

Sally Lieber  
456 Sierra Avenue  
Mountain View, CA 94041

Dear Members of the City Selection Committee,

Please accept my letter of interest for appointment to be the South Representative to the Bay Conservation and Development Commission.

I have extensive experience in policies and agencies impacting the protection and use of the Bay and access of communities around the Bay to recreation, trails, and Bay education.

In the State Assembly, I authored legislation to create the San Francisco Bay Restoration Authority, with representation and involvement from restoration agencies, community organization, and the business community throughout the Bay.

As a part of the Authority's Advisory Committee, I helped structure Measure AA to help fund restoration projects around the Bay and have worked with my colleagues on that Committee, and through the Coastal Conservancy, to ensure that we have a coordinated and world-class effort moving forward.

During my previous service as a City Council member in Mountain View, I served on a blue-ribbon task force to map issues concerning future water transit on the Bay. I also worked with numerous community organizations on efforts to protect the Bay from toxic chemicals and enhance access around the Bay, and hosted a symposium, bringing together agencies at the local, state, and federal levels, to discuss wildlife access and the future of Bay protection.

I appreciate the opportunity to be considered and would value hearing from Members of the Selection Committee with any questions or input.

Thank you for your consideration,

A handwritten signature in black ink that reads "Sally J. Lieber". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Sally J. Lieber  
State Assemblywoman (Ret.)  
City Councilmember-Elect, City of Mountain View
