

ORDER OF THE HEALTH OFFICER OF THE COUNTY OF SONOMA No. C19-15

STAY WELL SONOMA COUNTY

ORDER ADOPTING AND INCORPORATING THE STATE STAY AT HOME ORDERS AND GUIDANCE, AS WELL AS REQUIRING COMPLIANCE WITH COUNTY-SPECIFIC INDIVIDUAL AND BUSINESS MITIGATION MEASURES

DATE OF ORDER: JUNE 18, 2020

Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety Code § 120275, *et seq.*)

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, THE HEALTH OFFICER OF THE COUNTY OF SONOMA (“HEALTH OFFICER”) ORDERS:

1. Summary. Widespread compliance with the Sonoma County Health Officer’s COVID-19 Orders has been successful in “flattening the curve” and interrupting transmission of the virus. The Health Orders have been tailored to address the unique characteristics of the County’s economy and virus transmission. New State Orders now allow counties to expand reopening further into the Governor’s Recovery Roadmap which now includes gyms, fitness centers, movie theatres, entertainment centers, casinos, cardrooms, racetracks, bars, zoos, museums, galleries, aquariums, hotels and short term rentals (for tourism and individual travel), campgrounds, schools and school-based programs, and personal care services. Now that most businesses and activities have been allowed to reopen, the Health Officer is amending the shelter in place order to align the local order with the businesses and activities permitted to operate by the State. The intention is to reduce complexity and make it clear that staying healthy depends, in large part, on an individuals and businesses implementing mitigation measures and making choices to minimize activities that increase potential exposure to COVID-19.
2. County/State Order Alignment. This Order (found at www.socoemergency.org) allows the reopening of all businesses and activities in the County that are currently approved to operate under the State Stay at Home Order (<https://covid19.ca.gov/>), State and local guidance. (<https://covid19.ca.gov/stay-home-except-for-essential-needs/>) and sector specific guidance contained in Section 23 below, including under the business management plans approved by the Health Officer, in cooperation with the Economic Development Board (*see*, the “SoCo Launch” website at <http://sonomaedb.org/>). All

current and future businesses and activities are subject to local sector specific guidance and restrictions in this Order, including Social Distancing and Hygiene Requirements, Face Coverings Requirements (Appendix B), and the preparing, posting, and implementing of a Social Distancing Protocol & COVID-19 Site-Specific Protection Plan, attached to this Order as Appendix A.

3. Personal Risk-Based Assessment. The State has opened the door to resumption of a wide range of businesses. It would be a mistake if this was seen as a return to normal. The virus is not contained. There is still a clear and present danger to the community by its continued transmission. This is especially true for indoor activities, when individuals are at close quarters, interacting with greater numbers of people, and/or are interacting with non-household members for longer durations.

The evidence shows that a significant percentage of virus transmission is from people who are asymptomatic or have very mild symptoms. Health screenings may not detect these individuals. While a given activity may be allowed, the Health Officer advises that community members conduct their own risk-based assessment of what activities are appropriate, especially those who have underlying medical conditions, people age 65 or older, or who are otherwise vulnerable (<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/index.html>). The Health Officer recommends that individual utilize the CDC Deciding to Go Out decision-making tool to help them make a personal decision about the risk of any given activity (<https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/activities.html>).

4. Stay Well Sonoma County. As detailed in this Order, while a given activity may be one that is now conditionally allowed, each activity carries its own set of risks and is subject to local and State requirements for social distancing, hygiene, and face covering, as well as any sector specific guidance or business management plans. It is up to the business owners, organizers and participants in any given activity to understand and follow the public health guidance that applies to that activity for the protection of employees, customers, and the public, and to cooperate with public health enforcement and disease control unit/contact tracers to help limit the spread of the virus.

While certain indoor activities and businesses are allowed in this Order to operate, such as retail, restaurants, and faith-based gatherings, the science is clear that, to the extent that these activities can continue to be done outdoors (such as retail curbside pickup, outdoor dining or outdoor faith based services), or remotely via electronic means, the risk of virus transmission is lower and is therefore strongly recommended.

