EXECUTIVE SUMMARY

TRC Environmental Corporation, Inc. (TRC) was retained by South Coast Plaza (also known as "Client" or "User") to perform a Phase I Environmental Site Assessment (ESA) of the South Coast Plaza Village consisting of the following property addresses: 1561, 1621, 1631, 1641, and 1661 W. Sunflower Avenue; 3851 S. Bear Street; and 3800 and 3951 S. Plaza Drive, all in Santa Ana, Orange County, California (herein referred to as the "Site"). TRC understands the Client requires a Phase I to qualify for innocent landowner defense to Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) Liability. The Phase I ESA described in this report was performed in accordance with the scope and limitations of the American Society for Testing and Materials Practice E 1527-13 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM E 1527-13). Limiting conditions and/or deviations from the ASTM E 1527-13 standard are described in Sections 1.3 and 7.6 of this report.

The approximately 17.23-acre Site is currently developed with seven (7) buildings, including one (1) movie theater building, one (1) single tenant restaurant building, and five (5) retail/restaurant buildings with multiple tenants. The Client provided TRC with a list of current tenants of the Site. Current tenants include a movie theater, restaurants, showrooms, retail tenants, office tenants, and retail spaces utilized as storage. The list of current tenants is provided in **Appendix A**.

The remainder of the Site consists of paved parking areas and access driveways, concrete sidewalks, and landscaped areas throughout. Grass landscaping is also located at the central-eastern portion of the Site, east of S. Plaza Drive (3951 S. Plaza Drive), in the vicinity of a former office building. S. Plaza Drive trends approximately north-south, bisecting the eastern and western portions of the Site.

TRC has performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527 of the South Coast Plaza Village consisting of the following property addresses: 1561, 1621, 1631, 1641, and 1661 W. Sunflower Avenue; 3851 S. Bear Street; and 3800 and 3951 S. Plaza Drive, all in Santa Ana, Orange County, California, the Site. Any exceptions to, or deletions from, this practice are described in Sections 1.3 and 7.6 of this report. This assessment has revealed no evidence of recognized environmental conditions (RECs) and/or controlled recognized environmental conditions (CRECs) in connection with the Site; however, this assessment has revealed evidence of the following *de minimis* condition in connection with the Site:

- During Site reconnaissance, a gasoline odor was noted upon entrance to the electrical room of the Antonello Ristorante tenant space. The odor dissipated as the door stayed open. No gasoline storage or spills were observed in this area. Based on the lack of evidence regarding a release, this odor would be considered a *de minimis* condition.

This Executive Summary is part of this complete report; any findings, opinions, or conclusions in this Executive Summary are made in context with the complete report. TRC recommends that the User read the entire report for supporting information related to findings, opinions, and conclusions.

Legal Notice

TRC has prepared this Phase I ESA for South Coast Plaza (hereinafter “Client” or “User”). This document was prepared by TRC solely for the benefit of the Client and the User. With regard to third-party recipients of this document, neither TRC, nor the Client, nor the User, nor any of their respective parents, affiliates, or subsidiaries, nor any person acting on their behalf: (a) makes any warranty, expressed or implied, with respect to the use of any information or methods disclosed in this document; or (b) assumes any liability with respect to the use of any information or methods disclosed in this document. Any third-party recipient of this document, by its acceptance or use of this document, releases TRC, the Client, the User, and their parents, affiliates, and subsidiaries from any liability for direct, indirect, economic, incidental, consequential, or special loss or damage whether arising in contract, warranty, express or implied, tort, or otherwise, and irrespective of fault, negligence, and strict liability.

1.0 INTRODUCTION

TRC Environmental Corporation (TRC) has prepared this Phase I Environmental Site Assessment (ESA) for South Coast Plaza (hereinafter "Client" or "User").

This report was prepared for and may be relied upon by Client and User for the purposes set forth herein; it may not be relied on by any party other than the Client and User. TRC will consider authorization for third-party reliance on this report if requested by the Client. TRC reserves the right to deny reliance on this report by third parties.

1.1 Purpose and Scope of Services

The following Phase I ESA was performed for the South Coast Plaza Village consisting of the following property addresses: 1561, 1621, 1631, 1641, and 1661 W. Sunflower Avenue; 3851 S. Bear Street; and 3800 and 3951 S. Plaza Drive, all in Santa Ana, Orange County, California (hereinafter the "Site"). A Site location map is included as **Figure 1**. This Phase I ESA has been prepared by TRC in accordance with the American Society for Testing and Materials E 1527-13 *Standard Practice for Environmental Site Assessments: Phase I ESA Process* (ASTM E 1527-13) and is intended for the sole use of South Coast Plaza and per TRC's January 17, 2022 *Proposal for Professional Consulting Services*, authorized on January 17, 2022.

The purpose of this assessment is to identify *Recognized Environmental Conditions* (RECs) at the Site, as defined by the ASTM E 1527-13 standard. The completion of this Phase I ESA report may be used to satisfy one of the requirements for the User to qualify for the *innocent landowner*, *contiguous property owner*, or *bona fide prospective purchaser* liability protections pursuant to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), thereby constituting *all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial or customary practice* as defined by 42 U.S.C. §9601(35)(B) of CERCLA.

The Scope of Services for this Phase I ESA included the following tasks:

- Site and vicinity reconnaissance;
- Site and vicinity description and physical setting;
- Historical source review and description of historic Site conditions;
- Interviews with owners, operators, and/or occupants of the Site, and/or local officials;
- Review of environmental databases and regulatory agency records;
- Review of previous environmental reports/documentation, as applicable;
- Review of environmental liens, if provided or authorized to obtain by the User; and
- Preparation of a report summarizing findings, opinions, and conclusions.

1.2 Additional Services

Items outside the scope of the ASTM E 1527-13 standard include but are not limited to the following:

- Asbestos-containing building materials
- Radon
- Lead-based paint
- Lead in drinking water
- Wetlands
- Regulatory compliance
- Cultural and historic resources
- Industrial hygiene
- Emerging contaminants
- Health and safety
- Ecological resources
- Endangered species
- Indoor air quality unrelated to *releases* of *hazardous substances* or *petroleum products* into the environment
- Biological agents
- Mold

No additional services were performed outside the scope of the ASTM E 1527-13 standard.

1.3 Deviations to ASTM E 1527-13 Standard

The following significant deviations or deletions to the ASTM standard were made during this Phase I ESA:

- Access to all of the tenant spaces was unable to be obtained.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The approximately 17.23-acre Site consists of five (5) parcels known by the Orange County Assessor as the following Assessor Parcel Numbers (APNs): 412-451-01 on the northwestern portion of the Site; 412-451-02 on the southwestern portion of the Site; 412-451-03 on the central portion of the Site; 412-451-04 on the south-central portion of the Site where the restaurant building is located; and 412-131-10/412-131-20/412-131-21 on the eastern portion of the Site, east of S. Plaza Avenue. Addresses associated with the Site include 1561, 1621, 1631, 1641 and 1661 W. Sunflower Ave; 3851 S. Bear Street; and 3800 and 3951 S. Plaza Drive, all in Santa Ana, Orange County, California. The Site is located in a mixed residential and commercial use area. According to the City of Santa Ana, the Site is zoned specific development. The Site is currently owned by South Coast Plaza. A Site location map is included as **Figure 1**.

2.2 Site Improvements

Current on-Site improvements are listed in the following table. A Site layout plan is included as **Figure 2**.

Table 2.1 – Site Improvements

Site Feature	Description
Buildings (stories)	1561 W. Sunflower Avenue, located at the southeastern edge of the Site, is developed with a 2-story movie theatre building; 3800 S. Plaza Drive, located at the northeastern central portion of the Site, is developed with a 2-story retail/restaurant building; 1621 W. Sunflower Avenue, located south of 3800 S. Plaza Drive, is developed with a 2-story restaurant/bakery building; 1631 W. Sunflower Avenue, located south of 1621 W. Sunflower Avenue, is developed with a 2-story retail building; 1641 W. Sunflower Avenue, located at the southern edge of the Site, is developed with a 2-story restaurant building; 1661 W. Sunflower Avenue, located at the western central portion of the Site, is developed with a 3-story art museum/retail building; and 3851 S. Bear Street, located at the north-central portion of the Site, is developed with a 2-story retail/gallery building.
Construction date(s)	1971-1973
Exterior areas	Asphalt paved parking areas and access driveways, concrete or paved walkways, and limited landscaped areas consisting of grass, small trees, and shrubs. Grass landscaping is also located at the central-eastern portion of the Site, east of S. Plaza Drive (3951 S. Plaza Drive), in the vicinity of a former office building
On-Site roads/rail lines	S. Plaza Drive trends approximately north-south, bisecting the eastern and western-central portions of the Site, but is not a part of

Table 2.1 – Site Improvements

Site Feature	Description
	the Site. Onsite asphalt-paved driveways provide access to the Site's various parking lots.
Other large equipment	One (1) hydraulic elevator was located in the building currently occupied by the Orange County Museum of Art.
Potable water supply	City of Santa Ana Water Services
Sewage disposal system(s)	City of Santa Ana Sanitary Sewer
Heating/cooling system fuel source(s)	Electric
Back-up fuel source(s)	None
Electricity supplier(s)	Southern California Edison
Stormwater system	City of Santa Ana storm water sewer system

2.3 Current and Historic Site Use

2.3.1 Current Site Use(s)

The approximately 17.23-acre Site is currently developed with seven (7) buildings, including one (1) movie theater building, one (1) single tenant restaurant building, and five (5) retail/restaurant buildings with multiple tenants. The Client provided TRC with a list of current tenants of the Site. Current tenants include a movie theater, restaurants, showrooms, retail tenants, office tenants, and retail spaces utilized as storage. The list of current tenants is provided in **Appendix A**.

The remainder of the Site consists of paved parking areas and access driveways, concrete sidewalks, and landscaped areas throughout. Grass landscaping is also located at the central-eastern portion of the Site, east of S. Plaza Drive (3951 S. Plaza Drive), in the vicinity of a former office building. S. Plaza Drive trends approximately north-south, bisecting the eastern and western portions of the Site.

2.3.2 Previous Owner and Operator Information

Based on information provided by the User (Section 3.0), the historical record review (Section 4.0), and/or interviews conducted during this Phase I ESA (Section 6.0), historic Site ownership and operator information are provided in the tables below.

Table 2.2 - Previous Owner Information

Site Owner	From	To
Bear Family Trust (western parcels) & C.J. Segerstrom and Sons (eastern parcels)	Unknown	Approx. 1970
South Coast Plaza	Approx. 1970	Present

Prior to development, the Site was utilized as undeveloped and/or agricultural land with no structures present until the mid-1960s.

A commercial building was constructed on the northwestern corner of the Site by 1965. According to interviews with Site representatives, this building was operated by the Boy Scouts of America

as a headquarters, and this building was subsequently demolished by the early 1990s. This portion of the Site was redeveloped into an additional parking lot area.

A commercial building was constructed on the central-eastern portion of the Site, east of S. Plaza Drive (3951 S. Plaza Drive) in 1981. According to the Client, this building opened in 1981 and was utilized as an office building prior to being demolished in 2013. This portion of the Site remains vacant land with grass landscaping.

The existing seven (7) retail, restaurant and movie theater buildings associated with the South Coast Plaza Village were constructed on the Site between 1971 and 1973. Various retail, restaurant, entertainment, artistic, beauty, business, financial, and medical tenants have operated at the Site from 1971 to the present. A list of current and historic tenants provided by the Client are included in **Appendix A**.

2.4 Physical Setting

According to the United States Geological Survey, 2015, *7.5-Minute Topographic Map for Tustin & Newport Beach, California* (refer to **Figure 1**), the Site is located approximately 170 feet to the south of a manmade lake, and approximately 0.30 miles to the west of the Santa Ana Channel. The Site topographic elevation is approximately 37 feet above mean sea level, and local topography slopes to the east. The topographic downward slope observed at the Site during the Site reconnaissance is generally flat. Based on local topography, the assumed direction of shallow groundwater flow is to the east, toward the Santa Ana Channel. However, a subsurface investigation would be required to determine actual groundwater flow direction.

The ERIS Physical Setting Maps, supplied by ERIS of Toronto, Canada, was reviewed to obtain information regarding the dominant soil composition in the Site vicinity. The dominant soil composition is reported as Omni clay, drained.

Please refer to the ERIS Physical Setting Maps report presented in **Appendix B** for further information regarding the soil composition in the Site vicinity. According to ERIS, the Site is not located in a Federal Emergency Management Agency flood zone.

3.0 USER PROVIDED INFORMATION

According to the ASTM E 1527-13 standard, certain tasks that may help identify the presence of RECs associated with the Site are generally conducted by the Phase I ESA User. These tasks include providing or authorizing the *environmental professional* to obtain recorded land title records for environmental liens or activity and use limitations (AULs); providing specialized knowledge related to RECs at the Site (e.g., information about previous ownership or environmental litigation); providing commonly known or *reasonably ascertainable* information within the local community about the *property* that is material to RECs in connection with the *property*; and informing the *environmental professional* if, as believed by the User, the purchase price of the *property* is lower than the fair market value due to contamination. A list of requested information was included in TRC's proposal dated January 17, 2022 (see Section 1.1). A copy of the User questionnaire is included in **Appendix C**.

3.1 Title and Judicial Records for Environmental Liens or AULs

The User did not provide any information regarding environmental concerns associated with title or judicial records, or the existence of environmental liens or activity and use limitations (AULs) for the Site. Completion of an additional title and judicial record search was beyond the scope of this Phase I ESA, was not requested by the User, and remains a User requirement.

3.2 Specialized Knowledge

The User was not aware of specialized knowledge related to RECs at the Site.

3.3 Property Value Reduction Issues

The User was not aware of property valuation reduction issues regarding the Site.

3.4 Commonly Known or Reasonably Ascertainable Information

TRC was supplied with commonly known and/or reasonably ascertainable information regarding the Site by Mr. Jason Poulsen on behalf of South Coast Plaza. This information was used during this Phase I ESA and has been incorporated in this report as applicable.

3.5 Reason for Conducting Phase I ESA

TRC understands the User requires a Phase I to qualify for innocent landowner defense to CERCLA liability.

4.0 RECORDS REVIEW

4.1 Historic Use Information

Information regarding Site and vicinity historic uses was obtained from various publicly available and practically reviewable sources including:

- Aerial photographs (scale: 1" = 500') dated 1928, 1938, 1947, 1952, 1960, 1963, 1972, 1974, 1980, 1985, 1987, 1995, 2002, 2005, 2010, 2012, 2014, 2016, 2018, and 2020;
- Topographic maps dated 1896, 1901, 1932, 1935, 1948, 1949, 1950, 1951, 1965, 1972, 1974, 1981, and 2015;
- City directories dated 1955, 1959, 1964, 1970, 1975, 1981, 1987, 1991-1992, 1996-1997, 2001-2002, 2008, 2012, 2016, and 2020;
- Local municipal records;
- An environmental database report;
- Interviews with Site representative(s) and regulatory agency official(s), as necessary.

Historical research documentation is included in **Appendix D**.

Fire Insurance Maps were originally produced for assessing fire insurance liability in urban areas in the United States. The maps provide detailed information (e.g., building construction, facility occupants, storage tank locations, and hazardous material storage areas), which can be used as a resource to document land use and structural change over time. ERIS researched the availability of Fire Insurance Maps in the vicinity of the Site; however, ERIS stated that Fire Insurance Map coverage does not exist for the Site or nearby surrounding area.

4.1.1 Site History

Operational History

Table 4.1 – Site History

Year	Site History
1896 to as late as 1965	The Site appears as undeveloped land in the earliest 1896 topographic map and agricultural land in the earliest 1928 historic aerial photograph. The Site appeared to remain agricultural with no structures present through the early 1960s. According to interviews with Site representatives, the Site historically consisted of bean fields.
1965 to 1971	The 1965 topographic map depicts a commercial building on the northwestern corner of the Site. According to interviews with Site representatives, this building was utilized as a Boy Scouts of America headquarters.
1971 to 1981	According to City of Santa Ana property records, existing structures associated with the South Coast Plaza Village were constructed starting in 1971. The 1972 historic aerial photograph and topographic map depicts the Site as partially developed with the existing movie theatre building (1561 W. Sunflower Avenue), restaurant building (1641 W. Sunflower Avenue), and several retail/restaurant buildings (3851 S. Bear Street, 3800 S. Plaza Drive, and 1621 and 1631 W. Sunflower Avenue). The last retail building on the west-central portion of the Site appeared to be under construction (1661 W. Sunflower Avenue) in 1972 and was fully developed by 1974. According to the Client, the restaurant building (1641 W. Sunflower Avenue) and movie theatre building (1561 W. Sunflower Avenue) opened in 1971, and the

Table 4.1 – Site History

Year	Site History
	remainder of the retail buildings west of S. Plaza Drive opened in 1973. City Directories list various tenants at the Site addresses starting in 1975. City Directory listings are detailed in a separate table below.
1981 to as late as 1995	A commercial building appeared on the central-eastern portion of the Site, east of S. Plaza Drive (3951 S. Plaza Drive). According to the Client, this building opened in 1981 and was utilized as an office building.
1995 to 2013	The Boy Scouts of America headquarters building that was located on the northwestern corner of the Site appears to have been demolished and this portion of the Site appears to have been redeveloped into an additional parking area.
2013 to Present	According to the Client, the office building that was located at 3951 S. Plaza Drive (central-eastern portion of the Site) was demolished in 2013. This portion of the Site remains vacant land with grass landscaping.

It does not appear that topographic contours in the Site area have significantly changed during the time period reviewed. If significant changes had been noted, it could indicate significant filling or excavation activity.

City Directories provided extensive listings for the existing Site addresses, as well as several presumed former Site addresses, between 1975 and present. These listings included various retail, restaurant, entertainment, artistic, beauty, business, financial, and medical tenants. Many of these tenants were also included in the Historic South Coast Plaza Village Tenants list provided to TRC by the Client. Based on the types of tenants identified in the City Directories and Client provided records, these tenants would not be considered an environmental concern to the Site. Client provided historical records are included in **Appendix A**. City Directory listings for the Site addresses and presumed former Site addresses are detailed below:

Site Address	City Directory Listings
3851 S. Bear Street	Anthony's Shoe Repair (2001-2002, 2008, 2012, 2016, 2020); The Back Pocket (2001-2002); Emergency Locksmith (2008); The Good Earth (2001-2002); Orange County Fine Arts (2008, 2012, 2016, 2020); Showcase Gallery (2012, 2016, 2020); South Coast Village (2008); and Village Farmer Restaurant (2001-2002).
1561 W. Sunflower Avenue	House of Phones (1975); Regency South Coast Village (Movie Theatre) (2008, 2012, 2016, 2020); South Coast Village (2008); United Artists Theatres (1975, 1981, 1987, 1991-1992); and W A Matthews (1981).
1621 W. Sunflower Avenue	Aero Garage Door Repair (2016, 2020); American Traders Bureau (2008, 2012, 2016, 2020); Bluewater Grill South Coast (2001-2002, 2008, 2016); Corner Bakery Café (2012, 2016, 2020); Gauche Indian Cuisine (1996-1997); Jabman International Inc (1996-1997); Royal Khyber Fine Indian Restaurant (2001-2002, 2012, 2016, 2020); and South Coast Village (2008).
1631 W. Sunflower Avenue	A Night on the Town (1996-1997, 2001-2002, 2008); Auda Grey Salon & Day Spa (1996-1997); Costa Mesa Art Lounge (1996-1997); Costa

Site Address	City Directory Listings
	Mesa Conference (2012, 2016); Glamour Shots (1996-1997); Grace Tailoring (2016, 2020): Greater Santa Ana Chamber of Commerce (2016, 2020); Jack Eadon Photography (2016, 2020); La Tortuga (1996-1997); Mitra's Complete Beauty Care (1996-1997, 2012, 2016, 2020); Operation Home Front (2012, 2016, 2020); Orange County Fine Arts (2001-2002); Santa Ana Locksmith (2016); Showcase Gallery (2001-2002); South Coast Engraving (1996-1997); South Coast Metro Alliance (2012, 2016, 2020); South Coast Optometry (1996-1997); South Coast Village (1996-1997, 2008); Spatola Tailoring (1996-1997, 2012); and Support the Enlisted Project (2016, 2020).
1641 W. Sunflower Avenue	Hungry Tiger Restaurant (1975, 1981); Reuben's Restaurant (1987, 1991-1992); and Morton's Steakhouse (2008, 2012, 2016, 2020).
1661 W. Sunflower Avenue	Gold & Williams (Furniture) (2016, 2020); Mitchell Gold Co (Furniture) (2012); Morton's Steakhouse (1996-1997, 2001-2002); and Room & Board (Furniture) (2008, 2012, 2016, 2020).
3800 S. Plaza Drive	Antonello R (1981, 1987, 1991-1992); Collectors Corner (1981); Dermaculture Facial Studio (1975); European Gems (1975, 1981); First Americans (1975); Horikawa Restaurant (1975, 1981, 1987, 1991-1992); International Diamond Imprints (1981); Irish Cottage Imports (1975, 1981); Kalso Earth Shoes (1975); Paja Flowers (1975); The Paper Garden (1987, 1991-1992); Petite Auberge (1975); Piano Roll (1975); and Darya Restaurant (2016, 2020).
3951 S. Plaza Drive	A K Financial Services (1987, 2016, 2020); BUI Antoine (Real Estate) (2008); Raymond Bunch, DC (Chiropractor) (2008, 2012); Casablanca's J MDLNG (1987); Farmers Insurance Group (2008); Fitzgerald Property (1987); Golden Pac Investments (1991-1992, 1996-1997); Huntington Financial Services (1991-1992, 1996-1997); I Exchange Inc (Telephone Communications) (2008); Integrated Resources (2012); Italian Restaurant Group (1996-1997); Major Loans (1987, 1991-1992, 1996-1997); Martin Terry Enterprises (1987, 1991-1992, 1996-1997); The Meeting Room (1996-1997); Morgan W Rogers, DC (Chiropractor) (2012, 2016, 2020); National Bank of Southern California (1987, 1991-1992, 1996-1997, 2016); Optical Distributor Group (2008, 2012, 2016); PEI Genesis (2001-2002); Planners Annex (1996-1997); Precision Time System (1991-1992); Profit Recovery Partners (2001-2002); Raymond RE/MAX Metro (Real Estate) (1996-1997, 2001-2002, 2008, 2012); Schatzman Government Relations (1996-1997); South Coast Apparel (1996-1997); Sure Seal Connection (2001-2002); Super Villain Studios Inc (2008); Synergy Inc (Advertising) (2001-2002, 2008, 2012); Techna International (2001-2002); Thompson Co (1987); and US Bank (2001-2002).
3810 S. Plaza Drive (presumed prior address for Site, possibly for 3800 S. Plaza Drive)	Affectionately Amber (1981, 1987); Allen's Engraving (1975); Anders Gustav Restaurant (1991-1992); Anthony's Shoe Repair (1975, 1981, 1987, 1991-1992); The Artichoke (1975); The Co Headquarters (1975); Collectors Corner (1975, 1981); Dr. John's Headquarters (1975); Erewhon International Grocery (1981); The Family Grocery (1981); Fingernail Fixer 20 (1981); Good Earth Restaurant (1981, 1987, 1991-1992); H G Daniels Co (1991-1992); Highlands Tobacco (1975, 1981);

Site Address	City Directory Listings
	Holly Lander Stoneware (1981); Hour Gang Personnel Service (1987); I Framed It Myself (1981); Jay's Fashions Inc (1975); The Joy of Yogurt (1981); Needle Nest (1975); Rose and Crown Pub (1975); Serendipity (1975); St. Ives (1975, 1981, 1987, 1991-1992); Upstart Crow & Co (1987); and Wishon-Harrell Stoneware (1975).
3820 S. Plaza Drive (presumed prior address for Site, possibly for 3800 S. Plaza Drive)	Belgian Waffle Inn (1975, 1981, 1987); Emperors Fortune (1991-1992); Gandhi Indian Cuisine (1987, 1991-1992); Highlands Tobacco (1987); Huddle (1975, 1981); Jabman International Inc (1987, 1991-1992); Laguna Junction (1981); Hallmark (1981); Phil Berman's Galleries (1991-1992); Sweet Piece Candy Co (1987); Sweet Sensations (1987); and The West End (1975).
3840 S. Plaza Drive (presumed prior address for Site, possibly for 1631 W. Sunflower Avenue)	American Institute Architects (1987, 1991-1992); Berkus Group (1981); Calico Cousins (1975); Carlton Hair International (1981, 1987); Club Mediterranean Restaurant (1981); A Different Place (1975); Great Beginnings (1987); Janelle Berte Bridal (1991-1992); Dale's Footwear (1975, 1981); Danielle's Boutique/Danielle's Total Look (1975, 1981); Diners Fugazy Travel (1981); Dominion Saddlery (1991-1992); Exclusive Travel (1975, 1981); Fern Factory (1975); Geppetto Child Fantasy (1975, 1981); Glamour Shots (1991-1992); Great Beginnings (1981); Hershey Communications (1987); Illusions (1981); Kaya Kalpe Herbal (1987); La Tortuga (1975, 1981, 1987, 1991-1992); The Lofty Lady (1975); Lydia's (1987); Miss America (1981); Mitra's Complete Beauty Supply (1991-1992); Morrow's Nut House (1975); Orange County Const (1991-1992); Paja Flowers (1987); Rug Crafters (1975, 1981); South Coast Glass (1981, 1987, 1991-1992); South Coast Symphony (1991-1992); Spatola Tailoring (1981, 1987, 1991-1992); Sunbeam Tours (1987, 1991-1992); Sunflower Swimwear (1975); Sweet William (1991-1992); Werner Daniel Co (1975, 1981, 1987, 1991-1992, 1996-1997); Wild Goose CHS ATQS (1991-1992); Woof & Warp Fabrics (1975, 1981, 1987); and Village Pet Center (1981).
3850 S. Plaza Drive (presumed prior address for Site, possibly for 1631 W. Sunflower Avenue)	American Institution Architects (1981); Antique Merchant (1975); Bob Krips Photography (1975); Brass Balloon Metal Sculpture (1975); Chris' Old Fashion Lemonade (1975); Ciscos Mexican Restaurant (1975, 1981, 1987, 1991-1992); Coffee Trader (1975, 1981); Continental Imports (1975, 1981); Cookie Cutter Bakery (1981); Costa Mesa Art Lounge (1991-1992); Diamond Head Gallery (1981); Dragon Lady's Chinese Food (1975); El Shirtail (1975); ETC Jewelry Designs (1975, 1981, 1987); The Fad Shack (1975, 1981); Fashion Institute Design (1987); Gamesmanship (1975, 1981); Gold Piece Inc (1975); Good Earth Annex (1987); Hello Central (1975); Here and There (1975); Italian Village (1975, 1981); Jack and Jill Children's Hairstyling (1975); Jewel Connection (1981); The Jewel Thief (1975); L'Academie (1975); Little Gem Indian Arts (1975); Mum Mi Imports (1981); Morrow's Nut House (1981); Olive Branch Antique (1975, 1981); Paja Flowers (1981); The Rich Stich (1981); Ruby's Boutique (1975); Skansen Scandinavian Imports (1975, 1981); The Sleigh (1981); Sportswear Corner (1975); Time Life Library (1975, 1981); Toscana Art & Gifts (1975); Touch of Whimsey (1981); Verdugos Mexican Restaurant (1981, 1987, 1991-1992); Whimsey Hollow (1975); and Wine Cheese Culinary (1975, 1981).

Site Address	City Directory Listings
1651 W. Sunflower Avenue (presumed prior address for Site, possibly 3851 S. Bear Street or 3800 S. Plaza Drive)	Anders Gustav Restaurant (1996-1997); Anthony's Shoe Repair (1996-1997); The Good Earth (1996-1997); and Village Farmer Restaurant (1996-1997).

4.1.2 Adjoining Property History

Table 4.2 – Adjoining Property History

Direction from Site	Adjoining Property History
North	A rural residence appeared north-northwest adjacent the Site from at least 1896 through 1974. By 1974, the existing multi-family residential development appeared on the adjoining property to the north-northeast. By 1980, the residence to the north-northwest appeared to have been demolished and the development of the existing multi-family residential development to the north-northwest appeared underway. This multi-family residential complex appeared to be completed by the 1985 historic aerial photograph. These properties appear to remain about the same through present.
East	The adjoining property to the east appeared as undeveloped or agricultural land in the earliest 1896 topographic map. A canal appeared at the eastern property boundary by 1928 and the property beyond appeared to be used for agricultural purposes. By 1972, the existing retail building and associated parking lot appeared. This property appears to remain about the same through present.
South	W. Sunflower Avenue appeared south of the Site in the earliest 1896 topographic map. The property beyond appeared as undeveloped or agricultural land from at least 1896 until 1972 when the existing shopping mall and several associated parking lots appeared. By 1974, additional parking lots appeared on the western portion of the property. By 1987, the shopping mall expansion appeared west of the main mall property, beyond S. Bear Street (southwest of the Site). These properties appear to remain about the same through present.
West	S. Bear Street appeared west of the Site in the earliest 1896 topographic map. The property beyond appeared as undeveloped or agricultural land from at least 1896 until the existing multi-family residential development appeared by 1980. Additional multi-family residential development appeared to the northwest, beyond S. Bear Street, by 1985. These properties appear to remain about the same through present.

4.1.3 Surrounding Property History

The surrounding areas to north and west appeared as undeveloped or agricultural land from the 1890s until residential development appeared in the mid-late 1970s. The surrounding areas to the east and south appeared as undeveloped or agricultural land from the 1890s until commercial and retail development appeared in the early-mid 1970s. These areas appear to remain relatively unchanged through present.

4.2 Database Report and Environmental Record Review

A database search report that identifies properties listed on state and federal databases within the ASTM-required radii of the Site was obtained from ERIS and is included in **Appendix E**.

The environmental database report identified three (3) records/listings for the Site and 233 other records/listings within the search radii of the Site. These properties included those that could be mapped and those that could not (i.e., orphan properties).

4.2.1 Subject Site

Site information included in the database search report is summarized in the following table:

Site Facility Name(s) and/or Listed Address(es)	Corner Bakery 1621 W. Sunflower Avenue, Suite D50, Santa Ana, CA 92704
ERIS Map No(s).	1
Database(s)	California Environmental Reporting System Hazardous Waste Sites (CERS HAZ)
Description/ID No(s).	CERS HAZ – 10736320
Database Review Summary	This facility was listed on the CERS HAZ database for having a Chemical Storage Facility program with one (1) reported compliance violation. On May 22, 2017, this facility received a compliance violation for failure to annually review and certify that the business plan is complete and accurate. This facility returned to compliance by August 10, 2017. No other violations were noted during subsequent evaluations of the facility, including during the most recent evaluation January 30, 2020. Records regarding this facility are also discussed in Section 4.4. Based on this information and the resolution of the compliance violation, this listing would not be considered an environmental concern to the Site.

Site Facility Name(s) and/or Listed Address(es)	Bayley Construction 1631 W. Sunflower Avenue, Suite D50, Santa Ana, CA 92704
ERIS Map No(s).	1
Database(s)	Hazardous Waste Manifest Data (HAZNET)
Description/ID No(s).	HAZNET – CAC002211289
Database Review Summary	This facility was listed on the HAZNET database with a creation date of October 19, 2000, and an inactive date of June 11, 2001. This facility was listed as having a hazardous waste manifest for recycling unspecified organic liquid mixture in 2000. No compliance issues or releases were reported in association with this listing. Based on this information, this listing would not be considered an environmental concern to the Site.

Site Facility Name(s) and/or Listed Address(es)	Reuben's #1708 1641 W. Sunflower Avenue, Suite D50, Santa Ana, CA 92704
ERIS Map No(s).	1

Database(s)	Toxic Pollutant Emissions Facilities (EMISSIONS)
Description/ID No(s).	EMISSIONS – 65598
Database Review Summary	This facility was listed on the EMISSIONS database for having air emissions in 1990. No other details regarding the air emissions were reported in this listing. Based on this information, the lack of ongoing air emissions, and the lack of reported hazardous materials releases , this listing would not be considered an environmental concern to the Site.

4.2.2 Adjoining and Surrounding Property Record Review

TRC evaluated the following factors to determine whether additional environmental records should be reviewed with respect to the potential for contaminant migration from the adjoining and surrounding properties:

(1) Whether the property is upgradient or downgradient of the Site related to potential groundwater migration based on the local topography, and the assumed (or known) groundwater depth and east shallow groundwater flow direction;
(2) Whether the property is upgradient or downgradient of the Site related to potential vapor migration based on readily available information pursuant to the ASTM E 1527-13 standard including soil and geological characteristics; contaminant characteristics; contaminated plume migration data; and significant conduits that might provide preferential pathways for vapor migration such as major utility corridors, sanitary sewers, storm sewers, and significant natural conduits such as Karst terrain (vapor migration may also be influenced by the age and design of infrastructure features associated with these conduits);
(3) Property case status (i.e., whether the DOH authority has issued a No Further Action letter or other similar closure document);
(4) Type of database and whether the presence of contamination is known; and
(5) The distance between the listed property and the Site.

Based on this evaluation, TRC limited the review of additional environmental records to the properties listed below because the potential for contamination to be migrating to the Site from the other properties identified by the database search is considered low.

4.2.2.1 Adjoining Properties

Information regarding adjoining properties (those which share a common property boundary with the Site) included in the database search report is summarized in the following table(s):

Facility Name(s) and/or Listed Address(es)	Cost Plus Inc #6033 (dba. World Market) 1313 W. Sunflower Avenue, Santa Ana, CA 92704
Approximate Location Relative to Site	0.03mi (172 ft) ESE Adjoining
ERIS Map No(s).	2

Database(s)	Resource Conservation & Recovery Act – Non-Generators (RCRA NON GEN), California Environmental Reporting System Hazardous Waste Sites (CERS HAZ), and Orange County – Hazardous Waste Facilities (HW ORANGE)
Description/ID No(s)	RCRA NON GEN – CAL000388009; CERS HAZ – 10832161; and HW ORANGE – FA0082221
Presumed Hydrogeologic Setting	Down-gradient
Database Review Summary	This facility was listed on the RCRA NON GEN database as a non-generator of hazardous waste with no reported compliance violations, as of November 2021. The CERS HAZ database listed this facility as having a Hazardous Waste Generator program with no reported violations. The HW ORANGE database listed this facility as a hazardous waste facility. No other information was reported in this listing. Based on this information and the down-gradient location of this facility, these listings would not be considered an environmental concern to the Site.

