Subject: Please do not extend the eviction moratorium until September

Mr. Epstein,

Please do not allow the city council to extend the eviction moratorium.

We worked our entire lives to own one single family home in San Rafael. Now someone is living in our home for free.

We need this rental income to live. What are we supposed to live on?

We were hanging on until July 1. This is devastating.

This is bankrupting us. This is simply unconstitutional!!!

Subject: Support for Extension of Eviction Moratorium

Hi Rachel,

Please relay this message to the rest of the city council:

We need to support the extension of the eviction moratorium so that the most vulnerable members of San Rafael have a chance to get on their feet financially.

As a leader in MOC, I've heard a lot of stories of stress especially from the LatinX community.

A valued member of our MOC team just lost some of her cleaning business clients who are middle class seniors, but who moved away because they can't afford to live in Marin on a fixed income. She is now racing to find new work so that she can afford her rent and back rent to boot.

Many people need more time to become more fiscally sound and so please extend the eviction moratorium to at least the end of this calendar year.

Thank you.

Sincerely,

Linda Haumann

MOC, Affordable Housing Team Co-Chair