5. Health Officer Pandemic Strategy. The Health Officer strategy at this point is to reduce the virus infection rate through a strategy of widespread testing, contact tracing to isolate infected individuals, quarantine of those infected, and aggressive implementation of mitigation measures such as social distancing, hygiene, face coverings, and implementation of sector specific business guidance and management plans. When infection clusters are discovered in businesses, the current plan is to temporarily close the

businesses to prevent additional spread and allow for deep cleaning rather than close down a business sector. Success will only be possible if individuals comply with these Orders and businesses conscientiously implement the required local and State Guidance and business management plans. Data regarding the COVID-19 Indicators (Section 11), especially the rate of hospitalizations or deaths, could change this approach.

The only way we can all continue to live with COVID-19 is with efficient and effective contact tracing that can quickly identify, notify, and seclude sick and exposed individuals. All businesses and individuals must do their part and cooperate with public health disease control unit/contact tracers. To that end, businesses are strongly encouraged to keep a list of employees and attendees (for at least one month) to provide to public health in the event that a cluster of cases are discovered in the business.

6. Effective Period. This Order shall become effective at 12:01 a.m. on June 19, 2020 and will continue until it is extended, rescinded, superseded, or amended in writing by the Health Officer or the State Health Officer. Like the Governor's Executive Orders N-33-20 and N-60-20, this Order does not have a specific end date so that modifications can be made as necessary (either loosening or tightening restrictions) as changes in the data or State approach may dictate.
7. Supersedes Prior Orders. This Order supersedes the June 5, 2020 Shelter in Place Order of the Health Officer C19-14 ("Prior Shelter Order"). This Order balances the risk of increased transmission with the need to protect individuals at high risk of disease, as well as the social, emotional, and economic impact of certain restrictions. As of the effective date and time of this Order set forth in Section 6 above, all individuals, businesses, and government agencies within the County are required to follow this Order.
8. Purpose and Intent. The intent of this Order is to continue to slow the spread of COVID-19 to the maximum extent possible and mitigate the impact on delivery of critical healthcare services. All provisions of this Order must be interpreted to effectuate this intent. This Order also includes County specific restrictions, including Social Distancing and Hygiene Requirements in Section 21, Face Coverings Requirements in Section 22 and Exhibit B, and preparing, posting, and implementing a Social Distancing Protocol & COVID-19 Site-Specific Protection Plan, attached to this Order as Appendix A. Failure to comply with any of the provisions of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both.
9. Evidence and Data Driven Approach. This Order is issued based on evidence of continued community transmission of COVID-19 within the County and throughout the Bay Area; continued uncertainty regarding the degree of undetected asymptomatic transmission; scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically; evidence that the age, condition, and health of a significant portion of the population of the County places it at risk for serious health complications, including

death, from COVID-19; and further evidence that others, including younger and otherwise healthy people, are also at risk for serious outcomes. Due to the outbreak of the COVID-19 virus in the general public, which is now a pandemic according to the World Health Organization, there is a public health emergency throughout the County. Making the problem worse, some individuals who contract the virus causing the COVID-19 disease have no symptoms or have mild symptoms, which means they may not be aware they carry the virus and are transmitting it to others.

The scientific evidence shows that at this stage of the emergency, it remains essential to continue to slow virus transmission to help: (a) protect the most vulnerable; (b) prevent the health care system from being overwhelmed; (c) prevent long-term chronic health conditions, such as cardiovascular, kidney, and respiratory damage and loss of limbs from blood clotting; and (d) prevent deaths. At the same time, since the Prior Shelter Order was issued the County has made significant progress in expanding health system capacity and healthcare resources and in slowing community transmission of COVID-19. In light of progress on these indicators, and subject to continued monitoring and potential public health-based responses, it is appropriate at this time to allow additional businesses and activity to resume in the County.

10. Current County Data. The collective efforts taken to date regarding this public health emergency have slowed the virus' trajectory, but the emergency and the attendant risk to public health remain significant. This Order is issued in light of the existence of 803 cases of COVID-19 and 4 deaths in the County as of June 18, 2020. The cumulative number of confirmed cases continues to increase, though the positivity rate was stable in the days leading up to this Order. Evidence suggests that the restrictions on mobility, social distancing, hygiene, and face covering requirements, as well as any specific protocols or business-specific guidance, have been effective in slowing the rate of increase in community transmission and confirmed cases.

