ABOUT OUR CITY

We are a 21st century government,
making City services easy to use
and work for everyone.

OUR PURPOSE

INTRODUCTION

The City of San Rafael Goals and Objectives FY 23-24 and FY 24-25 document outlines the City's strategic priorities and initiatives for the upcoming two fiscal years. The document is divided into four key policy focus areas: Economic Growth; Diversity, Equity, Inclusion and Belonging; Sustainability, Climate Change, & Disaster Preparedness; and Housing and Homelessness. Goals are further broken down into City Service Areas.

While each of these areas represents a distinct policy focus, they are interrelated and affect each other in significant ways, so although we have categorized them, some goals have the potential to fall into several areas. By recognizing the potential overlap between goals and policy areas, the City can develop more integrated and effective strategies to achieve our objectives. This approach helps to avoid siloed thinking and encourages collaboration across City departments and community stakeholders to achieve identified goals.

The City of San Rafael is committed to its work implementing environmentally sustainable practices, promoting affordable housing, supporting local businesses, improving public safety, livable neighborhoods, efficient and effective City services, transportation, recreational opportunities, responsive governance, and leadership, and ensuring equitable access to all City services.

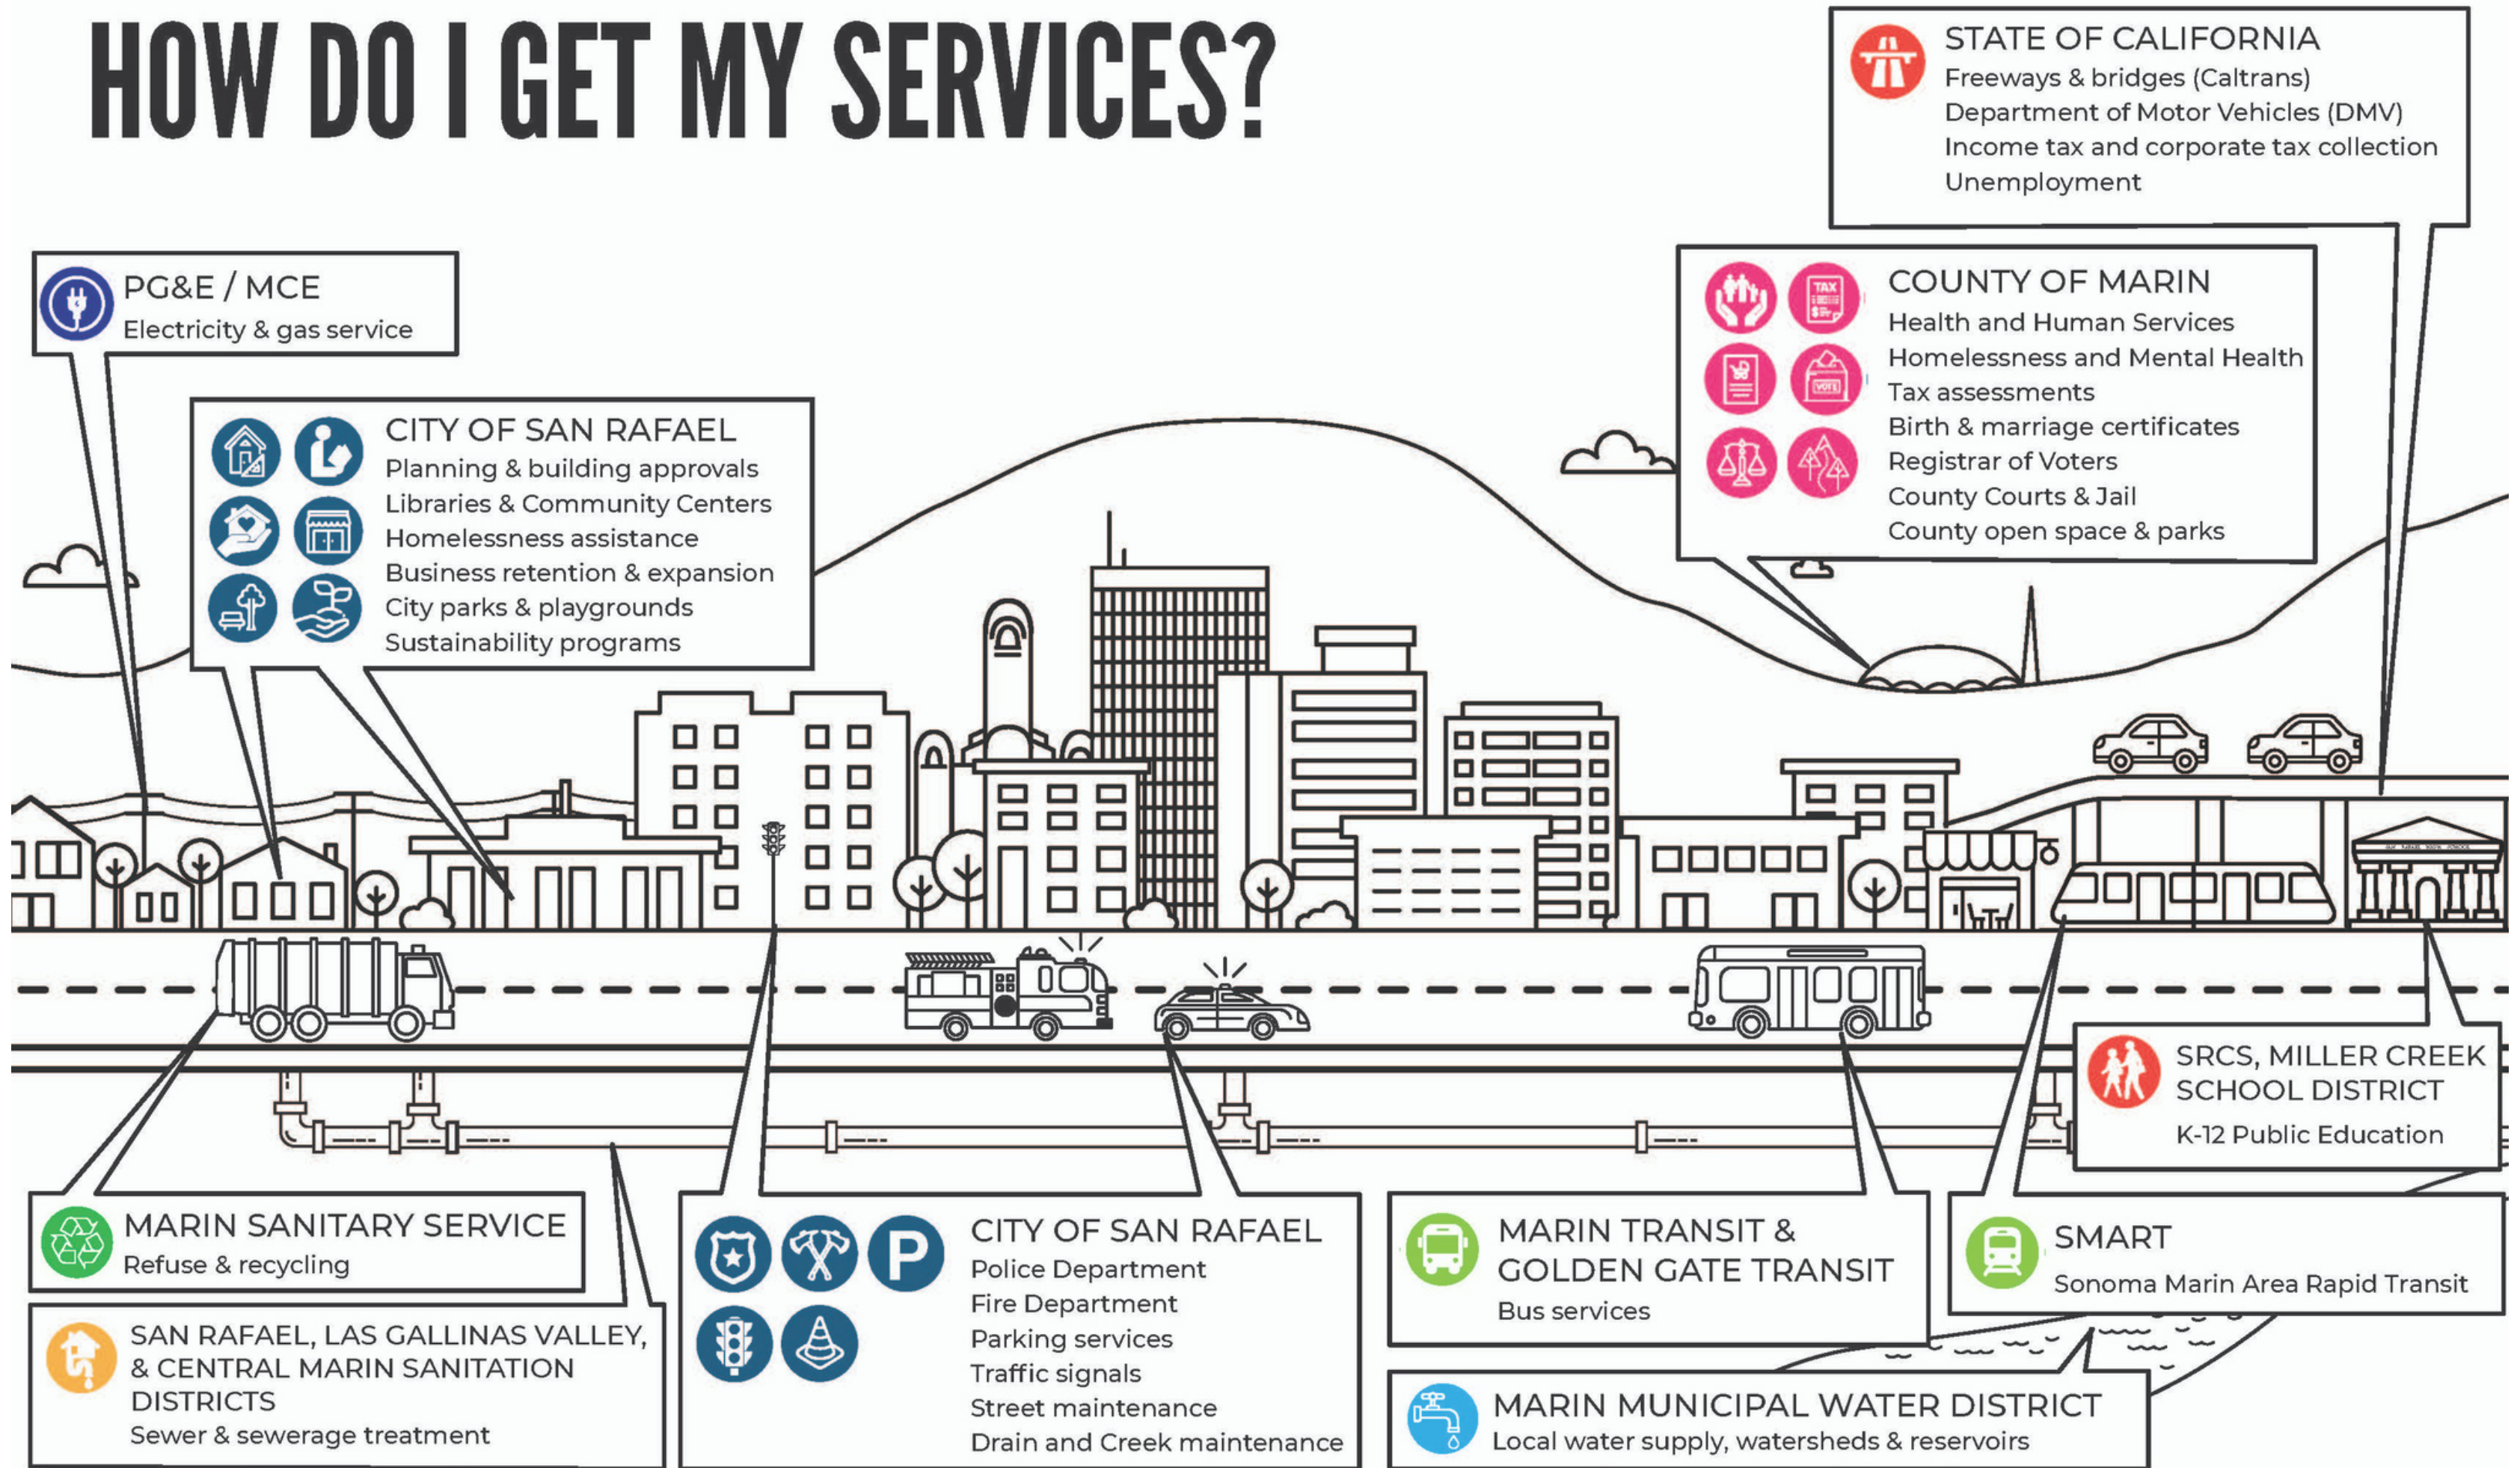

The City of San Rafael provides a comprehensive range of municipal services in-house, making it a "full service" City. Since our services are primarily provided by people, 75% of our overall expenditures go towards City staff. Our employees perform a wide variety of tasks, including emergency response, community programming, streets and parks maintenance, safety inspections, and more.

The City's primary limitation is financial resources. Sales and property taxes are our biggest revenue source. However, the bulk of these taxes are allocated to entities such as the State of California, the County of Marin, schools, and transit agencies. As a result, our goals and aspirations must be balanced against our financial responsibilities.

The City recognizes that these goals cannot be achieved in a vacuum. The City will continue to partner and engage with residents, business owners, community groups, and other stakeholders to ensure that its priorities reflect the needs and aspirations of the community. Partnering to achieve the best outcomes for our residents.

The City is implementing a performance measurement approach to track progress towards the priorities stated in this document. The goals of our performance measurement program are to:

- Track the City's progress on targets set in key policy areas
- Track the outcomes of activities conducted by the City
- Use the metrics and relevant data to help inform decision-making, progress towards our goals and objectives, and improve outcomes.

In 2022, the City Council approved 15 key metrics to track the City's progress towards the goals and objectives within the policy focus areas.

In FY 2022-2023, the City collected data related to each metric, established a baseline for the metric, and trendlines. Performance measurement dashboards were created and presented to Council through the budget and goal setting process. Summary findings and public dashboards are available on the City website.

www.cityofsanrafael.org/performance-metrics

Over the course of the next year we will continue to align metrics, targets, and goal setting to make sure the City is measuring the right things that show progress in key policy areas. Over the course of the next few years the City will:

- **Revise Metrics:** Evaluate and revise the current set of metrics to better capture the City's priorities, and develop a mapping of department goals and objectives to these metrics.
- **Choose targets:** Assign targets for each metric based on the estimated budget and staff time spent on related projects, and the relative importance of each of the goals and objectives
- **Integrate Performance Measurement into existing processes:** Leverage performance metrics and additional data to support staff, department directors, and Council in their decision-making to ultimately improve outcomes.
