**Subject:** Marin Sanitary Service, Public Comment for Agenda Item 6.a on behalf of Patty Garbarino

Marin Sanitary Service is here today available for any questions. We have Patty and Joe Garbarino along with our CFO, Jason Raleigh, Government Affairs Manager, Ruben Hernandez and Director of Operations, Justin Wilcock. We continue to be grateful to the City of San Rafael for our partnership and for the opportunity to collect waste materials within the city and process them to their highest and best use. We are optimistic in our ability to implement the SB 1383 requirements that are included in the Amendment tonight. We thank the council for hearing our rate review and our ability to continue offering the services we do.

Thank you,

**Justin Wilcock**
