Subject: Child Care Employees!

We, Merly Diaz, Katherine Ciudadano, and Jesica Calderon have been working for the Child Care Department at Vallecito Elementary School for 3+ years now. We are all dedicated to our jobs and enjoy it immensely, and although we are considered to be essential workers in the community we do not feel we are appreciated enough and compensated at all for all our sincere efforts. For example Merly Diaz was right at the front lines when Covid hit and was working without any hazard pay while other essential workers were compensated 40+ dollars a day, she received nothing as hazard pay although she was exposed everyday... If the Child Care Department would like to continue being an asset to the community we all **need better pay and benefits**. We hope you take our concerns seriously.

Sincerely,
Merly D, Katherine C, and Jesica C
