RE: EIP Job No. 10950-01, Metro East Mixed Use Overlay Zone, City of Santa Ana

Dear Ms. Morris,

As per your request received on April 19, 2006, an expedited records search was conducted for the above referenced project. The search includes a review of all recorded archaeological sites within a 1/2-mile radius of the project site as well as a review of cultural resource reports on file. In addition, the California Points of Historical Interest (PHI), the California Historical Landmarks (CHL), the California Register of Historical Places (CR), the National Register of Historic Places (NR), and the California State Historic Resources Inventory (HRI) listings were reviewed for the above referenced project site. The following is a discussion of the findings.

Due to the sensitive nature of cultural resources, archaeological site locations are not released.

Tustin and Orange, CA USGS 7.5' Quadrangles

ARCHAEOLOGICAL RESOURCES:

No archaeological sites have been identified within a 1/2-mile radius of the project site. **This does not preclude the potential for archaeological sites to be identified during project activities.** No isolates have been identified within a 1/2-mile radius of the project site.

HISTORIC RESOURCES:

Fifteen additional cultural resources (30-176575, 30-176576, 30-176577, 30-176578, 30-176579, 30-176580, 30-176581, 30-176582, 30-176583, 30-176584, 30-176585, 30-176586, 30-176587, 30-176588, and 30-176589) have been identified within the 1/2-mile radius of the project site. No cultural resources are located within the project site.

A review of the historic map(s) – Anaheim (1896, 1942) 15' USGS – indicated that in 1896, a network of improved roads, scattered structures, the Southern Pacific Railroad (Santa Ana Branch and Los Angeles and San Diego Branch), the Atchison, Topeka, and Santa Fe Railroad (San Diego and San Bernardino Branch), and the Southern Pacific Railroad (Tustin Branch) were present. By 1942, roads increased, structures increased, and only the Southern Pacific Railroad (Santa Ana Branch and Los Angeles and San Diego Branch) remained.

The California Point of Historical Interest (2006) of the Office of Historic Preservation, Department of Parks and Recreation, lists no properties within a 1/2-mile radius of the project site.

The California Historical Landmarks (2006) of the Office of Historic Preservation, Department of Parks and Recreation, lists no properties within a 1/2-mile radius of the project site.

The California Register of Historical Places (2006) lists 2 properties within a 1/2-mile radius of the project site (see below). These are properties determined to have a National Register of Historic Places Status of 1 or 2, a California Historical Landmark numbering 770 and higher, or a Point of Historical Interest listed after 1/1/1998

Tustin Quadrangle- 30-162095- OR Artz Bldg. 150--158 W. Main St. Tustin

The California Historic Resources Inventory (2006) lists 119 properties that have been evaluated for historical significance within a 1/2-mile radius of the project site (see enclosed list).

PREVIOUS CULTURAL RESOURCES INVESTIGATIONS:

Eleven studies (OR508, OR760*, OR814*, OR879*, OR1655, OR1902, OR1940, OR2024, OR2256*, OR2451, and OR2452) have been conducted within a 1/2-mile radius of the project site. Of these, four are located within the project site. There are 14 additional investigations located on the Tustin and Orange 7.5' USGS Quadrangles that are potentially within a 1/2-mile radius of the project site. The reports are not mapped due to insufficient locational information.

(* = Located within the project site)

RECOMMENDATIONS

Due to the lack of cultural resource studies for the project site and in order to avoid damaging any unidentified cultural resources, a qualified archaeologist should be retained to monitor all ground disturbing activities.

Additionally, If any building(s) 45 years and older will be affected by the proposed project, it is recommended that the building(s) be assessed and evaluated for potential historical significance.

The professional archaeologist / architectural historian you retain may request the records search map, archaeological site records, and bibliography from the Information Center by referencing the SCCIC number listed above for a fee (per the fee schedule).

If you have any questions regarding the results presented herein, please contact the office at 714.278.5395 Monday through Thursday 8:00 am to 3:30 pm.

Should you require any additional information for the above referenced project, reference the SCCIC number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Sincerely,
SCCIC

Re: Cultural Resource Identification Study/Sacred Lands File Search for Proposed Metro East Mixed Use Overlay Zone Project in Santa Ana (EIP Project #D20950.01); Orange County, California

Dear Mr. Capata:

The Native American Heritage Commission was able to perform a record search of its Sacred Lands File (SLF) for the affected project area. The SLF failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the Sacred Lands File does not guarantee the absence of cultural resources in any 'area of potential effect (APE).'

Early consultation with Native American tribes in your area is the best way to avoid unanticipated discoveries once a project is underway. Enclosed are the nearest tribes that may have knowledge of cultural resources in the project area. A List of Native American contacts are attached to assist you. The Commission makes no recommendation of a single individual or group over another. It is advisable to contact the person listed; if they cannot supply you with specific information about the impact on cultural resources, they may be able to refer you to another tribe or person knowledgeable of the cultural resources in or near the affected project area (APE).

Lack of surface evidence of archeological resources does not preclude the existence of archeological resources. Lead agencies should consider avoidance, as defined in Section 15370 of the California Environmental Quality Act (CEQA) when significant cultural resources could be affected by a project. Also, Public Resources Code Section 15064.5(f) and Section 15097.98 and Health & Safety Code Section 7050.6 provide for provisions for accidentally discovered archeological resources during construction and mandate the processes to be followed in the event of an accidental discovery of any human remains in a project location other than a 'dedicated cemetery. Discussion of these should be included in your environmental documents, as appropriate.

If you have any questions about this response to your request, please do not hesitate to contact me at (916) 653-6251.

Sincerely,

Dave Singleton, Program Analyst
