COLLECTION 7 (C 7)

Charles D. Swanner papers

"Born in Santa Ana in 1894, the son of a pioneer merchant, Charles D. Swanner grew with the town." So begins the dust jacket on his book Santa Ana: a narrative of yesterday. "I am glad that I knew and loved the old town in its cruder, simpler, muddy, dusty, unpaved, peaceful, pepper tree days- - -," he writes on page 47.

Mr. Swanner was also the author of Those were the days, The story of Company L: "Santa Ana's own", and (reflecting his chosen profession) 50 years a barrister in Orange County.

After Mr. Swanner's death in 1979, his widow Helen Swanner presented a large donation of photographs and other memorabilia to the Santa Ana History Room. Materials located in the Collection 7 archive box are listed below; following those is a description of other items received and their location.

Collection 7 archive box:

Folder 1	Papers relating to Mrs. Swanner's gifts to the Santa Ana History Room, 1981
Folder 2	Biographical materials
Folder 3	Letters received
Folder 4	Certificates and awards received
Folder 5	Copies of <u>Ariel</u> saved 1908, 1909
Folder 6	Essay (first prize) Santa Ana High School 1912
Folder 7	Photograph album - Class of 1912B
Folder 8	Graduation diploma, June 1912
Folder 9	Company L materials
Folder 10	Display from Santa Ana Bookstore, 1953
Folder 11	Clippings saved: Santa Ana
Folder 12	Clippings saved: Orange County
Folder 13	Clippings saved for Mr. Swanner by Jim Sleeper 1918 - 1926, 1963
Folder 14	Postcards sent and received

Collection 7 archive box listing (continued):

Folder 15	Postcards saved
Folder 16	Ephemera (includes personal identification)
Folder 17	Snapshots saved
Folder 18	Negatives - unidentified people and places

Other materials received with Collection 7 and their location:

1. Black scrapbook labeled "Photographs" located on the top shelf of the storage cabinet. Many of these pictures were used to illustrate Mr. Swanner's books. Prints and negatives of a number of these were made in 1983 through the kindness of the Friends of the Library (P 409 - P 496, P 499 - P 527).
2. Scrapbooks of photographs and clippings relating to Mr. Swanner's experiences in Company L and in World War I. These are located in plastic bags on the shelving in the Collections area of the SAHR.
3. Newspaper editions of November 1918 were saved. These too are in a plastic bag and located with the scrapbooks described in #2.
4. Materials were removed from two scrapbooks with "magnetic" pages and placed in a labeled binder-box on the same shelf with the other scrapbooks and the newspapers previously described. One section of the binder-box contains post cards of Santa Ana and the Southern California area. The other section reflects his Army service with photos and documents. The documents could not be removed from the magnetic pages, unfortunately. There are also some miscellaneous items about himself and his family.
5. Mr. Swanner's collection of books on Orange County together with a few other areas of interest are located in the shorter range facing the boxed archival Collections area. The books have not been listed.
6. Certificates received (E 149X - E 154X) are located in the ephemera drawers in the flat case.
7. Patriotic Edition of the Santa Ana Register dated 2-28-18 and a single sheet, pages 3 and 4 of the Daily Evening Blade for 3-16-18 are located in Newspapers, Special editions, Box 2. Page 3 of the Blade gives the roster of Company L; page 4 is the editorial page of this final edition of the newspaper.

COLLECTION 9 (C9)

PAPERS OF THE SANTA ANA CHAMBER OF COMMERCE
1888 - 1984

BOX LISTINGS FOR THE COLLECTION
LISTINGS OF OTHER MATERIALS

INTRODUCTION

The papers of the Santa Ana Chamber of Commerce as described in this finding aid were received by the Santa Ana History Room in 1983-1984.

A short history of the Santa Ana Chamber of Commerce is available in Box 3, folder 1.

The bulk of the materials lies in the time period from the Chamber's fiftieth anniversary in 1938 to the late 1970s. The earliest item is a reproduction of a pamphlet issued in 1881; the latest is a newsletter dated 1984. Especially noteworthy are the many photographs (Boxes 1 and 2)(some with negatives), and slides (locked case) resulting from the activities of the Chamber of Commerce from the late 1950s to the early 1970s. Also of interest are a small group of early photographs (P 802 - P 807) by the Santa Ana photographer B.F. Conaway and a number of photographs in Box 2 by the Santa Ana photographer Edward W. Cochems (see: Cochems, Edward W., Santa Ana biography card for listing).

In arranging the materials, original folder headings were used wherever possible.

Other materials generated by the Santa Ana Chamber of Commerce but generally not received with this collection are available in the pamphlet file under Santa Ana. Chamber of Commerce or are noted in the Non-Book Index under Santa Ana. Chamber of Commerce.

SANTA ANA HISTORY ROOM
COLLECTION 9 (C9)

SANTA ANA CHAMBER OF COMMERCE

BOX LISTINGS

Box 4: Chamber of Commerce negative files

This box has been retired.