Facility Name(s) and/or Listed Address(es)	Jeanette Ngyuen 854 Bear Creek, Costa Mesa, CA 92626
Approximate Location Relative to Site	0.03mi (183 ft) WNW Adjoining
ERIS Map No(s).	3
Database(s)	Resource Conservation & Recovery Act – Non-Generators (RCRA NON GEN)
Description/ID No(s)	RCRA NON GEN – CAC002965547
Presumed Hydrogeologic Setting	Upgradient
Database Review Summary	This facility was listed on the RCRA NON GEN database as a non-generator of hazardous waste with no reported compliance violations, as of November 2021. Based on this information, this listing would not be considered an environmental concern to the Site.

Facility Name(s) and/or Listed Address(es)	James Carmichael 3446 Meadow Brook, Costa Mesa, CA 92626
Approximate Location Relative to Site	0.03mi (214 ft) WSW Adjoining
ERIS Map No(s).	4
Database(s)	Resource Conservation & Recovery Act – Non-CORRACTS Treatment, Storage, and Disposal (RCRA TSD), and Resource Conservation & Recovery Act – Non-Generators (RCRA NON GEN)
Description/ID No(s)	RCRA TSD & RCRA NON GEN – CAC003017097
Presumed Hydrogeologic Setting	Upgradient

Database Review Summary	This facility was listed on the RCRA TSD and RCRA NON GEN databases as a treatment, storage, and/or disposal facility, and a non-generator of hazardous waste with no reported compliance violations, as of November 2021. Based on this information, these listings would not be considered an environmental concern to the Site.

Facility Name(s) and/or Address(es)	(Multi-family Residential Complex) Kaitlin Crowley – 3653 Bear Street #C, Santa Ana, CA 92704 Carlos Coss Y Leon – 3643 Bear Street #G, Santa Ana, CA 92704 Yesenia Flores – 3671 S Bear Street #B, Santa Ana, CA 92704
Approximate Location Relative to Site	0.11mi (587 ft) NNW Adjacent
ERIS Map No(s).	12
Database(s)	Resource Conservation & Recovery Act – Non-CORRACTS Treatment, Storage, and Disposal (RCRA TSD), and Resource Conservation & Recovery Act – Non-Generators (RCRA NON GEN)
Description/ID No(s).	RCRA NON GEN – CAC002993907; RCRA TSD & RCRA NON GEN – CAC003009388, CAC003016737
Presumed Hydrogeologic Setting	Cross-gradient
Database Review Summary	Multiple tenants and addresses within the multi-family residential complex to the north-northwest were listed on the RCRA databases. Kaitlin Crowley was listed on the RCRA NON GEN database as a non-generator of hazardous waste with no reported compliance violations, as of November 2021. Carlos Coss Y Leon and Yesenia Flores were listed on the RCRA TSD and RCRA NON GEN databases as treatment, storage, and/or disposal facilities, and non-generators of hazardous waste with no reported compliance violations, as of November 2021. Based on this information, these listings would not be considered an environmental concern to the Site.

Facility Name(s) and/or Address(es)	South Coast Plaza Shopping Mall and Various Retail Tenants 3333 Bristol Street, Costa Mesa, CA 92626
Approximate Location Relative to Site	0.12mi (612 ft) SE Adjacent
ERIS Map No(s).	13
Database(s)	TRC limited review to the following databases: Delisted County Records (DELISTED COUNTY), Leaking Underground Storage Tank (LUST), Aboveground Storage Tanks (AST), Historical Hazardous Substance Storage Information (HHSS), Delisted California Environmental Reporting System Tanks (DELISTED CTNK), and Historical Hazardous Substance Storage Container Information Facility Summary (HIST TANK)
Description/ID No(s).	DELISTED COUNTY – FA0025114; LUST – T0605900596; AST & HIST TANK – No ID; HHSS – 65492001; DELISTED CTNK – 152229
Presumed Hydrogeologic Setting	Cross-gradient

Database Review Summary	There were 92 listings for this shopping mall facility, including listings for various retail tenants. TRC reviewed all 92 listings and limited the discussion of listings to those below based on the type of database and whether the presence of contamination is known. The potential for contamination to be migrating to the Site from other facilities listed at this shopping mall is considered low. This HIST TANK database listed Sears Roebuck and Co as historically having seven (7) tanks onsite. The HHSS database listed Sears Roebuck and Co as historically having the following seven (7) tanks: one (1) 1,000-gallon waste oil tank that was installed in 1965 and last used in 1985; two (2) 2,000-gallon tanks with unreported contents that were installed in 1966 and last used in 1985; one (1) unreported capacity tank with unreported contents that was installed in 1966 and last used in 1985; and three (3) 1,000-gallon tanks with unreported contents that were installed in 1966 and last used in 1985. The DELISTED CTNK listed the Sears facility as a storage tank facility that was removed from the CalEPA Regulated Site Portal, with a record date of November 29, 2018. Sears Roebuck and Co was listed on the DELISTED COUNTY database for having an aboveground petroleum storage tank listing removed from the county database, with a record date of May 1, 2019. Sears Roebuck and Co was listed on the AST database for having a 1,320-gallon aboveground storage tank. Sears Roebuck and Co was listed on the LUST database for a petroleum release from a storage tank that was discovered during tank closure and reported on January 5, 1988. Following tank removal and remediation, the status of the case was reported as completed – case closed with a No Further Action (NFA) letter on December 20, 2004. Based on the current regulatory statuses, cross-gradient location and resolution of the release case, these listings would not be considered an environmental concern to the Site.

Based on the above listings, no information regarding an unresolved release at the adjoining properties was noted. Therefore, no subsequent file review of these properties was conducted.

4.2.2.2 Surrounding Properties

Information regarding surrounding properties (those within the general vicinity of the Site) included in the database search report is summarized in the following table(s):

Facility Name(s) and/or Address(es)	Accent Cleaners 3767 S. Plaza Drive, Santa Ana, CA 92704
Approximate Location Relative to Site	0.07 mi (382 ft) NE
ERIS Map No(s).	6
Database(s)	State Dry Cleaning Facilities (DRYCLEANERS), Orange County – Hazardous Waste Facilities (HW ORANGE), and Resource Conservation & Recovery Act – Non-Generators (RCRA NON GEN)
Description/ID No(s).	DRYCLEANERS – CAL000402360, CAL000300579, & CAL000204805; HW ORANGE – FA0029675; and RCRA NON GEN – CAL00402360

Presumed Hydrogeologic Setting	Down-gradient
Database Review Summary	This facility was listed on the DRYCLEANERS database as a registered dry-cleaning facility from June 13, 2000 to present. This facility was listed on the RCRA NON GEN database as a non-generator of hazardous waste with no reported compliance violations, as of November 2021. The HW ORANGE database listed this facility as a hazardous waste facility. No other information was reported in this listing. Based on this information, the down-gradient location of this facility, and lack of reported releases, these listings would not be considered an environmental concern to the Site.

Facility Name(s) and/or Address(es)	South Coast Plaza Expansion and Various Retail Tenants 3333 Bear Street, Costa Mesa, CA 92626
Approximate Location Relative to Site	0.11 mi (573 ft) SW
ERIS Map No(s).	11
Database(s)	Various
Description/ID No(s).	Various
Presumed Hydrogeologic Setting	Cross-gradient
Database Review Summary	There were 24 listings for this shopping complex facility, including listings for various retail tenants. TRC reviewed all 24 listings and none of the listings indicated presence of contamination or unresolved environmental compliance violations. Based on the current regulatory status and lack of reported releases or unresolved compliance issues, these listings would not be considered an environmental concern to the Site.

4.3 Previous Reports

The following environmental reports regarding the Site were reviewed by TRC:

- October 2011, *Phase I Environmental Site Assessment for South Coast Plaza Room & Board Home Furnishings at 1661 Sunflower Avenue, Santa Ana, CA 92704*, Prepared by Phase One Inc.
- August 8, 1980, *Letter RE: Tentative Parcel Map 80-887*, Prepared by the City of Santa Ana.

Information provided in this report is summarized below.

The Phase One Inc (POI) report from 2011 was prepared for a 4.67-acre portion of the existing Site, specifically Assessor Parcel Number (APN) 412-451-02. This parcel included one (1) 48,500 square foot retail building located at 1661 W. Sunflower Avenue. At the time of this assessment, this building was occupied by two (2) furniture retail tenants: Room & Board Home Furnishings, and Mitchel Gold & Bob Williams. POI concluded that there were no recognized environmental conditions (RECs) affecting the project property. POI identified the project property's prior use for agricultural purposes as a *de minimis* condition due to the potential for onsite soil to harbor

chemicals associated with previous agricultural uses. POI recommended no further investigation at the time of the assessment; however, they recommended subsurface sampling be performed if the property were to be redeveloped or if workers were to come in contact with the soil during excavation or similar activities.

A letter was issued by the City of Santa Ana Department of Planning on August 8, 1980, regarding Tentative Parcel Map 80-887 that was filed on June 30, 1980. This Tentative Parcel Map proposed creating two (2) parcels for commercial purposes on the northeast corner of W. Sunflower Avenue and S. Plaza Drive. This area consists of the existing eastern portion of the Site located on the east side of S. Plaza Drive. At the time of this letter, the City of Santa Ana recommended approval of the Tentative Parcel Map. These records also included a "Negative Declaration" for the proposed project, indicating that in accordance with the City's "Environmental Rules – 1976 Revision," an Environmental Analyst from the Department of Planning concluded that the proposed project would not have a significant effect on the environment.

Copies of these prior reports are provided in **Appendix A**.

4.4 Other Environmental Record Sources

Per the ASTM standard, local or additional state records were reviewed to enhance and supplement the ASTM-required federal and state records reviewed and discussed earlier in this report. These additional records include state agency lists of waste disposal facilities; Brownfield properties; hazardous waste/contaminated facilities; registered storage tanks; records of emergency release reports; and records of contaminated public wells. Local sources that were contacted to obtain this information include: California Environmental Protection Agency (CalEPA); Orange County Public Health Services – Environmental Health Services (OCPH); and the Orange County Fire Authority (OCFA).

The CalEPA Department of Toxic Substances Control (DTSC) did not have any records for any of the Site addresses. None of the Site addresses were listed on the CalEPA GeoTracker database for Leaking Underground Storage Tank (LUST) Sites, Department of Defense Sites, Cleanup Program Sites, Irrigated Lands, Oil and Gas production, operating Permitted USTs, and Land Disposal Sites.

According to the CalEPA Regulated Site Portal, Corner Bakery at 1621 W. Sunflower Avenue, Suite D50, was listed as having a Chemical Storage Facility program with Program ID #10736320. The environmental interest start date was reported as May 22, 2017, and there was one (1) reported compliance violation for this facility from May 22, 2017. During a routine inspection performed by the local agency on this date, the inspector observed hazardous materials in reportable quantities and issued a violation to the facility for not identifying hazardous materials above disclosure thresholds to the agency. Following this inspection, the facility reported storing carbon dioxide gas with a maximum daily amount of 2,600-12,999 cubic feet. No compliance violations were reported at subsequent inspections, including the most recent inspection on January 30, 2020.

OCPH had records for Corner Bakery at 1621 W. Sunflower Avenue, Suite D50, including a Hazardous Material Release Response Plan (HMRRP) Inspection Report dated January 30, 2020. This inspection was also discussed above in the CalEPA records. No environmental compliance violations were noted at the time of the inspection. OCPH also provided records indicating that Corner Bakery was listed on the California Environmental Reporting System

(CERS) under CERSID: 1073620 as having a submittal accepted on March 23, 2020, indicating that a hazardous material was kept onsite. The hazardous material was reported as carbon dioxide gas with a maximum daily amount of 2,625 cubic feet. These hazardous material records are also discussed above in the CalEPA records.

OCFA had records for 1561, 1621, 1631, 1641, and 1661 Sunflower Avenue, and 3851 Bear Street. One compliance violation was identified for 1621 Sunflower Avenue, Suite D53 (Royal Khyber Fine Indian Cuisine), on September 10, 2021. This violation was reported as "exiting" and "permit related". This facility has the following active permits: Permit No. AP21 – Assembly, <300 Occupants, and Permit No. M150 – Administrative Drive Time. Neither of these permits appear to be environmentally related. A clear reinspection was reported on December 30, 2021. Additionally, no hazardous chemicals were reported for this facility. No compliance violations or hazardous chemicals were identified for 1561 Sunflower Avenue; 1621 Sunflower Avenue, Suite D50; 1631 Sunflower Avenue, Suites C4, C41 and C35; 1641 Sunflower Avenue; 1661 Sunflower Avenue, Suites A1 and A2; and 3851 Bear Street, Suites 17, B20 and 21. OCFA did not have any records for 3800 and 3951 S Plaza Drive.

Based on the information discussed in the records reviewed above, and lack of evidence of a release or unresolved environmental compliance issue, these records would not be considered an environmental concern to the Site.

Copies of these records are provided in **Appendix A**.

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

Ms. Sabrina Remedios Chan, Senior Industrial Hygienist, conducted a Site reconnaissance of accessible areas on and around the Site on February 16, 2022 for the purpose of identifying potential RECs, and was accompanied by Dennis Morrow, Jason Poulsen and John Coyne of South Coast Plaza Management who provided access to the property and answered questions during the reconnaissance. Photographs taken during the Site reconnaissance are provided in **Appendix F**. A Site layout plan is included as **Figure 2**.

Limiting conditions encountered during the Site visit consisted of the following:

- Access to some tenant spaces was limited due to tenants being located off-site.
- The integrity and functionality of underground structures (e.g., floor drains, pits, etc.) could not be discerned during the Site visit given their underground nature.

5.2 Interior and Exterior Site Observations

Unless otherwise noted, the items listed in the table below appeared in good condition with no visual evidence of staining, deterioration, or a discharge of hazardous materials; and there are no records of a release in these areas. Items where further description is warranted are discussed in the section(s) following the table.

Table 5.1 – Interior and Exterior Site Observations

Item	Present (Current/ Historic/ Not Observed)	Description
Hazardous material storage or handling areas	Current	(see Section 5.2.1)
Solid and liquid wastes including municipal wastes	Current	(see Section 5.2.2)
USTs and associated piping	Not Observed	
ASTs and associated piping	Not Observed	
Drums and containers (≥5 gallons)	Not Observed	
Odors	Current	A gasoline odor was noted upon entrance to the electrical room of Antonello Ristorante. The odor dissipated as the door stayed open. No gasoline storage or spills were observed in this area.
Pools of liquid, including surface water bodies and sumps (handling hazardous substances or substances likely to be hazardous only)	Current	Two (2) exterior water fountains were observed on the Site. No evidence of staining or hazardous materials were observed in the vicinity of these water fountains.

Table 5.1 – Interior and Exterior Site Observations

Item	Present (Current/ Historic/ Not Observed)	Description
PCBs/transformers	Current	Two (2) pad-mounted transformers were observed at the western edge of the Site adjacent to Bear Street, and at the southern portion of the Site near Morton's Restaurant. The PCB-content of these transformers is unknown, however, there was no evidence of leakage. Hydraulic elevator equipment was observed at the Orange County Museum of Art tenant space. Equipment was observed in good condition with no evidence of leakage. A hydraulic trash compactor and cardboard baler were observed in the outdoor trash collection area. No evidence of staining or leakage was observed.
Stains or corrosion	Not Observed	
Drains and sumps	Current	Multiple floor drains were observed throughout the Site tenant spaces. No staining was observed in the vicinity of these floor drains. No sumps were observed. Stormwater drains were observed in parking areas throughout the Site. No staining was observed in the vicinity of these stormwater drains. Three (3) grease traps/clarifiers were observed for Morton's, Corner Bakery, and another restaurant. No evidence of staining was observed in the vicinity of these grease traps/clarifiers.
Pits, ponds, and lagoons	Not Observed	
Stressed vegetation	Not Observed	
Historic fill or other fill material	Not Observed	
Wastewater (including stormwater or discharge into a drain, ditch, underground injection system, or stream on or adjacent to the Site)	Current	Sanitary sewage is discharged from the Site to the City of Santa Ana's sanitary sewer system. Storm water runoff discharges into the storm water system which is maintained by the City of Santa Ana.

Table 5.1 – Interior and Exterior Site Observations

Item	Present (Current/ Historic/ Not Observed)	Description
Wells (including dry wells, irrigation wells, injection wells, abandoned wells, or other wells)	Current	Two (2) monitoring wells were observed in the northeast corner of the Site in the parking lot area. There are reportedly five (5) monitoring wells onsite. The remaining three (3) monitoring wells include one (1) monitoring well behind Morton's Restaurant, and two (2) monitoring wells along Bear Street. According to the Site contact, these monitoring wells were installed approximately 2-3 months prior to TRC's assessment for the purpose of determining water tables, water quality, water level, and the amount of water located beneath the Site in preparation for remodeling the shopping complex. No contamination was reported in association with these monitoring wells.
Septic systems or cesspools	Not Observed	

5.2.1 Hazardous Substances

Hazardous substances including raw materials; finished products and formulations; hazardous wastes; hazardous constituents and pollutants including intermediates and byproducts that are currently present at the Site; and unidentified substance containers (when open or damaged, and containing unidentified substances suspected of being hazardous or petroleum products) are listed in the following table.

Table 5.2 – Current Site Hazardous Substances

Material Name	Approximate Quantity on Site During Reconnaissance (gallons/pounds)	Storage Containers and Conditions*
Maverick Oil 100	5 gallons	One (1) 5-gallon container was observed in the elevator room located within the Orange County Museum of Art tenant space. The container was observed in good condition with no evidence of leakage.
Gasoline	7.5 gallons	One (1) metal safety can was observed in the exterior trash collection area. This container appeared to be in good condition with no evidence of leakage.
Diesel	10 gallons	One (1) metal safety can was observed in the exterior trash collection area. This container appeared to be in good condition with no evidence of leakage.
Liquid carbon dioxide tanks	Two (2) 100-liter tanks	Two (2) tanks were observed in different restaurant tenant spaces.
Compressed carbon dioxide cylinders	Two (2) 24-ounce cylinders	Two (2) cylinders were observed in one restaurant tenant space.

Table 5.2 – Current Site Hazardous Substances

Material Name	Approximate Quantity on Site During Reconnaissance (gallons/pounds)	Storage Containers and Conditions*
Paint	Approximately 25 gallons	Approximately twenty-five (25) 1-gallon paint containers were observed on shelving in the Room & Board tenant space. Containers appeared to be in good condition with no evidence of leakage.
Cleaning chemicals	Unknown	Various retail sized cleaning products were observed in good condition in tenant spaces throughout the Site.

* - Definition of conditions
Compromised: Obvious holes in container or visual evidence of a release.
Poor: Container appears dented, bulging, rusted, or visual evidence of spillage.
Fair: Container appears intact with visual traces of rust.
Good: No visual evidence of container damage.
Excellent: Container appears like new.

5.2.2 Solid and Liquid Wastes

Solid and liquid wastes are generated and stored on the Site. A summary of the observations made during the Site visit regarding solid and liquid waste generation and disposal is provided in the following table.

Table 5.3 – Current Site Solid and Liquid Wastes

Waste Generated	Current Waste Storage /Containers Location	Condition of Storage Area /Secondary Containment	Waste Disposal or Recycling Contractor
Regular trash	Outdoor dumpster	Good – The dumpster was closed, and no perforations or staining were observed.	Waste Management
Used oils	Oil container at outdoor trash collection area for tenant use	Good – The container was closed. No perforations or staining were observed.	Baker Commodities
Food waste	Dedicated dumpster/bin	Good – The container was closed. No perforations or staining were observed.	Waste Management
Cardboard	Outdoor baler	Good – No perforations or staining were observed.	Facility takes them to disposal.
Sanitary wastewater	Sanitary sewer system	Indiscernible due to its underground location	Sanitary sewer system

5.3 Adjoining and Surrounding Properties Reconnaissance

5.3.1 Adjoining Properties

During the Site reconnaissance, TRC viewed the adjoining properties from the Site and publicly accessible areas (e.g., public roadways, etc.).

Table 5.4 – Adjoining Properties Reconnaissance

Direction from Site	Current Land Use Description
North	Multi-family residential development.
East	Commercial retail businesses.
South	Sunflower Avenue, followed by commercial retail businesses and restaurants.
West	Bear Street, followed by multi-family residential development.

5.3.2 Surrounding Properties

Surrounding properties generally include commercial to the east and south, and residential properties to the north and west.

6.0 INTERVIEWS

The following persons were interviewed to obtain historically and/or environmentally pertinent information regarding RECs associated with the Site.

- Mr. Dennis Morrow, Supervisor of South Coast Plaza (including South Coast Plaza Village), with 27+ years of experience at the Site – *Key Site Manager* (as defined by the ASTM standard); and
- Mr. David Grant, former General Manger of South Coast Plaza (including South Coast Plaza Village), with 44+ years of experience at the Site.

The information provided by each is discussed and referenced in the text or provided below. Other references and sources of information are included in **Appendix A**.

7.0 FINDINGS, OPINIONS, AND CONCLUSIONS

Potential findings can include RECs, including CREC), HRECs, and *de minimis* conditions, pursuant to the ASTM E 1527-13 standard.

RECs are defined as the presence or likely presence of any *hazardous substances* or *petroleum products* in, on, or at a *property*: (1) due to any *release* to the environment; (2) under conditions indicative of a *release* to the *environment*; or (3) under conditions that pose a *material threat* of a future *release* to the *environment*.

CRECs are defined as RECs resulting from past *releases* of *hazardous substances* or *petroleum products* that have been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls (e.g., *property* use restrictions, *AULs, institutional controls*, or *engineering controls*).

HRECs are defined as past *releases* of any *hazardous substances* or *petroleum products* that have occurred in connection with the *property* and have been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the *property* to any required controls (for example, *property* use restrictions, *AULs, institutional controls*, or *engineering controls*).

De minimis conditions are defined as conditions that generally do not present a threat to human health or the *environment* and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis conditions* are not RECs nor CRECs.

TRC has performed a Phase I ESA in conformance with the scope and limitations of ASTM E 1527-13 at the South Coast Plaza Village consisting of the following property addresses: 1561, 1621, 1631, 1641, and 1661 W. Sunflower Avenue; 3851 S. Bear Street; and 3800 and 3951 S. Plaza Drive, all in Santa Ana, Orange County, California (Site), see **Appendices G and H**. Deviations from this standard are described in Sections 1.3 and 7.6 of this report.

7.1 Findings and Opinions

The following conditions were noted during the preparation of this report. TRC has provided the Environmental Professional's rationale for concluding that a condition is or is not currently a REC.

Finding No. 1

During Site reconnaissance, multiple hazardous materials were observed stored throughout Site areas. The storage conditions of these hazardous materials appeared to be good with no evidence of leakage. Based on the storage conditions, the presence of hazardous materials would not be considered an environmental concern to the Site.

Finding No. 2

During Site reconnaissance, a gasoline odor was noted upon entrance to the electrical room of the Antonello Ristorante tenant space. The odor dissipated as the door stayed open. No gasoline

storage or spills were observed in this area. Based on the lack of evidence regarding a release, this odor would be considered a *de minimis* condition.

Finding No. 3

Five (5) monitoring wells were reported onsite, including two (2) monitoring wells in the northeast corner of the Site in the parking lot area, one (1) monitoring well behind Morton's Restaurant, and two (2) monitoring wells along Bear Street. According to the Site contact, these monitoring wells were installed approximately 2-3 months prior to TRC's assessment for the purpose of determining water tables, water quality, water level, and the amount of water located beneath the Site in preparation for remodeling the shopping complex. Based on the lack of contamination reported in association with these monitoring wells, the presence of these monitoring wells would not be considered an environmental concern to the Site.

Finding No. 4

Several historic compliance violations were reported for tenants of the Site, including Corner Bakery (1621 W. Sunflower Avenue, Suite D50) and Royal Khyber Fine Indian Cuisine (1621 Sunflower Avenue, Suite D53). Corner Bakery received a violation on May 22, 2017 for not reporting hazardous materials, specifically carbon dioxide gas, above disclosure thresholds. Royal Khyber Fine Indian Cuisine received "exiting" and "permit related" violations on September 10, 2021. Royal Khyber Fine Indian Cuisine has the following active permits: Permit No. AP21 – Assembly, <300 Occupants, and Permit No. M150 – Administrative Drive Time. These permits do not appear to be environmentally related. Both violation cases were resolved, and no violations were identified in subsequent inspections. Based on the lack of reported releases or unresolved environmental compliance violations, these historic violations would not be considered an environmental concern to the Site.

7.2 RECs and CRECs

This assessment has revealed no evidence of RECs (including CRECs) in connection with the Site.

7.3 HRECs

This assessment has revealed no evidence of HRECs in connection with the Site.

7.4 *De Minimis* Conditions

This assessment has revealed evidence of the following *de minimis* condition in connection with the Site:

- During Site reconnaissance, a gasoline odor was noted upon entrance to the electrical room of the Antonello Ristorante tenant space. The odor dissipated as the door stayed open. No gasoline storage or spills were observed in this area. Based on the lack of evidence regarding a release, this odor would be considered a *de minimis* condition.

7.5 Data Gaps

TRC has made an appropriate inquiry into the commonly known and reasonably ascertainable resources concerning the historic ownership and use of the Site back to the first development per 40 CFR Part 312.24 (*Reviews of Historical Sources of Information*). Data gaps identified during this assessment include the following:

1. TRC was unable to enter several of the tenant spaces due to tenants off-site.
2. The Site was used for agricultural purposes prior to the late 1960s, during which herbicides and pesticides may have been used. No structures or orchards were identified on the Site during this time through the review of historical sources and interviews with the Site contacts and prior owners. Given that no storage structures or spills were historically identified on the Site related to herbicides and pesticides, TRC presumes that the amount of these substances administered on the Site would have been at "application" concentrations, if any. TRC cannot rule out the possibility of historic herbicide and pesticide use but given the information provided to TRC for this assessment, the Site does not appear likely to have been impacted by releases of herbicides and pesticides. Additional information that varies significantly from the sources provided to TRC may affect the conclusions of this assessment.
3. The Site is located in a complex, urban setting that has a complex history of adjacent and surrounding properties that have listed potentially environmentally impactful uses. Given the complex setting, number of potentially impactful uses, the presence of potential preferential pathways including utility corridors, and unknown groundwater flow, TRC cannot rule out the possibility of potential subsurface impacts to the Site from its presence in a complex, urban setting. Additional information provided to TRC regarding the complex, urban setting may affect the conclusions of this assessment.

Based on other historical sources reviewed and interviews conducted, Data Gap Nos. 1-3 are not considered *significant*.

7.6 Limiting Conditions and Deviations

7.6.1 Accuracy and Completeness

The ASTM E 1527-13 standard recognizes inherent limitations for Phase I ESAs that apply to this report, including:

- Uncertainty Not Eliminated – No Phase I ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. Data gaps identified during this Phase I ESA are listed in Section 7.4.

- Not Exhaustive – A Phase I ESA is not an exhaustive investigation.

- Past Uses of the Property – A review of standard historical sources at intervals less than 5 years is not required.

The Client is advised that the Phase I ESA conducted at the Site is a limited inquiry into a property's environmental status, cannot wholly eliminate uncertainty, and is not an exhaustive assessment to discover every potential source of environmental liability at the Site. Therefore, TRC does not make a statement i) of warranty or guarantee, express or implied for any specific

use; ii) that the Site is free of RECs or environmental impairment; iii) that the Site is "clean;" or iv) that impairments, if any, are limited to those that were discovered while TRC was performing the Phase I ESA. This limiting statement is not meant to compromise the findings of this report; rather, it is meant as a statement of limitations within the ASTM standard and intended scope of this assessment. Specific limiting conditions identified during the Site reconnaissance are described in Section 5.1. Subsurface conditions may differ from the conditions implied by surface observations and can be evaluated more thoroughly through intrusive techniques that are beyond the scope of this assessment. Information in this report is not intended to be used as a construction document and should not be used for demolition, renovation, or other construction purposes.

This report presents TRC's Site reconnaissance observations, findings, and conclusions as they existed at the time of the Site reconnaissance. TRC makes no representation or warranty that the past or current operations at the property are or have been in compliance with applicable federal, state, and local laws, regulations, and codes. TRC makes no guarantees as to the accuracy or completeness of information obtained from others during the course of this Phase I ESA report. It is possible that information exists beyond the scope of this assessment, or that information was not provided to TRC. Additional information subsequently provided, discovered, or produced may alter findings or conclusions made in this Phase I ESA report. TRC is under no obligation to update this report to reflect such subsequent information. The findings presented in this report are based upon reasonably ascertainable information and observed Site conditions at the time of the assessment.

This report does not warrant against future operations or conditions, nor does it warrant against operations or conditions present of a type or at a location not assessed. Regardless of the findings stated in this report, TRC is not responsible for consequences or conditions arising from facts that were not fully disclosed to TRC during the assessment.

An independent data research company provided the government agency database referenced in this report. Information regarding surrounding area properties was requested for approximate minimum search distances and was assumed to be correct and complete unless obviously contradicted by TRC's observations or other credible referenced sources reviewed during the assessment.

TRC is not a professional title insurance or land surveyor firm and makes no guarantee, explicit or implied, that any land title records acquired or reviewed, or any physical descriptions or depictions of the property in this report, represent a comprehensive definition or precise delineation of property ownership or boundaries.

7.6.2 Warranties and Representations

This report does not warrant against: (1) operations or conditions which were not evident from visual observations or historical information provided; (2) conditions which could only be determined by physical sampling or other intrusive investigation techniques; (3) locations other than the client-provided addresses and/or legal parcel description; or (4) information regarding off-Site location(s) (with possible impact to the Site) not published in publicly available records.

7.6.3 Continued Validity/User Reliance

This report is presumed to be valid, in accordance with, and subject to, the limitations specified in the ASTM E 1527-13 standard, for a period of 180 days from completion, or until the Client obtains specific information that may materially alter a finding, opinion, or conclusion in this report, or until the Client is notified by TRC that it has obtained specific information that may materially alter a finding, opinion, or conclusion in this report. Additionally, pursuant to the ASTM E 1527-13 standard, this report is presumed valid if completed less than 180 days prior to the date of acquisition of the property or (for transactions not involving an acquisition) the date of the intended transaction.

7.6.4 Significant Assumptions

During this Phase I ESA, TRC relied on database information; interviews with Site representatives, regulatory officials, and other individuals having knowledge of Site operations; and information provided by the User as requested in our authorized Scope of Work. TRC has assumed that the information provided is true and accurate. Reliance on electronic database search reports is subject to the limitations set forth in those reports. TRC did not independently verify the information provided. TRC found no reason to question the validity of the information received unless explicitly noted elsewhere in this report. If other information is discovered and/or if previous reports exist that were not provided to TRC, our conclusions may not be valid.

HISTORIC South Coast Plaza Village Tenants
1/25/2022

South Coast Plaza Village/West Side of S Plaza Drive originally opened in 1973, except the Morton's (originally Reuben's) building which opened in 1971. Tenant uses on this side of Plaza Drive have been retail, restaurant, art gallery, service such as shoe repair, tailor and beauty, and storage.

South Coast Plaza Village/East side of S Plaza Drive consists today of just one movie theater which also opened in in 1971. This side of the street formerly also included an office building (3951 S. Plaza Drive) which opened in 1981 and was closed and demolished in 2013.

The entire office building (now demolished) was leased to the same tenant for entirety of its existence. That tenant subleased space in the building. Company does not have readily available list of those subtenants but may be able to put one together by culling hard copy records in off-site storage.

The following list of tenants was retrieved on 1/25/22 off company's prior accounting system. Goes back to 1980s and perhaps picks up some tenants from 1970s. Two current tenants not found in this prior accounting system were added to this list (shown with *). Sources for this list do not cover the full period of time that South Coast Plaza Village has been in operation. And Tenants utilizing space for storage only are not included in the list.

RE: Phase I Environmental Site Assessment Report
Subject Site Location: 1661 Sunflower Avenue, Santa Ana, California 92704
PHASE ONE **INC.** Project No. 7127

Dear Mr. Reese:

Enclosed with this letter are copies of the Phase I Environmental Site Assessment Report completed by ***PHASE ONE*** **INC.** for the site referenced above. As you will note in the report, our conclusions regarding the environmental condition of the site are summarized both in Section 1.0, ***Executive Summary***, and Section 6.0, ***Conclusions and Recommendations***.

Please don't hesitate to contact us should you have any questions regarding the environmental assessment, or if we can be of additional assistance. We look forward to working with you again in the future.

Sincerely,

Eric Kieselbach
President

SECTION 2.0

INTRODUCTION

2.1 PURPOSE OF A PHASE I ESA

The purpose of this Phase I Environmental Site Assessment is to assess (1) the likelihood of contamination of the subject site as a result of either past or present land-use practices; and (2) the potential for future environmental contamination which may occur as a result of current conditions or operations and maintenance activities at either the subject site or properties adjoining the subject site, thereby identifying real or potential environmental or economic impact to the subject site. In this way, the client may satisfy a requirement to qualify for the innocent landowner defense to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) liability by completing "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial and customary practice." To meet these objectives, ***PHASE ONE*** **INC.** attempted to complete the tasks outlined in this section except as noted in Section 1.4.

2.2 SCOPE OF WORK

The Scope of Work that has been followed for this assessment is identified in Section 1.1, Page 1-1.

2.2.1 Site Description

Site photographs were taken during the site reconnaissance. The photographs and their summary descriptions can be found in **Appendix A.**

PHASE ONE **INC.** reviewed pertinent, reasonably ascertainable information on the soil types and groundwater conditions in the vicinity of the subject site. For the purposes of this assessment, the depth from the ground surface and the direction (or gradient) of the groundwater flow are of particular significance. Such findings are used by ***PHASE ONE*** **INC.** report writers, in conjunction with additional information about environmental conditions on nearby sites, to assess the risk that is faced by the subject site from off-site sources of contamination.

It should be noted that ***PHASE ONE*** **INC.**'s geological and hydrological research does not include investigation of seismological concerns (i.e., fault lines) that may affect the area of the subject site. Although the existence of faults in an area may be of concern to property owners and residents in that area, it is not considered to be an environmental concern, and so is not usually a component of a Phase I Environmental Site Assessment. (However, in the event that it is required, ***PHASE ONE*** **INC.** can assist the client in completing a seismological investigation.)

