## Free Response Summary

Comments are listed in verbatim. Comments in parenthesis were added for clarity.

1. I see a lot of near collisions by where I work on Broadway and 4th maybe have an all-way red light to allow pedestrians to cross in all directions at once like old town Pasadena
2. Surveying all sectors of the community is important, especially children and/or school officials in the area. There are a lot of children and it would be great to know how they use the streets and what they need for their safety and overall well being.
