

### **Environmental Justice**

in the City of Santa Ana General Plan

**ENVIRONMENTAL JUSTICE** IN THE SANTA ANA GENERAL PLAN

This presentation will provide an overview of:

- What is environmental justice?
- Issues facing our communities
- Potential ways to improve conditions for current and future residents.

### What is environmental justice?

### What is environmental justice?

Some communities bear a disproportionate burden of pollution and health risks

Environmental justice (EJ) seeks to correct this inequality

Saddleback View residential neighborhood adjacent to the Santa Ana Freeway. As southern California grew, so did the traffic and roadways. Now, many live along arterials and freeways where thousands of cars and trucks pass by every day, exposing residents to air pollution.

### **Community-driven environmental justice**

Long history of Santa Ana residents advocating for and making their communities safer and more equitable

Fairview Triangle Park

### Community-driven environmental justice

In 2012, three areas along the Santa Ana River were repurposed into small pocket park and bike trails. These improvements brought open space to residents living nearby, such as those in the Artesia Pilar neighborhood.

### Planning for Healthy Communities Act (2016)

### Environmental justice becomes a mandatory topic for a jurisdiction's General Plan.

### SB 1000 Implementation Toolkit

**Planning for Healthy Communities** 

## What does SB 1000 require?

Cities and counties to update public policies for disadvantaged communities in order to:

- Reduce unique or compounded health risks
- Promote civil engagement in the public decision-making process
- Prioritize improvements and programs

Pacific Electric Park and Community Gardens Photo courtesy of Lisandro Orozco

## What is a disadvantaged or EJ community?

### What is a disadvantaged or EJ community? Combination of:

High risk of exposure to pollution in the air, water, or soil

Residents burdened by socioeconomic and health issues

# What is a disadvantaged or EJ community?

High risk of exposure to pollution in the air, water, or soil

Residents burdened by socioeconomic and health issues

Located near freeways, major roads, and/or industrial uses

## What is a disadvantaged or EJ community?

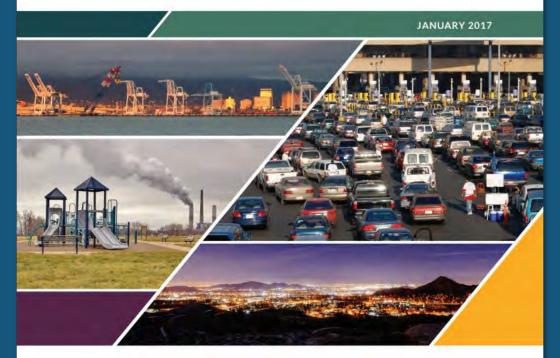

Areas with residents that face the greatest combination of pollution, health, and socioeconomic issues.

Generally receive less investment from people, businesses, and agencies, leaving residents with fewer resources and inequitable opportunities for a healthy and prosperous life.