When Collection 9 was received from the Chamber of Commerce, there were negatives to deal with as the collection was arranged. These were placed in Box 4 as a holding point. They were organized by year if related to the photographs in Box 1 or by visible subject if related to the photographs in Box 2. In both cases, there was a large number of unidentified miscellaneous negatives.

After several years had gone by, Santa Ana History Room volunteers began the task of matching negatives to the prints in Boxes 1 and 2. Final matching was completed by staff. Negatives that could not be identified in some manner were discarded at this time.

Negatives of Collection 9 photographs made by Wayne Sorensen in the course of filling patron requests have also been added to the prints in Boxes 1 and 2. If the negative was made by Mr. Sorensen, this is noted on the label.

Box 4 is now a phantom. Its usefulness is past, but references to it may turn up in the Non-Book index or the Building and Business index to haunt us!

Note:

Negative folders related to Collection 9, Box 1 were numbered 4, 5, 7,
28 - 36

Negative folders related to Collection 9, Box 2 were numbered 23 - 38,
51 - 58, 60

And another note:

Negatives were properly separated from their prints in the 1990s
and stored in boxes especially for them.

SANTA ANA HISTORY ROOM
COLLECTION 12 (C12)

PAPERS FROM THE OFFICE OF THE CLERK OF THE SANTA ANA
CITY COUNCIL

LISTING BY TYPE OF MATERIAL

typed by volunteer
Rex Casteel, 1985

INTRODUCTION

Collection 12 (C12), papers received from the office of the Clerk of the Santa Ana City Council, arrived in the Santa Ana History Room beginning early in 1985. Deanna Clark, the Records Management officer for the City Clerk's office, was the person responsible for the transfer.

Not only were papers received but also a large collection of photographs, several maps, and a number of ephemeral items. These are noted on the Non-Book index subject heading card for SANTA ANA. OFFICE OF THE CLERK OF THE SANTA ANA CITY COUNCIL. Future contributions of this type will also be listed on that card.

A "finding aid" to the papers of Collection 12 has been developed and is located in the ~~Pam File under Santa Ana. Office of the Clerk of the Santa Ana City Council.~~ ^{Collections finding aid binder in the box storage area of SANR.} Original file folder headings are used, but original order (generally by year) has not always prevailed. One folder heading "Civic Center and Library sites: Communications, petitions, etc. 1953" was created from "Communications 1953" because of possible future interest; it is filed with the other subject-related folders from the original scheme.

An inventory of the Petitions and Protests section of the papers (1945 - 1947, 1949 - 1953) has been prepared by volunteer Ilene Aguirre. This details the subjects covered by the many petitions and protests of those years. It is located in the ~~Pam File with the "finding aid."~~ ^{Collections finding aid binder} for Collection 12.

In 1994 an uncovered box was left at the Reference desk; it contained copies of ordinances, resolutions and miscellaneous items with probable roots in the City Clerk's office; there was no explanation for the pine needles scattered throughout. These materials were added to Collection 12 along with Manuscript 170 (S170), a gift from Richard G. Ayotte comprising five folders of city ordinances. Also added were another gift from Mr. Ayotte, city resolutions formerly indexed as Manuscript 168 (S168) and Manuscript 169 (S169) and a purchased item, a city ordinance formerly indexed as Manuscript 82 (S82).

All city ordinances and resolutions are entered into the Non-Book Materials subject headings index (under subject headings Santa Ana. City Ordinances and Santa Ana. City Resolutions).

Abstract

The Let's Improve Santa Ana, L.I.S.A collection documents the activities of a voluntary organization dedicated to civic beautification, as well as environmental concerns and historical preservation. The documents in the collection were mostly generated by Mrs. Adeline Walker who was the executive secretary of L.I.S.A from the time of it's inception in 1967 to her death in September, 1985, and consequently reflect the organization during it's most fertile and active period. This organization, as well as Mrs. Walker were very prominent catalysts to the environmental movement and the grass-roots type organizations that took place in Santa Ana during the 1960's through the 1980's. They were also key players in the movement to preserve historical buildings in Santa Ana, the main accomplishments being the registration of the Old Orange County Courthouse as a historical landmark. As for their environmental activities, they sponsored year-round programs dedicated to planting trees, litter prevention, and public education on recycling and conservation.

The collection therefore offers research opportunities into the world of grass-roots civic organizations, local environmental movements, Santa Ana history, as well as those interested in urban history. This is mainly because the city of Santa Ana is the county seat of Orange County, and also one of the most urban cities in the County. In addition to this, those interested in women's studies might find Mrs. Adeline Walker a very fascinating study into the role of women as a vital and unwavering force in local grass roots organizations.

Acquisitions Information

The records of the Let's Improve Santa Ana, L.I.S.A organization were received in the Santa Ana History Room in October 1985. The records of L.I.S.A were previously in the custodianship of Mrs. Adeline Walker, the executive secretary and founding member of L.I.S.A. The L.I.S.A collection was donated to the Santa Ana History Room upon the death of Mrs. Walker in September 1985. It arrived along with another collection of Mrs. Walker's personal papers. Since Mrs. Adeline Walker, was one of the major proponents of developing a local history room in the Santa Ana Public Library, she had made her wishes known that she would like the Santa Ana History Room to be a repository for her personal papers, as well as those that she had custodianship over while at L.I.S.A.

