Drone Safety Awareness Week

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello Chairwoman!

Please see below for the SCSCRT's awareness.

Best,
Karen
Rep. Eshoo

Good morning,

This email is sent to staff members of the Arizona, California, Hawaii, and Nevada Congressional delegates on behalf of Raquel Girvin, Regional Administrator, Federal Aviation Administration (FAA), Western-Pacific Region.

In the spirit of continued communication and to keep you informed about aviation matters within the region, we wanted to make sure you were aware of the upcoming Drone Safety Awareness Week. We are also seeking your assistance in promoting the FAA's National Drone Safety Awareness Week. This is the third year for this annual event, which will be 100% virtual again this year and occurs September 13-19, 2021. Please pass this along or share it with any of your constituents who might be interested in or could benefit from drone safety education and information.

Please visit the event's website for more information about how you or your constituents can participate:

https://www.faa.gov/uas/resources/events_calendar/drone_safety_awareness/

The site provides a calendar for the week showing each day's currently planned events, information on registering your event, and graphics/logos available for your use. Please give consideration to hosting or participating in a drone safety awareness event during this week!