UPDATE TO THE CALIFORNIA COMMUNITIES ENVIRONMENTAL HEALTH SCREENING TOOL

Matthew Rodriquez Secretary, California Environmental Protection Agency

## What are some issues facing Santa Ana residents?

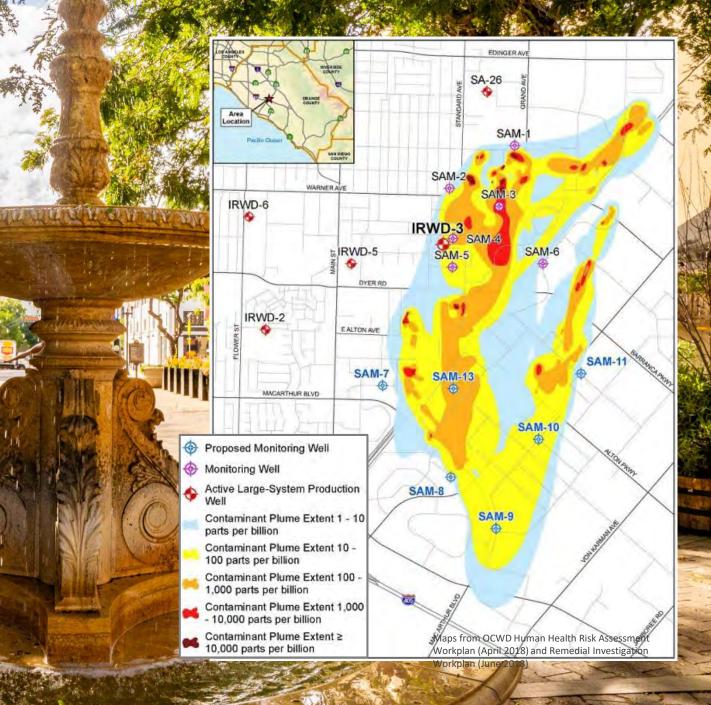

### Water quality

Groundwater contamination in industrial area of southeast Santa Ana

Increase reliance on more costly imported water

Multi-agency effort to fix contamination issues

WATER BOARDS Santa Ana - R8

### Lead contamination

Potential contaminant in our soil and water

Test-Soli

122 99

258

18

Teter

No known safe level of lead exposure

Local soils testing since 2016

### Land use compatibility

Some neighborhoods in Santa Ana must contend with the impacts of living nearby industrial districts

Proximity to trash sorting facilities, auto service and salvage businesses, metal processing, chemical plants, and crematorium

### Local air quality

\$185K Community Air Grant obtained by Madison Park neighborhood

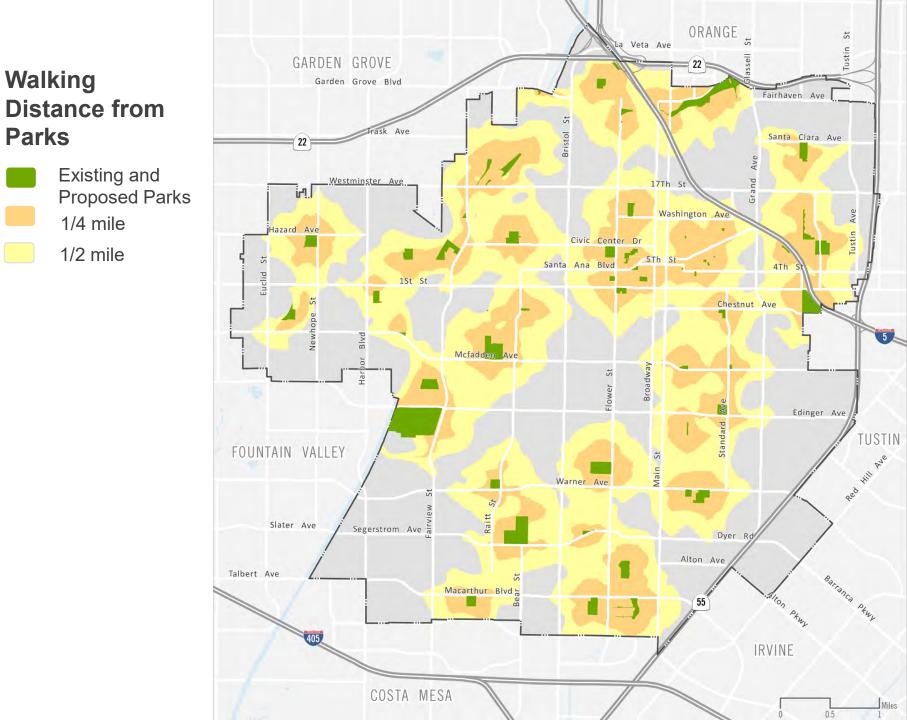

Community-led air quality monitoring and increased awareness of air quality concerns

### Parks and recreational resources

Santa Ana has many parks and other recreational resources

Still, many residents want more parks, especially within walking distance of their homes

