
RADIO CALL SIGN NUMBERING SYSTEM

8010.1 PURPOSE

The departmental radio unit designation list outlines the numbering system and provides a guide for each member of the department. The system specifically identifies personnel throughout the organization, who need radio access, by bureau, division, team and watch/assignment. The uniformity established by the system aids in the storage and correlation of data for later retrieval.

Proper use of the numbering system fulfills the operational needs of the department as well as providing a valuable statistical bank for all divisions.

8010.2 INTRODUCTION

The Computer-Aided Dispatch (CAD) system is an interactive electronic emergency dispatching support system designed to increase call handling efficiency and augment field productivity. The numbering system is an integral element within the CAD system.

8010.3 IMPLEMENTATION

Specified personnel are assigned a number identifying their assignment. The identifier is used for the entire duration of that assignment. Sergeants are assigned numbers in increments of ten (10) beginning with ten. Corporals are assigned numbers in increments of ten (10) beginning with eleven.

Remaining numbers are assigned according to seniority within the district or unit.

Examples: Sergeant Smith is assigned number 31-310. The number identifies the user as being assigned to watch 3, West End district (1, 2) and the (0) indicates a sergeant. Sergeant Smith will remain number 31-310 until the next shift change.

Officer Jones is assigned number 31-132. The number identifies the user as being assigned to watch 1, Northeast district (3, 4) and first in seniority after the district sergeant and/or corporal. Jones' number will remain the 31-132 until the next shift change.

8010.4 TACTICAL ALERT/MUTUAL AID RADIO CALL SIGNS INSIDE AND OUTSIDE THE CITY

If mutual aid is requested, Santa Ana units shall change to the following call signs.

Examples: A lieutenant from our city would become 31-A100, a sergeant would be 31-A110 and a corporal would be 31- A111. A lieutenant from station 18 would become 18-A100, a sergeant would be 18-A110 and a corporal would be 18-A111.

When Santa Ana Police Department units respond outside our city to a request for mutual aid, a "Code Charlie Checkmate" or a "999" will be issued. They shall then change their radio call signs according to these as directed.

8010.12 SUMMARY

These procedures outline the guideline for the Radio Numbering System at the Santa Ana Police Department. It also provides a current list of call signs, which are currently in use and assigned to departmental personnel.

If any operational changes to these guidelines are necessary, they should be brought to the attention of the Communications Manager in order to keep these guidelines current.
