**Subject:** Hillside Exception at 52/54 Fremont

I am eager to weigh in with complete support of Victoria DeWitt's letter dated 2-16-21 to the City Council for agenda item 6.a. at tonight's meeting regarding hillside exceptions being considered for 52/54 Fremont.

I am opposed to the suggested downgrading of Hillside Exceptions (SRMC 14.12.040) from the City Council to the Planning Commission, and urge the recognition of the special needs/access/egress of this area to be considered.

I request that my concerns be included in public comment at this evening's meeting.

Please feel free to contact me if you need further information

**Subject:** Re: Hillside Exception process proposed changes (SRMC 14.12.040)

Ms. Lindsay,  
As a homeowner on a narrow hillside street in the West End, I oppose the proposed changes to the Hillside Exception process (SRMC 14.12.040) to downgrade the approval from the City Council to the Planning Commission. This change would remove a critical opportunity for public input on exceptions that could impact neighborhood safety, including slope stability and emergency egress. Please oppose these changes at the Council meeting tonight.

Thank you for reviewing my comment.

Sincerely,

Liza Wozniak