11. COVID-19 Indicators. The Health Officer, in conjunction with Bay Area Health Officers, is monitoring several key indicators ("COVID-19 Indicators"), which are among the many factors informing decisions whether to modify existing shelter-in-place restrictions. The COVID-19 Indicators include, but are not limited to, the following:

- a. The trend of the number of new COVID-19 cases and hospitalizations per day;
- b. The capacity of hospitals and the health system in the County and region, including acute care beds and Intensive Care Unit beds, to provide care for COVID-19 patients and other patients, including during a surge in COVID-19 cases;
- c. The supply of personal protective equipment (PPE) available for hospital staff and other healthcare providers and personnel who need PPE to safely respond to and treat COVID-19 patients;
- d. The ability and capacity to quickly and accurately test persons to determine whether they are COVID-19 positive, especially those in vulnerable populations or high-risk settings or occupations; and
- e. The ability to conduct case investigation and contact tracing for the volume of

cases and associated contacts that will continue to occur, isolating confirmed cases and quarantining persons who have had contact with confirmed cases.

12. State Stay at Home Order. This Order is issued in light of the March 19, 2020 Order of the State Public Health Officer, which set baseline statewide restrictions effective until further notice, as well as the Governor’s May 4, 2020 Executive Order N-60-20, which informed local health jurisdictions and industry sectors that they may gradually reopen under new modifications and guidance provided by the State per the May 7, 2020 State Public Health Order (the “State Stay at Home Order”). This Order adopts and incorporates by reference subsequent amendments, designations, directives, or guidance issued by the State of California pertaining to its State Stay at Home Order and the process for reopening businesses and activities using a four-stage framework to allow for the gradual resuming of various activities while continuing to preserve public health in the face of COVID-19. All provisions of the State Stay at Home Order and related guidance, whether framed as discretionary, recommended or mandatory are hereby incorporated as enforceable elements of this Order.
13. This Order is also issued in accordance with, and incorporates by reference, the June 5, 2020 Order of the Health Officer C19-14; the May 22, 2020 Amendment No. 3 to Order of the Health Officer C19-09; the May 14, 2020 Amendment No. 2 to Order of the Health Officer C19-09; the May 7, 2020 Amendment No. 1 to Order of the Health Officer No. C19-09; the May 4, 2020 Executive Order of the Governor (N-60-20); the March 19, 2020 Executive Order of the Governor (N-33-20); the March 13, 2020 Order of the Health Officer No. C19-02; the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom; the March 2, 2020 Proclamation of Local Emergency for the County of Sonoma issued by the Director of Emergency Services Declaring the Existence of a Local Emergency in the County Regarding Novel Coronavirus 2019 (COVID-19); the Declaration of Local Health Emergency Regarding Novel Coronavirus 2019 (COVID-19) issued by the Health Officer; the March 4, 2020 Resolution of the Board of Supervisors of the County of Sonoma Ratifying and Extending the Declaration of a Local Health Emergency, and the March 4, 2020 Resolution of the Board of Supervisors of the County of Sonoma Ratifying and Extending the Proclamation of a Local Emergency.
14. Conflicts between Orders. Where a conflict exists between this Order and any State public health order related to the COVID-19 pandemic, the most restrictive provision controls. Consistent with California Health and Safety Code section 131080, the more restrictive provisions between this Order and State orders apply and control in this County. In addition, to the extent any federal guidelines allow activities that are not allowed by this Order, this Order controls and those activities are not allowed. In addition, to the extent any federal guidelines allow activities that are not allowed by this Order, this Order controls and those activities are not allowed.
15. Individuals. When people need to leave their place of residence, they must strictly comply with Social Distancing and Hygiene Requirements and the Face Coverings

Requirements. People at high risk of severe illness from COVID-19 (as defined in Section 25) and people who are sick are strongly urged to stay in their residence to the extent possible, except as necessary to seek medical care or engage in essential activities. Individuals experiencing homelessness are strongly urged to obtain shelter, and governmental and other entities are strongly urged to, as soon as possible, make such shelter available and provide handwashing or hand sanitation facilities to persons who continue experiencing homelessness.