2.2.2 Site Reconnaissance

A ***PHASE ONE*** **INC.** field assessor conducted a visual reconnaissance of the subject property to identify observable signs of environmental impairments, including on-site operations and

Copyright © 2011 *PHASE ONE* INC. All rights reserved

maintenance activities which may lead to possible environmental impairment. As a part of the site reconnaissance, ***PHASE ONE*** **INC.** visually inspected the site for obvious indications of:

- Existing and previously existing storage tanks (aboveground and underground)
- Hazardous substances storage and handling
- Clarifiers, sumps, trenches, and industrial discharge sources
- Equipment which may contain polychlorinated biphenyls (PCB) (fluorescent light ballasts are not inspected)
- Indications of spillage of hazardous substances, and the general condition of concrete, asphalt, soil, and other surfaces
- Indications of stressed vegetation as a result of on-site contamination

During the site reconnaissance, ***PHASE ONE*** **INC.** field assessors may make note of basic compliance issues which, may be environmental in nature, however are not issues directly associated with the potential for site contamination (i.e., the specific objective of our assessment). However, as a service to our clients, and because these compliance issues may contribute to our overall understanding of site operations, ***PHASE ONE*** **INC.** may comment on the site's basic compliance status. The review of the site's compliance status is not intended to be complete or comprehensive and may or may not include all items identified during the site reconnaissance.

Again, the compliance review is not intended as a comprehensive compliance audit. Rather, the compliance review is only intended to aid ***PHASE ONE*** **INC.** in determining the likelihood that the subject site may have been impacted by releases of hazardous substances.

When the storage or use of hazardous substances are encountered on a site, the ***PHASE ONE*** **INC.** field assessor will look for or inquire about the on-site presence of Material Safety Data Sheets (MSDSs). MSDSs are prepared by the manufacturers of hazardous substances (pursuant to OSHA's Hazard Communication Standard), and they detail the components, dangers, and proper handling procedures for the hazardous substance for which they have been prepared. The presence or absence of MSDSs for on-site hazardous substances will be noted in 3.5, ***Hazardous Substances Storage and Handling***. However, some sites may use or store hundreds of various chemical compounds. In such cases, it is practically impossible for the field assessor to match-up each substance with its corresponding MSDS. Still, the field assessor will inquire about MSDSs and copies of representative MSDSs that were made available will be included in Appendix G.

PHASE ONE **INC.** may have (based on contract) inspected and reviewed information for the subject site regarding the presence of specific hazardous substances which are relatively common sources of environmental concern. The substances in question include:

Copyright © 2011 *PHASE ONE* INC. All rights reserved

- Common building materials that may contain or are suspected of containing asbestos
- Radon (at elevated levels)
- Lead-contaminated drinking water
- Lead-based paints

Based on ASTM E1527, federal, state, and other regulatory agency guidelines, the following presumptions were in force if and when ***PHASE ONE*** **INC.** inspected the subject site for specific hazardous substances:

- Structures built after 1980 are considered asbestos-free.
- Structures built after 1979 are considered lead-free (with respect to both water and painted surfaces).
- Fluorescent light ballasts will be considered PCB-free and will not be noted in the report regardless of their date of manufacture, unless ***PHASE ONE*** **INC.** is instructed to do otherwise in writing by the client.

PHASE ONE **INC.** also inspected the properties that adjoin the subject site. In general, this inspection included a "drive-by" survey to note the operations which may pose an imminent or potential environmental threat to the subject site.

2.2.3 Review of Historical Information

For this assessment, ***PHASE ONE*** **INC.** may have reviewed reasonably ascertainable historical aerial photographs and United States Geologic Survey (U.S.G.S.) topographic maps of the subject site and vicinity. This review consisted of examining the reasonably ascertainable available photographs and topographic maps for evidence of activities on or development of the subject site and adjoining sites that may show an environmental condition or concern which may currently affect the subject site. The specific aerial photographs and U.S.G.S. maps that were reviewed for this assessment are identified and their environmentally relevant features are described in Section 4.1.

PHASE ONE **INC.** may have also reviewed any reasonably ascertainable Historic Maps of the subject site and vicinity. Such maps have been prepared by fire insurance companies in order to determine the potential risk of fire damage to buildings in metropolitan areas. These maps have been produced since the mid-1850s and, for some areas, they are still produced today. For the purposes of a Phase I Environmental Site Assessment, these maps may contain helpful information on the ages and past uses of buildings, as well as information about on the storage of hazardous and flammable substances. However, because it was only worthwhile for fire insurance companies to map metropolitan areas, the scope of coverage of these maps is somewhat limited. If Historic Maps have provided coverage of the subject site, and if the specific maps were reasonably ascertainable,

Copyright © 2011 *PHASE ONE* INC. All rights reserved

then the specific maps that were reviewed for this assessment are identified, and their environmentally relevant features described, in Section 4.2.

One of the least known yet most complete and comprehensive historical sources are historical city or street directories. These texts may have been reviewed by ***PHASE ONE*** **INC.** to the extent that they have provided coverage of the subject site and were reasonably ascertainable. ***PHASE ONE*** **INC.** reviews historical city or street directories (also known as criss cross or reverse indexed directories) for information on the past occupants of and activities on the subject site and adjoining sites. These directories were prepared by companies that catered to the needs of salespeople by providing the names of the occupants at a given address (that is, unlike a traditional telephone book, the entries of a reverse directory are arranged by address, not by name). However, like Historical Maps, the scope of coverage of these directories is limited to mostly metropolitan areas. If they were reasonably ascertainable, they were reviewed and Section 4.3 contains listings of the current or past occupants of the subject site that were found by researching historical city or street directories.

PHASE ONE **INC.** has contacted various state, county, and municipal agencies having current or past jurisdiction over the subject site, in an attempt to review reasonably ascertainable records that contain specific information about environmental conditions on the subject site that these agencies may have on file, or to establish that no environmentally relevant records are on file for the subject site. The client should be aware that most regulatory agencies file their records by address or corporate name (as opposed to parcel number or site name). If no specific address has been assigned to a site, then, typically, no environmental records related to the site will be forthcoming from the state, county, or municipal regulatory agencies.

The findings of this records search are reported in Section 4.4, ***Agency Contacts***. The addresses, phone numbers, names of the persons contacted within the various agencies are listed on the Regulatory Contacts Sheet, which is included in Appendix B. Copies of any records obtained from regulatory agencies can be found in Appendix C. In some instances, ***PHASE ONE*** **INC.** may not yet have received a reply from one or more of the agencies that were contacted. (Some agencies will take six weeks or longer to reply to a verbal or written request.) In the event of such delays in response, rather than delaying the issuance of the report, ***PHASE ONE*** **INC.** has indicated in the report that a response to the request for records is pending, and a copy of the regulatory request form has been included in Appendix B. Any pertinent information that is subsequently received from the pending agency will be addressed and forwarded to the client in the form of an addendum to this report.

PHASE ONE **INC.** has also reviewed a vendor-supplied, computer-generated federal, state, and regional one-mile regulatory database search in an effort to determine whether the subject site is listed on an agency environmental database and to identify possible regulatory-listed sites of concern within a one-mile radius of the subject site. In general, these documents list known or suspected hazardous-waste generators, release sites, landfills, unauthorized disposal sites, sites with registered underground storage tanks, and sites currently under investigation for known or suspected environmental violations or releases. In conjunction with the findings on the geological and hydrological conditions, information obtained from the database search can be used to assess the environmental risk faced by the subject site from past or present off-site sources of contamination. Additionally, the database search may provide information about on-site sources of contamination. The regulatory database review can be found in Section 4.5; a copy of the complete database search

Copyright © 2011 *PHASE ONE* INC. All rights reserved

document and a detailed description of the databases that were searched are included in Appendix D.

When requested, ***PHASE ONE*** **INC.** will compile and review a chain-of-title abstract for the subject property. The chain-of-title abstract can help the client and ***PHASE ONE*** **INC.** to better understand the history of the use of the subject site. The chain-of-title abstract is typically compiled from documents obtained from the County Recorder's Office or Tax Assessor's Office. The chain-of-title abstract review, if completed for this report, can be found in Section 4.6. The County Assessor also may be contacted to determine whether the subject site has been assigned addresses in the past which are different from its current address. It is the client's responsibility to supply ***PHASE ONE*** **INC.** with any records of environmental liens or other such documents.

On occasion, the client, the client's representatives, or on-site personnel will make available environmental documents pertaining to the subject site. These documents may be prior Phase I Reports, environmental site remediation reports, foundation soil reports, or occupancy records, among others. If these are made available prior to the issuance of the report, ***PHASE ONE*** **INC.** will review the conclusions of these documents, which may help to confirm or disprove any tentative findings that ***PHASE ONE*** **INC.** has developed independently. If the client has supplied environmental documents for review as part of this assessment, the findings are included in Section 4.7.

After the above information from existing historical records, regulatory agencies, interviews, and other additional environmental documents has been reviewed and evaluated, ***PHASE ONE*** **INC.** presents the site uses for the subject property as well as adjoining site uses in a chronological table. This historic site use summary assists the client, as well as the field assessors and reviewers to have a perspective of the historical uses of the subject site. The ***Historical Site Use*** is presented in Section 4.8.

2.2.4 Interviews

PHASE ONE **INC.** attempts to interview various individuals who may have knowledge of various aspects of the subject site. Typically, the interviewees might include:

- Current and previous owners
- Site and operations managers
- Tenants
- Local regulatory personnel

The interviews are summarized in Section 5.0 and interview notes are included in Appendix F.

SECTION 1.0

EXECUTIVE SUMMARY: FINDINGS AND CONCLUSIONS

1.1 FINDINGS

This report presents the results of the Phase I Environmental Site Assessment conducted by ***PHASE ONE*** **INC.** at 1661 Sunflower Avenue, Santa Ana, California 92704 (see Figure 1, ***Site Location Map***). The Phase I assessment was undertaken at the request of Jeff Reese, South Coast Plaza, in accordance with ***PHASE ONE*** **INC.**'s ***Standard Terms and Conditions***, as outlined in ***PHASE ONE*** **INC.**'s ***Letter of Intent/Authorization*** for Project N^{o} 7127. The findings and conclusions of this investigation are based upon a review of historic site-use activities, contact with and records from governmental regulatory agencies, regulatory database searches, as well as a site reconnaissance and interviews with the client, site personnel, and possibly others who may have knowledge of various aspects of the subject site.

At the time of this assessment, the site consisted of approximately 4.67 acres of developed land with a 48,500 sq. ft. building occupied by two tenants, Room & Board Home Furnishings, and Mitchel Gold & Bob Williams. Information gathered in the course of this assessment indicates that the subject site is currently owned by David E. Bear, as Trustee of the Bear Family Trust Dated June 14, 1997; William H. Bear, as Trustee of the William H. Bear Trust Dated August 20, 2002; Pat Bear, as Trustee of the Pat Bear Trust Dated August 20, 2002; and Elizabeth A. Bear, as Trustee of the Elizabeth A. Bear Separate Property Trust Dated December 20, 1999.

The principal findings of ***PHASE ONE*** **INC.**'s Phase I Environmental Site Assessment for this site are as follows:

The subject site is currently affected by

- No recognized environmental condition(s) (REC); and
- One *de minimis,* or historical recognized environmental condition(s).
- The potential for soil or groundwater contamination of the subject property from either on or off-site sources appears to be low.
- Given the findings and conclusions of ***PHASE ONE*** **INC.**'s Phase I Environmental Site Assessment, further investigation is not recommended at this time.
- ***PHASE ONE*** **INC.** has performed this Phase I Environmental Site Assessment of the subject site in conformance with the scope and limitations of the Environmental Protection Agency, Standards and Practices for All Appropriate Inquiries, 40 CFR Part 312 and the standard practice set forth in the American Society for Testing and Materials (ASTM) Designation: E1527-05, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process." Any exceptions to, or deletions from, these practices are described in Section 1.4 of this report.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

- This assessment has revealed no evidence of recognized environmental conditions in connection with the property except for those listed in Section 1.2.

1.2 CONCLUSIONS SUMMARY

Based on the findings of this Phase I Environmental Site Assessment, ***PHASE ONE*** **INC.** has identified the following recognized environmental condition(s):

RECOGNIZED ENVIRONMENTAL CONDITION(S)

Condition #	Location	Description of Condition
None	N/A	No evidence of recognized environmental conditions was found during this investigation.

Note: Descriptions of conditions are given again in further detail in Section 6.0, ***Conclusions and Recommendations***, along with recommendations as to how to address the conditions and the estimated costs of completing any recommended next-step action. ***PHASE ONE*** **INC.** classifies a recognized environmental condition, per the ASTM Standard E 1527-00 definition, as the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater or surface water of the subject property.

Based on the findings of this Phase I Environmental Site Assessment, ***PHASE ONE*** **INC.** has identified the following *de minimis* or historical recognized environmental conditions:

***DE MINIMIS*, OR HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITION(S)**

Condition #	Location	Description of Condition	Condition
1	Entire site	Although the site was used for agricultural purposes in the past, the subsequent commercial development of the site minimizes the probability for the on-site soil to still harbor any significant amount of agricultural chemicals and for occupants to come in contact with the soil.	*De minimis*

Note: Descriptions of conditions are given again in further detail in Section 6.0, *Conclusions and Recommendations*, along with recommendations as to how to address the conditions. *PHASE ONE* INC. classifies an environmental condition as a *de minimis* (potential or possible) condition when it appears to pose no immediate threat to the subject site and/or requires no immediate action given the current knowledge of site conditions. This condition with time, groundwater movement, demolition or other disturbances, or sometimes with the acquisition of further information, may come to pose a long-term, immediate or chronic environmental risk; and/or this condition may appear to have a negligible monetary/physical impact on the subject property, and therefore, does not require additional investigation at this time. *PHASE ONE* INC. classifies a historical recognized environmental condition as an issue which was considered a recognized environmental condition in the past, but is no longer considered a recognized environmental condition as a result of prior investigation and/or mitigation.

1.3 SITE FACTS

Current Owner(s): David E. Bear, as Trustee of the Bear Family Trust Dated June 14, 1997; William H. Bear, as Trustee of the William H. Bear Trust Dated August 20, 2002; Pat Bear, as Trustee of the Pat

Copyright © 2011 *PHASE ONE* INC. All rights reserved

Bear Trust Dated August 20, 2002; and Elizabeth A. Bear, as Trustee of the Elizabeth A. Bear Separate Property Trust Dated December 20, 1999

Current Use: Furniture Retailers

Current Occupants: Room & Board Home Furnishings, Mitchel Gold & Bob Williams

Total # of Existing Buildings: 1; two units

Total Sq. Ft. of Building: 48,500 sq. ft.

Date Oldest Building was Built: 1972

Total # of Units: 2

Total # of Units Visually Inspected: 2

Specific Units Inspected: 1661 Sunflower Avenue, Santa Ana, California 92704

The subject site obtains its potable water from municipal sources.

The subject site disposes of its sewage through use of the local municipal sewage system.

The subject building is heated and/or cooled by a heating and air-conditioning system. The heating and air-conditioning system obtains its fuel from unknown sources.

Site Contact: Lynne Owens

Field Assessor: Jay Badiei

Report Writer: Eric Exton

Parcel #: 412-451-02

Address(es) Provided by Client: 1661 Sunflower Avenue, Santa Ana, California 92704

Additional/Previous Address(es): 3850 South Plaza (According to the Santa Ana Building and Safety Division)

Total Acreage of Land: 4.671 acres

Date of Site Reconnaissance: September 27, 2011

Total # of Wells (water, oil, gas, other) identified onsite: None

Areas/Units that were inaccessible to the ***PHASE ONE*** **INC.** field assessor: A cursory inspection was conducted of the unit occupied by Mitchel Gold & Bob Williams; no enviornmental concerns were noted.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

Were enough (units/offices/buildings/acres) inspected to ensure that the inspection was homogenous? Yes

Did the field assessor notice any unusual odors on or from the subject site or adjoining sites during the site reconnaissance? No

Copyright © 2011 *PHASE ONE* INC. All rights reserved

1.4 EXCEPTIONS AND/OR DELETIONS TO ASTM E 1527

There are exceptions to ASTM E 1527. The exceptions are as follows:

At the oldest research interval in this report (1952), the subject property use was agricultural. Although it is not known how far back in time agriculture was present prior to this date, it is likely that agriculture is the first developed use of the property based on the surrounding agricultural use. Therefore, it is our opinion that this data gap will not materially affect the conclusions of this report.

A tenant interview was not provided by Mitchell Gold & Bob Williams.

1.5 NON-SCOPE ISSUES

According to client request, no other environmental issues that are "non-scope considerations" under ASTM E 1527-00 / ASTM E 1527-05, such as asbestos-containing materials, radon, lead-based paint, and lead in drinking water, were assessed.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

SECTION 2.0

INTRODUCTION

2.1 PURPOSE OF A PHASE I ESA

The purpose of this Phase I Environmental Site Assessment is to assess (1) the likelihood of contamination of the subject site as a result of either past or present land-use practices; and (2) the potential for future environmental contamination which may occur as a result of current conditions or operations and maintenance activities at either the subject site or properties adjoining the subject site, thereby identifying real or potential environmental or economic impact to the subject site. In this way, the client may satisfy a requirement to qualify for the innocent landowner defense to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) liability by completing "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial and customary practice." To meet these objectives, ***PHASE ONE*** **INC.** attempted to complete the tasks outlined in this section except as noted in Section 1.4.

2.2 SCOPE OF WORK

The Scope of Work that has been followed for this assessment is identified in Section 1.1, Page 1-1.

2.2.1 Site Description

Site photographs were taken during the site reconnaissance. The photographs and their summary descriptions can be found in **Appendix A.**

PHASE ONE **INC.** reviewed pertinent, reasonably ascertainable information on the soil types and groundwater conditions in the vicinity of the subject site. For the purposes of this assessment, the depth from the ground surface and the direction (or gradient) of the groundwater flow are of particular significance. Such findings are used by ***PHASE ONE*** **INC.** report writers, in conjunction with additional information about environmental conditions on nearby sites, to assess the risk that is faced by the subject site from off-site sources of contamination.

It should be noted that ***PHASE ONE*** **INC.**'s geological and hydrological research does not include investigation of seismological concerns (i.e., fault lines) that may affect the area of the subject site. Although the existence of faults in an area may be of concern to property owners and residents in that area, it is not considered to be an environmental concern, and so is not usually a component of a Phase I Environmental Site Assessment. (However, in the event that it is required, ***PHASE ONE*** **INC.** can assist the client in completing a seismological investigation.)

2.2.2 Site Reconnaissance

A ***PHASE ONE*** **INC.** field assessor conducted a visual reconnaissance of the subject property to identify observable signs of environmental impairments, including on-site operations and

Copyright © 2011 *PHASE ONE* INC. All rights reserved

maintenance activities which may lead to possible environmental impairment. As a part of the site reconnaissance, ***PHASE ONE*** **INC.** visually inspected the site for obvious indications of:

- Existing and previously existing storage tanks (aboveground and underground)
- Hazardous substances storage and handling
- Clarifiers, sumps, trenches, and industrial discharge sources
- Equipment which may contain polychlorinated biphenyls (PCB) (fluorescent light ballasts are not inspected)
- Indications of spillage of hazardous substances, and the general condition of concrete, asphalt, soil, and other surfaces
- Indications of stressed vegetation as a result of on-site contamination

During the site reconnaissance, ***PHASE ONE*** **INC.** field assessors may make note of basic compliance issues which, may be environmental in nature, however are not issues directly associated with the potential for site contamination (i.e., the specific objective of our assessment). However, as a service to our clients, and because these compliance issues may contribute to our overall understanding of site operations, ***PHASE ONE*** **INC.** may comment on the site's basic compliance status. The review of the site's compliance status is not intended to be complete or comprehensive and may or may not include all items identified during the site reconnaissance.

Again, the compliance review is not intended as a comprehensive compliance audit. Rather, the compliance review is only intended to aid ***PHASE ONE*** **INC.** in determining the likelihood that the subject site may have been impacted by releases of hazardous substances.

When the storage or use of hazardous substances are encountered on a site, the ***PHASE ONE*** **INC.** field assessor will look for or inquire about the on-site presence of Material Safety Data Sheets (MSDSs). MSDSs are prepared by the manufacturers of hazardous substances (pursuant to OSHA's Hazard Communication Standard), and they detail the components, dangers, and proper handling procedures for the hazardous substance for which they have been prepared. The presence or absence of MSDSs for on-site hazardous substances will be noted in 3.5, ***Hazardous Substances Storage and Handling***. However, some sites may use or store hundreds of various chemical compounds. In such cases, it is practically impossible for the field assessor to match-up each substance with its corresponding MSDS. Still, the field assessor will inquire about MSDSs and copies of representative MSDSs that were made available will be included in Appendix G.

PHASE ONE **INC.** may have (based on contract) inspected and reviewed information for the subject site regarding the presence of specific hazardous substances which are relatively common sources of environmental concern. The substances in question include:

Copyright © 2011 *PHASE ONE* INC. All rights reserved

- Common building materials that may contain or are suspected of containing asbestos
- Radon (at elevated levels)
- Lead-contaminated drinking water
- Lead-based paints

Based on ASTM E1527, federal, state, and other regulatory agency guidelines, the following presumptions were in force if and when ***PHASE ONE*** **INC.** inspected the subject site for specific hazardous substances:

- Structures built after 1980 are considered asbestos-free.
- Structures built after 1979 are considered lead-free (with respect to both water and painted surfaces).
- Fluorescent light ballasts will be considered PCB-free and will not be noted in the report regardless of their date of manufacture, unless ***PHASE ONE*** **INC.** is instructed to do otherwise in writing by the client.

PHASE ONE **INC.** also inspected the properties that adjoin the subject site. In general, this inspection included a "drive-by" survey to note the operations which may pose an imminent or potential environmental threat to the subject site.

2.2.3 Review of Historical Information

For this assessment, ***PHASE ONE*** **INC.** may have reviewed reasonably ascertainable historical aerial photographs and United States Geologic Survey (U.S.G.S.) topographic maps of the subject site and vicinity. This review consisted of examining the reasonably ascertainable available photographs and topographic maps for evidence of activities on or development of the subject site and adjoining sites that may show an environmental condition or concern which may currently affect the subject site. The specific aerial photographs and U.S.G.S. maps that were reviewed for this assessment are identified and their environmentally relevant features are described in Section 4.1.

PHASE ONE **INC.** may have also reviewed any reasonably ascertainable Historic Maps of the subject site and vicinity. Such maps have been prepared by fire insurance companies in order to determine the potential risk of fire damage to buildings in metropolitan areas. These maps have been produced since the mid-1850s and, for some areas, they are still produced today. For the purposes of a Phase I Environmental Site Assessment, these maps may contain helpful information on the ages and past uses of buildings, as well as information about on the storage of hazardous and flammable substances. However, because it was only worthwhile for fire insurance companies to map metropolitan areas, the scope of coverage of these maps is somewhat limited. If Historic Maps have provided coverage of the subject site, and if the specific maps were reasonably ascertainable,

Copyright © 2011 *PHASE ONE* INC. All rights reserved

then the specific maps that were reviewed for this assessment are identified, and their environmentally relevant features described, in Section 4.2.

One of the least known yet most complete and comprehensive historical sources are historical city or street directories. These texts may have been reviewed by ***PHASE ONE*** **INC.** to the extent that they have provided coverage of the subject site and were reasonably ascertainable. ***PHASE ONE*** **INC.** reviews historical city or street directories (also known as criss cross or reverse indexed directories) for information on the past occupants of and activities on the subject site and adjoining sites. These directories were prepared by companies that catered to the needs of salespeople by providing the names of the occupants at a given address (that is, unlike a traditional telephone book, the entries of a reverse directory are arranged by address, not by name). However, like Historical Maps, the scope of coverage of these directories is limited to mostly metropolitan areas. If they were reasonably ascertainable, they were reviewed and Section 4.3 contains listings of the current or past occupants of the subject site that were found by researching historical city or street directories.

PHASE ONE **INC.** has contacted various state, county, and municipal agencies having current or past jurisdiction over the subject site, in an attempt to review reasonably ascertainable records that contain specific information about environmental conditions on the subject site that these agencies may have on file, or to establish that no environmentally relevant records are on file for the subject site. The client should be aware that most regulatory agencies file their records by address or corporate name (as opposed to parcel number or site name). If no specific address has been assigned to a site, then, typically, no environmental records related to the site will be forthcoming from the state, county, or municipal regulatory agencies.

The findings of this records search are reported in Section 4.4, ***Agency Contacts***. The addresses, phone numbers, names of the persons contacted within the various agencies are listed on the Regulatory Contacts Sheet, which is included in Appendix B. Copies of any records obtained from regulatory agencies can be found in Appendix C. In some instances, ***PHASE ONE*** **INC.** may not yet have received a reply from one or more of the agencies that were contacted. (Some agencies will take six weeks or longer to reply to a verbal or written request.) In the event of such delays in response, rather than delaying the issuance of the report, ***PHASE ONE*** **INC.** has indicated in the report that a response to the request for records is pending, and a copy of the regulatory request form has been included in Appendix B. Any pertinent information that is subsequently received from the pending agency will be addressed and forwarded to the client in the form of an addendum to this report.

PHASE ONE **INC.** has also reviewed a vendor-supplied, computer-generated federal, state, and regional one-mile regulatory database search in an effort to determine whether the subject site is listed on an agency environmental database and to identify possible regulatory-listed sites of concern within a one-mile radius of the subject site. In general, these documents list known or suspected hazardous-waste generators, release sites, landfills, unauthorized disposal sites, sites with registered underground storage tanks, and sites currently under investigation for known or suspected environmental violations or releases. In conjunction with the findings on the geological and hydrological conditions, information obtained from the database search can be used to assess the environmental risk faced by the subject site from past or present off-site sources of contamination. Additionally, the database search may provide information about on-site sources of contamination. The regulatory database review can be found in Section 4.5; a copy of the complete database search

Copyright © 2011 *PHASE ONE* INC. All rights reserved

document and a detailed description of the databases that were searched are included in Appendix D.

When requested, ***PHASE ONE*** **INC.** will compile and review a chain-of-title abstract for the subject property. The chain-of-title abstract can help the client and ***PHASE ONE*** **INC.** to better understand the history of the use of the subject site. The chain-of-title abstract is typically compiled from documents obtained from the County Recorder's Office or Tax Assessor's Office. The chain-of-title abstract review, if completed for this report, can be found in Section 4.6. The County Assessor also may be contacted to determine whether the subject site has been assigned addresses in the past which are different from its current address. It is the client's responsibility to supply ***PHASE ONE*** **INC.** with any records of environmental liens or other such documents.

On occasion, the client, the client's representatives, or on-site personnel will make available environmental documents pertaining to the subject site. These documents may be prior Phase I Reports, environmental site remediation reports, foundation soil reports, or occupancy records, among others. If these are made available prior to the issuance of the report, ***PHASE ONE*** **INC.** will review the conclusions of these documents, which may help to confirm or disprove any tentative findings that ***PHASE ONE*** **INC.** has developed independently. If the client has supplied environmental documents for review as part of this assessment, the findings are included in Section 4.7.

After the above information from existing historical records, regulatory agencies, interviews, and other additional environmental documents has been reviewed and evaluated, ***PHASE ONE*** **INC.** presents the site uses for the subject property as well as adjoining site uses in a chronological table. This historic site use summary assists the client, as well as the field assessors and reviewers to have a perspective of the historical uses of the subject site. The ***Historical Site Use*** is presented in Section 4.8.

2.2.4 Interviews

PHASE ONE **INC.** attempts to interview various individuals who may have knowledge of various aspects of the subject site. Typically, the interviewees might include:

- Current and previous owners
- Site and operations managers
- Tenants
- Local regulatory personnel

The interviews are summarized in Section 5.0 and interview notes are included in Appendix F.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

2.2.5 Conclusions and Recommendations

Section 6.0, ***Conclusions and Recommendations***, provides detailed descriptions of the recognized environmental conditions and the *de minimis* or historical environmental conditions that, in the professional opinion of ***PHASE ONE*** **INC.**, currently affect the subject site. Section 6.0 also recommends or suggests the next-step actions that may be required to begin addressing the conditions.

The essential information on a condition at a given location is contained in the "Description of Condition" and the "Action Suggested" boxes of the table for that location. The section numbers refer to those sections in the report that describe the research tasks and findings behind the conclusions. This reporting method allows the reader to quickly go to those sections that are pertinent to the condition.

2.3 INTERPRETATION OF THE REPORT

Following the completion of the tasks outlined above, ***PHASE ONE*** **INC.** prepared this report to present our findings and conclusions clearly and consistently. In an attempt to aid the reader and bring organization to pieces of seemingly unrelated information, ***PHASE ONE*** **INC.** has developed a report format that is both innovative and concise. Each piece of information is described in the context of the research or assessment task under which it was found. Typically, an environmental condition will incorporate a number of specific findings. So, in Section 6.0, ***Conclusions and Recommendations***, the various particular findings are grouped together and collectively presented with the description of the environmental condition that is corroborated by those findings.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

SECTION 3.0

SITE DESCRIPTION AND RECONNAISSANCE

The subject site is surrounded by an area of predominantly commercial properties. On the date of the site reconnaissance the subject site consisted of a furniture retailer. Room & Board Home Furnishings has occupied the site for nine years. The other unit is occupied by Mitchel Gold & Bob Williams, a furniture retailer. The site was previously occupied by multiple tenants. The following subsections describe the physical characteristics of the subject site and are a compilation of the observations made during the visual site inspection.

3.1 SITE PHOTOGRAPHS

A ***PHASE ONE*** **INC.** field assessor completed a reconnaissance of the subject site, at which time a number of photographs were taken to document the current condition and use of the site. Please see Figure 2, ***Site Plan***, for photograph locations. The photographs with their descriptions can be found in **Appendix A.**

3.2 GEOLOGIC AND HYDROGEOLOGIC CONDITIONS

According to United States Geological Survey (U.S.G.S.) STATSGO data, the most common native soil type in the vicinity of the subject site is Urban Land. It is not known whether imported fill materials were used during the grading or development of the site; therefore, it is unknown if fill materials is a concern for the subject site. The elevation of the subject site appears to be 29 feet above mean sea level.

Groundwater in the site vicinity is reported by a *2004 Case Closure Summary* for 3333 Bristol Street to occur at a depth of approximately 25 feet below ground surface and flow towards the southwest. It should be noted that the flow direction and depth of groundwater may be influenced by rainfall, tidal activity (shore properties), and local groundwater pumping operations. It should also be noted that shallower, unreported, perched groundwater zones may occur in the immediate site vicinity.

During the site reconnaissance and the review of historical maps and photographs, the following was determined to exist or not to exist on the subject site:

- No waterways
- No wetlands
- No pits
- No lagoons
- No ponds

Copyright © 2011 *PHASE ONE* INC. All rights reserved

In-addition, the following was determined to exist or not to exist immediately adjacent to the subject site:

- No waterways
- No wetlands
- No pits
- No lagoons
- No ponds

According to FEMA Q3 Data, the site is located within a less than 100-year flood zone. Storm water discharge across the site appears to flow multidirectionally. The storm water runoff appears to discharge to storm drains. The direction and destination of storm water discharge does not appear to be a source of environmental concern to the subject site.

3.3 EXISTING STORAGE TANKS

No evidence of any existing aboveground or underground storage tanks was observed on the subject site during the site reconnaissance nor noted in the research conducted for this assessment.

3.4 PREVIOUSLY EXISTING STORAGE TANKS

No evidence of previously existing aboveground or underground storage tanks was observed on the subject site during the site reconnaissance nor noted in the research conducted for this assessment.

3.5 HAZARDOUS SUBSTANCE STORAGE AND HANDLING

No storage or handling of hazardous substances was observed in the areas inspected during the site reconnaissance.

3.6 SPECIFIC HAZARDOUS SUBSTANCES RECONNAISSANCE

3.6.1 Summary of Specific Hazardous Substances Reconnaissance (Beyond ASTM Scope)

At the request of the client, non-scope items, as defined in the ASTM Standard were not addressed. These non-scope items are asbestos, radon, lead water and lead paint.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

3.7 POLYCHLORINATED BIPHENYLS (PCBS)

The ***PHASE ONE*** **INC.** site reconnaissance does not include checking on-site fluorescent light fixtures for potential PCB content. Although fluorescent light ballasts may contain PCBs, the amount contained is considered to be so inconsequential that the ASTM (*Standard Practice*, E 1527) has stated: "Fluorescent light ballast likely to contain PCBs does not need to be noted." in a Phase I Environmental Site Assessment Report.

No known or suspected PCB-containing equipment or materials were observed on-site during the site reconnaissance.

3.8 CLARIFIERS, SUMPS, TRENCHES, AND INDUSTRIAL DISCHARGE SOURCES

No clarifiers, sumps, trenches, industrial floor drains, or industrial discharge points were noted during the site reconnaissance, historical and/or regulatory research.

3.9 SURFACE CONDITIONS

No significant areas of staining or other unusual surface conditions were observed during the site reconnaissance.

3.10 STRESSED VEGETATION

No disfigured, discolored, dying, or otherwise stressed vegetation was observed on-site during the site reconnaissance.

3.11 PRIOR OR CURRENT AGRICULTURAL LAND USE

On the basis of a review of aerial photographs, ***PHASE ONE*** **INC.** has concluded that the site was used for agricultural purposes. This information is detailed in the following table.

PRIOR OR CURRENT AGRICULTURAL LAND USE

ID #	Approx. Date Range	Description	Condition
1	1952-1966	Aerial photographs showed row crops on the subject site during this period of time.	*De Minimis*

Copyright © 2011 *PHASE ONE* INC. All rights reserved

3.12 OTHER ENVIRONMENTAL CONDITIONS

No evidence of further environmental conditions, and/or impairments was observed during the site reconnaissance, beyond that evidence that has already been noted in this section.

3.13 VISUAL OBSERVATIONS, ADJOINING SITES

During the site reconnaissance, the ***PHASE ONE*** **INC.** field assessor also visually inspected and documented the use of those properties which immediately adjoin the subject property. The observations of the adjoining properties were made by the ***PHASE ONE*** **INC.** field assessor on the date of the site reconnaissance.