Processing Information

This collection was processed by Cheryl A. Eberly, a senior library technician at the Santa Ana History Room. Processing was completed on December 17th 2002. Processing of these records were initiated as an independent study project for the SLIS LIBR 256 class on archives and manuscripts.

The guiding principle behind much of the processing decisions was that of provenance. In this regard, only items relating specifically to L.I.S.A activities, and L.I.S.A generated documents were archived and kept in the collection. Items that were more personal to Mrs. Walker and not L.I.S.A related were weeded out, and placed in the collection of her personal papers. There was some original order, but none that were well defined enough to follow strictly. Consequently, the only item that was kept in their original order, were those records that had been placed in a folder labeled "L.I.S.A beginnings". The records in this series were kept in order, but placed in a record series labeled "Organizational History". All other records, were then arranged in a functional order according to the internal and external activities that were generated by the organization.

Agency History

Let's Improve Santa Ana, L.I.S.A was formed on February 8, 1967. It was an independent, volunteer organization whose main mission was in developing a year round program "to stimulate and encourage the clean-up, beautification, and community betterment of Santa Ana". L.I.S.A was formed as an organization to continue and expand on the activities of the Santa Ana Civic Beautification Committee which was formed in 1955 and disbanded in 1966. In it's year round programs and civic beautification activities, L.I.S.A Worked with city to make Santa Ana a more attractive city and curb the tide of urbanization that was taking place.

The year round programs that L.I.S.A undertook began with their Arbor Day celebrations that took place in March. During their Arbor Day celebrations, L.I.S.A would embark on their tree planting activities throughout Santa Ana. Also during the month of March they would run the Miss Hibiscus and Sir Jacaranda competition. This was a competition was to select an elementary school girl and boy that participated in after school playground activities, and had done the most for civic conservation, beautification or preservation. In the month of April, L.I.S.A would have the Mayor of Santa Ana officially proclaim it "Let's Improve Santa Ana Month". During this month, they would have a kickoff luncheon, and run various programs to educate the public on civic beautification and improvement. They would speak at schools, meeting, and other forums. They would also run a recycling drive during this time. In May, L.I.S.A ran an Anti-Litter month campaign, where they would go run activities of dedicated to litter pick-up and prevention. In June, they would commence their cleanest alley competition where they would send their members out to judge various alleys throughout Santa Ana. Homeowners whose alleys were judged to be the cleanest were given gifts of Hibiscus shrubs, while the filthy alleys would be reported to the city, for clean-up measures. In September, L.I.S.A sponsored an annual essay writing competition that was open to junior high and high school students. The topics of the essay were usually related to issues of civic beautification, conservation, environmentalism and preservation. The winners of the competition were awarded \$100. In October, in commemoration of Santa Ana's Birthday, L.I.S.A. would throw a city birthday luncheon.

In addition to year round programs. L.I.S.A also sponsored various other projects and services. Some of note, are their observer report form program, where forms were distributed throughout the neighborhood that would aid the public in reporting instances of overcrowding, pollution, litter, public works breakdown, disrepair or blight. They could send the forms to L.I.S.A whose members would investigate the problem, then would alert the proper Santa Ana city department of the problem and have them take care of it. Also L.I.S.A sponsored various activities dedicated to Historic preservation. Some of their notable accomplishments was in the registration of the Old Orange County Courthouse as a state historical landmark, the inventory of historical houses and building in Santa Ana, the formation of a local history room in the Santa Ana public library, and the preservation of the Howe-Waffle house from demolition. L.I.S.A also was a public watchdog group that ensured the maintenance of public utilities by the Santa Ana department of public works. In this they made sure that traffic lights were working, billboards were within ordinance, pavements and city plants were maintained. They were a very dynamic and active group.

L.I.S.A. held monthly meetings at the Santa Ana Public Library at 3:30 in the afternoon of the 2nd Wednesdays to discuss their programs, and other items as freeway landscaping, city entrances, newspaper recycling, rooftop billboards, signs on telephone poles and trees, street lighting, bus terminals, preservation of historic homes and other matters. All in all at it's height from 1967-1985 it had a total of between 68 to 75 members. It had an administrative board that comprised of the president, executive secretary, and treasurer. Some presidents of note were Mrs.

Imo Randall, Mrs. Lila Dahl, Mr. Barry McPhee and Mrs. Everett Parks. While there were many different president's and treasurers in the organization during those years of it's height, the executive secretary was always Mrs. Adeline Walker who generated nearly all the records for the organization.