16. Activities. Permissible activities under this Order include all activities allowed under the State Stay at Home Order (see Stay Home Q&A [<https://covid19.ca.gov/stay-home-except-for-essential-needs/#top>]) and State sector specific guidance at the links below in Section 23 and Appendix C) and includes the following additional activities, allowances, and restrictions, and subject to Social Distancing and Hygiene Requirements and Face Coverings Requirements. Activities allowed within this Section are prohibited from allowing direct physical contact between members of different households or living units. Tournaments, competitions, or other sporting events, including live audience activities, are also prohibited:

- a. To engage in outdoor activities, recreation, or sports permitted by the State Stay at Home Order as long as the group size does not exceed 12 persons, with strict adherence to Social Distancing and Hygiene Requirements and Face Covering Requirements, and compliance with all relevant State and County Guidelines, including but not limited to the prohibition against tournaments and competitions (see for example <https://covid19.ca.gov/pdf/guidance-campgrounds.pdf>, <https://covid19.ca.gov/stay-home-except-for-essential-needs/#top>, and <http://sonomaedb.org/Business-Assistance/Coronavirus/Business-Management-Plans/>).
- b. To participate in an Outdoor Recreation Activity Business, Outdoor Recreational Equipment Rental Business, or guided or chaperoned outdoor recreational activity as long as the group size does not exceed 12 plus staff. All such businesses must operate in compliance with all relevant State and County Guidelines, including but not limited to the prohibition against tournaments and competitions (see for example, <https://covid19.ca.gov/pdf/guidance-campgrounds.pdf>, <https://covid19.ca.gov/stay-home-except-for-essential-needs/#top>, and the Recreation and the Outdoor Recreation Activity Business Management Plans at <http://sonomaedb.org/Business-Assistance/Coronavirus/Business-Management-Plans/>) Any equipment issued or rented to individuals to engage in the activity (for example a kayak, bicycle, or surfboard) shall only be used by that individual for the duration of the activity and sanitized after each use per EPA guidance (<https://www.epa.gov/coronavirus/guidance-cleaning-and-disinfecting-public-spaces-workplaces-businesses-schools-and-homes>) and local and state recreational guidance (<http://sonomaedb.org/Business-Assistance/Coronavirus/Business-Management-Plans/>).
- c. Indoor swimming pools, saunas, steam rooms and hot tubs shall remain closed. Outdoor pools and splash pads must operate in compliance with applicable State and County Guidelines, <https://covid19.ca.gov/pdf/guidance-fitness.pdf>,

<https://covid19.ca.gov/pdf/guidance-campgrounds.pdf>,
<https://covid19.ca.gov/pdf/guidance-hotels-lodging-rentals.pdf>.

- d. Childcare, summer camp programs, and other educational or recreational institutions or programs providing care or supervision for children, in stable groups of 12 children or less, may participate in activities, recreation, or sports permitted in this Section, but groups shall not commingle with other groups. For clarity, this subsection does not allow recreation or sports activities within groups that require person-to-person physical contact between members of different households or living units.

17. Businesses. All businesses in the County that are allowed to operate under the State Stay at Home Order (<https://covid19.ca.gov/>), amendments, designations, directives, Stay Home Q&As (<https://covid19.ca.gov/stay-home-except-for-essential-needs/>) and sector specific guidance (Appendix C) on the effective date above, Section 6, are considered Allowed Businesses and may operate in the County. High risk businesses, as defined in Section 18, may operate only to maintain Minimum Basic Operations without direct (non-virtual) public contact. All businesses operating in the County shall comply with Social Distancing and Hygiene Requirements, Face Coverings Requirements, and sector specific guidance, as defined in Section 23 as may be amended from time to time. All businesses operating in the County shall prepare, post, and implement a Social Distancing Protocol & COVID-19 Site-Specific Protection Plan (Appendix A) at each of their facilities at which they are maintaining operations, as specified in this Section.

- a. **Definition.** A “business” includes any for-profit, non-profit, faith based organization, or educational entity, whether a corporate entity, organization, partnership or sole proprietorship, and regardless of the nature of the service, the function it performs, or its corporate or entity structure.
- b. **Minimum Basic Operations.** “Minimum Basic Operations” include the following activities when they cannot be performed remotely, provided that there are only the minimum number of persons on-site and persons comply with Social Distancing and Hygiene Requirements as defined this Section:
 - i. The minimum necessary activities to maintain and protect the value of the business’s inventory and facilities; ensure security, safety, and sanitation; process payroll and employee benefits; and related functions.
 - ii. The minimum necessary activities to facilitate owners, personnel, and contractors of the business being able to continue to work remotely from their residences, and to ensure that the business can deliver its service remotely.
- c. **Social Distancing Protocol & COVID-19 Site-Specific Protection Plan.** All businesses must prepare and post a “Social Distancing Protocol & COVID-19 Site-Specific Protection Plan” for each of their facilities in the County frequented by the public or employees. The Social Distancing Protocol & COVID-19 Site-Specific Protection Plan must be substantially in the form attached to this Order as Appendix A. The Social Distancing Protocol & COVID-19 Site-Specific Protection Plan must be posted at or near the entrance of the relevant facility, and shall be easily viewable by the public and employees. A copy of the Social