VISUAL OBSERVATIONS, ADJOINING SITES

Description		Condition
Northerly View:		None
Address:	Multiple	
Company Name:	N/A	
Apparent Current Use of Property:	Residential	
Visual Concerns:	None

SECTION 4.0

REVIEW OF HISTORICAL INFORMATION AND REGULATORY AGENCY RECORDS

4.1 HISTORICAL AERIAL PHOTOGRAPH AND U.S.G.S. TOPOGRAPHIC MAP REVIEW

PHASE ONE **INC.** reviewed readily available and reasonably ascertainable aerial photographs and U.S.G.S. topographic maps of the area of the subject site. (A copy of a U.S.G.S. map, if available, has been included as Figure 1.) These aerial photographs and maps may have been obtained from ***PHASE ONE*** **INC.**'s library and/or another source (all sources identified in Appendix B). Each aerial photograph was reviewed for the subject property and, where applicable, adjacent property use. In addition, each photograph was reviewed to identify the presence of areas of dumping, staining, buildings, and/or aboveground storage tanks.

Aerial photographs for the years of 1952, 1953, 1966, 1972, 1980, 1995, 2004 and a U.S.G.S. topographic map for the year of 1981 were reviewed and a d*e minimis* environmental condition was identified in the following aerial photographs discussed in the table below:

HISTORICAL AERIAL PHOTOGRAPH/U.S.G.S. TOPOGRAPHIC MAP

Date of Document	Description of Condition	Condition
1952-1966	Row crops were visible on the subject site and surrounding sites.	*De minimis*

4.2 HISTORICAL MAP REVIEW

PHASE ONE **INC.** contacted the source(s) identified in Appendix B in an effort to review readily available historical and fire insurance maps with coverage of the subject site and vicinity that might be included in their collections. However, a search of the reasonably ascertainable historical and fire insurance maps found that none provided coverage of the area of the subject site.

4.3 HISTORICAL CITY OR STREET DIRECTORY REVIEW

PHASE ONE **INC.** did not review historical city or street directories for one or more of the following reasons:

1. Based on a reasonable amount of research, the information was not readily available, as defined in the ASTM Standard.
2. Sufficient historical information was available from other sources to identify the past property uses.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

4.4 AGENCY CONTACTS (RECORDS SEARCH)

4.4.1 Building Department Records

PHASE ONE **INC.** submitted a request to the local Building agency for the purpose of reviewing reasonably ascertainable, relevant building permits, original plumbing and finish schedules, building plans, or other readily available, relevant documents pertaining to the subject site that are on file with this agency (all sources are identified in Appendix B). The following table presents the results of this review. (Copies of the reviewed documents, when available and/or necessary are included in Appendix C.)

SUMMARY OF BUILDING DEPARTMENT RECORDS

Date of Document	Description of Permit/Plan	Condition
1972	The oldest permit was from August of 1972 for the construction of a commercial building. There were no demolition permits issued. Also, records indicated a former address of 3850 South Plaza.	None

4.4.2 Water Quality Agency Records

PHASE ONE **INC.** submitted a request to the Water Quality Agency for the purpose of determining if past and present businesses at the subject site are listed on regulatory lists (such as leaking underground tank lists, site cleanup lists, etc.). However, ***PHASE ONE*** **INC.** was informed that no records for the subject site are on file with this agency (all sources identified in Appendix B).

4.4.3 Oil and Gas Agency Records or Maps

PHASE ONE **INC.** submitted a request to the local Oil and Gas Agency for copies of readily available oil and gas related records pertaining to environmental issues on the subject site. However, ***PHASE ONE*** **INC.** was informed that no records for the subject site are on file with this agency (all sources are identified in Appendix B).

4.4.4 Other Pertinent Records

There are no additional regulatory agencies known to ***PHASE ONE*** **INC.** that are likely to have further relevant environmental information pertaining to the subject site.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

4.5 REVIEW OF ENVIRONMENTAL RECORDS SEARCH

The ***PHASE ONE*** **INC.** review of the computer-generated, environmental records search document (the complete environmental records search document is included in Appendix D) found the subject site is not a regulatory-listed site. The environmental records search occurrence summary table below identifies the number of sites listed in each database included in the record search document (the complete environmental records search document is included in Appendix D). No sites of environmental concern to the subject site were identified.

4.6 CHAIN-OF-TITLE ABSTRACT AND/OR REVIEW

At the request of the client, a chain-of-title abstract was not requested or completed for this project.

4.7 ADDITIONAL ENVIRONMENTAL DOCUMENTS

In the course of this assessment, ***PHASE ONE*** **INC.** was not provided with any additional documents for review regarding the environmental condition of the subject site by the client or the client's representatives.

4.8 HISTORICAL SITE USE

The chronological historical site use summary is based on reviewed aerial photographs, maps, regulatory agency files, interviews, and additional environmental documents. The historical site use summary for the subject site and the adjoin sites is presented in the following table. The rows of this table are organized in chronological order, according to the date range of a specific site use.

HISTORICAL SITE USE

Date Range	Subject Site	Adjoining Sites
1972 – Current	Commercial and retail Room & Board Furniture Store Since ~2002 Mitch Gold & Bob Williams (Furniture) 2011	Commercial and retail
1952 – 1966	Agriculture	Agriculture

Copyright © 2011 *PHASE ONE* INC. All rights reserved

4.9 IDENTIFICATION OF HISTORICAL DATA GAPS

During the course of this assessment, ***PHASE ONE*** **INC.** identified the following data gaps within the reviewed historic documents regarding the recognized environmental condition of the subject site.

SUMMARY OF HISTORICAL DATA GAPS

Date span of Data Gap	Documents Reviewed	Data Gap Discussions	Condition
Prior to 1952	Aerial photographs	At the oldest research interval in this report (1952), the subject property use was agricultural. Although it is not known how far back in time agriculture was present prior to this date, it is likely that agriculture is the first developed use of the property based on the surrounding agricultural use. Therefore, it is our opinion that this data gap will not materially affect the conclusions of this report.	None

4.10 REVIEW OF TITLE AND/OR JUDICIAL RECORDS FOR ENVIRONMENTAL LIENS OR ACTIVITY AND LAND USE LIMITATIONS (E.G., ENGINEERING AND INSTITUTIONAL CONTROLS)

The client provided ***PHASE ONE*** **INC.** with documents regarding title and/or judicial records for environmental liens or activity and land use limitations for the subject site. ***PHASE ONE*** **INC.** relies upon the author/and corresponding companies' expertise. ***PHASE ONE*** **INC.** does not verify in any way the completeness or correctness of the documents. ***PHASE ONE*** **INC.** relies upon the documents provided. The discussion of these materials is described in the following table. (Copies of the records, if available, are included in Appendix G.)

REVIEW OF TITLE AND/OR JUDICIAL RECORDS FOR ENVIRONMENTAL LIENS OR ACTIVITY AND LAND USE LIMITATIONS (E.G., ENGINEERING AND INSTITUTIONAL CONTROLS) SUMMARY

Date of Document	Type of Document	Company	Description (If a concern, why?)	Condition
July 28, 2011	Preliminary Title Report	Chicago Title Company	No environmental liens, records of environmental activity and/or environmental land use limitations were identified.	None

Copyright © 2011 *PHASE ONE* INC. All rights reserved

SECTION 5.0

INTERVIEWS

5.1 INTERVIEWS WITH OWNER, PROPERTY MANAGER, USER, AND OTHERS

As part of the Phase I Assessment, ***PHASE ONE*** **INC.** attempts to interview various individuals who may have knowledge of different aspects of the subject site as it pertains to environmental conditions. The comments of the interviewees are noted by the ***PHASE ONE*** **INC.** interviewer on Interview Note Forms, which are included in Appendix F. The following table summarizes the relevant portions of these notes.

SUMMARY OF INTERVIEWS

ID #	Date of Interview	Name of Interviewee	Title	Relevant Discussions	Condition
1	9/23/2011	Jeffrey Reese	Leasing Manager, C J Segerstrom & Sons (User)	Mr. Reese stated that the purpose of the Phase I ESA is for a property sale. The proposed use of the property is for commercial retail. He also stated that he is not aware of any environmental liens or other restrictions.	None
2	9/26/2011	Angela Ochoa	Retail Market Manager, Room and Board (Occupant)	Ms. Ochoa has been the site manager for nine years. She was not aware of any environmental concerns regarding the subject site.	None
3	10/5/2011	Terry Prodowski	Santa Ana Building Department	Original Permit in August of 1972. No earlier permits. There was an address change in 1991, it had a previous address of 3850 South Plaza	None

Copyright © 2011 *PHASE ONE* INC. All rights reserved

ID #	Date of Interview	Name of Interviewee	Title	Relevant Discussions	Condition
4	10/9/2011	Dennis Hayden	Attorney for Owners	The current owner has owned the site for over 100 years. Mr. Hayden has been involved with the site for 50 years. South Coast Plaza has leased the site since 1970. Prior to development, the site was used as a lima bean farm. Mr. Hayden stated that he has not been made aware of any pending, threatened, or past: notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the subject site, or relating to environmental liens; notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products; or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property.	*De minimis*

5.2 PURCHASE PRICE VERSUS FAIR MARKET VALUE INTERVIEW

PHASE ONE **INC.** uses data supplied by the client to determine if a difference between the purchase price of the property and the fair maket value of the property is due to the effect of any releases or threatened releases of hazardous substances or petroleum products. On September 23, 2011, ***PHASE ONE*** **INC.** contacted Jeff Reese, Coast Plaza, for the purpose of ascertaining any difference between the purchase price and fair market value of the property. According to Mr. Reese, the purchase price and/or fair market value are not being disclosed as part of this investigation. However, no current or past hazardous substance or petroleum product use was documented in this investigation. Therefore; any difference cannot be due to the effect of any releases or threatened releases of hazardous substances on the purchase price of the property.

SECTION 6.0

CONCLUSIONS AND RECOMMENDATIONS

6.1 RECOGNIZED ENVIRONMENTAL CONDITIONS

This section contains full descriptions of any recognized environmental conditions (REC) that have been identified as a result of the ***PHASE ONE*** INC. Phase I Environmental Site Assessment for the subject site. ***PHASE ONE*** INC. classifies a condition as a REC (as opposed to a *de minimis* condition) when it is one that involves a condition for which, in the opinion of ***PHASE ONE*** INC., further investigation and/or remediation is recommended. In addition to the descriptions of condition, this section also contains a statement of the recommended next-step actions for any conditions that are described in the following tables.

Each identified condition receives its own table, and that table will collect together the particular findings from the body of the report that have been used to support ***PHASE ONE*** INC.'s conclusion as to the presence of a recognized environmental condition. For the benefit of the reader, the tables also contain the section numbers of the findings cited in support of the condition.

CONDITION # N/A	**IDENTIFIED CONDITION APPEARS TO BE A RECOGNIZED ENVIRONMENTAL CONDITION**
LOCATION:N/A	
SECTION #	**COMMENTS**
N/A	No recognized environmental conditions appear to currently affect the subject site.
DESCRIPTION OF CONDITION: N/A	
ACTION SUGGESTED: N/A	
TOTAL ESTIMATED COST TO COMPLETE SUGGESTED NEXT STEP ACTION† N/A	

6.2 *DE MINIMIS* OR HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

This section contains descriptions of *de minimis* or historical RECs that have been identified in the ***PHASE ONE*** INC. Phase I Environmental Site Assessment for the subject site. ***PHASE ONE*** INC. classifies an issue as a *de minimis* condition (as opposed to a REC) when (1) it involves issues that appear to pose no immediate or imminent threat to the subject site, but which over time (with the occurrence of groundwater movement, demolition, disturbance, etc.) may come to pose an actual or present REC for the subject site and/or when (2) it involves areas that currently appear to have a negligible impact on the subject property and which do not, therefore, require additional investigation at this time, but of which ***PHASE ONE*** INC. feels the client should be made aware. ***PHASE ONE*** INC.

Copyright © 2011 *PHASE ONE* INC. All rights reserved

classifies a historical REC as an issue which was considered a REC in the past, but is no longer considered a REC as a result of prior investigation and/or mitigation.

Each identified condition receives its own table, and that table will collect together the particular findings from the body of the report that have been used to support ***PHASE ONE*** **INC.**'s conclusion as to the presence of that condition. For the benefit of the reader, the table also contains the section numbers of the findings cited in support of the condition.

CONDITION # 1	**IDENTIFIED CONDITION APPEARS TO BE A *DE MINIMIS* CONDITION**
LOCATION: Entire Site	

SECTION #	**COMMENTS**
4.1, 3.11	Identification of former agriculture on site.
5.0	Owner interview indicating site used for agriculture, a lima bean farm.

DESCRIPTION OF CONDITION: Although the site was used for agricultural purposes in the past, the subsequent commercial development of the site minimizes the probability for the on-site soil to still harbor any significant amount of agricultural chemicals and for occupants to come in contact with the soil.

ACTION SUGGESTED: No action is suggested, recommended and/or warranted at this time. However, if the property were to be redeveloped (especially for use by a sensitive receptor like residential, day care, medical, etc.); or if workers would come in contact with the soil during trenching, excavation, or similar activities; or if the groundwater beneath the site were to be used for domestic use or irrigation, then subsurface sampling would be recommended at that time to determine whether significant levels of agricultural chemicals exist at the site.

SECTION 7.0

LIMITATIONS

To achieve the study objectives stated in this report, we were required to base ***PHASE ONE*** INC.'s conclusions and recommendations on the best information available during the period the investigation was conducted and within the limits prescribed by ***PHASE ONE*** INC.'s client in the contract/authorization agreement and standard terms and conditions.

PHASE ONE INC.'s professional services were performed using that degree of care and skill ordinarily exercised by environmental consultants practicing in this or similar fields. The findings were mainly based upon examination of historic records, maps, aerial photographs, and governmental agencies lists. The hazardous waste site lists represented in this report represent only a search of the specific government records as listed above. It should be noted that governmental agencies often do not list all sites with environmental contamination; the lists could be inaccurate and/or incomplete. Recommendations are based on the historic land use of the subject property, as well as features noted during the site walk and examined records. The absence of potential gross contamination sources, historic or present, does not necessarily imply that the subject property is free of any contamination. This report only represents a "due diligence" effort as to the integrity of the subject property. No warranty or guarantee, expressed or implied, is made as to the professional conclusions or recommendations contained in this report. The limitations contained within this report supersede all other contracts or scopes of work, implied or otherwise, except those stated or acknowledged herewith.

This report is not a legal opinion. It does not necessarily comply with requirements defined in any environmental law such as the "innocent landowner defense" or "due diligence inquiry." Only legal counsel retained by the client is competent to determine the legal implications of any information, conclusions, or recommendations in this report. The compliance status, discussed in Section 3.0, is not intended for use as a guide to compliance for the present owner. Its intended use is to identify environmental impairments to the subject property and is not to be used as a guide to the legal compliance to any regulations of any kind.

The findings, conclusions, recommendations, and professional opinions contained in this report have been prepared by the staff of ***PHASE ONE*** INC., in accordance with generally accepted professional practices. All cost estimates in Section 6.0, are purely estimates only, and may not represent the actual costs. Without further investigative assessment, exact, actual costs cannot be fixed. The costs associated with ***PHASE ONE*** INC.'s recommendations are for budgetary purposes only.

This report does not address, in any way, septic systems, leach fields, septic tanks, or related health hazards.

All asbestos, lead, or any other sampling is sampled in a good faith effort by ***PHASE ONE*** INC. assessors. Sample results should not be construed as conclusive and binding in any way. All sampling conducted is only for the purposes of general screening and does not imply that all materials, locations, or hazardous materials have been identified nor was the sampling intended to identify every instance of the materials sampled. No interpretation of the sample results is made or implied. ***PHASE ONE*** INC. only relays the information supplied by the laboratory conducting the analysis.

- State/Tribal Landfill/Solid Waste
- State/Tribal Inst/Eng Controls
- State/Tribal UST
- ERS Supplemental Govt Sources
- ERS Exclusive Historic Sources

All plotted occurrences represent approximate locations based on geographic information provided by the respective agency. Actual locations may vary due to numerous reasons such as: the size of the property, accuracy of the provided location, accuracy of the software used to determine the location, etc. **Occurrences are shown in three colors** to give a visual indication of the potential risk of the listed occurrence based on the type of list and the current status of the occurrence. Occurrences shown in **RED** are locations with known contamination that have not received a "case closed" or "no further action" status. Occurrences shown in **YELLOW** have been listed by the respective agency, but do not always represent an environmental risk. The detailed status information and description of the list should be reviewed for further information. Occurrences shown in **GREEN** are occurrences that have active permits or have had contamination in the past but have received a "case closed" or "no further action" status and therefore do not likely present an environmental risk.

RCRA-COR
Resource Conservation and Recovery Act - Corrective Actions
ASTM/AAI Category: Federal RCRA CORRACTS
Description: In 1965, to encourage environmentally sound methods for disposal of household, municipal, commercial, and industrial refuse, Congress passed the first federal law to require safeguards on these activities, the Solid Waste Disposal Act. Congress amended this law in 1976 by passing the Resource Conservation and Recovery Act (RCRA) (pronounced "Ric-ra"). The primary goals of RCRA are to: Protect human health and the environment from the potential hazards of waste disposal. Conserve energy and natural resources. Reduce the amount of waste generated. Ensure that wastes are managed in an environmentally sound manner.
EPA estimates that between 50 and 70 percent of all TSDFs have some degree of environmental contamination requiring detailed investigation and perhaps cleanup. Under a program entitled Corrective Action, EPA has the statutory authority to require permitted and interim status TSDFs to clean up hazardous waste contamination.
Agency: United States Environmental Protection Agency

US-IC
Sites with Institutional Controls
ASTM/AAI Category: State/Tribal Inst/Eng Controls
Description: Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. For instance, zoning restrictions prevent site land uses, like residential uses, that are not consistent with the level of cleanup. ICs are used when contamination is first discovered, when remedies are ongoing and when residual contamination remains onsite at a level that does not allow for unrestricted use and unlimited exposure after cleanup. The National Contingency Plan (NCP) emphasizes that ICs are meant to supplement engineering controls and that ICs will rarely be the sole remedy at a site.

Controls-CA
Calsites with Deed Restrictions or other Controls
ASTM/AAI Category: State/Tribal Inst/Eng Controls
Description: A deed restricted site is a property where DTSC has placed limits or requirements on future use of the property due to varying levels of cleanup possible, practical, or necessary at the site. The DTSC Site Mitigation and Brownfield's Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. Not all deed restrictions are available at this time.

Hist-Trucking
Historic Sources US: Trucking, Shipping, Delivery, and/or Storage
ASTM/AAI Category: ERS Supplemental Historic Sources
Description: ERS has compiled proprietary lists of MILLIONS of records dating back to the 1800's that have shown up in historic resources and based on their classification, may have used hazardous materials or petroleum products. This listing includes sites such as: Trucking, Shipping, and/or Delivery Storage. This category covers establishments primarily engaged in furnishing trucking or transfer services without storage for freight generally weighing more than 100 pounds, in a single municipality, contiguous municipalities, or a municipality and its suburban areas. This category also includes establishments primarily engaged in the delivery of individually addressed letters, parcels, and packages (generally under 100 pounds), except by means of air transportation or by the United States Postal Service. This category covers establishments primarily engaged in furnishing "over-the-road" trucking services or storage services, including household goods either as common carriers or under special or individual contracts or agreements, for freight generally weighing more than 100 pounds. This category also includes establishments primarily engaged in the warehousing and storage of special products, not elsewhere classified, such as household goods, automobiles (dead storage only), furs (for the trade), textiles, oil, chemicals, lumber, whiskey, and goods at foreign trade zones, farm products, perishable goods underrefrigeration.

Hazardous Materials Information System
ASTM/AA Category: ERS Supplemental Govt Sources

Copyright©2011, Environmental Record Search, All rights reserved.

Description: Data includes spills, releases, or other incidents involving hazardous materials in commerce during the course of transportation. All modes of transportation are included except pipeline and bulk marine transportation. Data represent a census of all incidents reportable to the U.S. Department of Transportation (DOT). U.S. federal regulations require all spills meeting the following criteria to be reported, in writing, to DOT's Office of Hazardous Materials Safety:

As a direct result of hazardous materials:
a person is killed or receives injuries requiring hospitalization; or estimated property damage exceeds $50,000; or an evacuation of the general public lasts for one or more hours; or a major transportation artery or facility is closed for one or more hours; or the operational flight pattern or routing of an aircraft is altered; or Fire, breakage, spillage, or suspected contamination occurs involving shipment of radioactive materials or infectious substances; or There as been a release of a marine pollutant exceeding 450 L or 400 kg; or Any unintentional release of a hazardous material from a package or any quantity of hazardous waste discharged during transportation.

FUDS-ZZ
Formerly Used Defense Sites
ASTM/AAI Category: ERS Supplemental Govt Sources
Description: The Department of Defense (DoD) is responsible for environmental restoration of properties that were formerly owned by, leased to or otherwise possessed by the United States and under the jurisdiction of the Secretary of Defense. Such properties are known as Formerly Used Defense Sites (FUDS). The Army is the executive agent for the program and the U.S. Army Corps of Engineers manages and directs the program's administration. The scope and magnitude of the FUDS program are

Copyright©2011, Environmental Record Search, All rights reserved.

significant, with more than 9,900 properties identified for potential inclusion in the program. Information about the origin and extent of contamination, land transfer issues, past and present property ownership, and program policies must be evaluated before DoD considers a property eligible for Defense Environment Restoration Account (DERA) funding under the FUDS program. Environmental cleanup procedures at FUDS are similar to those at active DoD installations.

Hist-Chemical Manufacturing
Historic Sources US: Manufacturing and Distribution of Chemicals, Gases, and/or Solids
ASTM/AAI Category: ERS Exclusive Historic Sources
Description: ERS has compiled proprietary lists of MILLIONS of records dating back to the 1800's that have shown up in historic resources and based on their classification, may have used hazardous materials or petroleum products. This listing includes sites such as: Manufacturing and Distribution of Chemicals, Gases, and/or Solids. This industry classification includes establishments engaged in manufacturing alkalies and chlorine. Examples of products include compressed or liquefied chlorine, sodium or potassium hydroxide, sodium bicarbonate, and soda ash (not produced at mines). Manufacturing of industrial gases (organic as well as inorganic) that may be sold in compressed, liquid, or solid form. Industrial gases include acetylene, argon, carbon dioxide, helium, hydrogen, neon, nitrogen, nitrous oxide, and oxygen. Also, manufacturing industrial inorganic

chemicals not elsewhere classified. A few examples are alum, ammonium compounds (except for fertilizer), industrial bleaches (sodium or calcium hypochlorite), chemical catalysts, hydrazine, hydrochloric acid, hydrogen peroxide, inorganic sodium compounds, and sulfuric acid. Other chemicals, not elsewhere classified, such as, fatty acids, essential oils, gelatin (except vegetable), sizes, bluing, laundry sours, writing and stamp pad ink, industrial compounds, such as boiler and heat insulating compounds, metal, oil, and water treating compounds, waterproofing compounds, and chemical supplies for foundries. This category also includes manufacturing various resins and plastics for sale to other industries that create plastic sheets, rods, films, and other products. The category also includes synthetic rubber, soap and detergents, rayon and acetate fibers. Furthermore, this category includes industrial and household adhesives, glues, caulking compounds, sealants, and linoleum, tile, rubber cements from vegetable, hardwood and softwood distillation products, natural dyes, tanning materials, and related products

Hist-Agriculture
Historic Sources US: Ranches/Farms, Livestock/Agriculture
ASTM/AAI Category: ERS Exclusive Historic Sources
Description: ERS has compiled proprietary lists of MILLIONS of records dating back to the 1800's that have shown up in historic resources and based on their classification, may have used hazardous materials or petroleum products. This listing includes sites such as: Ranches, Farms, Livestock, and/or Agriculture. This classification covers establishments primarily engaged in the production or feeding of beef cattle, except feedlots. Establishments also included are engaged in the production of cows' milk and other dairy products and in raising dairy heifer replacements. Such farms may process and bottle milk on the farm and sell at wholesale or retail. This category also includes establishments primarily engaged in the production of animal specialties, not elsewhere classified, such as pets, bees, worms, and laboratory animals. Furthermore, this industry includes establishments primarily engaged in the production of cash grains, not elsewhere classified. Primary cash grains in this classification include dry field and seed peas and beans, safflowers, sunflowers, and popcorn.

RCRA
Resource Conservation and Recovery Act
ASTM/AAI Category: Federal RCRA Generators
Description: In 1965, to encourage environmentally sound methods for disposal of household, municipal, commercial, and industrial refuse, Congress passed the first federal law to require safeguards on these activities, the Solid Waste Disposal Act. Congress amended this law in 1976 by passing the Resource Conservation and Recovery Act (RCRA) (pronounced "Ric-ra"). The primary goals of RCRA are to: Protect human health and the environment from the potential hazards of waste disposal. Conserve energy and natural resources. Reduce the amount of waste generated. Ensure that wastes are managed in an environmentally sound manner.

OCCURRENCES NOT MAPPED

The following occurrences were not mapped due to various reasons mostly resulting from incomplete or inaccurate address information. All of the following occurrences were determined to share the same zip code as the subject site. General status information is given with each occurrence along with any address information entered by the agency responsible for the list.

No unplottable sites requested.

DISCLAIMER, LIMITS AND LIABILITIES

All of the data presented in this report was garnered from public information maintained by governmental agencies. ***Environmental Record Search (ERS)*** cannot ensure that the data, which has been entered and maintained by others, is complete or accurate. Any, and all omissions, errors, negligence, accidentally or otherwise within the data received by ***ERS*** is assumed to be caused by others and ***ERS*** cannot and does not assume, take, or acknowledge any liability whatsoever for data. The extrapolation of the mapped locations is based solely on the accuracy of the data provided by others. Prior to relying completely on any mapped location within this report, its accuracy should be verified using other means such as further documentation or a field visit. ***ERS*** makes no representation, warranty or guaranty, express or implied regarding the accuracy of the data entered and maintained by others or the suitability of this report for a certain task.

The data presented in this report should only be interpreted by an experienced environmental professional that completely understands the potential inaccuracy of the data, the possible existence of contaminated occurrences that have not been listed, and the possibility that the governmental database misrepresents the actual status of an occurrence. Prior to relying completely on any of the data within this report, an environmental professional should verify the accuracy of the information presented.

It is important that the reader and/or end user of this information realize that the data gathered has not been verified for accuracy or completeness in any way by ***ERS***. As much as possible, the data is presented unchanged to represent the actual data produced by these agencies.

ERS does however stand behind its representation of the data, any manually plotted occurrences, and all other items directly under its control. This report does comply (as far as the data is reasonably ascertainable as outlined in both the following standards) with section 8.2.1 of ASTM 1527-05 – Standard Environmental Record Sources and EPA's 40 CFR Part 312, All Appropriate Inquiries. ***ERS*** does ensure that the data is accurately reproduced from the original source. ***ERS*** backs the reporting of the data with $2,000,000 of insurance.

The ***ERS*** logo, name, report design, presentation, maps, tables, etc., are the exclusive property of ***ERS*** and its parent company and affiliates. Except as provided below, information or images contained in this report may not be reproduced or distributed in whole or in part by any means without the prior written permission from ***ERS***. United States and international copyright laws protect any and all reports produced by ***ERS***.

The person or entity that purchased this report may make up to five (5) copies of the entire report or any part of it for archival purposes or to include as part of another report. All copyright information must remain intact and not be modified in any way.

Chicago Title Company – Newport Beach
Attn: Lorri Beasley
Escrow No.: SCP Village

PRELIMINARY REPORT

Property Address: 1661 W. Sunflower Avenue
Santa Ana, CA

Dated as of: July 28, 2011 at 7:30 am

In response to the application for a policy of title insurance referenced herein, Chicago Title Company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said Policy forms.

The printed Exceptions and Exclusion from the coverage and Limitations on Covered Risks of said Policy or Policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

SCHEDULE A

1. The estate or interest in the land hereinafter described or referred to covered by this report is:

   A Fee

2. Title to said estate or interest at the date hereof is vested in:

   David E. Bear, Trustee of the Bear Family Trust, Date of Trust June 14, 1997, as to an undivided one-third (1/3) interest,
   William H. Bear, Trustee of the William H. Bear Trust, dated August 20, 2002, as to an undivided one-half (1/2) of an undivided one-third (1/3) interest,
   Pat Bear, Trustee of the Pat Bear Trust, dated August 20, 2002, as to an undivided one-half (1/2) of an undivided one-third (1/3) interest, and
   Elizabeth A. Bear, Trustee of the Elizabeth A. Bear Separate Property Trust, dated December 20, 1999, as to an undivided one-third (1/3) interest, all as tenants-in-common

3. The land referred to in this report is situated in the State of California, County of Orange and is described in the Legal Description, attached hereto:

END OF SCHEDULE A

LEGAL DESCRIPTION

PARCELS 3 AND 4, IN THE CITY OF SANTA ANA, COUNTY OF ORANGE, STATE OF CALIFORNIA, AS SHOWN ON PARCEL MAP FILED IN BOOK 41, PAGE 48 OF PARCEL MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

END OF LEGAL DESCRIPTION

SCHEDULE B

At the date hereof, items to be considered and exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

A. Property taxes, including any assessments collected with taxes, for the fiscal year 2011 - 2012 that are a lien not yet due.

B. Property taxes, for the fiscal year 2010 - 2011 are paid. For proration purposes the amounts are:

1st Installment:	$32,186.35 Paid
2nd Installment:	$32,186.35 Paid
Code Area:	11007
Assessors Parcel Number:	412-451-02

C. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Part 0.5, Chapter 3.5 or Part 2, Chapter 3, Articles 3 and 4 respectively (commencing with Section 75) of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A; or as a result of changes in ownership or new construction occurring prior to date of policy.

Sublessee:	Room & Board, Inc., a Minnesota corporation
Recorded:	November 8, 2001 as Instrument No. 20010801106, of Official Records

The present ownership of the leasehold created by said lease and other matters affecting the interest of the lessee are not shown herein.

A Non Disturbance and Attornment Agreement, upon the terms and conditions therein contained

Executed by:	David E. Bear, as Trustee of the Howard A. Bear Revocable Family Trust dated August 11, 2000 ("Groundlessor") and Room & Board, Inc., a Minnesota corporation ("Tenant")
Recorded:	February 27, 2002 as Instrument No. 20020166412, of Official Records

SCHEDULE B
(continued)

13. An easement for the purpose shown below and rights incidental thereto as set forth in a document. (No representation is made as to the present ownership of said easement)

In Favor of:	Southern California Edison Company
Purpose:	Public utilities
Recorded:	October 9, 2002 as Instrument No. 20020875768 of Official Records
Affects:	That portion of said land as described in the document attached hereto.

14. Any invalidity or defect in the title of the vestees in the event that the trust referred to herein is invalid or fails to grant sufficient powers to the trustee(s) or in the event there is lack of compliance with the terms and provisions of the trust instrument.

    This Company will require a Trust Certification pursuant to California Probate Code Section 18100.5. The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

15. Water rights, claims or title to water, whether or not disclosed by the public records.

16. Matters which may be disclosed by an inspection and/or by a correct ALTA/ACSM Land Title Survey of said land that is satisfactory to this Company, and/or by inquiry of the parties in possession thereof.

    This office must be notified at least 7 business days prior to the scheduled closing in order to arrange for an inspection of the land; upon completion of this inspection you will be notified of the removal of specific coverage exceptions and/or additional exceptions to coverage.

17. Any rights of parties in possession of said land, based on any unrecorded lease, or leases.

    This Company will require a full copy of any unrecorded lease, together with all supplements, assignments, and amendments for review.

END OF SCHEDULE B

INFORMATIONAL NOTES

Note No. 1: Section 12413.1, California Insurance Code became effective January 1, 1990. This legislation regulates the disbursement of funds deposited with any title entity acting in an escrow or sub-escrow capacity. The law requires that all funds be deposited and collected by the title entity's escrow and/or sub-escrow account prior to disbursement of any funds. Some methods of funding may be subject to a holding period, which must expire before any funds may be disbursed. In order to avoid any such delays, all funding should be done via wire transfer. Funds deposited with the Company via wire transfer may be disbursed upon receipt. Funds deposited by cashiers checks, certified checks, and teller's checks is one business day after the day deposited. Other checks may require hold periods from two to five business days after the day deposited, and may delay your closing. The Company may receive benefits from such banks based upon the balances in such accounts. Such benefits will be retained by the Company as part of its compensation for handling such funds.

Note No. 2: The charge where an order is cancelled after the issuance of the report of title, will be that amount which in the opinion of the Company is proper compensation for the services rendered or the purpose for which the report is used, but in no event shall said charge be less that the minimum amount required under Section 12404.1 of the Insurance Code of the State of California. If the report cannot be cancelled "no fee" pursuant to the provisions of said Insurance Code, then the minimum cancellation fee shall be that permitted by law.

Note No. 3: California Revenue and Taxation Code Section 18668, effective January 1, 1991, requires that the buyer in all sales of California Real Estate, withhold 3-1/3% of the total sales price as California State Income Tax, subject to the various provisions of the law as therein contained, and as amended.

Note No. 4: Wire Transfers

In the event your transaction is being escrowed by a Chicago Title office, contact should be made with the office to obtain correct wiring instructions. Failure to do so could result in a delay in the receipt of funds and subsequent closing of your transaction.

Chicago Title will disburse by wire-out only collected funds or funds received by confirmed wire-in.

The Company's wire-in instructions are:

Bank:	Bank of America 275 Valencia Blvd, 2nd Floor Brea, CA 92823
Bank ABA No.:	0260-0959-3
Account Name:	Chicago Title Company, Broadway Plaza Office
Account No.:	12351-50737
For Credit To:	Chicago Title Company 700 South Flower, Suite 800 Los Angeles, CA 90017
Order No.:	116744410-X49

INFORMATIONAL NOTES
(continued)

LENDER NOTE: On the DATE you fund the Loan and WIRE Funds to Chicago Title and reference the above Order Number, you must send written NOTICE to the Title Officer's Unit by messenger or E-Mail that you sent the Funds.

Chicago Title will send an E-Mail acknowledging receipt of the funds as soon as practicable.

Chicago Title will NOT be responsible for any delay in Closing and Recording the transaction, nor will Chicago Title be liable for any claim of lost Interest unless such written Notice is sent the day of Funding and Chicago Title has acknowledged receipt of funds.

Note No. 5: Your application for title insurance was placed by reference to a street address or assessor's parcel number. Based upon our records, we believe that the description in this report covers the parcel that you requested.