Mrs. Adeline Walker had been a resident of Santa Ana since 1915, and was the daughter of Mr. Cochems who was a prominent photographer in Santa Ana and the county. In addition to founding L.I.S.A., she was also the founder of the Santa Ana Historical Preservation Society. Even though she was one of the founding members of the organization, she never took on the role as president of L.I.S.A, instead choosing to dedicate herself to being the force behind the scenes. As one of the key catalysts, she set the pace for L.I.S.A as well as the tone of dedication that L.I.S.A had towards the civic improvement of Santa Ana. Upon her death in September 30th 1985, L.I.S.A as an organization lost its vital life force. They began floundering, and soon all of their major programs came to an end. By 1987, L.I.S.A no longer ran any of it's year round programs. It also stopped having it's monthly meetings, and began doing more work as volunteers for other civic beautification and historical preservation organizations. It however continued as an organizational entity until it was finally disbanded in 1992.

Sources:

- 1. Speech to the Santa Ana Woman's Club, Sept. 20, 1983**
- 2. Bulletin of L.I.S.A's year round activities, 1978**

- 4. Obituary, Orange County register 10/8/1985**

Scope and Content

The contents of the Let's Improve Santa Ana (L.I.S.A) collection were generated as part of the activities of the organization. Much of the activities of L.I.S.A was directed towards civic beautification which included such programs as their annual Anti-litter campaigns, Arbor day celebrations, and clean alley contests. There are also records that reflect some of L.I.S.A's other activities like historical preservation and also as their role as a watchdog group to ensure public works maintenance. In addition to reflecting the community programs and projects of L.I.S.A, the collection also includes administrative documents, as well as documents pertaining to the inception and history of L.I.S.A. The time period range of the records in the collection is from its inception in 1967 to 1985, the year of Mrs. Adeline Walker's passing. There are also some documents from 1955-1966, but these are a small portion, which contain documents related to the precursors to L.I.S.A. The geographical scope of the collection is confined mainly to Santa Ana, and some of major types of materials in the collection are correspondences, flyers, and activity records. The collection is particularly strong in its administrative and year-round programs records which reflect all the work that goes into running various civic beautification programs, as well as the contacts and bureaucratic issues that have to be navigated in order to successfully implement community wide programs, and generate interest and support. Consequently the L.I.S.A collection will be of particular appeal to those interested in local grassroots environmental organizations and movements. One of the items that would be worthwhile looking for those interested in environmental issues are the L.I.S.A Arbor day celebrations and anti-litter campaigns. For those interested in public history, the historical preservation papers will be of interest. Also for those interested in woman's studies since, Mrs. Adeline Walker presents an interesting study in the role of women in the grass-roots and environmental movement that were popular in the 1960's and 1970's. The one area that the collection is weak in is in the area of visual material, as there are no photographs in the collection depicting any of the activities of L.I.S.A. However there are a few photos that were included within the public works maintenance section that depict areas of Santa Ana needing work.

The L.I.S.A collection is organized into 5 series:

- Series 1: Organizational History, 1955-1983
- Series 2: Administrative Papers, 1967-1985
- Series 3: L.I.S.A Year-Round Programs, 1967-1985
- Series 4: L.I.S.A Projects and Services, 1967-1985
- Series 5: Cooperating Agencies, 1978-1984

Series Descriptions

Series #1. Organizational History. 1955-1983. 5.62 Linear feet.

The records in this series reflect the history of L.I.S.A and contain documents related to it's precursor the Santa Ana Civic Beautification Committee, and also foundational papers, like the notice, agenda and minutes of the first meeting of L.I.S.A on February 8 1967. It includes letters and notes on the founding members, and the steps that led to it's founding. The foundational papers are solely papers that were generated in 1967 during the first year of L.I.S.A. Included within the series on the organizational history of L.I.S.A are various historical writings describing the history and functions of L.I.S.A, and these range from material in the form of speeches, notes, outlines, and interview transcripts. . These were generated throughout L.I.S.A existence through the years of 1968-1983. The main geographical scope is Santa Ana. Some of the documents of interest to researchers would be the minutes of the first meeting, as well as the speech on the History of L.I.S.A that was given to the Santa Ana Garden Club by Mrs. Walker.

The items are arranged chronologically within each folder, with some consideration given to function and material type.

Series #2. Administrative Papers. 1967-1985. 10.51 Linear ft.

The records in this collection are comprised mainly of papers and items that were generated internally within the organization. They include items like membership papers, treasury records, meeting agenda and minutes, internal memos discussing upcoming activities, and hopeful happenings, publicity materials like flyers, brochures and ads, as well as correspondences between members and Mrs. Walker on various L.I.S.A related issues. The geographical scope of the material is the city of Santa Ana, and the time period is from 1967-1985. Some of the most significant documents in this collection are the membership lists, because they are reflective of the key player in Santa Ana civic beautification programs, and are also prominent members of the Santa Ana community of the time. Also, the meeting minutes offer interesting insight into the wide range of activities and amount of detail that L.I.S.A took in helping improve and preserve the beauty of Santa Ana.

The folders in this series are arranged according to material type, and then further arranged within subseries folder chronologically.

Series # 3. L.I.S.A Year-Round Programs. 15.63 Linear ft.

