## Proposed New Miscellaneous Fees FY 2020-21

## Proposed New Miscellaneous Fees FY 2020-21

### Planning and Building Agency

1. Entitlement Application Extension

Existing Fee: None  
Proposed Fee: \$2,508.32

SAMC Sec. 41-647 provides for entitlement extensions up to three years from the original two-year expiration time-frames. Extension requests must be considered by the City Council, which requires preparation of an RFCA and staff time. This fee reflects staff time spent preparing the RFCA for City Council consideration.

2. Historic Register Removal/Demolition

Existing Fee: None  
Proposed Fee: \$5,739.81

SAMC Sec. 3-7 provides for requests to demolish properties on the historic register. These requests must be considered by the Historic Resources Commission, which requires preparation of a staff report and staff time. This fee reflects staff time spent preparing the RFCA for City Council consideration.

### Public Works Agency

3. Water Capacity Fees

Existing Fee: None  
Proposed Fee: See table

Meter Size	Calculated Capacity Fee
5/8"	\$930
3/4"	\$1,395
1"	\$2,325
1.5"	\$4,650
2"	\$7,440
3"	\$16,275
4"	\$27,900
6"	\$62,775

This new impact fee was a recommendation of the 2019 Water, Recycled Water, & Sewer Rate Study, and will be charged to all new developments where a connection to the City's water system will be established. There is currently no fee for this procedure within the Water Resources Division. This differs from the "Install New Water Service Meter" fee in that it is designed to fund the entirety of the water delivery infrastructure, not just the water meter hardware. The fees shown in the table below are calculated based on the demand the customer will place on the system, which is measured by size of the customer's water meter.

## Proposed New Miscellaneous Fees FY 2020-21

### CONTINUE - Public Works Agency

#### 4. Annual Small Cell Compliance Inspection & Program Oversight Fee

Existing Fee:               None  
Proposed Fee:             \$258.71

This is a partial labor cost recovery fee for the newly instituted small cell antenna program. It includes cost recovery for yearly inspections of the small cell antennas on City facilities and the administrative functions required to carry out that task.

#### 5. Capital Improvement Program (CIP) Construction Permit Deposit

Existing Fee:               None  
Proposed Fee:             \$349.19 + up to 8.75% of Contract Amount

A fee (deposit) will be charged to issue a Construction Permit to contractors before starting work on a City Capital Improvement Program project. The fee is to cover the cost of the City to perform administration of the City's Construction Workforce Agreement (CWA).

The actual and final fee will be calculated and reconciled with the amount on deposit after completion of each construction project, and the contractor will be refunded any unused amount on deposit, or Contractor shall pay the City the any amount due.

The final fee shall be based on the cost of city staff time or a consultant to administrate the CWA for each corresponding project. Staff time will be on approved hourly cost recovery rates. Consultant costs shall be based on actual time billed against each project at approved consultant rates.