To prevent errors, we require written confirmation that the legal description contained herein covers the parcel that you requested.

Note No. 6: The plat, (map), which is attached to this report, is to assist you in locating land with reference to streets and other parcels. While this plat is believed to be correct, the Company assumes no liability for any loss occurring by reason of reliance thereon.

Note No. 7: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

Note No. 8: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the amount, if any, set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.

INFORMATIONAL NOTES
(continued)

Note No. 9: Important notice regarding documents to be recorded in the Los Angeles County. Please review the following CRITICAL MESSAGE from the Los Angeles County Recorder's Office as it will likely impact your closing:

SUBJECT: ACCEPTANCE OF NOTARY ACKNOWLEDGEMENTS

Effective May 1, 2008, the Los Angeles Registrar-Recorder/County Clerk's Office will work diligently to be more efficient in examining notary acknowledgements as our part in minimizing notary fraud. In our efforts, we will strictly adhere to the following requirements for accepting Notary Acknowledgments/Certificates:

- Notaries must comply with the requirements set forth by the state where the oath is administered.

- Notary Acknowledgments/Certificates may not contain white-out, corrective tape, arrows and/or asterisks.

- Notary Acknowledgments/Certificates completed by a California Notary that are destined for recording in the County of Los Angeles must be presented exactly in the form prescribed by Civil Code Section 1189(a)(1).

A Notary Acknowledgment/Certificate that does not meet existing state requirements in addition to the requirements set forth above may not be re-submitted after it has been rejected by the Recorder. A new Notary Acknowledgment/Certificate will be required when re-submitting a rejected document.

If you have any questions, please contact the Registrar-Recorder/County Clerk at (562) 462-2125.

Note No. 10: If title is to be insured in the trustee(s) of a trust, (or if their act is to be insured), this Company will require a Trust Certification pursuant to California Probate Code Section 18100.5. The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

NOTICE

You may be entitled to receive a $20.00 discount on escrow services if you purchased, sold or refinanced residential property in California between May 19, 1995 and November 1, 2002. If you had more than one qualifying transaction, you may be entitled to multiple discounts.

If your previous transaction involved the same property that is the subject of your current transaction, you do not have to do anything; the Company will provide the discount, provided you are paying for escrow or title services in this transaction.

If your previous transaction involved property different from the property that is subject of your current transaction, you must - prior to the close of the current transaction - inform the Company of the earlier transaction, provide the address of the property involved in the previous transaction, and the date or approximate date that the escrow closed to be eligible for the discount.

Unless you inform the Company of the prior transaction on property that is not the subject of this transaction, the Company has no obligation to conduct an investigation to determine if you qualify for a discount. If you provide the Company information concerning a prior transaction, the Company is required to determine if you qualify for a discount which is subject to other terms and conditions.

ERIC D. KIESELBACH
President and CEO

Education

B.S. Environmental Resource Sciences: University of California, Davis, 1986
Emphasis: Water Sciences, Environmental Toxicology, Soil Sciences

Hazardous Waste Certificate Program: University of California, Davis
Additional classes in: Risk Assessment, Hazmat, Advanced Hazmat, Environmental Regulations, SARA Compliance

Licenses

- California State Registered Assessor, REA #02881
- Building Inspector #1607
- Management Planner #1680
- Project Designer #1839
- Contract Supervisor #2276

Special Qualifications

Mr. Kieselbach qualifies as an "Environmental Professional" in accordance with the US EPA's AAI (All Appropriate Inquires) 40 C.F.R. § 312.22. Mr. Kieselbach has performed numerous site investigation, assessment, and remediation of major commercial and industrial properties — in particular, large manufacturing plants requiring major remediation. Extensive knowledge of biotreatment of hydrocarbon-contaminated soils using engineered and endemic microbes. Designed, organized, and taught 40-hour SARA training program. Familiar with CFR 29, 40, and 49, SARA, CERCLA, TOSCA, RCRA, TITLE 22, Luft Manual. Significant general contractor experience, knowledgeable in all phases of commercial construction. Extensive experience in design, construction, and operation of all types and phases of remedial treatment systems.

Summary of Experience

1991 - Phase One, Inc., Tustin, California - Current

As President and Chief Executive Officer, Mr. Kieselbach oversees the entire environmental due diligence business conducted by Phase One, Inc., including orchestrating its rapid growth and success.

12 years - EDK Construction, Sacramento, California

Mr. Kieselbach owned and operated this company which constructed numerous custom homes, commercial and apartment projects. He managed and oversaw multi-million dollar projects with profitable results.

3 years - U.S. Geological Survey, California

As a Hydrogeological Technician, Mr. Kieselbach performed soil and groundwater sampling, helped set up and design soil testing and soils laboratory, and helped write procedures and perform field tests using sophisticated electronic equipment.

5 years - Exceltech Inc., a full-service environmental company, Irvine, California

As an officer and Vice President, Mr. Kieselbach ran the Southern California operations for Exceltech Inc., which included the Geoscience, Engineering, Remediation, and ACT (Assessments, Compliance, and Training) Departments. He undertook major work for such companies as Shell Oil, Conoco, and Kaiser Aluminum. He was also corporate safety officer for four of the five years.

ERIC EXTON
Operations Manager

Education

Numerous college courses focusing on science, computers, and business including: biology, micro-biology, environmental biology, chemistry, statistics, anatomy and physiology, programming in BASIC, Programming in C, programming in Pascal, advanced data structures, database programming, accounting and business law.

Licenses and Certifications

- California State Registered Assessor, REA I #08334
- State of California, Department of Health Services, Lead Related Construction Certificate, Inspector/Assessor ID#17704
- Certification in Mold Inspection & Sampling
- Microsoft Certified Systems Engineer (MCSE) #44842
- Microsoft Certified Professional in Microsoft Windows, Windows NT, Networking, SQL Server Administration, and SQL Server Implementation

Special Qualifications

Mr. Exton qualifies as an "Environmental Professional" in accordance with the US EPA's AAI (All Appropriate Inquires) 40 C.F.R. § 312.22. Mr. Exton has extensive experience in managing and supervising technical and administrative staff as well as in managing remote offices. Mr. Exton has also managed large, multi-site projects that have encompassed sites in multiple states. He has been involved with Phase II projects, prepared site characterization plans, and has worked in unison with governmental agencies and clients to achieve closure for contaminated properties. He has overseen soil cleanups and the installation of ground monitoring wells. In addition, he is an expert in computer programming, networking, databases, and systems administration.

Summary of Experiences

1992 – Phase One, Inc., Tustin, California – Current

Mr. Exton has written, researched, or performed the fieldwork for thousands of Phase I Environmental Site Assessments for various types of properties including manufacturing facilities, automotive repair facilities, and agricultural properties. In addition, he is the company's expert in the Federal Communications Commission's (FCC) responsibilities under the National Environmental Policy Act (NEPA). He has consulted on hundreds of NEPA compliance projects for various telecommunications companies. He has also consulted on NEPA compliance for several Department of Housing and Urban Development's (HUD) redevelopment projects as well as CEQA projects. He has made determinations and received concurrence from the State Historical Preservation Officer (SHPO) of many states for hundreds of Section 106 compliance projects. Mr. Exton has also managed special projects including Native American consultation, endangered species mitigation, consultation with the US Fish and Wildlife Service, wetlands surveys, flood plain hydrology studies, and archaeological testing. His archaeological projects have included the discovery of human remains. Mr. Exton has also written the majority of custom software utilized by Phase One, Inc; this software has increased the company's productivity and has improved the quality of reports compiled.

1 year – Valmer, Inc., Palo Alto, California

Mr. Exton managed and supported the computers and network for Valmer, Inc., a computer software company. He also managed the technical support of the company's contact management software, wrote several utilities to import data from other contact management and database programs, and merged data into popular word processing and fax programs.

SELECTED DEFINITIONS

ASPIS - This database lists potentially hazardous waste sites identified by the Historical Abandoned site Survey Program.

CERCLIS - The Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) is commonly referred to as "Superfund". The United States Environmental Protection Agency maintains a database referred to as "CERCLIS", which is used by the EPA to track activities conducted under its Superfund Program.

Sites which come to EPA's attention that may have a potential for releasing hazardous substances into the environment are added to the CERCLIS inventory. EPA learns of these sites in various ways. Examples include notification by the owner, citizen complaints, state and local government identification, and as a result of other EPA investigations.

NPL - The United States Environmental Protection Agency (EPA) maintains a National Priorities List (NPL) under the Comprehensive Environmental Response and Liability Act of 1980 (CERCLA), 42 U.S.C. Section 9601 (1985). Sites which have previously been designated on the CERCLIS List are evaluated by the EPA and ranked according to potential risk to human health and the environmental. Those CERCLIS sites which present the greatest risk are added to the NPL, which qualifies them to receive remedial funding Through CERCLA.

RCRA - The following list has been compiled from a search of the RCRA data base list for generators (gen), transporters (trans), and treatment storage disposal facilities (TSDF) of hazardous materials. All generators of waste material are required by the Department of Health Services to have hazardous material removed from the site every sixty days. The list is generally representative of the type of businesses in the region surrounding the subject property.

REPORT SIGNATURE SHEET AND CERTIFICATION

The undersigned hereby certifies that:

The following people have prepared, written, and/or reviewed the Phase I Environmental Assessment Report. All the below parties have, in good faith, conducted their respective project responsibilities using that degree of care and skill ordinarily exercised by environmental consultants practicing in this or similar fields.

All parties have acted in good faith and have no known relationship with the subject site, owners, buyers, or any other entity associated with the subject site. All respective project responsibilities have been conducted independently, and with no conflict of interest.

The statements of fact contained in this report are true and correct based on materials reviewed.

The reported analyses, opinions, and conclusions are personal, unbiased, professional, and limited only by the assumptions and qualifications stated herein. Compensation is not contingent upon an action or an event resulting from the analyses, opinions, or conclusions included in this report. Nor is it contingent upon the use of this report.

The investigation has been performed in accordance with all applicable legal requirements and in accordance with accepted practices prevailing in the environmental assessment and asbestos consulting industries. The personnel who performed the investigation are properly licensed and certified in accordance with the requirements of all federal, state, and local laws, rules, and regulations.

I/We declare that, to the best of our professional knowledge and belief, I/we meet the definition of Environmental Professional as defined in §312.10 of this part.

I/We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I/We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

We have no present or prospective interest in the subject property or the parties involved.

If necessary, expert testimony and other legal appearances will be provided for a reasonable fee to be arranged.

CITY OF SANTA ANA

DEPARTMENT OF PLANNING

20 CIVIC CENTER PLAZA • SANTA ANA • CALIFORNIA 92701

COUNCIL ACTION DATE: 8/18/80
Approved & filed
Negative Declaration: Approved
Subject to conditions
herein; Waived alley
requirement.
James C. Berry
Clerk of the Council

August 8, 1980

Honorable City Council
City Hall
Santa Ana, CA 92701

TENTATIVE PARCEL MAP 80-887

Tentative Parcel Map 80-887 was filed on June 30, 1980 by C.J. Segerstrom & Sons, creating 2 parcels. All proposed parcels are to be used for commercial purposes. Said parcels are located generally at the northeast corner of Sunflower Avenue and Plaza Drive.

The Planning Department has received and reviewed reports from interested agencies concerning this map and recommends APPROVAL SUBJECT TO THE FOLLOWING CONDITIONS:

A. Public Works

1. This parcel map, including the final map and all improvements required to be made or installed by the subdivider and/or future property owners, if any, shall be in accordance with the design standards and specifications of the Santa Ana Municipal Code, the Department of Public Works standard plans, and the requirements of the State Subdivision Map Act.

   a. The parcel map shall be filed with the City Engineer within one year of City Council approval of the tentative map.

   b. Record the parcel map, and provide a copy of the recorded map to the Departments of Public Works and Planning.

   c. Furnish a copy of an up-to-date title report and machine traverses to the Department of Public Works at the time of or before the first submittal of the final map for Department review.

   d. Submit sufficient copies of the parcel map to the Department of Public Works as required by such Department for its review and final approval.

   e. Submit copies of the parcel map as required to the Orange County Surveyor's Office for review at the time of or prior to the first submittal for review to the Department of Public Works of the City of Santa Ana.

   f. The parcel map shall have certificates thereon as required by the State Map Act, and as requested by the Orange County Surveyor's Office, and by the Department of Public Works of the City of Santa Ana.

   g. Show all easements by fine dotted lines on the final map.

2. The following conditions shall be complied with prior to the issuance of a building permit on the each particular parcel by the Department of Building Safety and Housing:

   a. Record the parcel map with the County Recorder's Office.

   b. Furnish to the Department of Public Works the following:

49
9 C

(1) A final grading and on-site drainage flow plan showing the direction of flow to the adjacent streets when this property is developed. Plan is to include existing and proposed elevations at the property lines and existing elevations within 10 feet outside of the property lines.

(2) A site plan showing trash bin enclosure locations and their proximity to trash truck pickup locations.

NOTE: Trash bins must be able to be rolled with reasonable ease to the trash truck.

c. Pay Sanitary Sewer connection fees.

B. Planning Department

1. Prior to the recordation of the final map, all parcels shall conform to municipal building and zoning ordinances and to provisions of VA 71-44.

2. An agreement shall be required and shall be recorded on the property prior to the recordation of the final map. Said agreement shall meet with the approval of the Planning Department and City Attorney's Office as to form and content and shall cover the following:

a. mutual ingress and egress

b. parking

NOTES:

1) Section 34.47 of the Santa Ana Municipal Code requires an alley to the rear of parcels fronting primary streets. The applicant has requested under Section 34.49 the alley be waived. After reviewing the request, I recommend the alley be waived.

2) It is suggested the subdivider investigate regular City fees for residential development, drainage assessment, ornamental street lights and water main connection. Section 8-837 of the Santa Ana Municipal Code requires underground utilities on site.

3) This parcel map has been acted upon in accordance with Section 34-127 of the Subdivision Code which provides that within 30 days of filing the Planning Director shall disapprove or conditionally approve the map and notify the subdivider of his decisions and action.

4) If you are dissatisfied with the decision or recommendation for modification file a written notice of appeal to be heard by the Planning Commission of the City. The written notice of appeal shall contain a specific statement of the points of disagreement between the subdivider and the Planning Director and the reasons and justifications for the position taken by the subdivider on each point. Such written request for hearing must contain a statement by the subdivider of willingness to extend the time of approval of the map for a period of an additional thirty days.

5) Final action of this tentative map finds that the map, together with the provisions for its design and improvements is consistent with the General Plan of the City of Santa Ana, and that none of the findings as set forth in Section 66474 of the Subdivision Map Act can be made.

CHARLES C. ZIMMERMAN, DIRECTOR
SANTA ANA PLANNING DEPARTMENT

This map will come before the City Council on the afternoon of August 18, 1980. Please contact the Planning Department prior to August 11, 1980 if there are any questions relative to the above conditions of approval. Otherwise we shall assume everything is in order.

NEGATIVE DECLARATION

PM 80-887

INITIAL STUDY NUMBER: 80-144 DATE: 7-15-80

PROJECT LOCATION/ADDRESS: N/E corner Plaza Drive and Sunflower.

PROJECT/TITLF DESCRIPTION: PM 80-887 - Create 2 Commercial Parcels.

PROJECT PROPONENT: C.J. Segerstrom & Sons
3315 Fairview Rd.
Costa Mesa CA 92626

REVIEWING DEPARTMENT: Planning

In accordance with the City of Santa Ana's "Environmental Rules - 1976 Revision" Implementing the California Environmental Quality Act of 1970 (specifically Section 21151 of the Public Resources Code) the Environmental Analyst for this Department has prepared an Initial Study on the above described project and hereby finds that the proposed project with included mitigation measures, cannot, or will not, have a significant effect on the environment.

Negative Declaration status is therefore granted for this project and the submittal of an Environmental Impact Report is thereby not necessary.

The granting of Negative Declaration status is based upon inclusion of the following mitigation measures:

Project will conform to all applicable City codes and policies.

ENVIRONMENTAL CHECKLIST FORM
(To be completed by the Lead Agency)

PLANNING & BUILDING DEPARTMENT SANTA ANA

I. BACKGROUND

1. Name of Proponent C. J. SEGERSTROM & SONS
2. Address and Phone Number of Proponent 3315 FAIRVIEW [redacted] ROAD COSTA MESA, CA 92626
3. Date of Checklist Submitted JUNE 30, 1980
4. Agency Requiring Checklist PLANNING
5. Name of Proposal, if applicable PM 80-887

II. ENVIRONMENTAL IMPACTS
(Explanations of all "yes" and "maybe" answers are required on attached sheets.)

	YES	MAYBE	NO
1. Earth. Will the proposal result in:			
a. Unstable earth conditions or in changes in geologic substructures?			✓
b. Disruptions, displacements, compaction or overcovering of the soil?			✓
c. Change in topography or ground surface relief features?			✓
d. The destruction, covering or modification of any unique geologic or physical features?			✓
e. Any increase in wind or water erosion of soils, either on or off the site?			✓
f. Changes in deposition or erosion of beach sands, or changes in siltation, deposition or erosion which may modify the channel of a river or stream or the bed of the ocean or any bay, inlet or lake?			✓
g. Exposure of people or property to geologic hazards such as earthquakes, landslides, mudslides, ground failure, or similar hazards?			✓
2. Air. Will the proposal result in:			
a. Substantial air emissions or deterioration of ambient air quality?			✓
b. The creation of objectionable odors?			✓
c. Alteration of air movement, moisture or temperature, or any change in climate, either locally or regionally?			✓
3. Water. Will the proposal result in:			
a. Changes in currents, or the course or direction of water movements, in either marine or fresh waters?			✓
b. Changes in absorption rates, drainage patterns, or the rate and amount of surface water runoff?			✓
c. Alterations to the course or flow of flood waters?			✓
d. Change in the amount of surface water in any water body?			✓
e. Discharge into surface waters, or in any alteration of surface water quality, including but not limited to temperature, dissolved oxygen or turbidity?			✓
f. Alteration of the direction or rate of flow of ground waters?			✓
g. Change in the quantity of ground waters, either through direct additions or withdrawals, or through interception of an aquifer by cuts or excavations?			✓
h. Substantial reduction in the amount of water otherwise available for public water supplies?			✓
i. Exposure of people or property to water related hazards such as flooding or tidal waves?			✓
4. Plant Life. Will the proposal result in:			
a. Change in the diversity of species, or number of any species of plants (including trees, shrubs, grass, crops, microflora and aquatic plants)?			✓
b. Reduction of the numbers of any unique, rare or endangered species of plants?			✓
c. Introduction of new species of plants into an area, or in a barrier to the normal replenishment of existing species?			✓
d. Reduction in acreage of any agricultural crop?			✓
5. Animal Life. Will the proposal result in:			
a. Change in the diversity of species, or numbers of any species of animals (birds, land animals including reptiles, fish and shellfish, benthic organisms, insects or microfauna)?			✓
b. Reduction of the numbers of any unique, rare or endangered species of animals?			✓
c. Introduction of new species of animals into an area, or result in a barrier to the migration or movement of animals?			✓
d. Deterioration of existing fish or wildlife habitat?			✓
6. Noise. Will the proposal result in:			
a. Increases in existing noise levels?			✓
b. Exposure of people to severe noise levels?			✓
7. Light and Glare. Will the proposal produce new light or glare?			✓
8. Land Use. Will the proposal result in a substantial alteration of the present or planned land use of an area?			✓
9. Natural Resources. Will the proposal result in:			
a. Increase in the rate of use of any natural resources?			✓
b. Substantial depletion of any nonrenewable natural resource?			✓
10. Risk of Upset. Does the proposal involve a risk of an explosion or the release of hazardous substances (including, but not limited to, oil, pesticides, chemicals or radiation) in the event of an accident or upset conditions?			✓
11. Population. Will the proposal alter the location, distribution, density, or growth rate of the human population of an area?			✓
12. Housing. Will the proposal affect existing housing, or create a demand for additional housing?			✓
13. Transportation/Circulation. Will the proposal result in:			
a. Generation of substantial additional vehicular movement?			✓
b. Effects on existing parking facilities, or demand for new parking?			✓
c. Substantial impact upon existing transportation systems			✓
d. Alterations to present patterns of circulation or movement of people and/or goods?			✓
e. Alterations to waterborne, rail or air traffic?			✓

INITIAL STUDY NO. 80-144

E. I. F.
ENVIRONMENTAL INFORMATION FORM
(TO BE COMPLETED BY APPLICANT)

SECTION I GENERAL INFORMATION

1. Name and address of developer or project sponsor: C. J. Segerstrom & Sons, 3315 Fairview Road, Costa Mesa, CA.

2. Address of project: northeast corner of Plaza Drive & Sunflower
Assessor's Block and Lot Number 412-131-10 & 11

3. Name, address, and telephone number of person to be contacted concerning this project: Robert Bein, William Frost & Associates
1401 Quail Street, Newport Beach, CA. 92663 - John Richards - 833-0070

4. Indicate number of the permit application for the project to which this form pertains: Parcel Map

5. List and describe any other related permits and other public approvals required for this project, including those required by city, regional, state and federal agencies: None

6. Present zoning of project site: Commercial/Residential

7. Proposed use of site (Project for which this form is filed): Lease Parcel

SECTION II PROJECT DESCRIPTION

8. Site size. 3.19 acres

9. Square footage. 138,956.4

10. Number of floors of construction. N/A

11. Amount of off-street parking provided. Existing

12. Proposed scheduling. N/A

13. Associated projects. N/A

14. Anticipated incremental development. N/A

15. If residential, include the number of units, schedule of unit sizes, range of sale prices or rents, and type of household size expected. (Attach additional sheets as necessary)
N/A

16. If commercial, indicate the type, whether neighborhood, city or regionally oriented, square footage of sales area, and loading facilities. (Attach additional sheets as necessary)
Not known at this time.

NOTE: This Environmental Information Form is a requirement of the State of California's rules, regulations and guidelines for local compliance with the California Environmental Quality Act including amendments effective as of January 1, 1977.

9 C

SEE REVERSE SIDE

ENVIRONMENTAL INFORMATION FORM
(TO BE COMPLETED BY APPLICANT)

17. If industrial, indicate type, estimated employment per shift, and loading facilities. (Attach additional sheets as necessary)
N/A

18. If institutional, indicate the major function, estimated employment per shift, estimated occupancy, loading facilities, and community benefits to be derived from the project. (Attach additional sheets as necessary)
N/A

19. If the project involves a variance, conditional use or rezoning application, state this and indicate clearly why the application is required.
N/A

Are the following items applicable to the project or its effects? Discuss below all items checked yes (attach additional sheets as necessary).

YES	NO	
___	X	20. Change in existing features of any bays, tidelands, beaches, lakes or hills, or substantial alteration of ground contours.
___	X	21. Change in scenic views or vistas from existing residential areas or public lands or roads.
___	X	22. Change in pattern, scale or character of general area of project.
___	X	23. Significant amounts of solid waste or litter.
___	X	24. Change in dust, ash, smoke, fumes or odors in vicinity.
___	X	25. Change in ocean, bay, lake, stream or ground water quality or quantity, or alteration of existing drainage patterns.
___	X	26. Substantial change in existing noise or vibration levels in the vicinity.
___	X	27. Site on filled land or on slope of 10 percent or more.
___	X	28. Use of disposal of potentially hazardous materials, such as toxic substances, flammables or explosives.
___	X	29. Substantial change in demand for municipal services (police, fire, water, sewage, etc.).
___	X	30. Substantially increase fossil fuel consumption (electricity, oil, natural gas, etc.).
___	X	31. Relationship to a larger project or series of projects.

ENVIRONMENTAL INFORMATION FORM
(TO BE COMPLETED BY APPLICANT)

SECTION III LAND USE AND ZONING

A. Provide the following maps:

- Plot plan and elevations of proposed project (Use appropriate scale to show detail). N/A
  Indicate drainage pattern.
- Zoning (all surrounding property within 300'). Commercial/Residential
- Existing land use (all surrounding property within 300'). Commercial/Residential

B. General Plan designation: Community Shopping Center

SECTION IV ENVIRONMENTAL SETTING

A. Describe the project site as it exists before the project, including information on topography, soil stability, plants and animals, and any cultural, historical or scenic aspects. Describe any existing structures on the site, and the use of the structures. Attach photographs of the site. Snapshots or polaroid photos will be accepted. Theater on site; all other improvements completed except Parcel 2.

B. Describe the surrounding properties, including information on plants and animals and any cultural, historical or scenic aspects. Indicate the type of land use (residential, commercial, ets.), intensity of land use (one-family, apartment houses, shops, department stores, etc.), and scale of development (height, frontage, set-back, rear yard, etc.). Attach photographs of the vicinity. Snapshots or polaroid photos will be accepted.

Commercial

CERTIFICATION I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge and belief.

Date 6/27/80 John Richards (Signature)

For C J Segerstrom & Co

Please provide any additional information on attached sheet(s) that you feel would be of assistance in evaluating this environmental assessment form.

Hazardous Materials

Does your facility have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or is regulated under more restrictive inventory local reporting requirements (shown below if present); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	**Yes**

Underground Storage Tank(s) (UST)

Does your facility own or operate underground storage tanks?	**No**

Hazardous Waste

Is your facility a Hazardous Waste Generator?	**No**
Does your facility treat hazardous waste on-site?	**No**
Is your facility's treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	**No**
Does your facility consolidate hazardous waste generated at a remote site?	**No**
Does your facility need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	**No**
Does your facility generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month greater than 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	**No**
Is your facility a Household Hazardous Waste (HHW) Collection site?	**No**

Excluded and/or Exempted Materials

Does your facility recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	**No**
Does your facility own or operate ASTs above these thresholds? Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	**No**
Does your facility have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	**No**

Additional Information

No additional comments provided.

C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS

In the event of an emergency involving hazardous materials and/or hazardous waste, all facilities must IMMEDIATELY:
1. Notify facility personnel and evacuate if necessary in accordance with the Emergency Action Plan (Title 8 California Code of Regulations §3220);
2. Notify local emergency responders by calling 9-1-1;
3. Notify the local Unified Program Agency (UPA) at the phone number below; and
4. Notify the State Warning Center at (800) 852-7550.

Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved:
1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month.
2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems.
3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity.
4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month.

Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to:
1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility; and
2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

EMERGENCY RESPONSE PHONE NUMBERS:		
	AMBULANCE, FIRE, POLICE AND CHP	9-1-1
	CALIFORNIA STATE WARNING CENTER (CSWC)/CAL OES.	(800) 852-7550
	NATIONAL RESPONSE CENTER (NRC)	(800) 424-8802
	POISON CONTROL CENTER	(800) 222-1222
	LOCAL UNIFIED PROGRAM AGENCY (UPA) C1.	
	OTHER (Specify): C2.	C3.
NEAREST MEDICAL FACILITY / HOSPITAL NAME: C4.		C5.

AGENCY NOTIFICATION PHONE NUMBERS:		
	CALIFORNIA DEPT. OF TOXIC SUBSTANCES CONTROL (DTSC)	(916) 255-3545
	REGIONAL WATER QUALITY CONTROL BOARD (RWQCB). C6.	
	U.S. ENVIRONMENTAL PROTECTION AGENCY (US EPA)	(800) 300-2193
	CALIFORNIA DEPT. OF FISH AND WILDLIFE (CDFW)	(916) 358-2900
	U.S. COAST GUARD (USCG)	(202) 267-2180
	CAL OSHA	(916) 263-2800
	CAL FIRE OFFICE OF THE STATE FIRE MARSHAL (OSFM)	(916) 323-7390
	OTHER (Specify): C7.	C8.
	OTHER (Specify): C9.	C10.

INTERNAL FACILITY EMERGENCY COMMUNICATIONS OR ALARM NOTIFICATION WILL OCCUR BY (Check all that apply): C11.

- [x] 1. VERBAL WARNINGS;
- [ ] 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;
- [ ] 3. TELEPHONE;
- [ ] 4. PAGERS;
- [ ] 5. ALARM SYSTEM;
- [ ] 6. PORTABLE RADIO

NOTIFICATIONS TO NEIGHBORING FACILITIES THAT MAY BE AFFECTED BY AN OFF-SITE RELEASE WILL OCCUR BY (Check all that apply): C12.

- [x] 1. VERBAL WARNINGS;
- [ ] 2. PUBLIC ADDRESS OR INTERCOM SYSTEM;
- [x] 3. TELEPHONE;
- [ ] 4. PAGERS;
- [ ] 5. ALARM SYSTEM;
- [ ] 6. PORTABLE RADIO

EMERGENCY COORDINATOR CONTACT INFORMATION: Manager on duty at the Cafe C13.

PRIMARY EMERGENCY COORDINATOR NAME: Temo Fernandez PHONE NO.: (714) 328-7048 PHONE NO.:

ALTERNATE EMERGENCY COORDINATOR NAME: PHONE NO.: PHONE NO.:

- [ ] Check if additional Emergency Coordinator contact and address information is available onsite or by calling PHONE NO.:

Note: If more than one alternate emergency coordinator is designated, attach a list in order of responsibility.

D. EMERGENCY CONTAINMENT AND CLEANUP PROCEDURES

Check the applicable boxes to indicate your facility's procedures for containing spills and preventing and mitigating releases, fires and/or explosions.

D1.

- [ ] 1. MONITOR FOR LEAKS, RUPTURES, PRESSURE BUILD-UP, ETC.;
- [ ] 2. PROVIDE STRUCTURAL PHYSICAL BARRIERS (e.g., Portable spill containment walls, built-in berms);
- [ ] 3. PROVIDE ABSORBENT PHYSICAL BARRIERS (e.g., Pads, spill pigs, spill pillows);
- [ ] 4. COVER OR BLOCK FLOOR AND/OR STORM DRAINS;
- [ ] 5. LINED TRENCH DRAINS AND/OR SUMPS;
- [x] 6. AUTOMATIC FIRE SUPPRESSION SYSTEM;
- [ ] 7. ELIMINATE SOURCES OF IGNITION FOR FLAMMABLE HAZARDS;
- [x] 8. STOP PROCESSES AND/OR OPERATIONS;
- [ ] 9. AUTOMATIC / ELECTRONIC EQUIPMENT SHUT-OFF SYSTEM;
- [ ] 10. SHUT OFF WATER, GAS, ELECTRICAL UTILITIES;
- [x] 11. CALL 9-1-1 FOR PUBLIC EMERGENCY RESPONDER ASSISTANCE AND/OR MEDICAL AID;
- [x] 12. NOTIFY AND EVACUATE PERSONS IN ALL THREATENED AND/OR IMPACTED AREAS;
- [x] 13. ACCOUNT FOR EVACUATED PERSONS IMMEDIATELY AFTER EVACUATION;
- [ ] 14. PROVIDE PROTECTIVE EQUIPMENT FOR ON-SITE EMERGENCY RESPONSE TEAM;
- [ ] 15. REMOVE CONTAINERS AND/OR ISOLATE AREAS;
- [ ] 16. HIRE LICENSED HAZARDOUS WASTE CONTRACTOR;
- [ ] 17. USE ABSORBENT MATERIAL FOR SPILL CONTAINMENT;
- [ ] 18. VACUUM SUCTION USING APPROPRIATE VACUUM (e.g., Intrinsically safe) FOR SPILL CONTROL AND/OR CLEANUP;
- [ ] 19. DECONTAMINATE PERSONNEL AND EQUIPMENT WITHIN DESIGNATED AREA AND DISPOSE OF WASTEWATER AS HAZARDOUS WASTE;
- [ ] 20. PROVIDE SAFE TEMPORARY STORAGE OF HAZARDOUS WASTE GENERATED DURING EMERGENCY ACTIONS;
- [ ] 21. OTHER (Specify): D2.

E. FACILITY EVACUATION

THE FOLLOWING ALARM SIGNAL(S) WILL BE USED TO BEGIN EVACUATION OF THE FACILITY (Check all that apply): E1.

E2.

- [ ] 1. BELLS;
- [x] 2. HORNS/SIRENS;
- [x] 3. VERBAL (i.e., Shouting);
- [ ] 4. OTHER (Specify):

THE FOLLOWING LOCATION(S) WILL BE USED FOR AN EMERGENCY ASSEMBLY AREA(S) (e.g., Parking lot, street corner): E3.

parking lot

Note: The Emergency Coordinator must account for all onsite employees and visitors after evacuation.

EVACUATION ROUTE S AND ALTERNATE EVACUATION ROUTES ARE DESCRIBED AS FOLLOWS: E4.

- [x] 1. WRITTEN PROCEDURES DESCRIBING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [x] 2. EVACUATION MAP(S) DEPICTING ROUTES, EXITS, AND ASSEMBLY AREAS;
- [ ] 3. OTHER (Specify): E5.

Note: Evacuation procedures and/or maps should be posted in visible facility locations and must be included in the Contingency Plan.

F. ARRANGEMENTS FOR EMERGENCY SERVICES

ADVANCE ARRANGEMENTS FOR LOCAL EMERGENCY SERVICES (Check one of the following): F1.

- [x] 1. HAVE BEEN DETERMINED NOT NECESSARY;
- [ ] 2. THE FOLLOWING ARRANGEMENTS HAVE BEEN MADE (Specify): F2.

Note: Advance arrangements with local fire and police departments, hospitals, state and local emergency response teams, and/or emergency services contractors should be made for your facility, if necessary. Large Quantity Generators must describe arrangements in the Contingency Plan.

G. EMERGENCY EQUIPMENT

Check the applicable boxes to list emergency response equipment available at the facility, identify the location(s) where the equipment is kept, and indicate the equipment's capability, if applicable.