The records in this collection reflect the annual year-round monthly programs that were organized by L.I.S.A. Such programs like the Arbor day celebrations, Miss Hibiscus and Sir Jacaranda contests, Let's Improve Santa Ana month, Anti-Litter Campaign, Cleanest Alley Contest, school essay contest, and Santa Ana Birthday celebrations are held within this series. The types of materials that are representative

of this collection are correspondences, flyers, bulletins, lists, proclamations and various other types of publicity materials. The main geographical scope is Santa Ana with some parts extended to other cities in Orange County, and the time period is between 1967-1985. Some documents of interest to researchers would be the lists of trees planted throughout Santa Ana as part of the Arbor day celebrations. These trees form a long lasting testament to the successes of L.I.S.A. Also of note within this collection are the public education materials that were generated as part of the Anti-litter campaign.

The material within this collection are organized chronologically by monthly program activity, then records within each subseries folder is then further organized chronologically according to annual campaigns.

Series #4. L.I.S.A Projects and Services. 15.63 Linear ft.

The records in this collection are those that were generated as part of the projects and services that were performed or sponsored by L.I.S.A that were not part of any of their monthly annual programs, but were rather in addition to them. The activities represented in this collection reflect the broader scope and range of activities that L.I.S.A was interested in. Such activities like historical preservation and the promotion of the downtown development of Santa Ana is represented in this collection. Also in this collection, are activities that were more representative of the community watchdog role that L.I.S.A played in Santa Ana. There are records that were generated as part of their observer report form service, where the public were distributed with forms that they could fill out if they observed overcrowding, waste, litter, disrepair, blight or pollution in their neighborhood. In addition to the observer report forms, there are also records of L.I.S.A alerting and prodding the Santa Ana city public works department into providing adequate sidewalk and parkway maintenance, parking lot development, and improvement, and well as street light maintenance. Much of the material are in the form of correspondences, forms, and newspaper clippings. The geographical scope is Santa Ana, and the time period ranges from 1967-1985. Of particular interest would be the records of the registration of the Old County Courthouse as a historical landmark. Also of interest would be the various observer report forms which are a source to track the degree of improvement or decay of the areas noted.

The material in this collection are organized alphabetical into folders designated for the specific project or service. Within each subject folder, the materials are further organized chronologically, or by type of material, depending on the records.

Series #5. Cooperating Agencies. 15.63 Linear Ft.

The records in this series were generated as a result of various activities that L.I.S.A members participated in as volunteers that were not specifically sponsored by L.I.S.A, but were supported by them. In addition to volunteer activities, the records in this collection reflect some of the partnerships that L.I.S.A formed with these other agencies to form a better and more beautiful Santa Ana. Some of the agencies represented in this collection are the Santa Ana Historic Survey, the Santa Ana garden club, and the Old Courthouse Museum Society. The items are mainly in the form of correspondences, volunteer records, and newsletters. Researchers would find the historic survey forms of various building and

houses in Santa Ana very intriguing, and those researching the history of their house or a particular building will find this information useful. The geographic scope is Santa Ana, and the date range in the collection is from 1978-1984.

The items in this collection are organized alphabetically according to Agency, and within that subseries, the items are further organized according to type of material.

COLLECTION 20 (C 20) NOTES ON EARLY SANTA ANA FAMILIES; SLIDES
OF SANTA ANA HISTORIC HOMES AND BUILDINGS AND OTHER ORANGE COUNTY
LOCATIONS

The manuscript materials (Binder I) and slides (Binder II) in Collection 20 (C 20) were received by the Santa Ana History Room from Elsa Edwards in 1987. Mrs. Edwards is a life-long resident of Santa Ana and a descendant of the Ross family, early pioneers in the city.

The manuscript materials in Binder I were created by Mrs. Edwards to provide background information for the slide presentations on Santa Ana that she offered. Some are handwritten, others typed. In 1988-89 library volunteer Marie Walter carefully retyped each page; every care was taken to verify spelling and clarify vague references without doing harm to Mrs. Edwards' original intent. The original manuscript has been retained for comparison and follows the retyped pages.

When the manuscript mentions "now," it would mean the time that Mrs. Edwards put her notes together, a time period estimated to be the 1960s, as some of the slides in Binder II bear dates during that decade.

The slide collection, located in Binder II, includes Ross family and other early photographs translated into slide form. It also includes slides taken of historic houses and other buildings in Santa Ana, presumably by Mrs. Edwards, and used to illustrate her presentations. Some of the homes belong to people and families described in the manuscripts; some belong to other families, well-known and less well-known; some buildings are no longer in existence.

As staff time permits, the slide materials in Binder II will be noted in the Santa Ana Building and Business index Residences section, the Santa Ana biography index and in the Non-Book subject heading index where appropriate. Since this may be a long-term project, it is suggested that the typed list of slides and the slides themselves (fortunately nearly all identified) be scanned.

The manuscript materials in Binder I have been entered in the Santa Ana biography index under the name of the person or family described.

LATER NOTE:

In 1995 Mrs. Edwards' handwritten listing of her slides (located in Binder II) was typed by library volunteer Vivian Goble. The original list is stored inside the cover of Binder II.

Collection 26 (C 26) NAT H. NEFF PAPERS

Papers generated by Nat H. Neff from the early 1900s to the early 1970s and reflecting his professional and public life were given to the Santa Ana History Room by the City's Public Works Agency in December 1994. Elaine Steaffens was the contact person.