Distancing Protocol & COVID-19 Site-Specific Protection Plan must also be provided to each employee performing work at the facility and to any authority enforcing this Order upon demand. The Social Distancing Protocol & COVID-19 Site-Specific Protection Plan must explain how the business is achieving the following, as applicable:

- i. Limiting the number of people who can enter into the facility at any one time to ensure that people in the facility can easily maintain a minimum six-foot distance from one another at all times, except as required to complete the Allowed Business activity;
- ii. Where lines may form at a facility, marking six-foot increments at a minimum, establishing where individuals should stand to maintain adequate social distancing;
- iii. Providing hand sanitizer, soap and water, or effective disinfectant at or near the entrance of the facility and in other appropriate areas for use by the public and employees, and in locations where there is high-frequency employee interaction with members of the public (e.g. cashiers);
- iv. Providing for contactless payment systems or, if not feasible to do so, the providing for disinfecting all payment portals, pens, and styluses after each use;
- v. Regularly disinfecting other high-touch surfaces;
- vi. Posting a sign at the entrance of the facility informing all employees and customers that they should: avoid entering the facility if they have a cough or fever; maintain a minimum six-foot distance from one another; sneeze and cough into one's elbow; not shake hands or engage in any unnecessary physical contact; and
- vii. Any additional social distancing measures being implemented (see the Centers for Disease Control and Prevention's guidance at: <https://www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html>).

18. Higher Risk Activities. The Governor's Roadmap to Recovery does not currently allow the following sectors, businesses, establishments, or activities to operate at this time, except to the limited extent as may be permitted under this Order. No expansion or allowance of these activities shall take place until both the State and the Health Officer determines that local conditions and disease epidemiology indicate it is prudent to allow such facilities to reopen:

- a. Playgrounds and group picnic areas (individual and household use of picnic tables may be allowed on a facility by facility basis).
- b. Ice rinks, roller rinks, and indoor playgrounds such as bounce centers, ball pits and laser tag.
- c. Public events and gatherings, like live audience sports
- d. Convention centers
- e. Live theater.
- f. Live audience sports.
- g. Saunas and steam rooms.

- h. Nightclubs.
- i. Concert venues.
- j. Festivals.
- k. Theme parks.
- l. Higher education (in person).
- m. Any other activity or facility prohibited by the State.

19. Gatherings. All public and private gatherings of any number of people occurring outside a single household or living unit are prohibited, except as allowed by this Order or by the State Orders and Guidance. Indoor gatherings, other than by household unit, are prohibited except as allowed by State or Local Orders e.g., restaurant dining, religious services, and childcare. Indoor gatherings are disfavored because of the increased risk of virus transmission. Outdoor gatherings are allowed to the extent provided in the Activity Section 16 above.

All gatherings permitted in this Order shall comply Social Distancing and Hygiene Requirements, Face Covering Requirements, and with CDC Considerations for Events and Gatherings (<https://www.cdc.gov/coronavirus/2019-ncov/community/large-events/considerations-for-events-gatherings.html>). Nothing in this Order prohibits members of a single household or living unit from engaging in Travel or Activities together.

20. Travel. It is recommended that individuals should avoid travelling long distances for vacations or pleasure as much as possible. This is to slow the spread of the coronavirus. Individual shall not travel if they are sick, with someone who is sick, or if someone in their household or living unit had coronavirus in the last two weeks.

