**Cc:** Skye Salama [REDACTED]  
**Subject:** Re: ADA Access Advisory Committee

Hello, I am reaching out because I recently became acquainted with Skye Salama through their desire to create a more inclusive and accessible community. I just wanted to send a brief note to offer my support for Skye's consideration for the Committee. I believe having a motivated young adult with lived experience as a neurodivergent individual would be very valuable to the committee and its work. The neurodivergent experience ranges on a vast spectrum so the more perspectives, the better.

Thank you ,