The papers have been arranged for use in the following manner:

- Biographical and personal papers, including resumes and clippings saved
FOLDERS 1 - 4
- Correspondence sent and received FOLDERS 5 - 19
- Community and professional organizations FOLDERS 20 - 25
- Professional and public life FOLDERS 26 - 54

Some of the headings on the folders were Mr. Neff's own; these have been placed in quotation marks.

Photographs were found in a few folders among the papers. These have been removed for preservation considerations and have been indexed from P 4495 to P 4513. Located in photograph drawer.

Most ephemeral items have remained in the collection, but a few have been removed to the Ephemera drawer and are indexed from E 669 - E 673.

Several oversize maps have been removed also; they are flattened and indexed at MOC 229X and MSA 139X.

A box listing for the collection has been prepared.

Collection 26 (C 26)

Nat H. Neff papers, 1888 - 1972

P 4566: Group photograph. Joel Ogle (4th from left), C.M. Featherly n.d. 8" X 10" Identification by Lecil Slaback, 1996

P 4567: C.M. Featherly and Orange County Marshal n.d. 8" X 10"

P 4568: George Christopher, Mayor of San Francisco, at annual meeting of Civil Defense, Disneyland Hotel. Photograph marked November, 1965. Left to right: David Baker, C.M. Featherly, Mayor Christopher, Bill Hirstein, William Phillips 3.5" X 3.5"

P 4569: Soil Conservation District, Mission Viejo Ranch picnic grounds off the Ortega Highway. C.M. Featherly on the right. Summer of 1965 3.5" X 5"

P 6570: Orange County's 75th anniversary celebration, 1964. Supervisor and Mrs. Bill Hirstein on the left, Supervisor and Mrs. C.M. Featherly on the right in front of the Old Orange County Courthouse. 8" X 10"

P 4571: Group photograph standing by an automobile. Unlabeled n.d. 8" X 10"

P 4572: Uniformed soldier (WWI?) Unlabeled n.d. 8" X 10"

These photographs are an interesting record of the types of activities Mr. Featherly took part in as an Orange County Supervisor. Used in conjunction with the clippings in another folder, we can see that he was very involved in the County's business.

The last two photographs appear to be from an earlier time, perhaps before he came to Santa Ana.

This listing was an attempt to describe the unlabeled photographs in the collection. Those marked "label attached" will have to be looked at individually by the patient user in order to determine their content.

Jim Pellisier brought 5 or 6 large boxes of material to the Santa Ana History Room on a hot day in October 1995. The contents included slides, photographs, negatives, brochures and other paper items. All these were the result of "architectural photography" and "construction progress photography" agreements Mr. Pellisier held with various construction companies from about 1987 - 1990.

Because of the great amount of material and in line with the donor's expressed wishes, decisions were made to retain Orange County projects only. Identifiable projects within the area, a reasonable number of slides shot from the same location within the project, materials in good condition were selection standards also. Representative copies of contracts for the projects were saved for their informational value.

The materials are located in:

Slide Box 4 in the slide box storage area on the south wall of the SAHR.

There are slides of construction progress at:

- John Wayne Airport
- Anaheim Convention Center
- MacArthur Place, Santa Ana

A file folder with material relevant to each of these projects accompanies the slides. Each folder includes a sketch map with numbered photographic locations; the slides in turn are numbered to correspond with these maps.

Other slides located in Slide Box 4 are:

- City Place North, Orange
- Sakioka Farms, Santa Ana
- San Juan Capistrano "new church"
- Main Beach at Laguna Beach
- KOCE studios, Huntington Beach
- Bristol Autoplex, Costa Mesa

Labeled binder shelved next to Slide Box 4.

The contents are a mix of slides, negatives, photographs and proofs for a number of construction projects in the county. Contracts for most of the projects are stored in a pocket at the back of the binder.

Projects included are:

- 17th and Broadway apartment building, Santa Ana
- Chaarani residence, Anaheim Hills
- City Place North, Orange (See also: Slide Box 4)
- Fix home, Corona del Mar
- Hyans home, Newport Beach
- La Grandeur home, Newport Beach
- Poitevent home, Newport Beach
- Conway home under construction, Newport Beach (?)
- MacArthur Place models, BCED staff, and color negatives of construction progress. See also: Slide Box 4.
- Office building, 1823 E. 17th Street, Santa Ana
- Villa Mar model homes, San Juan Capistrano
- Page of views of office and apartment buildings in Newport Beach and in Santa Ana, labeled 1989

- Folder 4 Zoo report: slide show script
- Folder 5 Memoranda

All materials were developed by Jack Lynch, former zookeeper.

FINDING AID
COLLECTION 31 (C31)

The Phil's Food Market Collection of photos and company records came to the Santa Ana History Room from Tim Rush. It covers the period from 1937 to 1945 and includes ration books from World War II.

The family name was Zlaket, and there are a number of persons with this name listed in the Orange County directory for 1940.

Phil's Food Market had an outside open area in the front where produce was displayed. The interior had the usual shelves, racks and glass cases. It was located at 1806 W. 1st Street, Santa Ana.

Box listing:

Folder 1	Monthly Business Ledger	November 1937 - February 1940	
Folder 2	March 1940 to sale of business inventory,	October 1945	
Folder 3	Photographs of Phil's Food Market, 1806 W. 1st Street, Santa Ana		
Folder 4	Miscellaneous business papers	1943 and undated	P4693 - P4698
Folder 5	Family ration books numbered 1,2,3,4		

See also:

E 686	Goggles marked with the name Phil Zlaket. Located in a marked drawer in the card catalog.

FINDING AID FOR COLLECTION 32 (C32)

SOUTHWEST BUILDING-LOAN ASSOCIATION and its successors, Santa Ana, California, 1928---

The papers of the Southwest Building-Loan Association were a gift to the Santa Ana History Room from the Santa Ana Historical Preservation Society in 1997. Nathan Reed came into the room wheeling two large cartons of materials as well as several poster-like displays of certificates and company information.

Many of the items in the boxes were loose; some items were in file folders; there was no particular order. There were a large number of snapshots of buildings and company events, some dated, some labeled. There was an especially nice set of large photographs of the "mortuary site," as one of the file folders identified the former Smith-Tuthill Building. These are located in 3 large envelopes on the top shelf of the storage cabinet, away from the collection because of their size. *These are labeled Coll. 32 Env. A, Env. B, Env. C.*

A basically chronological scheme was adopted for the arrangement of the papers. Original file folder headings appear in quotation marks.

Photographs were sorted but not all were saved. Many were placed in a photograph storage box-binder to accompany the papers and to give another perspective to them.

Negatives that arrived with the collection showing new headquarters' building progress in 1951 were numbered and stored in the SAHR negative box. (P 4688 - P 4692).

For some unknown reason, a silver-colored, decorated hinge-like item was sent with the papers. It has been processed as Ephemera (E) 757 and stored in a card catalog drawer.

Other miscellaneous items received with the collection are:

- a portrait of an unidentified man, signed by Cochems and dated 1946. It is located on the top shelf of the storage cabinet with the oversize photos of the "mortuary site."
- a large "spread" on the Allison Honer Co. which is located in folder 6 of the collection. A second unfolded copy is currently residing in the Flat case, drawer 2.
- a brick, perhaps one from Cliff Benson's beloved Old County Courthouse, which now sits on the SAHR desk.

FINDING AID
COLLECTION 33 (C33)

Collection 33 (C33), the papers of the Campbell family, was a gift to the Santa Ana History Room from Brett Franklin in 1998.

Through these papers saved by family members, we have a view of parents with three growing children living in Santa Ana in the late 1950s and early-to-mid 1960s. There is a brief glimpse of the 1940s when the mother and eldest child journeyed from Georgia to California to meet the father and begin a new life in the West.

The life for this family included church, PTA, and Boy and Girl Scout involvement as well as a full plate of school activities and college milestones for the children. This is reflected in the papers, programs and letters that were saved. Father was an Orange County Sheriff, and whether or not he knew "best" (as in the popular television show of the time), he and his family left a record of full participation in the Santa Ana of their day.

A box listing follows on the next page.

Note: A large number of weekly Sunday bulletins from St. Peter Evangelical Lutheran Church was received with the collection. The church office has assured us that they have a complete set of bulletins (including the late 1950s to mid-1960s) and so it was decided not to retain those items.

FINDING AID
COLLECTION 36 (C36)

Papers reflecting the lives of the Pickering and Fewell families of Santa Ana were left with the Library by an unknown donor and passed to the Santa Ana History Room in November 2000.

A keepsake box presented by Harrell and Brown Mortuary in Santa Ana contains the funeral records of Laura Pickering (1930) and George W. Pickering (1934) along with two books of verse. Laura Pickering's booklet is quite completely filled out and gives names of family and friends. The cards that came with the floral arrangements were saved by someone as were two snapshots of flowers on the coffin.

A Bible that arrived in a deteriorated condition was not saved, but the family pages were removed for the collection. They give us information on the Pickering's daughter Olive ("Ollie") and her husband, Archie V. Fewell (see also: Armor, 1921 edition, p.1577) and their children. Other members of the Pickering family are noted on the last of the Bible pages.

A large number of postcards came with the collection. Those that were unwritten were passed on to other institutions, but the few that were written and dated give us a glimpse of the A.V. Fewell family in Arizona (1929, 1930) and also traveling east to New York. Another card mailed in 1937 shows a Santa Ana address.

A group of snapshots and several portraits completed the gift; unfortunately none was labeled and these were regrettably discarded.

Abstract

The Archibald Napoleon Zerman collection is made up of family documents, including correspondence, personal letters, and photographs. Archibald Napoleon Zerman is featured heavily in the collection. Other family members are also represented, such as Admiral John Napoleon Zerman. Many of the items depict life in Santa Ana starting in the early 1900s.

Administrative Information

Access

Collection is open for research.

