacer frente al desafío y lograr la estabilidad y la recuperación. Los residentes dependen de las empresas para obtener empleo y de los propietarios para la vivienda; las empresas dependen de los residentes como empleados y clientes, y los propietarios dependen de los residentes y las empresas como inquilinos.

No hay una emergencia más grande ahora: debemos mantener a las personas en hogares para que todos estemos saludables. En el condado de Marin, más de 10,000 hogares corren un riesgo inminente de desalojo después del 31 de enero, cuando finaliza la moratoria. Esto devastará a las familias y traerá un aumento importante en los casos de COVID.

Este es el momento de adoptar políticas audaces, extraordinarias y proactivas que protejan nuestro bienestar compartido. Necesitamos políticas audaces e innovadoras. Según economistas y expertos en salud pública y vivienda, las políticas más efectivas y urgentes para la recuperación y la estabilidad son implementar un congelamiento de alquileres y extender las protecciones contra desalojos.