TYPE	EQUIPMENT AVAILABLE G1.	LOCATION G2.	CAPABILITY G3.
EXAMPLE	☒ *CHEMICAL PROTECTIVE GLOVES*	*SPILL RESPONSE KIT*	*SINGLE USE, OIL RESISTANT ONLY*
Safety and First Aid	1. ☐ CHEMICAL PROTECTIVE SUITS, APRONS, AND/OR VESTS		
	2. ☐ CHEMICAL PROTECTIVE GLOVES		
	3. ☐ CHEMICAL PROTECTIVE BOOTS		
	4. ☐ SAFETY GLASSES, GOGGLES, AND FACE SHIELDS		
	5. ☐ HARD HATS		
	6. ☐ AIR-PURIFYING RESPIRATORS		
	7. ☐ SELF-CONTAINED BREATHING APPARATUS (SCBA)		
	8. ☒ FIRST AID KITS	Near managers office	
	9. ☐ PLUMBED EYEWASH FOUNTAIN AND/OR SHOWER		
	10. ☒ PORTABLE EYEWASH KITS AND/OR STATION	Near back hand washing sink	2 separate bottles
	11. ☐ OTHER		
Fire Fighting	12. ☒ PORTABLE FIRE EXTINGUISHERS	through out the restaurant	
	13. ☒ FIXED FIRE SUPPRESSION SYSTEMS AND/ OR SPRINKLERS	through out the restaurant	
	14. ☐ FIRE ALARM BOXES		
	15. ☐ OTHER		
Spill Control and Clean-Up	16. ☐ ALL-IN-ONE SPILL KIT		
	17. ☐ ABSORBENT MATERIAL		
	18. ☐ CONTAINER FOR USED ABSORBENT		
	19. ☐ BERM AND/OR DIKING EQUIPMENT		
	20. ☐ BROOM		
	21. ☐ SHOVEL		
	22. ☐ VACUUM		
	23. ☐ EXHAUST HOOD		
	24. ☐ SUMP AND/OR HOLDING TANK		
	25. ☐ CHEMICAL NEUTRALIZERS		
	26. ☐ GAS CYLINDER LEAK REPAIR KIT		
	27. ☐ SPILL OVERPACK DRUMS		
	28. ☐ OTHER		
Communi-cations and Alarm Systems	29. ☐ TELEPHONES (e.g., Cellular)		
	30. ☐ INTERCOM AND/OR PA SYSTEM		
	31. ☐ PORTABLE RADIOS		
	32. ☐ AUTOMATIC ALARM CHEMICAL MONITORING EQUIPMENT		
Other	33. ☐ OTHER		
	34. ☐ OTHER		

H. EARTHQUAKE VULNERABILITY

Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic motion. These areas require immediate isolation and inspection.

VULNERABLE AREAS (Check all that apply): H1.

- ☐ 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS
- ☐ 2. PROCESS LINES AND PIPING
- ☐ 3. LABORATORY
- ☐ 4. WASTE TREATMENT AREA

LOCATIONS (e.g., Shop, outdoor shed, lab): H2.

Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. These systems require immediate isolation and inspection.

VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): H3.

- ☐ 1. SHELVES, CABINETS AND/OR RACKS
- ☐ 2. TANKS AND SHUT-OFF VALVES
- ☐ 3. PORTABLE GAS CYLINDERS
- ☐ 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES
- ☐ 5. SPRINKLER SYSTEMS
- ☐ 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)

LOCATIONS: H4.

I. EMPLOYEE TRAINING

Employee training is required for all employees and/or contractors handling hazardous materials and/or hazardous wastes during normal and/or emergency operations. Most facilities will need to submit a separate Training Plan. However, your CUPA may accept this section as the Training Plan for some small facilities.
Employee training plans may include the following content:

- Applicable laws and regulations;
- Emergency response plans and procedures;
- Safety Data Sheets;
- Hazard communication related to health and safety;
- Methods for safe handling of hazardous substances;
- Hazards of materials and processes (e.g., fire, explosion, asphyxiation);
- Hazard mitigation, prevention and abatement procedures;
- Coordination of emergency response actions;
- Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;
- Communication and alarm systems;
- Personal protective equipment;
- Use and maintenance of emergency response equipment and supplies (e.g. Fire extinguishers, respirators, spill control materials);
- Decontamination procedures;
- Evacuation procedures and evacuation staging locations;
- Identification of facility areas, equipment, and systems vulnerable to earthquakes and other natural disasters.
- OTHER (Specify):

Check the applicable boxes below to indicate how the employee training program is administered.

☐ 1. FORMAL CLASSROOM ☒ 2. VIDEOS ☒ 3. SAFETY MEETINGS ☐ 4. STUDY GUIDES / MANUALS I1.

☐ 5. OTHER (Specify): I2.

☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES

☒ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOADED TO CERS AS A PDF DOCUMENT I3.

☐ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCED CONTENT AND OTHER DOCUMENTS ONSITE I4.

EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST BE:

- Provided initially for new employees as soon as possible following the date of hire. New employees should not work in an unsupervised position that involves hazardous materials handling and/or hazardous waste management without proper training;
- Provided within six months from the date of hire for new employees at a large quantity generator;
- Ongoing and provided at least annually;
- Amended prior to a change in process or work assignment;
- Given upon modification to the Emergency Response/Contingency Plan.

Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must retain written plan and documentation of employee training which includes:

- A written description of the type and amount of both initial and ongoing training that will be given to persons filling each job position having responsibility for hazardous waste management and/or emergency response.
- The name, job title and job description for each position at the facility related to hazardous waste management.
- Current employee training records must be retained until closure of the facility and former employee training records must be retained for at least three years after termination of employment.

Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must include basic hazardous waste management and emergency response procedures but a written employee training plan and training records are not required. In order to show that the facility has met the small quantity generator employee training requirement, an employee training plan and training records may be made available.

Hazardous Materials Business Plan Training: Businesses must provide initial and annual employee training that includes the content referenced above. The training may be based on the job position and training records must be made available for a period of at least three years.

J. LIST OF ATTACHMENTS

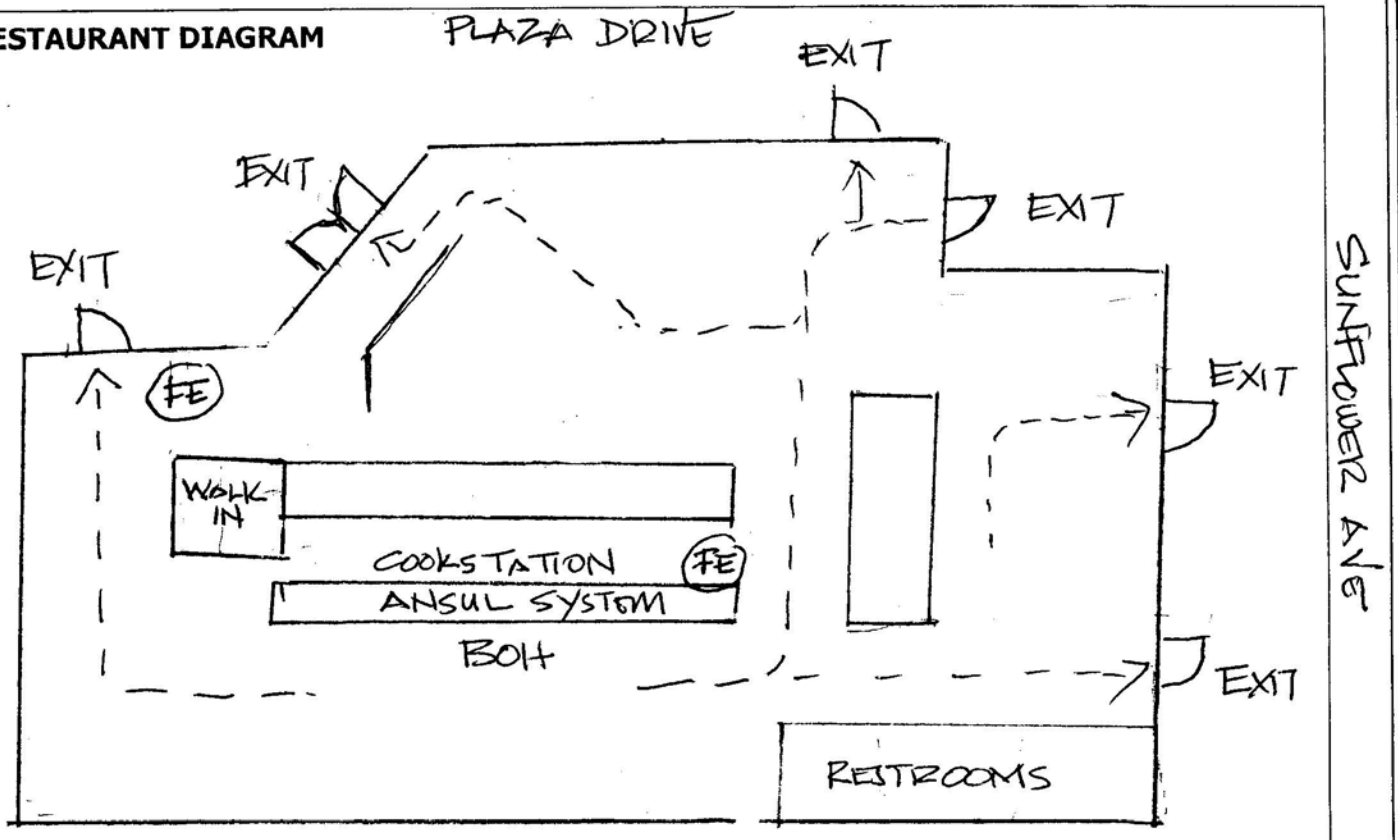
Check one of the following: J1.

- ☐ 1. NO ATTACHMENTS ARE REQUIRED; or
- ☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED: J2.

Safety program

EMERGENCY
Evacuation Procedures 0241

RESTAURANT DIAGRAM



Designated meeting place outside of building:

Primary:

Alternate:

Key	**EX – Emergency Exit**	**AN – Ansul System Switch for Hoods**	**FA – First Aid Kit**
	FE – Fire Extinguisher	**Y – Sprinkler Shut Off Valve**	**MS – MSDS Binder**
	EL – Emergency Lights		

1. Draw in basic dividing walls.
2. Use the symbols in the Legend to mark the location of the noted items.
3. Use a RED marker to draw a line to the primary emergency routes from each of the areas of the store.
4. Use a BLUE marker to draw a line to the exit that would be used if the primary exit in tha tarea was blocked.(i.e., from back prep area, the red line goes to the back door, the blue line goes to the closest FOH exit.)
5. Periodically review your evacuation plan with employees.
6. Post this diagram on your employee communication board.

FACILITY ID FA0067015	RELATED ID PR0097877	SERVICE: A01 - ROUTINE INSPECTION	INSPECTION DATE 1/30/2020
PROGRAM DESCRIPTION 5801 - HAZ MAT DISCLOSURE 1-4 CHEMICALS			REINSPECTION DATE: NEXT ROUTINE

Consent to enter, inspect, and take photos of the facility was given by: None on File

The following items have been inspected. If there were violations, this document constitutes a Summary of Violations and Notice to Comply and the Violation Degree column is marked Minor, Class I, or Class II. A violation that is corrected at the time of inspection is marked COS. Failure to correct the listed violation(s) prior to the designated compliance date may necessitate a reinspection at an additional fee.

Overall Inspection Comments:

INSPECTOR COMMENTS

Facility inspection conducted with Manny Ruezada, Assistant Manager.

Chemicals observed on this date match the CERS submission on 1/24/2019.

Reviewed BEP and the site map with the business.

Reminder: Please re-certify your HMBP on or before March 1 at www.cers.calepa.ca.gov

No violation observed on this date.

No violations were noted. Orange County Environmental Health greatly appreciates your efforts to comply with all health, safety, and environmental laws and regulations applicable to your facility.

SIGNATURE(S) OF ACKNOWLEDGEMENT

baprahamian@ochca.com

ADDITIONAL FEES:
Uncorrected violations may lead to follow-up actions, which may incur additional fees. The purpose of these fees is to shift costs away from compliant operators and impose fees on those facilities that fail to readily comply with the applicable laws and regulations. The amount of the fee is to cover all of the cost associated with the service. For the most current fees, please refer to http://ochealthinfo.com/eh/home/fees or call (714) 433-6000.

Summary....14
Detail Report....22
Radon Information....154
Appendix....155
Liability Notice....157

The ERIS ***Physical Setting Report - PSR*** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Topographic Information

Current USGS Topo (2015)

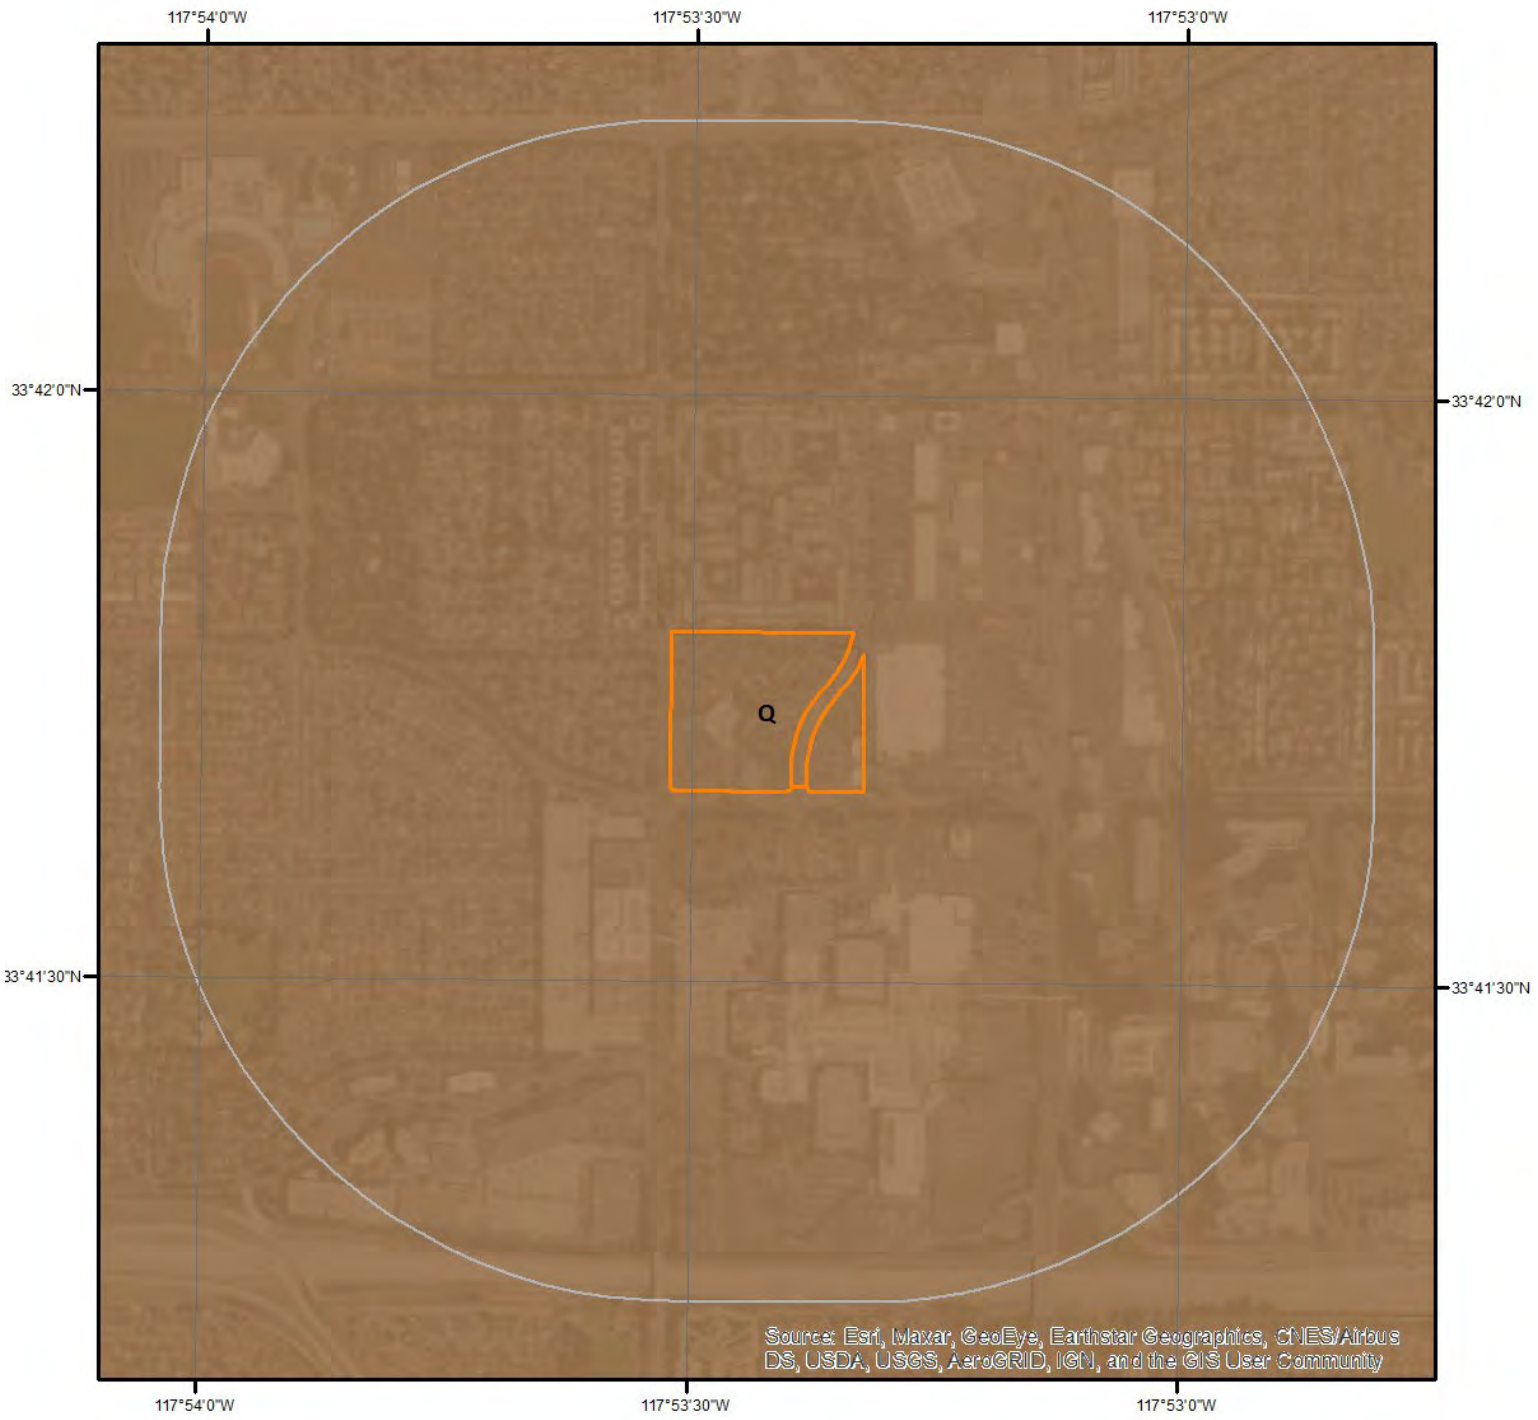
Geologic Information



Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

ERIS

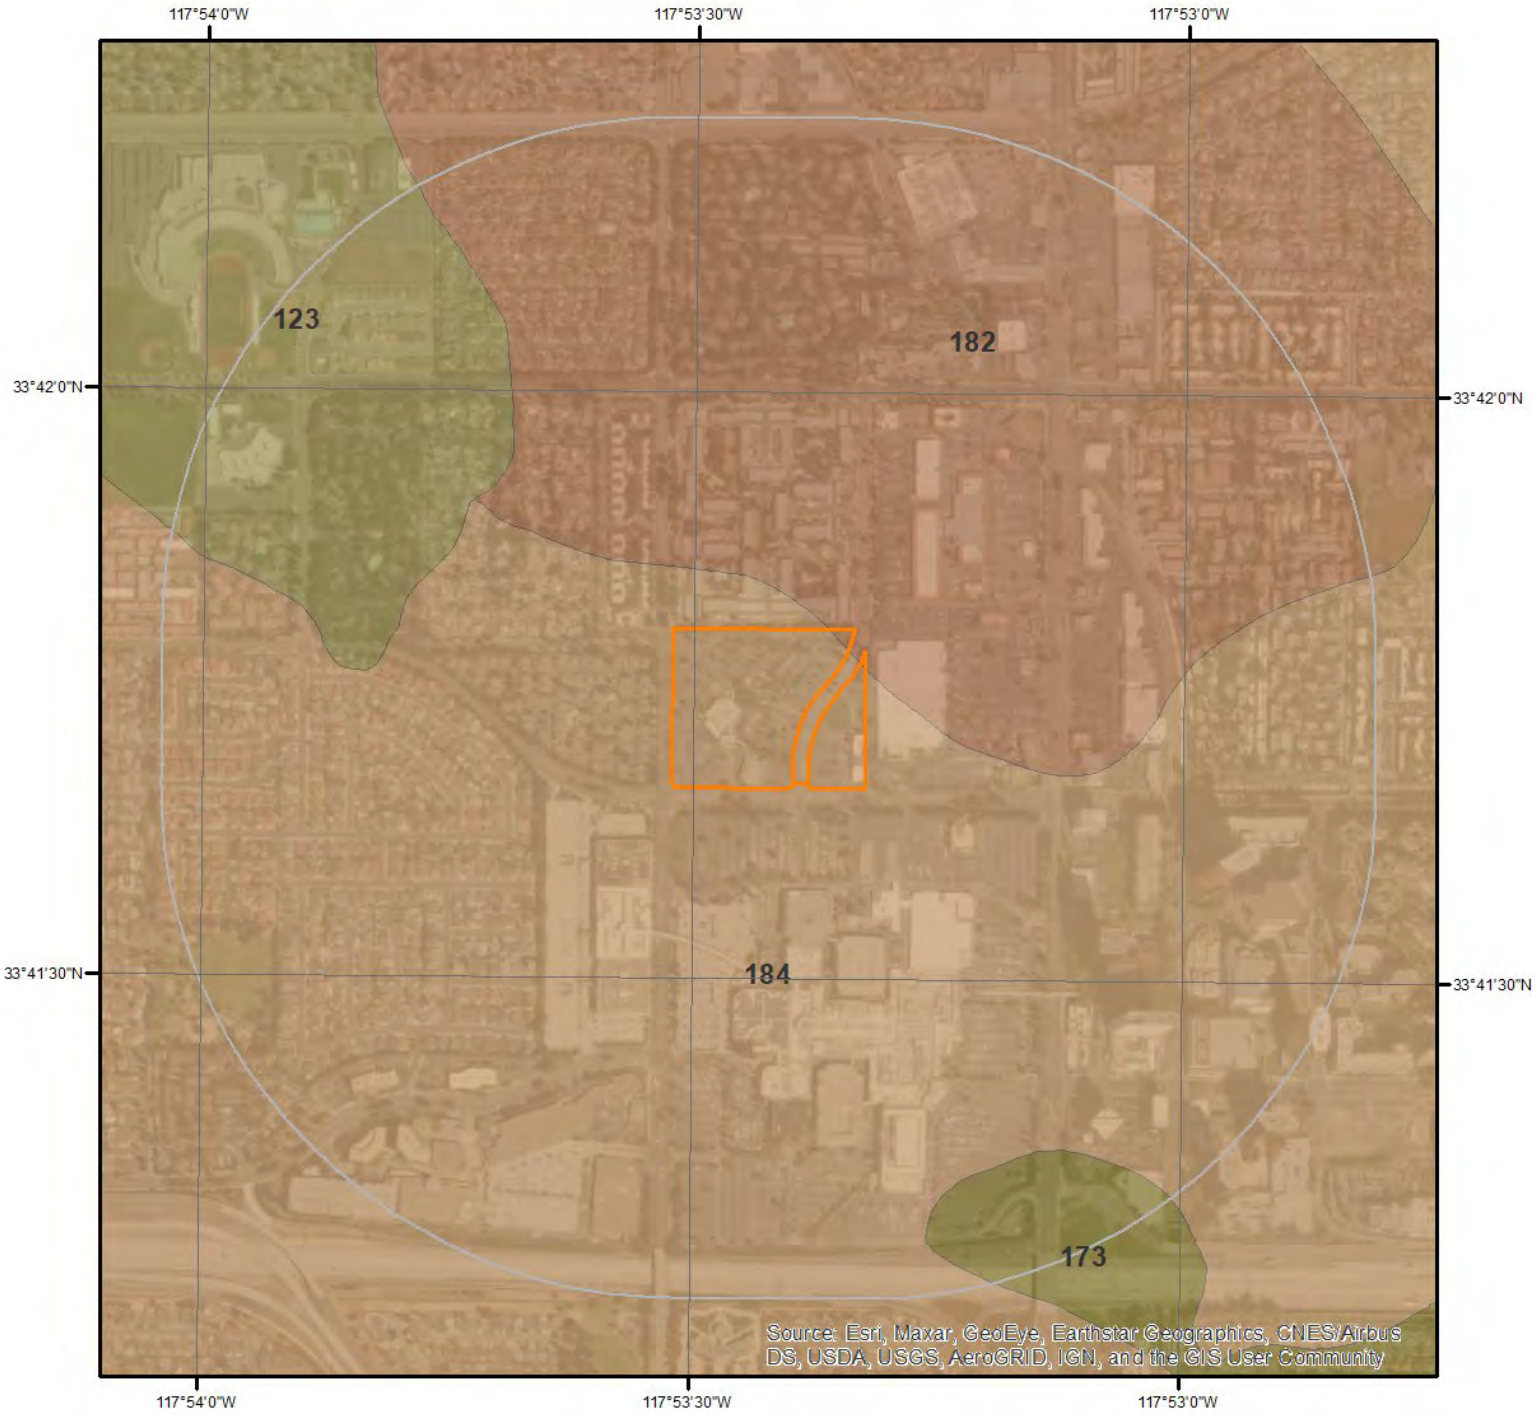
Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit Q

Unit Name:	Quaternary alluvium and marine deposits
Unit Age:	Pliocene to Holocene
Primary Rock Type:	alluvium
Secondary Rock Type:	terrace
Unit Description:	Alluvium, lake, playa, and terrace deposits; unconsolidated and semi-consolidated. Mostly nonmarine, but includes marine deposits near the coast.

Soil Information



SSURGO Soils

0 0.2 0.4 Miles

N

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

ERIS

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 123 (18.82%)

Map Unit Name:	Bolsa silt loam, drained
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Somewhat poorly drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Bolsa(70%)

horizon H1(0cm to 30cm)	Silt loam
horizon H2(30cm to 175cm)	Silt loam
horizon H2(30cm to 175cm)	Silty clay loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 123 - Bolsa silt loam, drained

Component: Bolsa (70%)
The Bolsa component makes up 70 percent of the map unit. Slopes are 0 to 2 percent. This component is on alluvial fans, coastal plains. The parent material consists of mixed alluvium derived from igneous, metamorphic and sedimentary rock. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is moderate. This soil is rarely flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 3w. This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 3 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Hueneme (10%)
Generated brief soil descriptions are created for major soil components. The Hueneme soil is a minor component.

Component: Chino (10%)
Generated brief soil descriptions are created for major soil components. The Chino soil is a minor component.

Component: Metz (4%)
Generated brief soil descriptions are created for major soil components. The Metz soil is a minor component.

Component: Omni (2%)
Generated brief soil descriptions are created for major soil components. The Omni soil is a minor component.

Component: San Emigdio (2%)
Generated brief soil descriptions are created for major soil components. The San Emigdio soil is a minor component.

Component: Bolsa (2%)
Generated brief soil descriptions are created for major soil components. The Bolsa soil is a minor component.

Map Unit 173 (16.62%)

Map Unit Name:	Myford sandy loam, 2 to 9 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	

Soil Information

Drainage Class - Dominant:	Moderately well drained
Hydrologic Group - Dominant:	D - Soils in this group have high runoff potential when thoroughly wet. Water movement through the soil is restricted or very restricted.

Major components are printed below

Myford(70%)

horizon A1(0cm to 2cm)	Sandy loam
horizon A2(2cm to 10cm)	Sandy loam
horizon A3(10cm to 30cm)	Sandy loam
horizon Bt1(30cm to 46cm)	Sandy clay
horizon Bt2(46cm to 71cm)	Sandy clay loam
horizon Btk1(71cm to 89cm)	Sandy clay loam
horizon Btk2(89cm to 104cm)	Sandy clay loam
horizon Bt1(104cm to 124cm)	Sandy clay loam
horizon Bt2(124cm to 155cm)	Sandy clay loam
horizon Bt3(155cm to 180cm)	Sandy clay loam
horizon C(180cm to 201cm)	Sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 173 - Myford sandy loam, 2 to 9 percent slopes

Component: Myford (75%)
The Myford component makes up 75 percent of the map unit. Slopes are 2 to 9 percent. This component is on terraces, alluvial plains. The parent material consists of alluvium derived from sandstone. Depth to a root restrictive layer, abrupt textural change, is 8 to 20 inches. The natural drainage class is moderately well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. This component is in the R019XD061CA Claypan (1975) ecological site. Nonirrigated land capability classification is 3e. This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 3 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Myford (10%)
Generated brief soil descriptions are created for major soil components. The Myford soil is a minor component.

Component: Yorba (5%)
Generated brief soil descriptions are created for major soil components. The Yorba soil is a minor component.

Component: Capistrano (5%)
Generated brief soil descriptions are created for major soil components. The Capistrano soil is a minor component.

Component: Chesterton (3%)
Generated brief soil descriptions are created for major soil components. The Chesterton soil is a minor component.

Component: Water (2%)
Generated brief soil descriptions are created for major soil components. The Water soil is a minor component.

Map Unit 182 (7.54%)

Map Unit Name:	Omni silt loam, drained
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Poorly drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Omni(85%)

horizon H1(0cm to 30cm)	Silt loam

horizon H2(30cm to 152cm)	Clay
horizon H2(30cm to 152cm)	Silty clay

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 182 - Omni silt loam, drained

Component: Omni (85%)
The Omni component makes up 85 percent of the map unit. Slopes are 0 to 2 percent. This component is on depressions. The parent material consists of mixed alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is high. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 4 percent. Nonirrigated land capability classification is 3e. Irrigated land capability classification is 2s. This soil meets hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 3 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Chino (10%)
Generated brief soil descriptions are created for major soil components. The Chino, SILTY CLAY LOAM soil is a minor component.

Component: Bolsa (5%)
Generated brief soil descriptions are created for major soil components. The Bolsa, SILT LOAM soil is a minor component.

Map Unit 184 (57.02%)

Map Unit Name:	Omni clay, drained
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Poorly drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Omni(85%)

horizon H1(0cm to 43cm)	Clay
horizon H2(43cm to 152cm)	Clay
horizon H2(43cm to 152cm)	Silty clay

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 184 - Omni clay, drained

Component: Omni (85%)
The Omni component makes up 85 percent of the map unit. Slopes are 0 to 2 percent. This component is on depressions. The parent material consists of mixed alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is high. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 4 percent. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 2s. This soil meets hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 3 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Chino (10%)
Generated brief soil descriptions are created for major soil components. The Chino, SILTY CLAY LOAM, DRAINED soil is a minor component.

Component: Bolsa (5%)
Generated brief soil descriptions are created for major soil components. The Bolsa, SILTY CLAY LOAM, DRAINED soil is a minor component.

Wells and Additional Sources Detail Report

Resources - Well Completion Reports

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *ORANGE* County: **3**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L
Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L
Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for *ORANGE* County

No Measures/Homes:	31
Geometric Mean:	0.5
Arithmetic Mean:	0.7
Median:	0.6
Standard Deviation:	0.7
Maximum:	2.2
% >4 pCi/L:	0
% >20 pCi/L:	0
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of California conducted during 1989-90. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Appendix

Federal Sources

FEMA National Flood Hazard Layer — **FEMA FLOOD**

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data — **INDOOR RADON**

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data — **PWSV**

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level — **RADON ZONE**

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS) — **SDWIS**

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database — **SSURGO**

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data — **US WETLAND**

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo — **US TOPO**

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology — **US GEOLOGY**

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System — **FED USGS**

The U.S. Geological Survey (USGS)'s National Water Information System (NWIS) is the nation's principal repository of water resources data. This database includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data.

State Sources

Oil and Gas Wells — **OGW**

A list of Oil and Gas well locations. This is provided by California's Department of Conservation Division of

Appendix

Oil, Gas and Geothermal Resources.

Periodic Groundwater Level Measurement Locations **MONITOR WELLS**

Locations of groundwater level monitoring wells in the Department of Water Resources (DWR)'s Periodic Groundwater Levels dataset. The DWR Periodic Groundwater Levels dataset contains seasonal and long-term groundwater level measurements collected by the Department of Water Resources and cooperating agencies.

Well Completion Reports **WATER WELLS**

List of wells from the Well Completion Reports data made available by the California Department of Water Resources' (DWR) Online System for Well Completion Reports (OSWCR). Please note that the majority of well completion reports have been spatially registered to the center of the 1x1 mile Public Land Survey System section that the well is located in.

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS Information Inc. disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report(s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Appendix C:
User Questionnaire

Confidential & Privileged: Produced at Request of Legal Counsel

PHASE I ENVIRONMENTAL SITE ASSESSMENT USER QUESTIONNAIRE

Pursuant to the American Society for Testing and Materials E 1527-13 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM E 1527-13), in order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the User must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The User should provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that "all appropriate inquiries" is not complete.

The "User" is defined in the ASTM E 1527-13 standard as *the party seeking to use Practice E 1527 to complete an environmental site assessment of the Site. A User may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager.*

Thank you for taking the time to complete this questionnaire. If you have any questions, please call Christopher Romanowski at (213) 219-6896 or e-mail cromanowski@trccompanies.com

Date: 2/3/2022

User Name: Jason Poulsen

Company: South Coast Plaza

Address: 3315 Fairview Road, Costa Mesa, CA 92626

Telephone No.: 714.546.0110

E-mail Address: poulsenj@southcoastplaza.com

Signature: Jason Poulsen

Site Name & Address: South Coast Plaza Village
1561, 1621, 1631, 1641 and 1661 W. Sunflower Ave; 3851 S. Bear Street; and 3800 and 3951 S. Plaza Drive, Santa Ana, California 92704

Purpose of ASTM Phase I (potential purchase, potential sale, re-finance, update the environmental condition of the Site, Lease termination or initiation, etc.)

Potential redevelopment of property

(1.) Environmental cleanup liens that are filed or recorded against the Site (40 CFR 312.25)
Did a search of recorded land title records (or judicial records where appropriate, see Note 1 below) identify any environmental liens filed or recorded against the Site under federal, tribal, state or local law?

Yes	No
☐	☒

NOTE 1 — In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.

See Chicago Title Company Preliminary Title Report dated July 15, 2021

(2.) Activity and land use limitations (AULs) that are in place on the Site or that have been filed or recorded against the Site (40 CFR 312.26(a)(1)(v) and (vi))

Did a search of recorded land title records (or judicial records where appropriate, see Note 1 above) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the Site and/or have been filed or recorded against the Site under federal, tribal, state or local law?