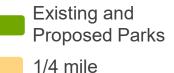

### Parks and recreational resources

New parks that serve EJ communities

\$6.2 million in grants for three new parks

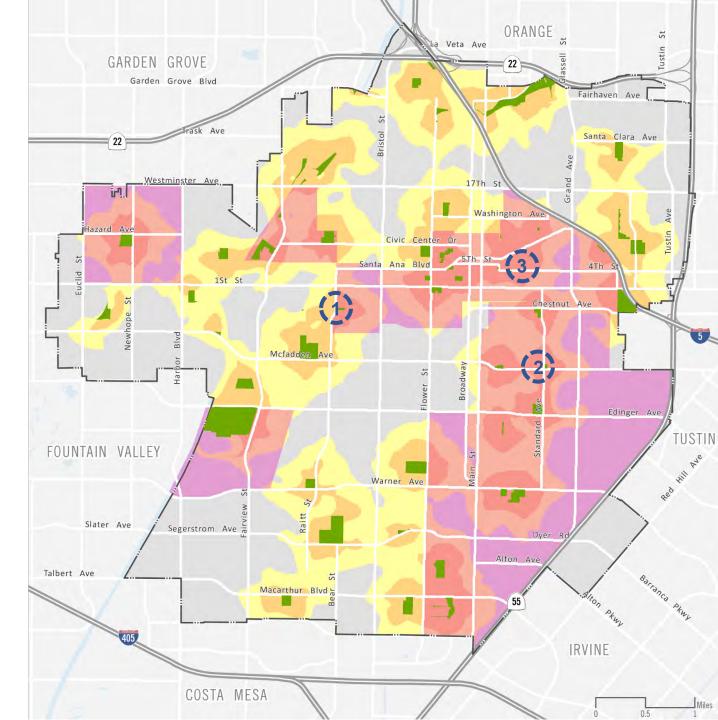

1/2 mile

Raitt & Myrtle

(2) McFadden & Standard

### What changes are proposed?

The City is considering changes to its goals, policies, and actions that will improve existing and future conditions for all of Santa Ana, with a focus on those in greatest need of help and protection.

Consistent with our General Plan Shared Vision and Core Values, the potential changes will emphasize the following six approaches:

## Reducing exposure to pollution

Develop strategies and support regulations that will help reduce exposure to air pollution and hazardous materials.

All the second and the second second

DOWNTO

# Reducing exposure to pollution

### **POTENTIAL ACTION** Coordinate with SCAQMD

Coordinate with SCAQMD and local stakeholders to purse a Priority Community designation for eligible environmental justice areas of the City

A clear view of the mountains over Santa Ana Photo courtesy of Lisandro Orozco

12 Martin De Constant

## Improving public facilities

Increase access to community health facilities, parks, community centers, and other public services and facilities, particularly in underserved areas.

# JOE MACPHERSON CENTER FOR OPPORTUNITY

BOYS & GIRLS CLUB OF SANTA ANA

GREAT FUTURES START HERE

## Improving public facilities

**POTENTIAL ACTION Conduct a Community** Survey in 2021 (and every 3 years after) related to community health, air quality concerns, and community service needs, with focused outreach to environmental justice areas.

BOYS & GIRLS CLUB OF SANTA ANA

# Promoting healthy food

Improve the health and wellness of all residents through policies, regulations, and programs that foster healthier food options.

## Promoting healthy food

POTENTIAL **ACTION** Identify neighborhoods with limited healthy food sources and prioritize for development of healthy food options (i.e., grocery stores, farmers markets, and community gardens).

# Creating safe and sanitary housing

Add to existing efforts to reduce health hazards associated with construction materials, building standards, and deferred maintenance.

-----

# Creating safe and sanitary housing

**POTENTIAL ACTION** Collaborate with residents and industry stakeholders to create an incentive and amortization program to relocate existing heavy industrial uses adjacent to sensitive uses.

## Increasing physical activity

areas.

Establish new opportunities for outdoor and indoor recreation as part of a comprehensive and integrated network of spaces and facilities, with a focus on underserved areas.

# Increasing physical activity

Complete citywide Parks and Recreation Master Plan to identify strategies to provide additional parks, recreational facilities and activities

# Enhancing civic engagement

Increase the amount and quality of community engagement throughout the planning, development, and operation of our communities and City.

# Enhancing civic engagement

### **POTENTIAL ACTION**

Create an Environmental Quality **City Interagency Team** and website for vetting community concerns, sharing information, and supporting a forum to address air quality and environmental hazards issues

**DRAFT GOALS & POLICIES** 

The latest draft goals, policies, and implementation actions will be made available on the City's website in August 2020.