21. Social Distancing and Hygiene Requirements.

- a. All individuals must strictly comply with “Social Distancing and Hygiene Requirements” which means:
 - i. Maintaining at least six-foot social distancing from individuals who are not part of the same household or living unit;
 - ii. Frequently washing hands with soap and water for at least 20 seconds, or using hand sanitizer that is recognized by the Centers for Disease Control and Prevention as effective in combatting COVID-19;
 - iii. Covering coughs and sneezes with a tissue or fabric or, if not possible, into the sleeve or elbow (but not into hands);
 - iv. Wearing a Face Covering when out in public, consistent with the Face Coverings Requirements;
 - v. Avoiding all social interaction outside the household when sick with a fever, cough, or other COVID-19 symptoms;
 - vi. Cleaning and disinfecting frequently touched surfaces daily. If surfaces are dirty, clean them using detergent or soap and water prior to disinfection;
 - vii. Avoiding touching eyes, nose or mouth; and

viii. If you smoke or vape, consider quitting. Smoking and vaping causes harm to the lungs

(<https://www.cdph.ca.gov/Programs/CCDCPHP/DCDIC/CTCB/Pages/Coronavirus.aspx>).

- b. Exceptions. Individuals are exempted from complying with Social Distancing and Hygiene Requirements only to the limited extent necessary to provide care (including childcare, adult or senior care, care to individuals with special needs, and patient care); as necessary to carry out the work of Allowed Businesses, Essential Governmental Functions, or provide for Minimum Basic Operations; or as otherwise expressly provided in this Order.

22. Face Coverings Requirements. It is required that all people wear Face Coverings before they enter any indoor business, indoor public common areas, or whenever the person is unable to maintain a six-foot distance at all times from a person of a different household or living unit and as set forth in Appendix B of this Order, whether indoors or outdoors. This requirement includes certain exceptions:

- a. While inside their own residence;
- b. While inside or driving alone in a vehicle, or with members of the same household or living unit, unless the windows in the vehicle are lowered to interact with first responders, food service workers, or other persons who are not members of their household or living unit.
- c. While engaging in outdoor activity, recreation, or sports, but only if Social Distancing and Hygiene Requirements are met at all times;
- d. While eating or drinking;
- e. If a Face Covering may pose a risk to the person wearing the mask for health-or safety related reasons; a Face Covering should also not be used by anyone who has a respiratory condition or trouble breathing, or who is unconscious, incapacitated, or otherwise unable to remove the Face Covering without assistance.
- f. If a Face Covering would create a risk to the person related to their work as determined by local, state, or federal regulators or workplace safety guidelines.
- g. Face Covering Requirements do not apply to children aged two years or less because of the risk of suffocation; and are only recommended, but not ordered, for any child aged twelve years or less.

23. State Sector Guidance and Local Business Management Plans. The Health Officer, in consultation with the Economic Development Board and industry representatives, has and will continue to develop and establish sector-specific social distancing and health/safety standards and business management plans. All businesses, including public agencies, operating in the County shall comply with local and State orders and guidance, including the Social Distancing and Hygiene Requirements, Face Coverings Requirements, and Social Distancing Protocol & COVID-19 Site-Specific Protection Plan contained within this Order. Businesses must review all relevant State guidance and checklists (Appendix C), and local business management plans, to prepare a Social Distancing Protocol & COVID-19 Site-Specific Protection Plan, attached as Appendix A

to this Order. Where there is a conflict between the local and State orders and guidance, then the more restrictive provisions applies and controls in this County. For clarity, all recommended, encouraged, or suggested language in State guidance or checklists shall be required for businesses under this Order. All businesses shall prepare, post, and implement their Social Distancing Protocol & COVID-19 Site-Specific Protection Plan at all facilities operating in the County, including posting any relevant state guidance or local business management plans.

Employers are also required to ensure that all employees perform a self-check for COVID-19 symptoms and temperature check before reporting to their work site or other assignment away from their residence. Employers are strongly encouraged to use the free SoCo COVID-19 Check tool available as a mobile App and on the SoCo Emergency website. The tool provides a seamless process for businesses to implement employee screening procedures and automatically provides the County with aggregate data that will assist the County's epidemiologists in monitoring and preventing transmission of COVID-19.

24. Definitions. To the extent the Sheriff or any chief of police has any questions regarding the definitions under this Order, the Health Officer hereby delegates authority to the Office of the County Counsel to answer such questions.

