

***FREE* Juniper Chipping and Collection Program!**

The San Rafael Fire Department is sponsoring a program to help reduce the fuel load and provide better defensible space around your home.

The City of San Rafael adopted an Ordinance with Vegetation Management Standards for parcels located in designated Wildland-Urban Interface (WUI) areas. The WUI Ordinance requires the creation of defensible Space around homes that are located in the high fire hazard areas.

Here's how:

- Step 1:** Have your contractor cut the juniper and other woody plants in your yard.
- Step 2:** Contact the Vegetation Program Volunteer from the City of San Rafael and set up a date and time for him to come to your property, chip your brush, and haul it away – at no expense to you!

For more information and to schedule a chipper/pick-up:
