INTRODUCTION

As part of the annual budget development process, Santa Ana City Council adopts a one –year Capital budget and seven-year financial spending plan which comprises the City’s Capital Improvement Plan (CIP) in June each year.

A Capital Improvement project either installs a new asset or extends the useful life of an existing asset. Examples include the acquisition of land; construction, expansion, or major renovation of City infrastructure such as roads, buildings, storm drains, and parks. To qualify for the CIP, a project must have an estimated useful life of at least two years following the date of acquisition, meet the minimum dollar threshold criteria for capitalization **AND** meet one of the following criteria:

- New funding is appropriated to a new project
- Existing funding is reallocated to either an existing or new project
- Additional funding is appropriated to an existing project. This condition only applies if a project’s scope and budget are significantly different or expanded.

Projects already funded, along with routine/ongoing capital purchases and minor maintenance projects are not always included in the CIP.

CIP projects are reviewed for alignment with the City’ Five Strategic Priorities. Strategic Priorities ensure resources are properly distributed and services programmed to best serve our community. The development of these priorities emerged from City data, interviews with Councilmembers, collaboration with the executive management team and public input sessions.

Along with the development of the Strategic Plan, CIP development, adoption and implementation of the CIP is an inclusive and transparent process. The community provides input and assists with the prioritization of projects via the Planning Commission, Sunshine Ordinance Budget Meetings, and various neighborhood forums.

The Public Works Agency continuously identifies the City's capital needs through the following assessment/evaluation programs and various master plans:

- ADA Transition Plan
- Active Transportation Plan (ATP)
- Complete Street Plans
- Downtown/Central Santa Ana Complete Street Plans
- General Plan
- Hazard Mitigation Plan
- Local Signal Synchronization Plan (LSSP)
- Parks & Recreation Master Plan
- Pavement Management Program (PMP)
- SafeMobility Santa Ana
- Safe Routes to School Plan
- Santa Ana Zoo Master Development Plan
- Storm Drain Master Plan (SMDP)
- Water, Sewer and Recycled Water Master Plans
- Water, Recycled Water and Sewer Rate Study

Santiago Park Gas House Area

DEPARTMENT ROLES

Community Development Agency (CDA)

- Provides economic development services, job training, affordable housing, and downtown development
- Administers a significant funding source of the annual CIP- the Community Development Block Grant (CDBG)

Finance and Management Services Agency (FMSA)

- Coordinates Operating/Capital Budget Calendar and annual budget development process
- Compiles and edits Budget Book and CIP Documents (Operating and Capital) for City Council review and adoption
- Ensures CIP information reconciles with Operating Budget

Planning & Building Agency (PBA)

- Developing General Plan
- Implementing state and local construction codes
- Planning and regulation of future land uses

Public Works Agency (PWA)

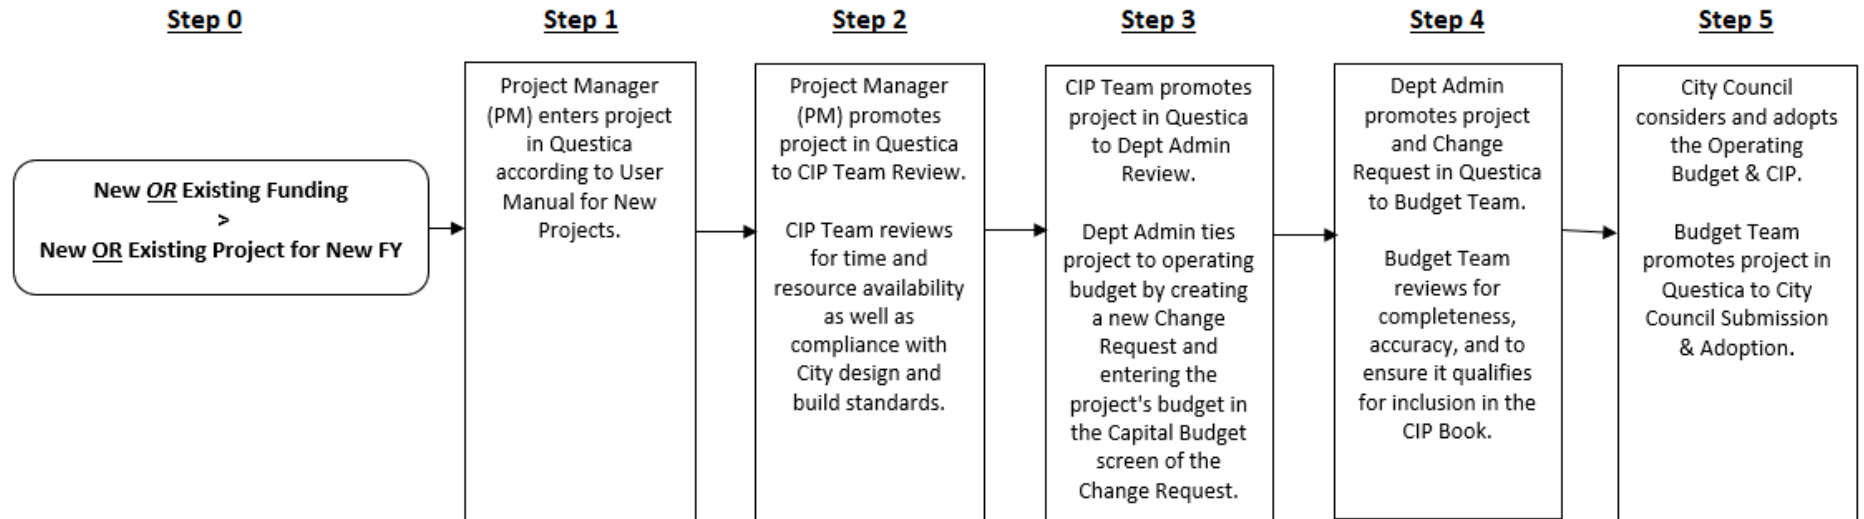

- Plans, designs, builds and repairs capital projects in the community, including infrastructure, right of way and utility systems utilizing various master plans as well as the Community's General Plan
- CIP Engineering (and other PWA departments) submits PWA project requests into the Questica Capital Module
- Administration Group reviews and approves funding in the Questica Operating Module
- Reviews and approves other departments CIP project requests to ensure projects align with funding sources and City standards
- Identifies and development CIP projects for 7 years, including unfunded projects
- Utilizes Questica Capital Module to approve CIP projects as submitted to include in the annual CIP Book.
- Develop presentation for Community Budget Forums and City Council Meetings
- Present proposed CIP Book to Planning Commission

THIS PAGE INTENTIONALLY LEFT BLANK

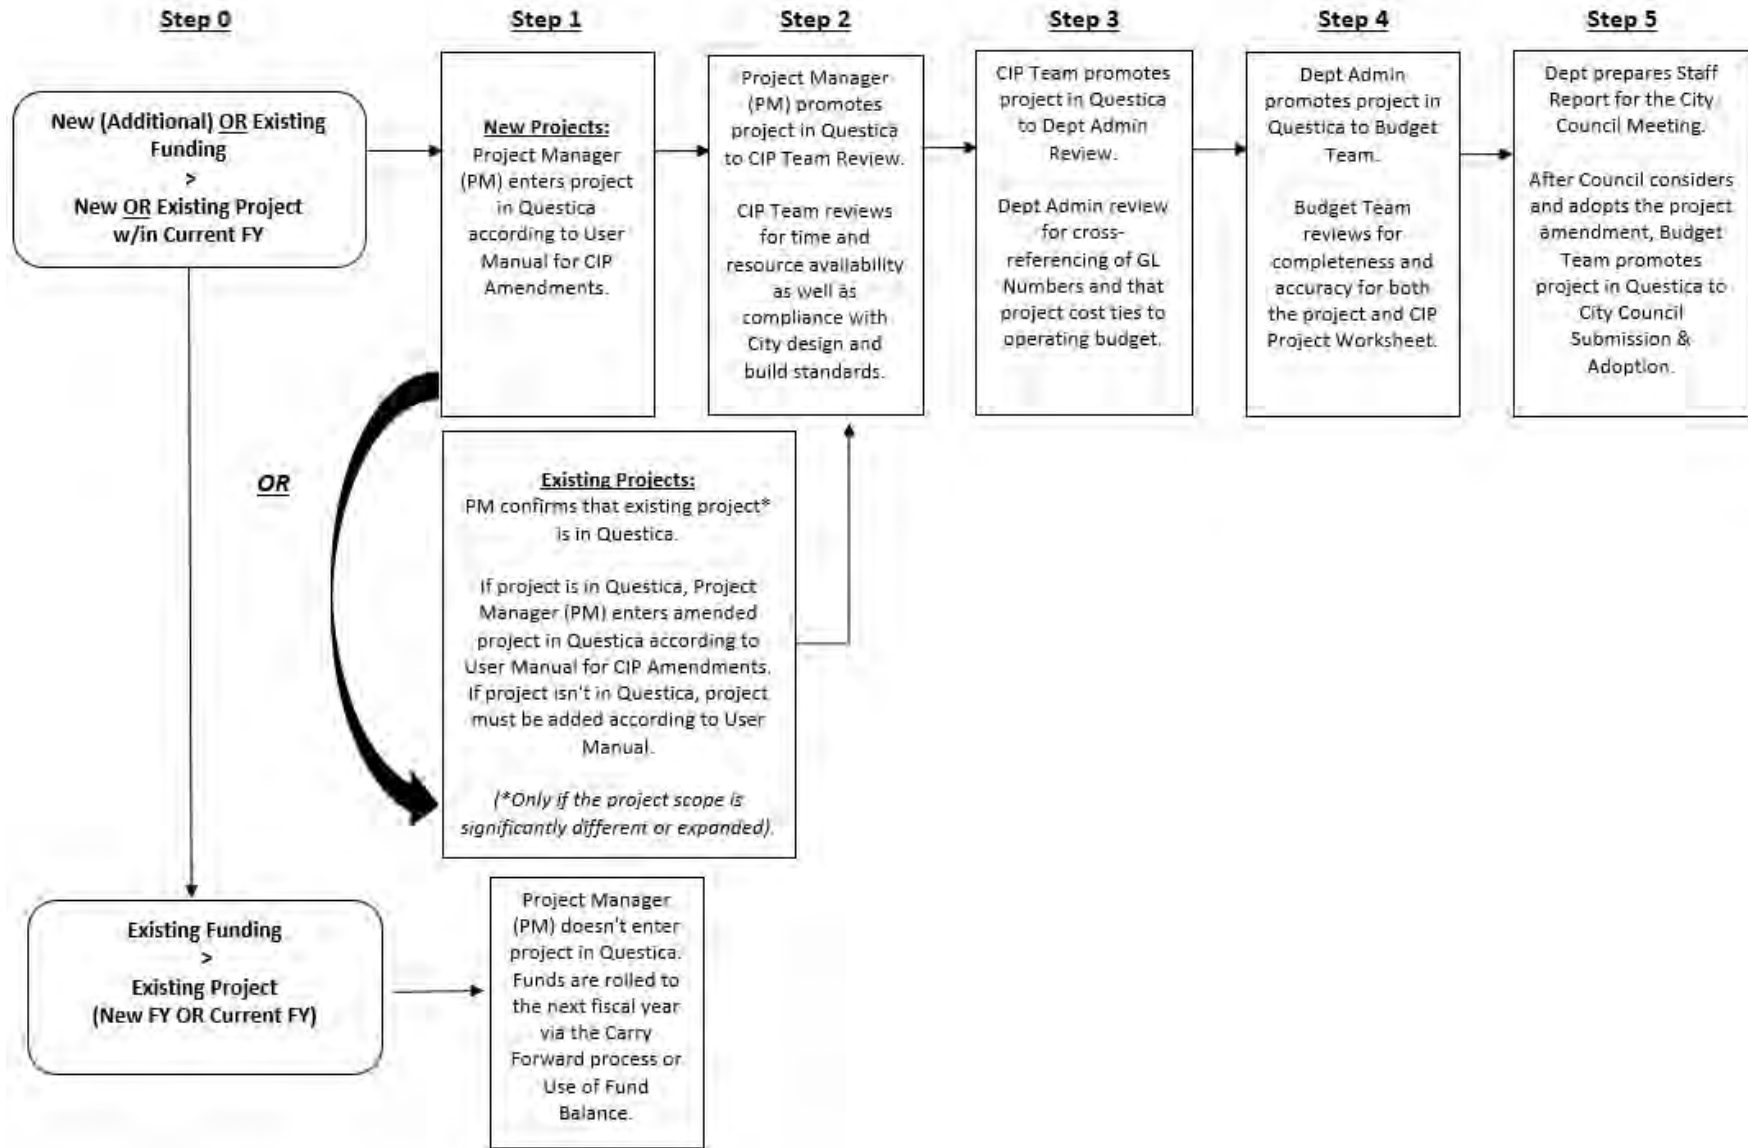

Preparing New Fiscal Year CIP Original Budget

Before Original CIP Budget is Adopted

Post Adopted CIP Amendments

Amending the CIP After Adoption

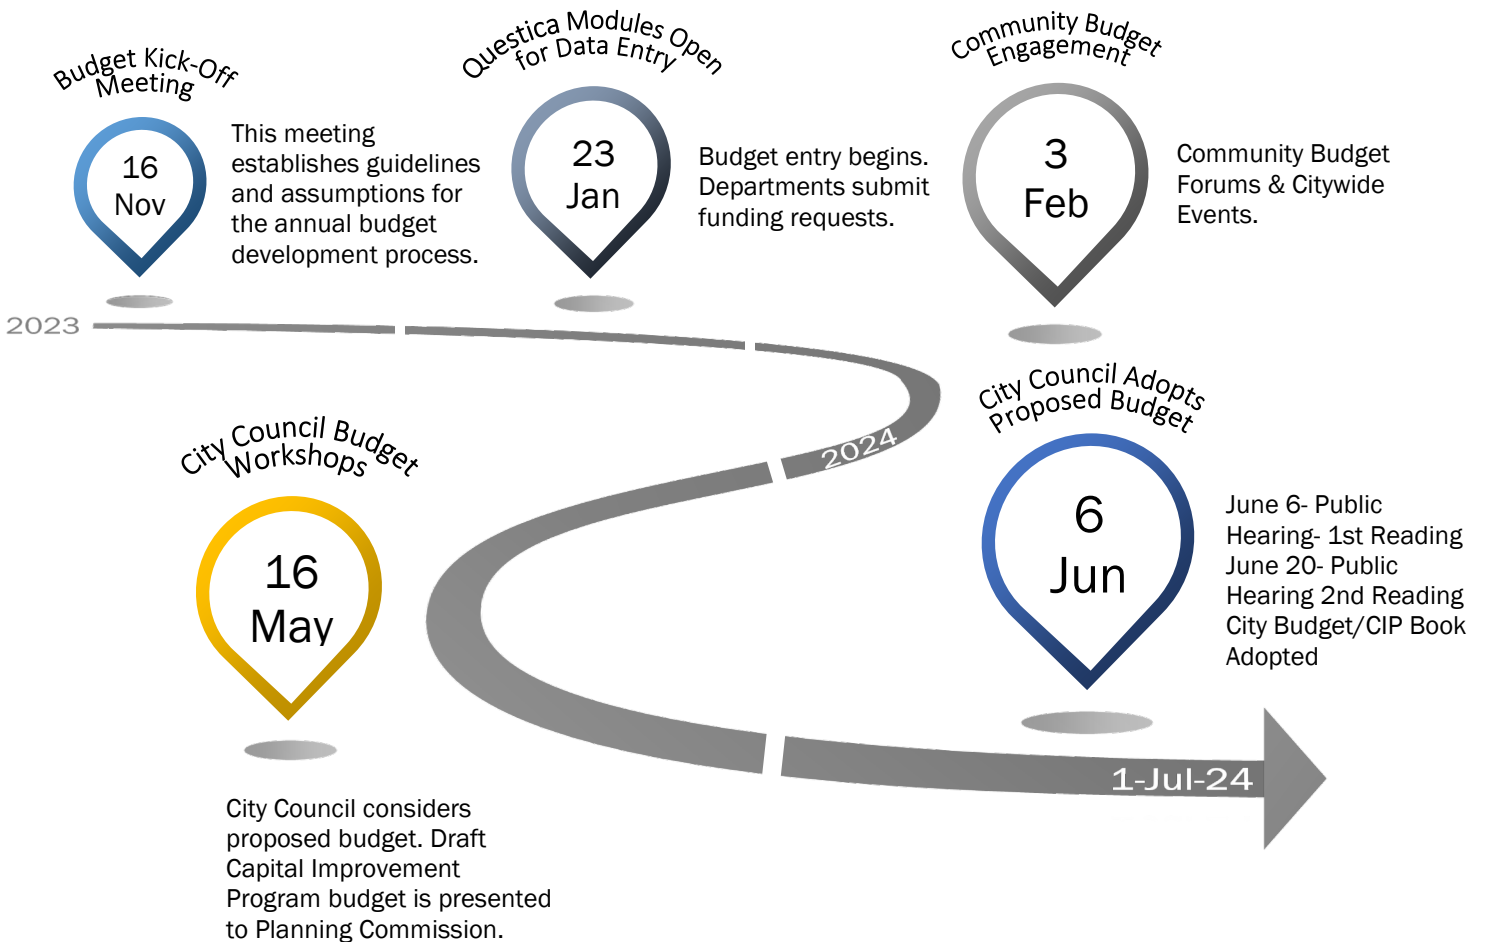

PRIORITIZATION PROCESS

Projects identified in this plan primarily meet an asset management goal and/or include one or more of the following indicators:

TIMELINE FOR CIP ADOPTION & IMPLEMENTATION

CIP AMENDMENTS

The CIP may be amended at any time through City Council approval. Project budgets are tracked in the City's financial system and are revised as the project evolves. Criteria for amendments generally include project additions and/or significant changes in a project's scope and budget.

PROJECT CATEGORIES

This document is organized by classification of infrastructure or facility, with funded projects listed before unfunded projects. Funded project descriptions include detailed information such as maps, timelines, project cost estimates, recurring maintenance costs, and estimated useful life. Unfunded project descriptions may include only basic information such as general location and potential cost ranges.

For each category of infrastructure and facility, the City periodically updates a long-term master plan. Examples include the Pavement Management Program, the Parks Master Plan, and the Water, Recycled Water, & Sewer Rate Study. These master plans outline recommendations for annual investment in the City's capital assets, including identification and prioritization of specific improvement projects.

CIP Projects fall into one of the four broad categories:

1. Streets- Street Improvements include projects designed to improve pavement conditions, sidewalks and alleys.
2. Traffic – Traffic Improvements are designed to evaluate and decrease traffic collisions and congestion, identify and map safe routes to schools, and provide walkable and bike-able streets.
3. Utility/Drainage/Lighting- Utility, Drainage and Lighting Improvements ensures that projects support the continued delivery of water and sanitary sewer services to the City's customers, addresses the aging storm drain system and reduces storm water runoff.
4. City & Park Facilities- The City is responsible for identifying deferred maintenance and capital projects to support new facilities in addition to existing City facilities such as City Hall, Ross Annex, forty-seven (47) parks, ten (10) community centers, ten (10) fitness courts, seven (7) recreation trails, five (5) swimming pools, four (4) community gardens, two (2) senior centers, two (2) log cabins, two (2) skate parks, two (2) lakes, one (1) tennis center, one (1) stadium and the Santa Ana Zoo.

**CITY OF SANTA ANA FY 24/25CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Alley Improvement Program

PROJECT CATEGORY:
*Street Improvements
Alley Rehabilitation*

PROJECT DESCRIPTION:

This project will provide for the removal of existing damaged pavement and reconstruction with Portland Cement Concrete (PCC) for alleys citywide.

PROJECT NEED:

The Citywide network of Portland Cement Concrete (PCC) and asphalt alleys is in extreme state of deterioration with the presence of numerous potholes, cracking, spalling, and uplifting. PCC pavement will eliminate the drainage problems associated with the asphalt pavement and provide a longer life for the alleys.

CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Bedford Rd Rehab: Main Place to North City Limit

PROJECT CATEGORY:
*Street Improvements
Arterial Street Rehabilitation*

PROJECT DESCRIPTION:
Reconstruction/resurfacing of existing pavement and replacement/installation of missing or damaged, curbs, gutters, sidewalks, driveway approaches, and wheelchair ramps within this segment of roadway.

PROJECT NEED:
The City's Pavement Management Program (PMP) has been developed to prioritize and recommend the most cost-effective roadway repairs, and maximize the return from available funding for street pavement. This segment of Bedford Road pavement rehabilitation is identified as a high priority in the PMP.

Bridge Preventative Maintenance Program (BPMP)

PROJECT CATEGORY:
*Street Improvements
Street/Bridge Improvements & Widening*

PROJECT DESCRIPTION:
Eight (8) bridges are eligible for preventative maintenance work under the Bridge Preventative Maintenance Program (BPMP) guidelines.

PROJECT NEED:
Caltrans performs bridge inspections and provides the Bridge Inspection Report to the City. The inspection report identifies the deficiencies of each bridge that needs maintenance. It is the City's responsibility to maintain the bridges and repair the deficiencies to prevent future deterioration.

CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Bristol St & Memory Ln Intersection Widening

PROJECT CATEGORY:
*Street Improvements
Street/Bridge Improvements & Widening*

PROJECT DESCRIPTION:
The proposed improvements would involve the widening of Bristol Street just north of Memory Lane to accommodate an additional through southbound lane. Additionally, the proposed improvements would include the construction of sidewalk, curb and gutter, pavement, signal modification, and curb ramps.

PROJECT NEED:
Bristol Street north of Memory Lane has three southbound lanes except at the intersection where only two southbound and one right turn lane exist. An additional southbound through lane is needed to complete the City's plan to widen Bristol Street from Warner Avenue to Memory Lane on the north, which was approved by City Council in 1990 and re-evaluated in 2001.

**CITY OF SANTA ANA FY 24/25CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:

*Bristol St Improvements & Widening:
Phase 4 - Warner -St Andrew*

PROJECT CATEGORY:

*Street Improvements
Street/Bridge Improvements &
Widening*

PROJECT DESCRIPTION:

The Bristol Street Improvements project was planned and designed to incorporate complete street concepts with storm water quality features. The improvements include widening of the street from four lanes to six lanes, with bus turnouts, raised median, bike lanes, enhanced storm drain system, and sound walls. The project also brings native and organic landscaping that beautifies a fully developed urban area.

PROJECT NEED:

Bristol Street from Warner Avenue to St. Andrew Place (Phase 4) is part of the City's plan to widen Bristol Street from Warner Avenue to Memory Lane, which was approved by City Council in 1990 and reevaluated in 2015. Existing roadway has only 2 lanes in each direction and is operating at a Level of Service (LOS) F. This widening is needed to improve traffic flow and create complete streets features.

Civic Center Rehab: Minter to Santiago

PROJECT CATEGORY:
*Street Improvements
Arterial Street Rehabilitation*

PROJECT DESCRIPTION:
Reconstruction/resurfacing of existing pavement and replacement/installation of missing or damaged, curbs, gutters, sidewalks, driveway approaches, and wheelchair ramps within along Civic Center between Minter and Santiago.

PROJECT NEED:
This segment of roadway has been identified as a high priority by the City's Pavement Management System. The pavement is deteriorating due to the weather, age, and heavy usage. Some of the adjacent curbs, gutters, driveway approaches, curb ramps, and sidewalks are also in various states of disrepair and require replacement.

**CITY OF SANTA ANA FY 24/25CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Industrial Street Repair Program

PROJECT CATEGORY:
*Street Improvements
Local Street Resurfacing*

PROJECT DESCRIPTION:

This project entails the rehabilitation of existing roadway pavement for industrial streets. The project will include the removal and replacement of existing asphalt streets. Various replacement pavement strategies will be investigated to determine the most cost effective and maintainable treatment. Minor concrete repair to severely damaged or missing curbs, gutters, sidewalks, and wheelchair ramps will also be included.

PROJECT NEED:

The interior roadway of non-residential street has been identified as priority by the City's Pavement Management System. The pavement is deteriorating due to weather, age, and heavy usage.

CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Local Street Preventative Maintenance

PROJECT CATEGORY:
*Street Improvements
Local Street Resurfacing*

PROJECT DESCRIPTION:
This project provides for the application of crack seal and slurry seal to various streets citywide with minor coldmill and removal and replacement of asphalt concrete pavement.

PROJECT NEED:
The City's Pavement Management Program has been developed to identify the preventative maintenance requirements for the City's street network. The application of a surface seal to streets with improvements constructed in the last 10 years will ensure a high level of service for years to come.

CAPITAL IMPROVEMENT PROJECT WORKSHEET**

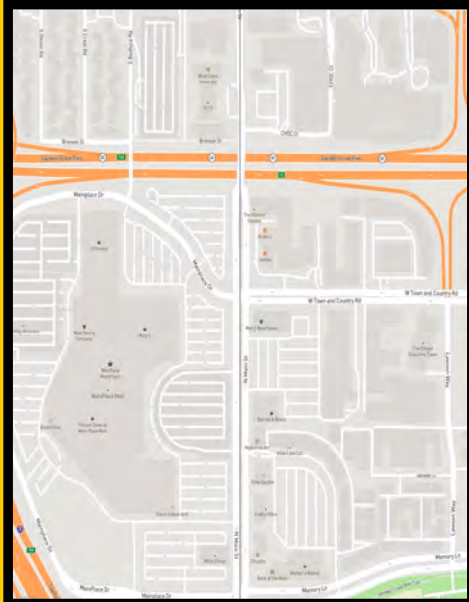

PROJECT TITLE:
Pavement Management

PROJECT CATEGORY:
*Street Improvements
Planning*

PROJECT DESCRIPTION:
The City's Pavement Management System was first prepared in 1992. This project provides for a Citywide inventory of street pavement to identify any changes in condition and record any damage.

PROJECT NEED:
The Pavement Management System (PMS) should be current and updated in order to better program projects for the City's CIP and to understand the total deferred maintenance of the network for budgeting purposes. Also, OCTA requires updated PMS reports to continue the City's eligibility for Measure M funds.

PROJECT TITLE:
Project Development

PROJECT CATEGORY:
*Street Improvements
Planning*

PROJECT DESCRIPTION:
Includes staff coordination related to grant application and submittal. Project Development also entails staff response to City Council, resident, and business inquiries. This includes planning, environmental, preliminary engineering, and right-of-way.

PROJECT NEED:
Staff consistently applies for grant funding to implement the Capital Improvement Program. A significant amount of staff effort is expended in analyzing a project to determine its feasibility and competitiveness. In addition, staff participates in various regional inter-agency forums and responds to Council, resident, and business inquiries.

Raitt St Rehab: McFadden to 1st

PROJECT CATEGORY:
*Street Improvements
Arterial Street Rehabilitation*

PROJECT DESCRIPTION:
Reconstruction/resurfacing of existing pavement and replacement/installation of missing or damaged, curbs, gutters, sidewalks, driveway approaches, and wheelchair ramps within this segment of roadway.

PROJECT NEED:
The City's Pavement Management Program has been developed to identify total deferred maintenance requirements for the City's arterial network and to move toward preventative maintenance. As one of the City's arterial streets, Raitt Street pavement rehabilitation is identified as a high priority in the Pavement Management Program.

PROJECT TITLE:
Right-of-Way Management

PROJECT CATEGORY:
*Street Improvements
Planning*

PROJECT DESCRIPTION:
This project provides for the management and administration of right-of-way acquisitions/real estate transactions, which requires coordination of activities with the City Attorney's Office and other agencies.

PROJECT NEED:
Each fiscal year, the Public Works Agency undertakes several roadway widening projects which require right-of-way acquisitions. Additionally, the Public Works Agency is responsible for maintaining and coordinating all real estate activities (i.e., City-owned properties, easements, etc.).

PROJECT TITLE:
*Warner Ave Improvements: Phase 1
- Main to Oak*

PROJECT CATEGORY:
*Street Improvements
Street/Bridge Improvements &
Widening*

PROJECT DESCRIPTION:
This project will widen Warner Avenue between Main Street and Oak Street from 2 to 3 lanes in each direction. The project also includes additional left turn lanes at Main Street, bus turn outs, raised medians, and bike lanes along Warner Avenue between Main Street and Oak Street.

PROJECT NEED:
The MPAH (Master Plan of Arterial Highways) Strategic Plan Technical Report identified the need for Warner Avenue to be widened to a six-lane major arterial to meet MPAH requirements. The existing Average Daily Traffic (ADT) is in excess of 29,600 vehicles per day. The proposed improvements will allow the segment to accommodate future traffic volumes at a Level of Service A and increase operational efficiency.

PROJECT TITLE:
Traffic Management Plans

PROJECT CATEGORY:
Traffic Improvements Planning

PROJECT DESCRIPTION:
Conduct a variety of traffic counts at various locations Citywide to collect data needed for the traffic management planning, signal priority studies, signal timing, etc., preparation of aerial maps, and to maintain the storage and management of accident and traffic investigations records.

PROJECT NEED:
1) To collect traffic data for traffic signal timing, arterial traffic studies, preparation of traffic flow maps, and to conduct new traffic signal and left turn signal needs analysis to request state and federal grants. 2) To reduce the City's liability related to traffic safety issues by maintaining the storage of and access to traffic investigations records in the computer database.

PROJECT TITLE:
Traffic Signal Equipment Replacement

PROJECT CATEGORY:
Traffic Improvements Planning

PROJECT DESCRIPTION:
Replace outdated traffic signal and monitoring equipment, such as cabinets, vehicle heads, Reflective Street Name Signs, conflict monitors, controllers, CCTV, and communication equipment, both in the field and in the traffic management center.

PROJECT NEED:
Much of the traffic signal, pedestrian and monitoring equipment in the City is old and no longer supported by the manufacturers. This equipment needs to be upgraded to maintain operations and to meet current standards.

PROJECT TITLE:
Angels Park Cool Pavement Treatment

PROJECT CATEGORY:
*City & Park Facility Improvements
Park Facility*

PROJECT DESCRIPTION:
The "cool pavement" is a water based asphalt seal-coat that is designed to lower surface temperature, decrease energy costs, increase safety better nighttime visibility. The cool pavement will be applied to one basketball court and parking lot at Angel's Park.

PROJECT NEED:
Heat island has a negative affect on human health and contributes to heat-related deaths and illness, air pollutants, and greenhouse gases. Mitigating the heat island impacts by using the "cool pavement" can improve the quality of life in the targeted neighborhoods especially in CDBG low-mod-eligible areas which fall within and near the environmental justice/disadvantaged areas in Santa Ana identified by CalEPA that are at greater risk of environmental pollution and racial, socio-economic variables that present a greater burden in such disadvantaged communities affecting a portion of or an entire neighborhood within thirty-three neighborhood association boundaries.

**CITY OF SANTA ANA FY 24/25CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Logan/Chepa's Park Redesign

PROJECT CATEGORY:
*City & Park Facility Improvements
Park Facility*

PROJECT DESCRIPTION:
This project is Phase 2, Construction of the Logan Center/ Chepa's Park Redesign project. The work to be performed includes the demolishing and reconstruction of a new community center and park site improvements including basketball court, new landscaping, picnic areas, site lighting, new playground equipment and ADA accessible pathways . The new Logan center and site improvements at Chepa's park will benefit the community by providing an improved facility for recreation programming, community gatherings and daily use of the park site.

PROJECT NEED:
The park is in and surrounded by low-income households and is identified in the Parks Master Plan as an area of severe need, as it is surrounded by Open space Gap Areas 17, 18, 19, 23 and 24. The existing Logan Center is a converted remnant garage that predates the 1970s. The structure is old, worn and does not sufficiently serve the needs of the community. This project is needed to complete construction of the center and site improvements resulting from the design and contract documents from Phase 1 (Engineering) of the CDBG funds from 2022-2023.

PROJECT TITLE:
Park Sidewalk/Ramp Improvements

PROJECT CATEGORY:
*City & Park Facility Improvements
Park Facility*

PROJECT DESCRIPTION:
Sidewalk and ramp improvements for various City of Santa Ana parks including Memorial, Heritage, Lilly King, Portola, and Civic Center.

PROJECT NEED:
One of the major goals for the Public Works Agency Park Services division is to improve damaged walkways, curbs, ramps, driveways and parking lots to encourage open and available access to all residents who can only access local parks. These improvements reduce the City from liability claims and comply with American with Disabilities Act codes.

PROJECT TITLE:
Renovate & Upgrade Public Parking Lots

PROJECT CATEGORY:
*City & Park Facility Improvements
Municipal Facilities*

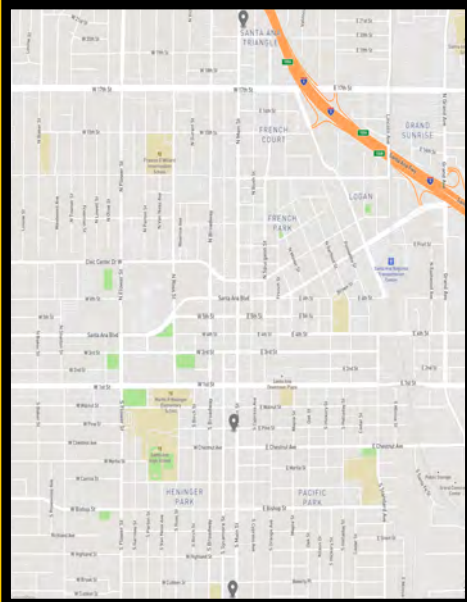

PROJECT DESCRIPTION:

The City of Santa Ana is densely populated, with over 300,000 residents in 27 square miles. Most neighborhoods in the City have a dire need for additional parking, which is why the City dedicated funds to meet the parking needs of the community. The parking lots are heavily utilized and would greatly benefit from renovation and upgrade.

PROJECT NEED:

The renovation and upgrade of the parking lots would enhance safety and would provide an alternative place-making area that will contribute towards the quality of life for local residents.

**CITY OF SANTA ANA FY 24/25CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Zoo North End Wall

PROJECT CATEGORY:
*City & Park Facility Improvements
Zoo Facility*

PROJECT DESCRIPTION:
This project includes installation of a 350 feet concrete perimeter wall for safety and security of the zoo along First Street. Additionally, the project includes paving of the dirt service road next to the wall and rainwater capture for the run-off from the small road.

PROJECT NEED:
This project is a safety and security priority to replace an outdated and ineffective perimeter fence barrier at the north end of the zoo campus. Approximately 350 feet of fencing along First Street was constructed in the 1970s out of chemically-treated utility poles. The poles were not new when they were installed in the 1970s and some poles are now over 70 years old and rotting, leaning, or falling over. We have intercepted trespassers going over the current wood barrier and it compromises zoo security which is a concern for zoo staff and can be a concern for the US Department of Agriculture which regulates us. Additionally, the extensive traffic on First Street creates noise pollution at the north end of the zoo and the new wall will mitigate the noise by acting as a sound barrier.

**CITY OF SANTA ANA FY 24/25CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

PROJECT TITLE:
Zoo Pathways Phase 2

PROJECT CATEGORY:
*City & Park Facility Improvements
Zoo Facility*

PROJECT DESCRIPTION:

This project includes installation of new concrete pathways through the central part of the zoo. The pathways replace decomposed granite "dirt" pathways with accessible concrete. Included in the project are improvements to public barriers at the anteater habitat and nighttime lighting.

PROJECT NEED:

The goal of this project is to increase safety and accessibility of the zoo. Current dirt pathways are a challenge for visitors in wheelchairs or strollers, become rutted, impassable in inclement weather, and require constant upkeep by staff. Improvements in zoo walkways will reduce risk for the city from trip and fall accidents and improve the visitor experience.

FY2024-25 UNFUNDED CAPITAL IMPROVEMENT PROJECTS

Although the FY 2024-25 Capital Improvement Program provides for vital infrastructure improvements throughout the City, a backlog of deferred maintenance and limited resources results in a growing list of capital needs throughout the City. The list below is not an exhaustive list and is not listed according to priority. Projects identified where no current funding exists are categorized as unfunded. Dollar amounts represent estimates and are subject to change. This report only includes priority projects with identified estimated costs. Projects are added to this report once estimated scopes and budgets are developed.

Project Name	One-Time Amount	Project Description
--------------	-----------------	---------------------

Unfunded Priority Projects

Street Improvements

Arterial/Local Street Rehabilitation

17th St: Grand Ave to Deodar St	2,311,000	
Bristol Rehab - Santa Clara to Memory	1,240,000	
Euclid Rehab - S City Limits to McFadden	2,491,000	
Euclid Rehab - McFadden to 1st	2,889,000	
Euclid Rehab - 1st to Hazard	2,803,000	
Saddleback View	728,000	
Pacific Park	3,536,000	
French Court	3,741,000	

Major Unfunded Infrastructure Improvements Projects

Santa Ana Blvd. Grade Separation	15,000,000	Grade separation will alleviate the current and potential traffic impacts and hazards posed by the existing at-grade rail crossing at Santa Ana Blvd. and OCTA Metro link RR.
Bristol St Improvements From 17th St to Elm St	40,000,000	Improvements will result in greater safety and mobility for all users, improve traffic flow and enhance streetscape aesthetics.
Alton Ave Overcrossing at SR-55 Project	55,000,000	Expands regional connectivity, benefitting mobility and goods movement as well as providing expanded regional and local economic development opportunities.
Grand Ave. Improvements From 4th St to 17th St	49,000,000	Includes adding one through lane in each direction, bike lanes, sidewalk, landscaping and medians, as well as additional turn lanes and bus turnouts at major intersections in conformance with OCTA and City plans.

Unfunded Priority Projects

City & Park Facilities

Citywide Park Improvements

Santiago Park Phase III	2,000,000	
Thornton Lake Renovation	2,500,000	
Bristol Tolliver Park Development - Active Recreation Amenities	600,000	
Bristol Myrtle Park Development	5,000,000	

Citywide Park Improvements

1st & Mountainview Park Development	5,000,000	
Centennial Dog Park	14,000,000	
Cypress Center Renovation	4,500,000	
Logan Center and Park Reimagining	3,000,000	
Corbin Center - New Building	10,000,000	
Splash Pads - (El Salvador Park, Portola Park, SA Zoo)	5,000,000	
Playground Renovation - Sandpointe Park	2,000,000	
Playground Sun Shades - 16 Sites	4,000,000	
Restroom Renovations - (Cabrillo, El Salvador, Portola, & Santiago Parks)	5,000,000	
SA Stadium - End Zone Seating	2,000,000	
Sports Field Lighting - 10 Park Sites	6,000,000	
Park Security Lighting - Various Locations	500,000	
Synthetic Turf Field Installations/Renovations (Centennial Park)	4,000,000	

Zoo Improvements

SA Zoo - First Phase of Primate Forest Design and Construction	20,000,000	
--	------------	--

Project Name	One-Time Amount	Project Description
--------------	-----------------	---------------------

Unfunded Priority Projects

City & Park Facilities

Zoo Improvements

SA Zoo - The Hive Education And Community Building Construction	4,500,000	
---	-----------	--

SA Zoo - Past Useful Life Utilities Infrastructure Replacement (Electric, Water, Sewer)	500,000	
---	---------	--

SA Zoo - Walkway Accessibility Improvements Phase 3	605,000	
---	---------	--

SA Zoo - Perimeter Fence Repair To Meet USDA Requirements	500,000	
---	---------	--

SA Zoo - Permanent Veterinary Hospital	5,000,000	
--	-----------	--

SA Zoo - Admissions Plaza	15,000,000	
---------------------------	------------	--

City & Park Facilities Subtotal	\$ 126,555,000	
--	-----------------------	--

Utility, Drainage & Lighting

Water and Sewer Improvements

Maxine Sewer Lift Station Improvements	11,000,000	
--	------------	--

Fisher Park Neighborhood Water Improvements	6,000,000	
---	-----------	--

Cambridge Pump Station Improvements	20,000,000	
-------------------------------------	------------	--

South Pump Station Improvements	23,000,000	
---------------------------------	------------	--

Citywide Storm Drain Improvements

Delhi Proposed Storm Drain Cost Estimate	154,953,000	
--	-------------	--

Gardens Proposed Storm Drain Cost Estimate	73,355,000	
--	------------	--

Greenville Storm Drain Cost Estimate	13,675,000	
--------------------------------------	------------	--

Lane-Barranca Storm Drain Cost Estimate	30,671,000	
---	------------	--

ORANGE COUNTY TRANSPORTATION AUTHORITY (OCTA)
FY2024/25-FY2030/31 CAPITAL IMPROVEMENT PROGRAM

The City of Santa Ana is required to submit an annual Seven-Year Capital Improvement Program (CIP) to remain eligible for OCTA Measure M funding. Projects with active Measure M funds are carried forward until project closeout and/or final reimbursement with OCTA. The following section contains the OCTA approved 7-year spending plan of all Measure M active projects (previously approved and any planned).

Funding Sources

The City is currently operating in an environment where insufficient discretionary resources exist to fund all of the City's infrastructure and other capital needs. As a result, the City seeks alternative funding through federal, state and local grants, and other restricted monies. These grants are not only highly competitive, they also have tight guidelines regarding how awarded funds can be expended. The City's major funding sources are:

Active Transportation Program (ATP) - The ATP was created by Senate Bill 99 to encourage increased use of biking and walking, increase safety and mobility for non-motorized users and advance the active transportation efforts of regional agencies to achieve greenhouse gas (GHG) reduction goals.

Active Transportation Program SB-1 Augmentation (ATP-SB-1) - Most recently, Road Repair and Accountability Act of 2017 (SB1) nearly doubled the amount of available funds for the Active Transportation Program.

Affordable Housing Sustainable Communities (ASHC) - The AHSC Program provides grants and/or loans to projects that make it easier for Californians to reduce greenhouse gas emissions by ensuring housing, jobs, and other destinations are easily accessible by walking, biking and transit.

American Rescue Plan Act (ARPA) - COVID-19 pandemic recovery initiative designed to provide support to the Santa Ana community. Project categories include Direct Assistance Programs, Public Health & Safety Initiatives, Pandemic Recovery programs, funding for Critical Infrastructure, and support programs to assist with the City

Cannabis Public Benefit Fund (Service Enhancement) - Established to fund new and/or additional youth services, community enforcement and code enforcement through the collection of cannabis tax revenues. The General Fund transfers two-thirds of adult use and supply-related Cannabis tax to this Fund. (Ordinance NS-2959)

Capital Outlay Fund - The Capital Outlay General Fund is supported by transfers from the City's General Fund, and through donations received from citizens, corporations, and non-profit organizations specifically for capital projects.

Community Development Block Grant (CDBG) - CDBG Program Funds support community development activities to build stronger and more resilient communities by improving the lives of low- and moderate-income residents.

Congestion Management and Air Quality (CMAQ) - CMAQ Funds are designed to reduce traffic congestion by encouraging alternatives to driving alone, improving traffic flow, and helping Santa Ana meet air quality goals.

Developer Impact Fees- The City Imposes fees on land development projects to mitigate general impacts to city infrastructure, such as parks, library, transportation, sewer and storm drainage systems. The primary objective of these fees is to ensure that new development pays the capital costs associated with growth.

Drainage Assessment Fee (DAF) - In accordance with Section 34-191 of the Santa Ana Municipal Code, the City is divided into drainage assessment areas to defray the cost of improvements to drainage facilities.

Emergency & Health Grants - Federal and State to local governments to fund a portion of the costs of rebuilding a community's infrastructure in response to disasters.

Federal Aid Safety Program - These federal grant programs are designed to significantly reduce traffic fatalities and serious injuries on public roads.

Federal Clean Water Protection Enterprise (FCWPE) - This source funds the operations and maintenance of storm drain systems as well as pollution reduction under the new National Pollutant Discharge Elimination System (NPDES) permit issued by the Santa Ana Region of Water Quality Control Board in January 2002.

Gas Tax - California imposes a cents per gallon taxes on motorists for fuel consumption. It is apportioned to cities based on population and can only be utilized in the maintenance and construction of public streets, highways, and mass transit guideways.

General Fund - The general fund is supported by revenue received from sales tax, property tax, utility tax and other miscellaneous tax revenue which provides funding for City operations.

Housing Related Parks Program (HRPP) - HRPP provides funding for parks and recreation projects that benefit the community and enhance overall quality of life.

Measure M2 - A 30-year one half-cent sales tax for transportation improvements in Orange County through 2041. Each jurisdiction receiving M2 funds must adopt an annual expenditure report to account for funds expended that satisfy Measure M2 Maintenance of Effort (MOE) requirements as established by the Orange County Transportation Authority (OCTA).

Measure M2 Competitive - The competitive portion of Measure M2 consists of the following programs: Regional Capacity Program (RCP), Regional Traffic Signal Synchronization Program (RTSSP), and several transit programs.

Measure M2 Fairshare - This local fair share program returns a portion of the Measure M2 Streets and Roads revenues to the cities and the County of Orange once a set of specific criteria is met.

Park Acquisition & Development Funds (A & D) - The City assesses a Residential Development Fee to any entity adding a net increase in residential units and/or converting apartments to condominiums. These fees are utilized for the acquisition, construction, and renovation of park and recreation facilities.

Parks, Recreation, Community Services Agency Fee & Donation (PRCSA F&D) - This fund is intended to hold monies received from donations from the public and from employee contributions to Parks, Recreation and Community Service Agency programs.

Refuse Vehicle Impact Fee - Funds received in the course of business for the public collection and disposal of refuse. The City adopted a Vehicle Impact Fee program to provide funding for necessary improvements to the City's streets to offset the wear and tear impact of heavy vehicle travel.

Regional Transportation Center - Also known as the Depot, combines Amtrak, Orange County Transport Authority (OCTA), intercity and interstate bus transportation, airport and taxi services all in one location. Funds are generated through user fees, rental income, and general funds transfer.

Road Maintenance and Rehabilitation Account (RMRA SB-1) - These funds are apportioned by formula to eligible cities and counties for basic road maintenance, rehabilitation, and critical safety projects on the local streets and roads system.

Sanitary Sewer Capital - A portion of Sewer Utility Charges is dedicated to offset the costs of maintaining the City's extensive system of sanitary sewer infrastructure.

Select Street Construction Funds - Comprised of State Gas Tax and County Gas Tax funding this fund includes all new work, reconstruction, widening or traffic improvements done on the "Select Street System" of the City.

Sewer Connection Fees – All monies received by the City as a fee for connection to the public sewers are deposited into the Sewer Connection Fee Fund for the construction of sewers.

State Resources Agency Grant (CA Resources Agency Grant) - The California Natural Resource Agency Grants administer various grant programs designed to restore, protect, and manage the state's natural, historical and cultural resources.

Traffic System Management Grants- Funded through the California Office of Traffic Safety, these grant programs are designed to make California roadways safer.

Transportation System Improvement Area Fund (Area Fees) - Transportation Area Fees are charged to new development to offset the cost of transportation system improvements within area adjacent to the cities of Orange and Tustin.

Water Utility Capital Fund (Acquisition & Construction) - The City charges a user fee for providing water services to residents and businesses in Santa Ana. All monies are used to fund operating and maintenance costs, as well as capital improvements of the City's water system. Approximately 10% to 20% of these funds are allocated to water system capital improvements each year.

Glossary of Terms

Active Transportation – Active modes of transportation including walking and bicycling.

Allocation – Restricted money from another governmental agency, which is non-competitive and typically based on a City metric such as population.

Arterial Street – A highly trafficked through street connecting different areas or neighborhoods of the City.

Bike Lane – Dedicated traffic lane for bicycles, segregated with striping or a physical barrier such as a curb.

Buildings – City-owned buildings, which may or may not be accessible to the public. Examples include City Hall, the Corporate Yard and fire stations.

Fund – The resource used to pay for the project cost. Examples include the Measure M2 Fund, the Gas Tax Fund, and the Water Enterprise Fund. It is possible for multiple Funds to pay the costs of a single project.

Funded – The City has identified funding for the project.

Grant – Restricted money from another governmental agency, based upon a project application and award. Due to limited grant resources, applications are typically competitive.

Maintenance of Effort (MOE) – Requirement for the City to spend its own unrestricted resources in order to receive restricted money from another governmental agency.

Matching Requirement – City commitment to fund a portion of a grant-funded project. For example, a grant may only fund 80% of the cost of a project and the City must fund a matching contribution for the remaining 20% from other resources.

Mobility – Ability to move freely and easily.

Overlay – Street pavement repair including grinding down the existing surface and laying fresh asphalt.

Parks System – Includes parkland, community centers, and park facilities such as restrooms, shelters, and playgrounds.

Pavement Condition Index (PCI) – System of scoring the condition of street pavement, with a 100 being a newly constructed street and a 0 being a completely failed/impassable street.

Rehabilitation – Repair of an existing facility.

Residential Street – Neighborhood streets that typically have a 25-mph speed limit.

Roadway – Includes street pavement, sidewalks, medians, traffic safety implements such as bike lanes and guardrails, traffic signals and streetlights. It is common for restricted revenue to allow spending for all elements of a roadway.

Secondary Street – Feeder streets that connect neighborhoods to arterial streets.

Sewer System – Includes sewer main pipelines, pump stations, and sewage treatment facilities.

Slurry Seal – Street pavement repair consisting of a thin layer of slurry applied over the existing surface.

Storm-water System – Includes storm-water drainage pipelines, inlets/outlets, catch basins, and water-quality filtration systems.

Traffic Signal Synchronization – Traffic engineering technique of matching the green light times for a series of intersections to enable the maximum number of vehicles to pass-through, reducing stops and delays experienced by motorists.

Unfunded – The City has not identified available funding for the project.

Water System – Includes water main pipelines, water meters, pump stations and filtration/purification systems.
