

Manuel "Manny" Escamilla
City Planner

For 14 years I worked for the City of Santa Ana as a librarian, city planner, and in the City Manager's Office. I'm a proud SAUSD graduate who earned a BA from UC Berkeley, Master's of Library & Information Science and a Master's of Urban & Regional Planning from UCLA.

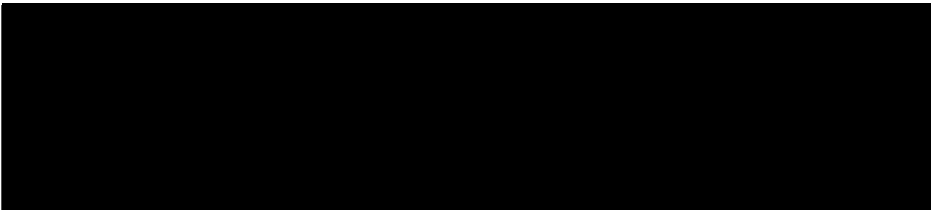

My priorities include increasing affordable housing by defending rent control, creating locally owned housing, and funding medical/mental health treatment for the homeless. I'm committed to creating a safer city by prioritizing existing resources to homicide/violent crime investigations, reviewing the effectiveness of current spending, removing lead pollution, and safer-slower residential streets. I believe in investing in our youth through a new library at Delhi, reopening the McFadden library, cleaning our current parks, building new parks, and partnering with schools for youth programs. With your help we can lower the sales tax and vote on a city wide parking permit plan.

Our campaign is proud to have earned the support of Mayor Sarmiento, neighborhood leaders, and local unions. I believe that working for you requires humility, an open mind, and commitment to being a public servant.

I humbly ask for your support.
