

Phil Bacerra
Santa Ana City Councilmember

Thank you for the opportunity to serve my fellow Santa Ana residents for the last three years as your City Councilmember. Since being elected to the Santa Ana City Council in 2019, I have:

Increased the number of police officers patrolling our streets

Increased funding for improvements to our fire stations

Secured dedicated funding for sidewalk repairs and construction that did not previously exist

Reduced the costs of opening and operating businesses in Santa Ana

Initiated a study to update the City's parking permit program policies

Initiated litigation against organizations that have allowed homeless encampments and criminal activities

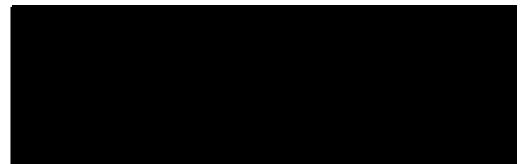

If elected to serve for another term on the Santa Ana City Council, I will:

Take further action to get the homeless off our streets

Protect our community by increasing resources for our Police and Fire Departments

Create more economic opportunities by actively advocating for business-friendly policies

I believe that our city is a wonderful place, but there is much more work that needs to be done. My wife and I are proud homeowners and are dedicated to doing the necessary work it will take for Santa Ana to truly be the Golden City.