Yes ☐ No ☒

See Chicago Title Company Preliminary Title Report dated July 15, 2021

(3.) Specialized knowledge or experience of the person seeking to qualify for the *Landowner Liability Protection* (LLP) (40 CFR 312.28)

Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes ☒ No ☐

South Coast Plaza (Company) is the owner of a) the Site, b) substantially all of the adjacent South Coast Plaza retail shopping center located on both sides of Bear Street to the south and southwest of the Site, and c) a complex of high rise office and other buildings near the Site located across Bristol Street from the South Coast Plaza shopping center. Company is the landlord of these projects and in the business of cleaning, repairing, renovating and otherwise operating the buildings and common areas of these projects (with some exceptions for occupants who own or lease their own buildings). Company does not operate the business of any of its tenants.

(4.) Relationship of the purchase price to the fair market value of the Site property (40 CFR 312.29)

Does the purchase price being paid for the Site property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

Yes ☐ No ☒

Site is not under contract for sale. Company would expect fair market value for Site without reduction for contamination.

(5.) *Commonly known* or *reasonably ascertainable* information regarding the Site property (40 CFR 312.30)

Are you aware of commonly known or reasonably ascertainable information about the Site that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example,

(a.) Can you provide any information regarding the past uses of the Site?
(b.) Can you provide any information regarding specific chemicals that are present or once were present at the Site?
(c.) Can you provide any information regarding spills or other chemical releases that have occurred at the Site?
(d.) Can you provide any information regarding any environmental cleanups that have occurred at the Site?

Yes ☒ No ☐

See Historic South Coast Plaza Village Tenant list dated 1/25/2022.

(6.) **The degree of obviousness of the presence or likely presence of contamination at the Site, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)**
Based on your knowledge and experience related to the Site are there any obvious indicators that point to the presence or likely presence of releases at the Site?

Yes	No
☐	☒

(7.) **Proceedings Involving the Site**
Are you aware of: (1) any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the Site; (2) any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on or from the Site; and (3) any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products at the Site?

Yes	No
☐	☒

(8.) **Questions Regarding Helpful Documents**
Are you aware of the presence of any of the documents listed below and, if so, whether copies can and will be provided to TRC within reasonable time and cost constraints?

	Yes	No
- Environment site assessment reports	☒	☐
- Environment compliance audit reports	☐	☒
- Environmental permits (e.g., solid waste disposal permits; hazardous waste disposal permits; wastewater permits; National Pollutant Discharge Elimination System [NPDES] permits; or underground injection permits)	☐	☒
- Registrations for underground and aboveground storage tanks	☐	☒
- Registrations for underground injection systems	☐	☒
- Material Safety Data Sheets (MSDSs)	☐	☒
- Community Right-To-Know plan(s)	☐	☒
- Safety plans; preparedness and prevention plans; spill prevention, countermeasure, and control plans; etc.,	☐	☒
- Reports regarding hydrogeologic conditions at the Site and surrounding area	☐	☒
- Notices or other correspondence from any government agency regarding current or previous violations of environmental laws with respect to the Site or relating to environmental liens encumbering the Site property	☐	☒
- Hazardous waste generator notices or reports	☐	☒
- Geotechnical studies	☒	☐
- Risk assessments	☐	☒
- Recorded AULs.	☐	☒

Thank you for contac ng ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse lis ng City Directory search to determine prior occupants of the subject site and adjacent proper es. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Lis ng Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either u lized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as mul ple digi zed directories. These do not claim to be a complete collec on of all reverse lis ng city directories produced.

ERIS has made every effort to provide accurate and complete informa on but shall not be held liable for missing, incomplete or inaccurate informa on. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are addi onal addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
1300-1700 of W Sunflower Ave
3625-3900 of S Bear St
3700-4000 of S Plaza Dr

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Violations

Violation Date:	05/22/2017	**Violation Source:**	CERS
Violation Program:	HMRRP	**Violation Division:**	Orange County Environmental Health
Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)		
Violation Notes:			

Returned to compliance on 08/10/2017. No HMBEP submission in CERS. Please submit all HMBEP requirements within 30 days to abate violation. Create a Business Portal Account in the CERS portal (http://cers.calepa.ca.gov/). Add your Facillity in this account. Follow all instructions and email instructions until the account is activated. When you log in again, go to "Start/Edit Submittal" and proceed to fill out all HMBEP requirements. The Facility information and Chemical Inventory have already been transferred.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Evaluations

Eval Date:	10/09/2015
Violations Found:	No
Eval General Type:	Other/Unknown
Eval Type:	Other, not routine, done by local agency
Eval Division:	Orange County Environmental Health
Eval Program:	HMRRP
Eval Source:	CERS
Eval Notes:	

HazMat submittal declined in Portal: Chemical Description: CAS number for carbon dioxide is 124-38-9. The maximum daily amount must meet or exceed the volume of the largest container. Please revise this field to reflect the correct maximum daily amount. Storage pressure is above ambient. Emergency Plan: the information provided does not address the prevention, mitigation, and abatement of a release of the hazardous material on site. Employee training program details are not provided. Site Map: the site map quality is of poor quality and is not readable. Please clearly indicate the following required components: site orientation, loading areas, adjacent streets, storm and sewer drains, access and entry points, emergency shutoffs, evacuation staging areas, hazardous materials handling areas, and emergency response equipment. ; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Notes:

INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by Cynthia Baillargeon, General Manager. Observed the facility and inspected hazardous materials storage. The following hazardous materials were observed on site that are in reportable quantities: - CO2 Business emergency plan is on site and available for review. HMBEP 2017 submission needs to be submitted in CERS. See violation below. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds (200cuft compressed gas, 55 gal liquid, 500 lbs solid). If there is a change in the type or amount of chemicals that are maintained on site, please electronically submit revised documents within 30 days of the change.; Note: data in [EVAL Notes] field for some records is truncated from the source.

INSPECTOR COMMENTS The facility inspection was conducted with Tony Thomas, Store Manager. Walked the interior and exterior of the facility to inspect the hazardous waste storage area and dumpster. Observed hazardous waste management practices and documentation including training records, manifests and contingency plan. No violation observed on this date.; Note: data in [EVAL Notes] field for some records is truncated from the source.

EI Description: Hazardous Waste Generator

Evaluations

Eval Date: 01/23/2020
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

On site to conduct a routine hazardous waste inspection. Met with Kelly Lopez, operations manager at the site. Inspected the facility, perimeter, and the hazardous waste storage area. Inspected the municipal trash for hazardous waste. No hazardous waste was observed in the dumpster. Discussed hazardous waste management practices and reviewed documentation including manifests and emergency response information. A copy of this report will be sent to vsssm0557@victoria.com.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Evaluations

Eval Date: 07/29/2020
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS
Eval Notes:

Facility inspection conducted with Robert Fields, manager of the site. Observed the following disclosable materials: -Lead Acid Batteries The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or 100% increase in the amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change. Hazardous Materials documents can be submitted via the California Electronic Reporting System (CERS) located at http://cers.calepa.ca.gov/. **Please note, you are required to review your facility's electronic submittal yearly and resubmit it between January 1st and March 1st of each year. Please ensure that the review and submittal of all sections in CERS, for this facility, is done by the deadline to avoid violations or possible late fees. A copy of this report will be sent to rf0886@att.com.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Evaluations

Eval Date: 08/11/2021
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS
Eval Notes:

On site to conduct a hazardous materials inspection. Facility inspection conducted with Carlos Rodriguez, facilities manager of the site. Observed the following disclosable materials: - Carbon Dioxide (3 x 50 lbs = 150 lbs ~ 1.260 cu. ft.) - Helium (5 x 292 cu. ft. = 1,460 cu. ft.) - Propane (6 X 230 cu. ft. = 1,380 cu. ft.) - Diesel (80 gal emergency generator tank) Verified Hazardous Materials Business Plan (HMBP) components submitted on the California Environmental Reporting System (CERS) on site. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or 100% increase in the amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change. Hazardous Materials documents can be submitted via CERS at http://cers.calepa.ca.gov/. **Please note, you are required to review your [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 08/11/2021
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

On site to conduct a routine hazardous waste inspection. Met with Carlos Rodriguez, facilities manager of the site. Facility is a small quantity generator of retail wastes. Walked the facility, perimeter, and inspected the hazardous waste storage area. Containers were closed and properly labeled. Inspected the municipal trash for hazardous waste. No hazardous waste was observed in the dumpster. Manifests and emergency response information were reviewed. Maintain copies of your hazardous waste manifests on site for review for 3 years. Hazardous waste(s) must be labeled with the following information: 1. The word "Hazardous Waste" 2. Generator Name and Address 3. Accumulation Start Date 4. Physical State/Hazardous Properties 5. Chemical Contents Emailed a copy of this report to Carlos.Rodriguez@Nordstrom.com.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date: 10/10/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** Orange County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 10/10/2018. OBSERVATION: Two hazardous waste labels were missing the hazardous property (Semi-Liquid Cosmetic and Solid Cosmetic drums). One plastic bin was incorrectly labeled for paint waste when it was accumulating flammable fragrance waste. CORRECTIVE ACTION: Immediately correct the labels with all the required information. This was corrected on site. No further corrective action necessary.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 10/10/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** Orange County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 03/21/2019. OBSERVATION: The facility is generating more than 100 kg of RCRA hazardous waste per month. Facilities that generate more than 100 kg of RCRA waste need to apply for and obtain a Federal EPA ID number. CORRECTIVE ACTION: Immediately apply for and obtain a Federal EPA ID number. Provide documentation that shows you've obtained a Federal EPA ID number within 30 days to this agency.

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date: 05/29/2014 **Violation Source:** CERS
Violation Program: HW **Violation Division:** Orange County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 05/29/2014. Two five gallon plastic containers storing hazardous waste (broken and/or spilled flammable products) are stored closed and labeled with "Federal" hazardous waste labels that do have the waste properties listed. Please be advised that the waste properties (toxic, corrosive, flammable, etc...) and physical state (solid or liquid) must be listed on the labels. The waste characteristics were written on the labels during the inspection. This violation was corrected during the inspection.

Violation Description:

Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Eval Notes:

Onsite to conduct a routine hazardous waste inspection. Consent to inspect and take photos was granted by the Operations Specialist, Claudine Delacruz. Edna Quintana was also present during this inspection. A walk-through of the facility and trash compactor area was conducted. There was no hazardous waste observed in the compactor on this date. Photos were taken for reference. The following were observed: 30-gallon drum of customer returns/testers (make-up, fragrances) managed as ERM 1-gallon container for batteries 5-gallon container for absorbent containing liquid waste (broken or leaking containers) 24-can capacity aerosol mail-back box Mail-back box for non-hazardous, non-flammable make-up (powder, lipstick, pencils, brushes) The containers were observed properly stored and labeled. Hazardous waste disposal documents were reviewed. No hazardous waste violations were observed on this date. A copy of this report will be sent to [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date: 01/22/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** Orange County Environmental Health
Citation: HSC 6.5 25143.9 - California Health and Safety Code, Chapter 6.5, Section(s) 25143.9
Violation Notes:

Returned to compliance on 02/13/2018.

Violation Description:

Failure to manage a recyclable material pursuant to HSC 6.5 25143.2(b), (c), or (d).

Evaluations

Eval Date: 01/22/2018
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

Onsite to conduct a routine hazardous waste inspection. Consent to inspect and take photos was granted by the assistant manager, Leo Gonzalez. A walk-through of the back of the store and trash compactor area was conducted. No hazardous waste was observed in the compactor, and no photos were taken. The following were observed: 5-gallon bucket of waste fragrances The lined bucket was observed stored closed. The bucket was observed not properly labeled, and no accumulation start date was indicated. Jessica Otto, Environmental Specialist with G2 Revolution was contacted by phone during this inspection. Ms. Otto stated the fragrances are managed as Excluded Recyclable Material and should be labeled as such. The following will be sent to the facility in hard copy: Inspection report Certificate of Return to Compliance (CRC) Excluded Recyclable Material label Label the waste container immediately. Return a signed copy of the Certificate of Return to Compliance [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 02/22/2018
Violations Found: No
Eval General Type: Other/Unknown
Eval Type: Other, not routine, done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval Notes:

Received signed Certificate of Return to Compliance dated 2/13/18. Violation I462 cited on 1/22/18 has been corrected. There are no outstanding hazardous waste violations at this facility. A copy of this report will be sent to g2cers@g2rev.com; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date:	01/23/2020	**Violation Source:**	CERS
Violation Program:	HW	**Violation Division:**	Orange County Environmental Health

Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)

Violation Notes:

OBSERVATION: Per the assistant manager, facility employees have not been trained on proper waste handling and emergency procedures. CORRECTIVE ACTION: Please provide hazardous waste training to your employees and provide a sign-in sheet to this agency for review within 30 days.

Violation Description:

Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

Evaluations

Eval Date:	01/23/2020
Violations Found:	Yes
Eval General Type:	Compliance Evaluation Inspection
Eval Type:	Routine done by local agency
Eval Division:	Orange County Environmental Health
Eval Program:	HW
Eval Source:	CERS
Eval Notes:	

On site to conduct a routine hazardous waste inspection. Met with Julia Ruziecki, assistant manager at the site. Inspected the facility, perimeter, and the hazardous waste storage area. Inspected the municipal trash for hazardous waste. No hazardous waste was observed in the dumpster. Discussed hazardous waste management practices with Ms. Ruziecki and provided emergency response information. Ms. Ruziecki stated the facility has not generated any hazardous waste since the program was implemented in 2019. Discussed employee training with Ms. Ruziecki and retention of

hazardous waste manifests for 3 years. Hazardous wastes should be labeled with the following information: - The words "Hazardous Waste" - Name and address of the generator - Physical state - Hazardous properties - Accumulation start date Additional hazardous waste labels were provided. A copy of this report will be sent to jruziec@gap.com.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Waste Code Description: Unspecified solvent mixture

Hazardous Waste Code: 311
Waste Code Description: Pharmaceutical waste

Hazardous Waste Code: 331
Waste Code Description: Off-specification, aged, or surplus organics

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D024
Waste Code Description: M-CRESOL

Hazardous Waste Code: P001
Waste Code Description: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Hazardous Waste Code: P075
Waste Code Description: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U034
Waste Code Description: ACETALDEHYDE, TRICHLORO- (OR) CHLORAL

Hazardous Waste Code: U129

Waste Code Description: CYCLOHEXANE, 1,2,3,4,5,6-HEXACHLORO-, (1ALPHA, 2ALPHA, 3BETA, 4ALPHA, 5ALPHA, 6BETA)- (OR) LINDANE

Hazardous Waste Code: U205
Waste Code Description: SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)

RB Case No:	2080020	**Stop Method:**	
Local Case No:		**CUF Case:**	NO
Begin Date:	2/28/2003	**Case Worker:**	ANA
File Location:	Regional Board		
Lead Agency:	SANTA ANA RWQCB (REGION 8)		
Local Agency:			
Potential COC:	Tetrachloroethylene (PCE)		
Potential Media of Concern:	Other Groundwater (uses other than drinking water)		
How Discovered:	* Other Means		
How Discovered Description:			
Stop Description:			
CalWater Watershed Name:	Santa Ana River - Lower Santa Ana River - East Coastal Plain (801.11)		
DWR GW Subbasin Name:	Coastal Plain Of Orange County (8-001)		
Disadvantaged Community:			
CalEnviroScreen Score:	51-55%		
Site History:			

The site is a former dry cleaner with significant soil contamination with PCE and very low contamination of groundwater. Excavation of the soil in the indoor areas had been conducted to the extent possible. However, upon further investigation of the adjacent tenant units and the outdoor areas it was determined that soil is also contaminated in these areas. Soil excavation has been requested in these areas. Additional sampling for optimizing the area to be excavated was conducted and the final boundaries of the excavation area was determined. A revised work plan for soil remediation was approved in December 2011. Plan for soil excavation was approved by the City of Santa Ana after a sanitary sewer line located within the excavationa area was relocated. Excavation via large diameter auger (LDA) began in August 2013 and completed in September 2013. Verification monitroing of the perched

groundwater is ongoing at the Site. Investigation into the deeper WBZ has been requested. Semi-annual groundwater sampling is ongoing.

Cleanup Oversight Agencies: SANTA ANA RWQCB (REGION 8) (LEAD) - CASE #: 2080020
CASEWORKER: AFSHIN NICK AMINI
Cleanup History Link: https://geotracker.waterboards.ca.gov/profile_report_include?global_id=SL0605953624&tabname=regulatoryhistory
Site History:

The site is a former dry cleaner with significant soil contamination with PCE and very low contamination of groundwater. Excavation of the soil in the indoor areas had been conducted to the extent possible. However, upon further investigation of the adjacent tenant units and the outdoor areas it was determined that soil is also contaminated in these areas. Soil excavation has been requested in these areas. Additional sampling for optimizing the area to be excavated was conducted and the final boundaries of the excavation area was determined. A revised work plan for soil remediation was approved in December 2011.
Plan for soil excavation was approved by the City of Santa Ana after a sanitary sewer line located within the excavationa area was relocated. Excavation via large diameter auger (LDA) began in August 2013 and completed in September 2013.
Verification monitroing of the perched groundwater is ongoing at the Site. Investigation into the deeper WBZ has been requested.
Semi-annual groundwater sampling is ongoing.

Action Type: Other Regulatory Actions
Action Date: 1/15/2013
Received Issue Date: 1/15/2013
Action: Technical Correspondence / Assistance / Other
Doc Link:
Title Description Comments:

Request to Discontinue Operation of Remediation System - We responded to an email from the consultant that states that the dual phase extraction system at this site has reached its practical limits and that its operation be discontinued due to low asymptotic conditions of the vapor extraction portion. In view of the continuous high concentrations of TBA, 12,000 ug/L in MW-17, and benzene, 4,500 ug/L in VEW-2 analyzed in July 2012, we agree with the idea to discontinue with the dual phase extraction system. We request for a workplan for any of the alternative methods that might be considered.

Additional Site Assessment Workplan - Chevron proposes the installation of three additional groundwater monitoring wells in order to further delineate the lateral extent of petroleum hydrocarbons in groundwater to the north, south, and southeastern direction and to obtain additional groundwater elevation data to confirm the direction of groundwater flow for the site. The data from the proposed monitoring wells will be used to confirm the groundwater gradient direction, determine the lateral extent of petroleum hydrocarbons, and evaluate if additional assessment in the southwestern direction is necessary. One of the monitoring wells is proposed onsite in the upgradient direction and the other two monitoring wells are proposed offsite in the adjacent shopping center to provide downgradient delineation.

Title Description Comments:

Remedial System Operation and Maintenance Progress Report - Initial startup of the SVE portion of the remediation system that was attempted on March 22,2011. System troubleshooting continued into 2nd quarter 2011 due to "low flow" alarms. After several troubleshooting events, it was determined that the programmable logic controller (PLC) was malfunctioning and required replacement. The PLC was replaced on April 20, 2011 and the SVE system startup was subsequently initiated. System influent soil-vapor concentrations were initially high while focusing on the three wells that had the highest soil-vapor concentrations measured during startup (VEW-2, VEW-3, & VEW-4). On May 12, 2011, an individual vapor extraction test was performed. Based on the test, it was concluded that the system should be limited to extracting soil-vapors from one well at a time to maximize applied vacuum and flowrate. Well VEW-3 was selected to be online and wells VEW-2 and VEW-4 were shut off. On May 26, 2011 vapor extraction was switched from VEW-3 to VEW-4 due to low mass removal rates based on both field data and lab results. Due to system shutdowns caused by a "low flow" alarm, well VEW-2 was slightly opened and added as an extraction well to maintain system operation. On June 21, 2011, vapor extraction was switched from VEW-4 to VEW-2 due to low mass removal rates. The DPE system continued operating on extraction well VEW-2 continuously through

June 30, 2011.

Doc Link:
Title Description Comments:

Monitoring Reduction from Quarterly to Semi-Annually Based on the review of the groundwater data for the subject site, a change from quarterly to a semiannual sampling and monitoring frequency is appropriate. Effective immediately, you shall commence semiannual sampling events which must be chosen from the periods 1st and 3rd Quarters or 2nd and 4th Quarters. Any previously approved annual sampling remains unchanged and should be conducted during the 4th Quarter (December). The groundwater monitoring reports are due to this office by the 30th day of the month following the monitoring period.

Violations

Violation Date: 03/16/2016
Violation Program: UST
Citation: 23 CCR 16 2636(f)(1) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(1)
Violation Notes:

Violation Source: CERS
Violation Division: Orange County Environmental Health

Returned to compliance on 03/16/2016. The diesel turbine sump sensor failed testing due to a stuck float mechanism. The technician fixed the sensor

during the inspection so that it was operable. This violation was corrected during the inspection. No further corrective action is required.

Violation Description:

Failure of the double wall pressurized piping in the turbine sump to be continuously monitored with a system that activates an audible and visual alarm or restricts or stops flow at dispenser when a leak is detected.

Violations

Violation Date: 02/20/2019 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Orange County Environmental Health
Citation: 23 CCR 16 2641(j) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(j)
Violation Notes:

Returned to compliance on 02/20/2019. 208 Sensor in the Diesel Turbine sump was not functional. Sensor was replaced and retested and passed retesting.

Violation Description:

Failure of the leak detection equipment to be installed, calibrated, operated, and/or maintained properly.

Violations

Violation Date: 02/20/2019 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** Orange County Environmental Health
Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2
Violation Notes:

Returned to compliance on 02/20/2019. 91 Spill Bucket failed testing. Bucket was replaced and passed retesting. Violation abated on site.

Violation Description:

"Failure to meet one or more of the following requirements:

Install or maintain a liquid-tight spill container.

Have a minimum capacity of five gallons.

Have a functional drain valve or other method for the removal of liquid from the spill container.

Be resistant to galvanic corrosion.

Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container.

Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Tested by a certified UST service technician.

Maintain records of spill containment testing for 36 months.

"

Violations

Eval Notes:

On site for routine UST inspection, monitoring system certification, and spill bucket testing. The facility has three double-walled tanks monitored by a Veeder Root TLS-350 system. The 91-grade and diesel fuels are stored in a two-compartment split tank. The monitoring system is functional for audible/visual alarms. The panel reads "All functions normal." Positive shutdown and fail safe programming were verified. The in-tank probe and flapper valves are used for overfill prevention. The facility has a VPH UST system. The secondary containment is monitoring as follows: - Tank annulars: hydrostatic, with high and low liquid alarms - Piping, sumps, and UDCs: vacuum, multiple components connected for zone monitoring. The sensors in the turbine sumps, fill sumps, UDCs, and vent transition box shutdown the turbine when submerged in fluid. The in-tank probes triggered an audible and visual alarm when positioned at 90% tank capacity. Spill buckets were visually for [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

On site for routine UST inspection and monitoring system certification and spill bucket testing. Site contact is Rosa Vargas. The facility has two double-walled tanks (a 20,000-gallon regular unleaded tank and a split 15,000-gallon supreme/8,000-gallon diesel tank) monitored by a Veeder Root TLS-350 system. The monitor is operational for audible and visual alarms. The panel display reads "all functions normal." Flapper valves and automatic tank gauges are used for overfill prevention in tanks. The sensors in the fuel tank annulars (303's), piping and turbine sumps (208's and 209's) all shut down the turbines when submerged in liquid. The UDCs are monitored by VR-208 sensors. The sensors shut down their respective dispenser when submerged in fluid. The electronic line leak detectors were tested with a simulated 3 gph leak and were determined to be operational. The in-tank probes triggered an audible and visual alarm when positioned at 90% tank capacity. The facility [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

SR0121959 On site for final inspection following repairs to the 91 fill sump. The plans indicate that concrete was to be removed and repairs were to be made to the sump. The repair is actually on the inside of the sump, and no concrete was broken. The sump was reglassed on the upper part of the sump interior. The sump annular has been holding vacuum (approximately - 9 psi) since October 9, according to the monitoring system printout dated today. Final inspection = PASS. The plans indicate 989 post construction testing will be conducted. This is a VPH site and is under continuous testing, therefore no additional testing is required for this plan check.; Note: data in [EVAL Notes] field for some records is truncated from the source.

INSPECTOR COMMENTS CERS ID: 10441585 On site for routine hazardous materials inspection. Chemicals observed on this date match the CERS submission on 8/18/2020. Reviewed BEP and the site map with the business. Reminder: Please re-certify your HMBP on or before March 1 at www.cers.calepa.ca.gov No violation observed on this date.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 03/16/2016
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

INSPECTOR COMMENTS On site for routine hazardous waste inspection. Consent to enter and inspect was given by Erin Anderson. Observed the facility and inspected hazardous waste storage. The containers are stored closed and properly labeled. No evidence of hazardous waste spillage or runoff was observed. Manifests and emergency plan are available for review.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 04/18/2016
Violations Found: No
Eval General Type: Other/Unknown
Eval Type: Other, not routine, done by local agency
Eval Division: Orange County Environmental Health
Eval Program: UST
Eval Source: CERS
Eval Notes:

Accepted UST submittal in CERS. Previously submitted test report and removal of old DO info only.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Date: 05/15/2015
Violations Found: No
Eval General Type: Other/Unknown
Eval Type: Other, not routine, done by local agency
Eval Division: Orange County Environmental Health
Eval Program: UST
Eval Source: CERS
Eval Notes:

UST documents approved in CERS. Received monitoring system certification and spill bucket test (visual) dated 4/3/15/. Electronic line leak detector functionality confirmed on printout. CFR is valid from 4/24/15-4/30/16; Note: data in [EVAL Notes] field for some records is truncated from the source.

Potential Media of Concern: AQUIFER USED FOR DRINKING WATER SUPPLY
User Defined Beneficial Use:
DWR GW Sub Basin: Coastal Plain Of Orange County (8-001)
Calwater Watershed Name: Santa Ana River - Lower Santa Ana River - East Coastal Plain (801.11)
Post Closure Site Management:
Future Land Use:
Cleanup Oversight Agencies: SANTA ANA RWQCB (REGION 8) (LEAD) - CASE #: 083002237T
CASEWORKER: SAMANTHA MAK
SANTA ANA, CITY OF
Gndwater Monitoring Freque: # OF WELLS MONITORED - QUARTERLY : 12, SEMI-ANNUALLY : 18, ANNUALLY : 11

REASONS FOR QUARTERLY OR MONTHLY OR OTHER GROUNDWATER MONITORING:
Well Being Sampled During Remedial Action for Progress Assessment - Monitoring of select wells required in conjunction w/ongoing P&T activities
Well Has Not Shown Reliable Consistency Yet To Warrant Reduction in Sampling Frequency - Data from MW10 indicates off site migration of high cons. of TBA
Designated Beneficial Use Desc: Municipal and Domestic Supply, Agricultural Supply, Industrial Service Supply, Industrial Process Supply, 8 - Note: Also incl parts of 801.13, 801.14, 845.61 - Note: Also incl parts of 801.13, 801.14, 845.61, 845.63.
Site History:

Environmental reports pertaining to subsurface investigations/testing and site remediation performed in conjunction with this project, as well as the Regional Board case file, should be reviewed in their entirety to obtain further details regarding this cleanup effort. Regional Board staff are not responsible for the accuracy of any professional interpretations provided in reports submitted by consultants working for the responsible party.

Title Description Comments:

2nd Qtr 2019 Semi Groundwater Monitoring Report - Benzene (high @97 ppb)proximate the southern DI remain low over last two GWS rounds. Elevated MtBE in AS-7 persists (960), elevated TBA in on-site wells SVE-7, DPE-10/14, AW-3 & off-site well MW-10 showed significant decline (high @440 ppb: MW-10) - reevaluate need for access for dg assessment (e.g. MW-16) - no ISCO permit = no need for ND compliance well, if TBA trends remain favorable.

Action Type: Response Requested - Reports
Action Date: 1/30/2019
Received Issue Date: 1/30/2019

Action Type: Other Regulatory Actions
Action Date: 12/18/2017
Received Issue Date: 12/18/2017
Action: Technical Correspondence / Assistance / Other
Doc Link:
Title Description Comments:

VJB sent email to approve reduction in groundwater monitoring program - continue quarterly gauging, but reduce to semi-annual groundwater sampling.

Action Type: Other Regulatory Actions
Action Date: 3/8/2017
Received Issue Date: 3/8/2017
Action: Site Visit / Inspection / Sampling
Doc Link:
Title Description Comments:

site visit - Tesoro has not been able to secure off-site access for delineation wells downgradient of the site - req'd for proposed ISCO remedy/under WDR R8-2013-0029 - ISCO active.

Action Type: Response Requested - Reports
Action Date: 4/30/2016
Received Issue Date: 5/26/2016
Action: Soil and Water Investigation Report
Doc Link: https://geotracker.waterboards.ca.gov/view_documents_all?global_id=T0605901641&doc_id=5890168
Title Description Comments:

Off-siteGroundwater Assessment Report (MW-15) - Newly-installed well MW-15, installed SE of site was ND for COCs. Proposed well MW-16 will be installed on property south of site to complete GW delineation, pending finalized agreement for terms of access to adjacent/dg property.

Action Type: Other Regulatory Actions
Action Date: 3/3/2016
Received Issue Date: 3/3/2016
Action: Technical Correspondence / Assistance / Other
Doc Link:
Title Description Comments:

RB rec'd project update - off-site access negotiations continue (unresolved), VJB confirmed that MW-16 was proposed beyond MacArthur due to street moratorium (thru 2018). Stratus will proceed with installation of MW-15 (center island of MacArthur - allowed during drilling moratorium), pending City permitting (e.g. encroachment & traffic control). Field work tentatively scheduled for mid-or-late March. RB granted request for add'l 60-day extension for MW-15 scope, report due 5/30/16

Action Type: Other Regulatory Actions
Action Date: 2/25/2016
Received Issue Date: 2/25/2016
Action: File review

Action Date: 7/30/2013
Received Issue Date: 7/10/2013
Action: Remedial Progress Report
Doc Link: https://geotracker.waterboards.ca.gov/view_documents_all?global_id=T0605901641&doc_id=5800930
Title Description Comments:

2nd Quarter 2013 Monitoring/Remediation Report

Action Type: Other Regulatory Actions
Action Date: 7/22/2013

Received Issue Date: 7/22/2013
Action: File review
Doc Link:
Title Description Comments:

RB completed LTCP checklist - failed. Site was redeveloped w/o source removal or risk evaluation - vadose zone CU limited by well network in accessible areas outside bldg. footprint, raises VI concern for restaurant occupants - SVS/RA needed to evaluate matter. CSB needed to evaluate residual shallow soil impacts - historically widespread. Most recent (limited) soil data exceeds COMM values for direct contact - abbreviated results - not full scan, no shallow naphtha or PAHs. TBA plume many times excess of WQOs migrated off-site beneath public R-O-W, not defined based on variable GW flow and unaddressed by ISCO remedy.

Action Type: Other Regulatory Actions
Action Date: 5/22/2013
Received Issue Date: 5/22/2013
Action: File review
Doc Link:
Title Description Comments:

Rev'd 1st Qtr GH2O/Remediation (ISCO) Reports - TBA trending up in MW-1, MW-9 anomalous "ND" - ISCO (hydrogen peroxide) application ineffective - Stratus claims some effect based on temp changes IN application wells, but 2.5+ years continues to show no change in temp data/DO or any other GW parameters in nearby surrounding obs. wells, let alone parameters changes (and no decrease in TBA) in dg/offsite wells of concern. Can they convert existing SVE/AS to ozone-sparge?

Action Type: Response Requested - Reports
Action Date: 4/30/2013
Received Issue Date: 5/1/2013
Action: Monitoring Report - Quarterly

- Remedial Progress Report (ISCO)

Action Type: Response Requested - Other
Action Date: 10/7/2011
Received Issue Date: 10/7/2011
Action: Verbal Communication - Regulator Responded
Doc Link:
Title Description Comments:

- RB rec'd email from Stratus indicating that ARCO would like to continue with ISCO applications. Bryan VanWagner would like to submit a CAP for continued ISCO and believes stopping would result in a "setback/delay" that would prolong C/U. They believe ISCO should continue to address TBA mass in source soil - after VES/AS, DPE, P&T AND 1 yr+ of ISCO? RB believes strategy to be limited in effectiveness to areas in/directly adj. wells used for ISCO application - no changes have been noted (temp or concs.) to suggest success in DG area beneath the Street, where high concs. of TBA persist in GW. Current strategy appears ineffective - RB scheduled mtg. to discuss 11/3/11.

Action Type: Other Regulatory Actions
Action Date: 9/13/2011
Received Issue Date: 9/13/2011
Action: Technical Correspondence / Assistance / Other
Doc Link:
Title Description Comments:

RB sent email requesting status of B-9 - "inaccesible" during 2nd Qtr - recover/rehabilitate & sample 3rd qtr. According to Stratus, the well is scheduled to be repaired, but the work was not completed before GWS. RB req'd repair/GWS during 4th Qtr. RB also req'd that ISCO applications be discontinued (~1yr mark), to allow GW stabilization prior to 4thQ GWS.

Action Type: Other Regulatory Actions
Action Date: 8/10/2011
Received Issue Date: 8/10/2011
Action: File review
Doc Link:
Title Description Comments:

Rev'd 2nd qtr 2011 GW/Remediation Reports - ISCO pliot limited in success, ineffective at addressing highest TBA impacts off-site/dg of former stn. TBA Impacts noted (after yrs of NDs) in MW-4, dg of MW-10/11 suggest continued dg migration - adjacent point B-9 was "not accessible" during 2nd qtr GWS - recover. Also, TPH/B rebound noted in SVE-13 and elevated TBA in deeper well AS-13 during last 2 qtrs, after several qtrs of NDs. RB to require add'l lateral assessment of TBA and alt. remedy for street impacts.

Action Type: Response Requested - Reports

Action Type: Other Regulatory Actions
Action Date: 6/22/2011
Received Issue Date: 6/22/2011
Action: File review
Doc Link:
Title Description Comments:

Rev'd ISCO Pilot Test Report - results suggests limited success, primarily directly in and around application points (DPE-10/14). Temp and chemical changes noted at nearby observation points SVE-13/15 (<20 feet from ISCO wells) - but after nearly one year of "pilot" ISCO applications, no notable affects (temp, chem or concs.) observed in dg/off-site wells with high TBA - remedy seems very limited in effectiveness. RB to evaluate need for alternate strategy, as well as lateral assessment.