Publication Rights

Copyright has not been assigned to the Santa Ana History Room, Santa Ana Public Library. All requests for permission to publish or to quote from manuscripts must be submitted to the Santa Ana History Room Supervising Librarian. Permission for publication is given on behalf of the Santa Ana History Room as the owner of the physical items and is not intended to include or imply permission of the copyright holder, which must also be obtained.

Preferred Citation

Collection 41 (C 41). Archibald Napoleon Zerman Collection. Santa Ana History Room.

Acquisitions Information

The records of the Archibald Napoleon Zerman Collection were received in the Santa Ana History Room on May 24, 2006. The records in this collection were previously held by Fred A. Zerman.

Processing Information

The collection was processed by Lizeth Ramirez, a library assistant, at the Santa Ana History Room. Processing was completed on June 9, 2006.

Biographical History

The Archibald Napoleon Zerman collection consists of family documents, including correspondence, personal letters, and photographs. A few members of the Zerman family are featured prominently. Most notable is Archibald Napoleon Zerman, who was a Santa Ana resident. The collection includes items about his grandfather and father.

Archibald's grandfather was Admiral John Napoleon Zerman, who was born in Venice, Italy in 1790. After a varied military career in Europe, he arrived in New York in 1848 and was naturalized in 1858. In 1861, at the age 71, the Admiral's military services were accepted by then President Abraham Lincoln. In the midst of the Civil War, the Admiral served as Inspector General with the rank of Colonel in 1862. He had one son, Emmanuel Napoleon Zerman, who was married to Virginia Marguerite Zerman. They were the parents of the aforementioned Archibald and his brothers Victor Emmanuel, Richard Francis, and Frederick Alexander.

Archibald was born in San Francisco on March 16, 1873. He married Maude Johnson on November 24, 1900. They moved to Santa Ana and resided there, and in Garden Grove, for 72 years. They had one daughter, A. E. "Flossie" Zerman (later Confer).

Upon his move to Santa Ana, Archibald attended the Orange County Business College and later became a pioneer merchant in the city. One of his business ventures saw him as owner of Zerman's Feed Store. He participated in many city organizations such as the Santa Ana Chamber of Commerce, the Merchant Association, and the Santa Ana Kiwanis Club. He was also a decorated member of the local Masonic order, having participated for over fifty years.

The items in this collection were donated by Fred A. Zerman.

Scope and Content

The Archibald Napoleon Zerman Collection contains varied family documents and photographs. The items in the collection are in several languages, English, Spanish, and French. The collection contains information about the city of Santa Ana in the early 1900s. The civic and commercial participation of Archibald Napoleon Zerman is featured heavily. There are several newspaper clippings celebrating Archibald's wedding anniversary, his participation in the local Masonic chapter, and obituaries at the time of his death.

Other items in the collection details some of the Zerman family history. An interesting figure in the family is Admiral John Napoleon Zerman, an experienced and worldly military man, who was born in Venice, Italy, but later moved his family to the United States of America. The Zerman family is also present in the form of correspondence and photographs.

Additional items touch upon the history of the time and family activities, as demonstrated by the inclusion in the collection of an article about the Bonaparte family, a contract signed by Emmanuel Napoleon Zerman in the American Consulate in Mexico, and a French passport.

The collection is organized into 5 series:

- Series 1. Correspondence, 1871 and undated
- Series 2. Photographs, 1914-1950 and undated
- Series 3. Newspaper clippings, 1891-1957
- Series 4. Contract, 1871
- Series 5. Miscellaneous items, 1898-1957 and undated

Series Descriptions

Series 1. Correspondence. 1871, and undated. 1 folder.

This series is comprised by four letters addressed to various Zerman family members. Three of these letters are written in French, while the fourth is in English. Two of the letters bear the same wax seal. This series also includes an envelope.

The items in this series are arranged chronologically where possible and then by number (two of the letters are numbered sequentially).

Series 2. Photographs. 1914-1950, and undated. 1 folder.

The photographs included in this series vary in format, color, and size. The majority of the photographs are black and white and feature family members. Three of the photographs seem to depict well-known figures of the time that were printed to be sold. Two photographs in the collection are oversized and depict Emmanuel Napoleon Zerman and Virginia Marguerite Zerman.

The items in this series are arranged chronologically where possible. The two oversized items are housed separately.

Series 3. Newspaper clippings. 1891-1957. 1 folder.

The items in this series consist of newspaper clippings about Zerman family members. The only exception is an article about the Bonaparte family.

The items in this series are arranged chronologically.

Series 4. Contract. 1871. 1 folder.

This series is composed of a contract signed by Emmanuel Napoleon Zerman at the Consulate of the United States of America in Mexico City. The contract is written in Spanish and was signed in 1871.

Series 5. Miscellaneous items. 1898-1957, and undated. 1 folder.

This series includes prayer sheets, a handout from Archibald Napoleon Zerman's funeral, a school certificate, and a constitution of the Campagne Française de Cincinnati in French. Included in this series is an oversized French passport in the name of Melanie Pernet.

The items in this series are arranged chronologically where possible. The oversized item is housed separately.
