Subject: FW: EIR Review Meeting Sept 13 regarding Alderlsy/326 Mission

Dear Commissioners,

Follow up communication to this week's meeting.

Subject: EIR Review Meeting Sept 13 regarding Alderlsy/326 Mission

To Jayni Allsep and members of the Planning Commission,

Thank you, Ms Allsep, for your clear and concise presentation of the EIR last night! Also thanks to the Planning Commission members for your thoughtful attention to the project. Thank you, too, for getting a printed copy of the EIR made available to the residents at Aldersley.

I attended the meeting on Zoom at Aldersly, and want to let you know that there were 20 current residents of Aldersly assembled to watch the meeting in Hendrix Hall (and perhaps others in their apartments?). The residents watched with intense interest, but because of a problem with the sound, were following the meeting via captioning, and were not able to make comments in the public comment time. I hope that any resident who wishes to submit comments will do so before the public comment period ends Sept 30. I will pass on information about replay of the meeting on YouTube and/or Marin Government TV, if you can provide that information.

The community is well served by the public service you provide
Sincerely,
Julie F. [REDACTED]