Title Description Comments:

3rd qtr 2004 monitoring reports and DPE reports - Spoke w/Steve (Delta) re system downtime and requested they re-initiate extraction ASAP - Bill originally said TBA evaluation would take ~ month w/low flow sites possibly coming back online sooner. Steve said that they are probably still about a month away from getting OCSD permit approval and he will proceed w/proposal to go to ABT in the interim.

NO CONTAMINANTS FOUND

SITE HISTORY:

The proposed High School #6 (site) is approximately 40-acres in size and located in a mixed agricultural and residential area of Santa Ana. The site has been used for agriculture since 1927. Currently, the site and surrounding parcel are used to grow row crops. Based on historical records, a single-family residence was located on the southwestern corner of the site from 1947 until 1994, when it was demolished.

Unplottable Summary

Total: 0 Unplottable sites

DB	Company Name/Site Name	Address	City	Zip	ERIS ID

No unplottable records were found that may be relevant for the search criteria.

Unplottable Report

No unplottable records were found that may be relevant for the search criteria.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

Formerly Utilized Sites Remedial Action Program: DOE FUSRAP

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

National Priority List: NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

Government Publication Date: Dec 30, 2021

National Priority List - Proposed: PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

Government Publication Date: Dec 30, 2021

Deleted NPL: DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Government Publication Date: Dec 30, 2021

SEMS List 8R Active Site Inventory: SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

Government Publication Date: Dec 30, 2021

Inventory of Open Dumps, June 1985: ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites: SEMS ARCHIVE

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Government Publication Date: Dec 30, 2021

Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS: CERCLIS

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands: IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned: CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens: CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action: RCRA CORRACTS

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Nov 17, 2021

RCRA non-CORRACTS TSD Facilities: RCRA TSD

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Nov 17, 2021

RCRA Generator List: RCRA LQG

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Nov 17, 2021

RCRA Small Quantity Generators List: RCRA SQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Nov 17, 2021

RCRA Very Small Quantity Generators List: RCRA VSQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Nov 17, 2021

RCRA Non-Generators: RCRA NON GEN

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Nov 17, 2021

RCRA Sites with Controls: RCRA CONTROLS

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: Nov 17, 2021

Federal Engineering Controls-ECs: FED ENG

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Dec 30, 2021

Federal Institutional Controls- ICs: FED INST

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

Government Publication Date: Dec 30, 2021

Land Use Control Information System: LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006

Emergency Response Notification System: ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System: ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System: ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Jul 26, 2021

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database: FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Aug 20, 2021

FEMA Underground Storage Tank Listing: FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan: FRP

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Dec 2, 2020

Historical Gas Stations: HIST GAS STATIONS

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries: REFN

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Jul 10, 2020

Petroleum Product and Crude Oil Rail Terminals: BULK TERMINAL

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

Government Publication Date: Apr 28, 2020

LIEN on Property: SEMS LIEN

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

Government Publication Date: Dec 30, 2021

Superfund Decision Documents: SUPERFUND ROD

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Government Publication Date: Nov 16, 2021

State

State Response Sites: RESPONSE

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

Government Publication Date: Jan 6, 2022

EnviroStor Database: ENVIROSTOR

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

Government Publication Date: Jan 6, 2022

Delisted State Response Sites: DELISTED ENVS

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

Government Publication Date: Jan 6, 2022

Solid Waste Information System (SWIS): SWF/LF

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

Government Publication Date: Nov 2, 2021

Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels: SWRCB SWF

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

Government Publication Date: Sep 20, 2006

Waste Management Unit Database: WMUD

The Waste Management Unit Database System tracks and inventories waste management units. CCR Title 27 contains criteria stating that Waste Management Units are classified according to their ability to contain wastes. Containment shall be determined by geology, hydrology, topography, climatology, and other factors relating to the ability of the Unit to protect water quality. Water Code Section 13273.1 requires that operators submit a water quality solid waste assessment test (SWAT) report to address leak status. The WMUDS was last updated by the State Water Resources control board in 2000.

Government Publication Date: Jan 1, 2000

EnviroStor Hazardous Waste Facilities: HWP

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

Government Publication Date: Jan 6, 2022

Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report: SWAT

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

Government Publication Date: Dec 31, 1995

Construction and Demolition Debris Recyclers: C&D DEBRIS RECY

This listing of Construction and Demolition Debris Recyclers is maintained by the California Intergrated Waste Management Board-common C&D materials include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.

Government Publication Date: Jun 20, 2018

Recycling Centers: RECYCLING

This list of Certified Recycling Centers that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Dec 17, 2021

Listing of Certified Processors: PROCESSORS

This list of Certified Processors that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Dec 20, 2021

Listing of Certified Dropoff, Collection, and Community Service Programs: CONTAINER RECY

This list of Certified Dropoff, Collection, and Community Service Programs (non-buyback) operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Dec 17, 2021

Land Disposal Sites: LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

Government Publication Date: Oct 20, 2021

Leaking Underground Fuel Tank Reports: LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

Government Publication Date: Jun 22, 2021

Delisted Leaking Storage Tanks: DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

Government Publication Date: Jun 22, 2021

Permitted Underground Storage Tank (UST) in GeoTracker: UST

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: Jan 3, 2022

Proposed Closure of Underground Storage Tank Cases: UST CLOSURE

List of UST cases that are being considered for closure by either the California Environmental Protection Agency, State Water Resources Control Board or the Executive Director that have been posted for a 60-day public comment period.

Government Publication Date: May 5, 2021

Historical Hazardous Substance Storage Information Database: HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

Statewide Environmental Evaluation and Planning System: UST SWEEPS

The Statewide Environmental Evaluation and Planning System (SWEEPS) is a historical listing of active and inactive underground storage tanks made available by the California State Water Resources Control Board (SWRCB).

Government Publication Date: Oct 1, 1994

Aboveground Storage Tanks: AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

SWRCB Historical Aboveground Storage Tanks: AST SWRCB

A list of aboveground storage tanks made available by the California State Water Resources Control Board (SWRCB). Effective January 1, 2008, the Certified Unified Program Agencies (CUPAs) are vested with the responsibility and authority to implement the Aboveground Petroleum Storage Act (APSA).

Government Publication Date: Dec 1, 2007

Oil and Gas Facility Tanks: TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

Government Publication Date: Dec 9, 2021

Delisted Storage Tanks: DELISTED TNK

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: Jan 3, 2022

California Environmental Reporting System (CERS) Tanks: CERS TANK

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Dec 8, 2021

Delisted California Environmental Reporting System (CERS) Tanks: DELISTED CTNK

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

Government Publication Date: Dec 8, 2021

Historical Hazardous Substance Storage Container Information - Facility Summary: HIST TANK

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in th 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

Government Publication Date: May 27, 1988

Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions: LUR

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

Government Publication Date: Jan 6, 2022

CALSITES Database: CALSITES

This historical database was maintained by the Department of Toxic Substance Control (DTSC) for more than a decade. CALSITES contains information on Brownfield properties with confirmed or potential hazardous contamination. In 2006, DTSC introduced EnviroStor as the latest Brownfields site database.

Government Publication Date: May 1, 2004

Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions: HLUR

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Government Publication Date: Feb 18, 2021

Deed Restrictions and Land Use Restrictions: DEED

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

Government Publication Date: Oct 20, 2021

Voluntary Cleanup Program: VCP

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

Government Publication Date: Jan 6, 2022

GeoTracker Cleanup Program Sites: CLEANUP SITES

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

Government Publication Date: Jun 22, 2021

Delisted County Records: DELISTED COUNTY

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: Jan 11, 2022

Tribal

Leaking Underground Storage Tanks (LUSTs) on Indian Lands: INDIAN LUST

LUSTs on Tribal/Indian Lands in Region 9, which includes California.

Government Publication Date: Apr 8, 2020

Underground Storage Tanks (USTs) on Indian Lands: INDIAN UST

USTs on Tribal/Indian Lands in Region 9, which includes California.

Government Publication Date: Apr 8, 2020

Delisted Tribal Leaking Storage Tanks: DELISTED ILST

Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.

Government Publication Date: Apr 14, 2020

Delisted Tribal Underground Storage Tanks: DELISTED IUST

Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.

Government Publication Date: Apr 14, 2020

County

Orange County - Industrial Cleanup Program Cases Listing: ICP ORANGE

Orange County Health Care Agency's Environmental Health Division has an Industrial Cleanup (IC) program which oversees the voluntary cleanup of contaminated property. This is a list of cases (by city) which the IC program has overseen in the past, or is currently overseeing.

Government Publication Date: Dec 10, 2021

Orange County - LOP Lead Cases List: LOP ORANGE

The Local Oversight Program of the County of Orange provides regulatory cleanup oversight for cleanup of leaking underground storage tanks (USTs). This dataset is provided by the Orange County Health Care Agency.

Government Publication Date: Dec 10, 2021

Orange County - Non-Petroleum Underground Storage Tank Cases: NPUT ORANGE

This list of open and closed non-petroleum underground storage tank cases is maintained by the Orange County Health Care Agency.

Government Publication Date: Dec 10, 2021

Orange County - Underground Storage Tanks Listing: UST ORANGE

A list of registered Underground Storage Tank (UST) sites in Orange County. This list is made available by Orange County Health Care Agency (OCHCA), Environmental Health Division which oversees the underground storage tank inspection program in most of the cities of Orange County, with the exception of Anaheim, Fullerton, and Orange.

Government Publication Date: Dec 10, 2021

Orange County - Aboveground Petroleum Storage Tank Listing: AST ORANGE

A list of Aboveground Petroleum Storage Tank (APST) facilities inspected by Orange County Certified Unified Program Agency (CUPA) Under the Aboveground Petroleum Storage Act (APSA). This list is made available by the Environmental Health Division of Orange County Health Care Agency.

Government Publication Date: Dec 10, 2021

Orange County - Anaheim City UST Cleanup Cases: UST CLP ANAHEIM

A list of UST Cleanup Cases in the City of Anaheim in Orange County. As part of its Groundwater Protection Program, the City of Anaheim managed the UST Cleanup Oversight Program from April 1991 to June 2014. This list is published by the City of Anaheim Underground Storage Tank Cleanup Program.

Government Publication Date: May 26, 2015

Orange County - Anaheim City UST List: UST ANAHEIM

A list of Underground Storage Tanks in Anaheim City, Orange County. This list is made available by Anaheim Fire & Rescue Department.

Government Publication Date: Jul 21, 2021

Orange County - Anaheim City AST List: AST ANAHEIM

List of Aboveground Storage Tanks (ASTs) in Anaheim City, Orange County made available by Anaheim Fire & Rescue.

Government Publication Date: Jan 6, 2022

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index: FINDS/FRS

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Nov 2, 2020

Toxics Release Inventory (TRI) Program: TRIS

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U. S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Aug 24, 2021

Perfluorinated Alkyl Substances (PFAS) Releases: PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Aug 24, 2021

PFOA/PFOS Contaminated Sites: PFAS NPL

List of sites where PFOA or PFOS contaminants have been found in drinking water or soil. Made available by the Federal Environmental Protection Agency (EPA).

Government Publication Date: Sep 17, 2021

Perfluorinated Alkyl Substances (PFAS) Water Quality: PFAS WATER

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

SSEHRI PFAS Contamination Sites: PFAS SSEHRI

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Disclaimer: The source conveys this database undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Limited location details are available with this data. Access the following for the most current informations https://pfasproject.com/pfas-contamination-site-tr acker/

Government Publication Date: Dec 12, 2019

Hazardous Materials Information Reporting System: HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Sep 1, 2020

National Clandestine Drug Labs: NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Oct 5, 2020

Toxic Substances Control Act: TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

Hist TSCA: HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing: FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing: FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List: PRP

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

Government Publication Date: Oct 20, 2021

State Coalition for Remediation of Drycleaners Listing: SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS): ICIS

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

Government Publication Date: Oct 14, 2021

Drycleaner Facilities: FED DRYCLEANERS

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) online search. The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: May 5, 2021

Delisted Drycleaner Facilities: DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: May 5, 2021

Formerly Used Defense Sites: FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: May 26, 2021

Former Military Nike Missile Sites: FORMER NIKE

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents: PIPELINE INCIDENT

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

Government Publication Date: Jul 7, 2020

Material Licensing Tracking System (MLTS): MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites: HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File: MINES

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

Government Publication Date: Nov 2, 2021

Surface Mining Control and Reclamation Act Sites: SMCRA

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Government Publication Date: Dec 18, 2020

Mineral Resource Data System: MRDS

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2006

Uranium Mill Tailings Radiation Control Act Sites: URANIUM

The Legacy Management Office of the Department of Energy (DOE) manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The L.M. Office manages this database of sites registered under the Uranium Mill Tailings Control Act (UMTRCA).

Government Publication Date: Mar 4, 2017

Alternative Fueling Stations: ALT FUELS

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

Government Publication Date: Dec 21, 2021

Registered Pesticide Establishments: SSTS

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Apr 13, 2021

Polychlorinated Biphenyl (PCB) Notifiers: PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Nov 19, 2020

State

Dry Cleaning Facilities: DRYCLEANERS

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

Government Publication Date: Dec 20, 2021

Delisted Drycleaners: DELISTED DRYCLEANERS

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

Government Publication Date: Dec 20, 2021

Non-Toxic Dry Cleaning Incentive Program: DRYC GRANT

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

Government Publication Date: Feb 28, 2018

Per- and Polyfluoroalkyl Substances (PFAS): PFAS

List of sites from the State Water Resources Control Board (SWRCB)'s GeoTracker at which one or more of the potential contaminants of concern are in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Jun 22, 2021

PFOA/PFOS Groundwater: PFAS GW

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.

Government Publication Date: Oct 22, 2020

Hazardous Waste and Substances Site List - Site Cleanup: HWSS CLEANUP

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

Government Publication Date: May 20, 2021

Toxic Pit Cleanup Act Sites: TOXIC PITS

The Toxic Pits Cleanup Act (TPCA) list identifies sites suspected of containing hazardous substances where cleanup has not yet been completed. This list was maintained by the State Water Resources Control Board (SWRCB), is not longer maintained, and updates are not planned.

Government Publication Date: Jul 1, 1995

List of Hazardous Waste Facilities Subject to Corrective Action: DTSC HWF

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

Government Publication Date: Jul 18, 2016

EnviroStor Inspection, Compliance, and Enforcement: INSP COMP ENF

A list of permitted facilities with inspections and enforcements tracked in the Department of Toxic Substance Control (DTSC) EnviroStor.

Government Publication Date: Apr 29, 2021

School Property Evaluation Program Sites: SCH

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

Government Publication Date: Jan 6, 2022

California Hazardous Material Incident Report System (CHMIRS): CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Aug 1, 2021

Historical California Hazardous Material Incident Report System (CHMIRS): HIST CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

Government Publication Date: Jan 1, 1993

Hazardous Waste Manifest Data: HAZNET

A list of hazardous waste manifests received each year by Department of Toxic Substances Control (DTSC). The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Oct 24, 2016

Historical Hazardous Waste Manifest Data: HIST MANIFEST

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

Government Publication Date: Dec 31, 1992

DTSC Registered Hazardous Waste Transporters: HW TRANSPORT

The California Department of Toxic Substances Control (DTSC) maintains this list of Registered Hazardous Waste Transporters.

Government Publication Date: Oct 19, 2020

Registered Waste Tire Haulers: WASTE TIRE

This list of registered waste tire haulers is maintained by the California Department of Resources Recycling and Recovery.

Government Publication Date: Dec 17, 2021

California Medical Waste Management Program Facility List: MEDICAL WASTE

This list of Medical Waste Management Program Facilities is maintained by the California Department of Public Health. The Medical Waste Management Program (MWMP) regulates the generation, handling, storage, treatment, and disposal of medical waste by providing oversight for the implementation of the Medical Waste Management Act (MWMA). The MWMP permits and inspects all medical waste off-site treatment facilities, medical waste transporters, and medical waste transfer stations. This list contains transporters, treatment, and transfer facilities.

Government Publication Date: Dec 31, 2020

Historical Cortese List: HIST CORTESE

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

Government Publication Date: Nov 13, 2008

Cease and Desist Orders and Cleanup and Abatement Orders: CDO/CAO

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

Government Publication Date: Dec 6, 2021

California Environmental Reporting System (CERS) Hazardous Waste Sites: CERS HAZ

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Dec 8, 2021

Delisted Environmental Reporting System (CERS) Hazardous Waste Sites: DELISTED HAZ

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

Government Publication Date: Nov 29, 2018

Sites in GeoTracker: GEOTRACKER

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

Government Publication Date: Jun 22, 2021

Mines Listing: MINE

This list includes mine site locations extracted from the Mines Online database, maintained by the California Department of Conservation. Mines Online (MOL) is an interactive web map designed with GIS features that provide information such as the mine name, mine status, commodity sold, location, and other mine specific data. Please note: Mine location information is provided to assist experts in determining the location of mine operators in accordance with California Civil Code section 1103.4 and reflects information reported by mine operators in annual reports provided under Public Resources Code section 2207. While the Division of Mine Reclamation (DMR) attempts to populate MOL with accurate location information, the DMR cannot guarantee the accuracy of operator reported location information.

Government Publication Date: Dec 17, 2021

Recorded Environmental Cleanup Liens: LIEN

The California Department of Toxic Substance Control (DTSC) maintains this list of liens placed upon real properties. A lien is utilized by the DTSC to obtain reimbursement from responsible parties for costs associated with the remediation of contaminated properties.

Government Publication Date: Dec 15, 2021

Waste Discharge Requirements: WASTE DISCHG

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

Government Publication Date: Oct 20, 2021

Toxic Pollutant Emissions Facilities: EMISSIONS

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

Government Publication Date: Dec 31, 2019

Clandestine Drug Lab Sites: CDL

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/clandestine drug laboratories.

Government Publication Date: Jan 19, 2021

Tribal

No Tribal additional environmental record sources available for this State.

County

Orange County - Hazardous Waste Facilities: HW ORANGE

A list of Hazardous Waste Facilities in Orange County. This list is made available by Orange County Environmental Health Department.

Government Publication Date: Dec 10, 2021

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

TRC Staff and Environmental Professional Qualifications/Resumes

RONALD A. LANDOLT, CAC

EDUCATION

B.A., Biology/Environmental Management, Concordia University, 2002

PROFESSIONAL REGISTRATIONS/CERTIFICATIONS

- Asbestos Inspector, Project Designer, Management Planner and Contractor Supervisor.
- Oregon Construction Contractors Board Lead Risk Assessor
- State of California, Department of Occupational Safety and Health, Certified Asbestos Consultant, #10-4597.
- State of California, Department of Public Health, Certified Lead Inspector/Assessor, #24276.
- State of Hawaii, Department of Health, Certified Asbestos Inspector, #HIASB-2677.
- State of Utah, Department of Environmental Quality, Certified Asbestos Inspector, #ASB-5156.

AREAS OF EXPERTISE

Mr. Ronald A. Landolt, CAC, has project management and technical experience in the following general areas:

- Client Development, Management and Interaction
- Write and Edit Technical Reports for Clients and Regulatory Agencies
- Soil and Groundwater Sampling and Remediation System Implementation
- Spill Prevention Control and Countermeasure (SPCC) Plan Management
- Stormwater Pollution Control Plan (SWPCP) Development & Management
- Indoor Air Quality and Microbial Assessments and Remediation Design
- Fire Damage/Soot Investigations and Testing Services
- Asbestos & Lead Paint Surveys, Abatement Project Design and Oversight
- AHERA Management Plan Review and Development
- Poly-Chlorinated Biphenyl and Mercury Investigations
- Stormwater Regulatory Compliance and Plan Development
- Phase I and Phase II Environmental Site Assessments and Audits
- Property Condition Assessments
- 3rd Party QAQC Inspections
- Construction Management and Loan Reviews

REPRESENTATIVE EXPERIENCE

Mr. Landolt has over 20 years of experience and progressive responsibility in environmental and engineering consulting. His qualifications include extensive hands-on planning, health and safety management, field investigation, design, permitting, cost estimating, project management, and client management. Mr. Landolt's background includes extensive service to public and private-sector clientele including JP Morgan Chase, Sunstone Hotel Investors, Wyndham Resorts, Rite Aid, AIMCO, Wal-Mart, Farmers Insurance, State Farm, Austin Energy, UPRR, BNSF, Shorenstein Realty Services, Deering Property Management, Gresham Barlow School District, Beaverton School District, North Wasco County School District, and Salem-Keizer School District.

Mr. Landolt currently serves in the capacity of NW Region Practice Manager for TRC with responsibility for the business development, proposal and contract document writing and review to initiate projects, track project status and input critical data associated with each project, monitor the work performed by field staff and subcontractors and analyze the data acquired to determine further action with respect to regulatory compliance or industry standards while maintaining strict deadlines. Mr. Landolt is also responsible for management of financial budgets set forth in the specific contract documents from initial development, tracking labor and additional costs through the project until contract completion and final invoicing.

PROPERTY DUE DILIGENCE EXPERIENCE

Various Clients, Environmental Site Assessments – Throughout the United States (Project Manager/Regional Service Line Manager: 2001 – Present)
Performs, reviews and manages ASTM Phase I ESAs as an Environmental Professional for various clients including industrial properties, commercial/retail properties, hotel properties, residential properties, and vacant parcels of land. Mr. Landolt has experience conducting Phase I ESAs for both Fannie Mae and Freddie Mac financial transactions. Responsibilities included proposal and budget preparation, proposal review, client interaction, record review, site reconnaissance, interviews, report preparation, limited sampling, report review and submittals.

Various Clients, Property Condition Assessments – Throughout the United States (Project Manager/Service Line Manager: 2005 – Present)
Performs and manages ASTM PCA's for various clients including high-rise buildings, hotel properties, industrial properties, commercial properties, retail properties and multi-family residential facilities. Responsibilities included proposal and budget preparation, proposal review, client interaction, record review, site reconnaissance, interviews, report preparation, report review and submittals.

Lanai Resorts, LLC, Phase I Environmental Site Assessments and Hazardous Materials Assessments – Lanai City, Hawaii (Project Manager: 2013 – Present).
Project manager responsible for performing Phase I and Phase II Environmental Site Assessments and hazardous materials inspections (asbestos, lead and moisture) for the renovation and/or re-development of various properties within Lanai City, HI. Responsibilities included assistance with initial cost proposals, scope of work development, as well as site investigation, sample collection and report generation.

FedEx Ground, Environmental Site Investigation – Troutdale, Oregon (Project Manager: 2009 – 2010).
Development and implementation of a large scale contract and scope of work on a 78-acre site to be used as a shipping facility. The site was previously occupied by an aluminum factory and is listed as a former Superfund site. Responsibilities included developing the scope of work, working with a team to perform the initial Phase I Environmental Site Assessment, management of surveying and excavating subcontractors, performing a detailed subsurface investigation and associated report. Mr. Landolt was also involved in client management and communication throughout the duration of the project.

HAZARDOUS MATERIAL AND INDOOR AIR QUALITY EXPERIENCE

Rite Aid Corporation, Asbestos & Concrete Vapor Emissions – Western United States (Client Manager: 2007 – Present)
Primary Client manager for Rite Aid Corporation. The scope of work consists of providing standardized asbestos surveys with concrete moisture testing of the floors as well. Responsibilities included proposal and budget development, project management, distribution of projects to various other offices as well as client management and communication.

Alcoa, Hazardous Materials Assessments – Longview, Washington (Project Manager: 2012 – Present).
Lead project manager and client manager responsible for the hazardous materials inspection (asbestos, lead, PCB's, PAH's, Fluoride and Mercury), abatement oversight and regulatory compliance for the re-development of the Millennium Bulk Terminals facility. Responsibilities included initial cost proposals and contracts, scope of work development, organization with the Client and contractors as well as sample collection, staff management and oversight.

Salem-Keizer School District, Asbestos Management – Salem, Oregon (Client Manager: 2009 – Present)
Lead client manager for ensuring regulatory compliance during substantial asbestos abatement projects in conjunction with a District wide 252-million-dollar redevelopment bond. Responsibilities included initial cost proposals and contracts, scope of work development, organization with project management teams and general contractors as well as staff management and oversight. Mr. Landolt was also responsible for conducting direct client management and regulatory review in conjunction with each project.

Holly Street Power Plant, Pre-Demolition Asbestos Abatement Management – Austin, Texas (Asbestos Abatement Manager: March – August 2012)
On-site abatement organization and oversight of the asbestos abatement activities associated with the demolition of the Holly Street Power Plant in Austin, TX. Mr. Landolt was responsible for the management of the abatement activities being conducted in conjunction with the active demolition of the plant as well as providing direct project updates and other correspondence to the client and their representatives on a daily basis.

Various Clients, Indoor Air Quality Assessments, Fire Damage and Microbial Sampling – Throughout the United States (Project Manager: 2001 – Present)
Conducted pre- and post-remediation sampling for indoor air quality conditions, smoke damage as well as viable and non-viable mold spores in commercial, retail and residential properties. Responsibilities include budget and proposal preparation, project coordination, sample collection, data interpretation, report preparation, and client interaction.

SOIL AND GROUNDWATER INVESTIGATION EXPERIENCE

Burlington Northern Santa Fe Railroad, Groundwater Remediation Well System Sampling – Kelso, Washington (Project Manager: 2013 – Present)
Lead on-site Project Manager for sampling of monitoring wells located throughout a former train derailment site. Responsibilities included sample collection, staff coordination, data compilation and management. Mr. Landolt was also responsible for collaborating with the client, contractors and laboratories to ensure proper sample collection and procedures were followed.

Coca-Cola Bottling Company, Due Diligence Environmental Investigations – Omak, Washington (Project Scientist and Project Manager: 2004 – 2011)
Subsurface investigation where responsibilities included scheduling, ordering drilling supplies, supervision of outside contractors, collect and field screen soil samples, log soil borings according to the Unified Soils Classification System, monitoring well re-development, groundwater monitoring, data interpretation and report preparation as well as remediation system design, implementation and submittal of Voluntary Cleanup Program Application to Washington DOE, and regulatory compliance discussions with Washington DOE.

Tesoro Golden Eagle Oil Refining Terminal, Groundwater Remediation Well System Sampling – Concord, California (Project Manager: 2008 – 2010)
Lead on-site Project Manager for bi-annual sampling of over 300 monitoring wells located throughout a 1,000-acre oil refining terminal. Responsibilities included daily scheduling, permit acquisition, staff coordination, data compilation and management. Mr. Landolt was also responsible for collaborating with other consultants, contractors and laboratories to ensure proper sample collection and procedures were followed.

Conoco Phillips, Soil and Groundwater Sampling – Oregon, Washington and Arizona (Project Geologist: 2004-2008 and Project Manager: 2008 – 2011)
Project Geologist and Project Manager responsible for conducting soil and groundwater sampling activities for various retail fueling stations throughout Oregon, Washington and Arizona. Mr. Landolt has also been responsible for the on-site safety compliance associated with soil and groundwater sampling activities for Conoco Phillips as well as collaborating with other consultants, contractors and laboratories to ensure proper sample collection and procedures were followed in accordance with all applicable regulations.

STORM WATER AND SPCC EXPERIENCE

Beaverton School District, Storm Water System Management – Beaverton, Oregon (Project Manager: 2006 – 2011)
Project Manager responsible for the District's Storm Water Pollution Control Program. Conducted sampling events, site inspections and updated facility storm water pollution control plans (SWPCP) in coordination with applicable regulations. Responsible for working with regulators to ensure compliance with proper storage and handling of hazardous materials.

Target Distribution Center, SPCC Plan Development and Audits – Albany, Oregon (Project Manager: 2008 – 2011).
Project Manager responsible for the development of the facilities revised SPCC plan in order to ensure regulatory conformance as well as the subsequent facility audits to confirm compliance with the SPCC plan. Responsibilities included development of the SPCC plan for regulatory compliance and annual Audit of the facility. Mr. Landolt was also involved in client management and communication throughout the duration of the project.

Union Pacific Railroad (UPRR), SPCC Audits – Oregon & Washington (Project Manager: 2011 – 2018).
Project Manager responsible for the monthly audit of the UPRR facilities SPCC plan associated with their diesel fueling locations to assure conformance to the regulatory and internal requirements.

SPECIALIZED TRAINING

- EPA AHERA-Accredited Building Inspector, Management Planner, Project Designer, and Contractor Supervisor
- OSHA 10-Hour Construction Safety Training
- 40-Hour Hazardous Waste Operations and Emergency Response (HAZWOPER)
- OSHA Confined Space Training
- NIOSH 582 Trained Microsocpist
- DOT & IATA Department of Transportation's Hazardous Materials' Regulations Certification
- Washington Department of Ecology Dangerous Waste Management Training
- Hazardous/Toxic Waste Management Training
- 16-Hour Microbial Investigations, Assessments and Remediation Training

PROFESSIONAL AFFILIATIONS

- Linkedin, Asbestos and IAQ Professionals Networks

EXPERT TESTIMONY

Provided deposition testimony associated with property due diligence services on behalf of First American Financial Corporation in a case involving financial responsibility in the matter of LAX Enterprises vs. First American Financial Corporation, August 2013.

CHLOE B. HUDSON

EDUCATION
B.S., Environmental Sciences, University of British Columbia, 2017

PROFESSIONAL REGISTRATIONS/CERTIFICATIONS
- EPA/AHERA (167149) Accredited Asbestos Inspector

AREAS OF EXPERTISE
Ms. Chloe B. Hudson has technical experience in the following general areas:
- Phase I Environmental Site Assessments
- Industrial Hygiene Sampling
- Hazardous Materials Management
- Water Damage and Microbial Assessments
- Indoor Air Quality
- Radon
- Drinking Water Quality
- Smoke and Fire Damage Assessments
- General Environmental Compliance

REPRESENTATIVE EXPERIENCE
Ms. Hudson has over 3 years of experience and progressive responsibility in environmental and engineering consulting in both commercial and residential settings. Her qualifications include hands-on planning, field investigation, design, report preparation, and client service. Ms. Hudson's background includes service to clientele including Fannie Mae, Jones Long LaSalle, JP Morgan Chase, Ross Stores, Inc., Target Corporation, and various school districts throughout Oregon.

Various Clients, Phase I Environmental Site Assessments – United States (Project Scientist)
Ms. Hudson performs Environmental Site Assessments for commercial/retail, industrial, hotel, agricultural, and vacant properties throughout the United States. Responsibilities include client interaction, conducting site reconnaissance, record review, and preparing reports in accordance with ASTM standards.

Various Clients, Mold and Water Damage Assessments – OR, WA (Industrial Hygienist)
For various commercial and residential structures, Ms. Hudson performs water and microbial damage assessments, and indoor air quality sampling, including determination of the extent of damage resulting from a water loss or water intrusion and provision of recommendations for remediation. Ms. Hudson also performs microbial surface sampling, microbial particulate air sampling, microbial remediation oversight and post remediation microbial assessments.

Various School Districts, Radon and Water Quality Evaluations – OR (Industrial Hygienist)
Ms. Hudson performs radon testing and drinking water quality sampling for lead, copper, and other contaminants for various school district clients throughout the state of Oregon.

Various Clients, Asbestos Surveys – OR, WA (Industrial Hygienist)
Ms. Hudson is an EPA AHERA-Accredited Building Inspector and completes Asbestos surveys, including suspect material identification, bulk sampling, and report preparation in accordance with applicable regulations. Responsibilities also include asbestos abatement project oversight and air clearance sampling.

Various Clients, Fire Damage and Smoke Investigations – OR (Industrial Hygienist)
For various school district and insurance carrier clients, Ms. Hudson conducts smoke damage assessments and combustion by-product (soot, char, and ash) surface sampling to determine the extent of fire loss damage and provide recommendations for restoration.

Various Clients, Indoor Air Quality Sampling – OR (Industrial Hygienist)
Ms. Hudson performs air sampling and monitoring for volatile organic compounds (VOCs), carbon monoxide, particulate matter, respirable dust, and other indoor air contaminants. Ms. Hudson also performs testing for carbon dioxide and relative humidity levels, and culturable microbial air sampling.

SPECIALIZED TRAINING

- 40-Hour Hazardous Waste Operations and Emergency Response (HAZWOPER)
- EPA AHERA-Accredited Building Inspector

PROFESSIONAL AFFILIATIONS

- Women in Environment (WIE)
- Environmental Consulting Professionals
- Young Environmental Professionals (YEP)

Appendix H:
Environmental Professional Statement

DEFINITION OF ENVIRONMENTAL PROFESSIONAL AND RELEVANT EXPERIENCE THERETO PURSUANT TO 40 CFR 312

(1) a person who possesses sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases (see §312.1[c]) on, at, in, or to a property, sufficient to meet the objectives and performance factors in §312.20(e) and (f).

(2) Such a person must: (i) hold a current Professional Engineer's or Professional Geologist's license or registration from a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) and have the equivalent of 3 years of full-time relevant experience; or (ii) be licensed or certified by the federal government, a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) to perform environmental inquiries as defined in §312.21 and have the equivalent of 3 years of full-time relevant experience; or (iii) have a Baccalaureate or higher degree from an accredited institution of higher education in a discipline of engineering or science and the equivalent of 5 years of full-time relevant experience; or (iv) have the equivalent of 10 years of full-time relevant experience.

(3) An environmental professional should remain current in his or her field through participation in continuing education or other activities.

(4) The definition of environmental professional provided above does not preempt state professional licensing or registration requirements such as those for a professional geologist, engineer, or site remediation professional. Before commencing work, a person should determine the applicability of state professional licensing or registration laws to the activities to be undertaken as part of the inquiry identified in §312.21(b).

(5) A person who does not qualify as an environmental professional under the foregoing definition may assist in the conduct of all appropriate inquiries in accordance with this part if such person is under the supervision or responsible charge of a person meeting the definition of an environmental professional provided above when conducting such activities.

Relevant experience, as used in the definition of environmental professional in this section, means: participation in the performance of all appropriate inquiries investigations, environmental site assessments, or other site investigations that may include environmental analyses, investigations, and remediation which involve the understanding of surface and subsurface environmental conditions and the processes used to evaluate these conditions and for which professional judgment was used to develop opinions regarding conditions indicative of releases or threatened releases (see §312.1[c]) to the Site. TRC personnel resume(s) are included in **Appendix G**.

I declare that, to the best of my professional knowledge and belief, I meet the definition of environmental professional as defined in §312.10 of 40 CFR 312.

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Signature of Environmental Professional: Date: February 25, 2022