25. People at high risk. People at high risk of severe illness or death from COVID-19 and people who are sick are strongly encouraged to stay in their residence to the extent possible. These people should make a reasonable effort to avoid leaving home by utilizing delivery services, telecommunications, or other means available. Nothing prevents a person at high risk of severe illness from leaving home for the reasons otherwise allowed under this Order, or for other permissible conduct. For purposes of this Order, “people at high risk of severe illness” from COVID-19 are people who meet the CDC definition of higher risk (<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/index.html>). Based upon available information to date, those at high-risk for severe illness from COVID-19 include:

- a. People aged 65 years and older.
- b. People who live in a nursing home or long-term care facility.
- c. Other high-risk conditions could include:
 - i. People with chronic lung disease or moderate to severe asthma.
 - ii. People who have serious heart conditions.
 - iii. People who are immunocompromised including cancer treatment.
 - iv. People of any age with severe obesity (body mass index [BMI] >40) or certain underlying medical conditions, particularly if not well controlled, such as those with diabetes, renal failure, or liver disease might also be at risk.

Please note, many conditions can cause a person to be immunocompromised, including cancer treatment, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications.

26. Community Services. Government agencies and other entities operating shelters and other facilities that house or provide meals or other necessities of life for individuals experiencing homelessness must take appropriate steps to help ensure compliance with Social Distancing and Hygiene Requirements, including adequate provision of hand sanitizer. Also, individuals experiencing homelessness who are unsheltered should abide by 12 foot by 12 foot distancing for the placement of tents/sleeping quarters, and government agencies should provide restroom and hand washing facilities for such individuals as set forth in Centers for Disease Control and Prevention Interim Guidance Responding to Coronavirus 2019 (COVID-19) Among People Experiencing Unsheltered Homelessness (<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/unsheltered-homelessness.html>).

27. Enforcement. Pursuant to Government Code sections 26602 and 41601 and Health and Safety Code section 101029, the Health Officer requests that the Sheriff and all chiefs of police in the County ensure compliance with and enforce this Order. The Sheriff, chiefs of police, County Counsel, District Attorney, and city attorneys are empowered to ensure compliance with and enforce this Order within their jurisdictions. Questions of interpretation of the Order shall remain as set forth in Section 24 above. The violation of

any provision of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both.

28. Justification. The Health Officer has determined that this Order, and its Prior Shelter Orders, were and are necessary because cases of COVID-19 have been confirmed throughout the County. COVID-19 is highly contagious and has a propensity to spread in various ways including, but not limited to, by attaching to surfaces or remaining in the air, resulting in physical damage and/or physical loss.

29. Public Distribution. Copies of this Order shall promptly be: (1) made available at the County Administration Center at 575 Administration Drive, Santa Rosa CA 95403; (2) posted on the County Public Health Department website (<https://sonomacounty.ca.gov/Health/Public-Health/>) and (<https://socoemergency.org/>); and (3) provided to any member of the public requesting a copy of this Order.

30. Severability. If any provision of this Order to the application thereof to any person or circumstance is held to be invalid, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

IT IS SO ORDERED:

Dr. Sundari R. Mase, MD MPH
Health Officer of the County of Sonoma

Date

Attachments: Appendix A – Social Distancing Protocol & COVID-19 Site-Specific Protection Plan
Appendix B - Face Coverings Requirements
Appendix C – State Sector Specific Guidance Table

Appendix A:
Social Distancing Protocol & COVID-19 Site-Specific Protection Plan
Template updated: June 18, 2020

General Information: This Appendix A “Social Distancing Protocol & COVID-19 Site-Specific Protection Plan” Template applies to all businesses, and combines local with state-level guidance published in the California State Resilience Roadmap.

The State of California requires all businesses to:

- 1. Perform a detailed risk assessment and implement a site-specific protection plan (SPP)*
- 2. Train employees on how to limit the spread of COVID-19, including how to screen themselves for symptoms and stay home if they have them*
- 3. Implement individual control measures and screenings*
- 4. Implement disinfecting protocols*
- 5. Implement physical distancing guidelines*

As the COVID-19 public health crisis continues to evolve and new Public Health Orders are issued or amended both at the State and local levels, amendments to individual businesses’ Social Distancing Protocol-COVID-19 Site-Specific Protection Plans may be needed in order to incorporate new requirements.

Social Distancing Protocol & COVID-19 Site-Specific Protection Plan (“Protocol”):

Business name:
Facility Address:
This Protocol was most recently updated on:
Maximum number of people allowed in the facility at any time:
Total Facility Square Footage:
Total Facility Square Footage Open to the Public:

The Person Responsible for Implementing this Protocol:

Name: _____ **Title:** _____
Phone number: _____ **Email:** _____

All businesses operating in the County must implement all applicable measures listed below, and be prepared to explain why any measure that is not implemented is inapplicable to the business.

Signage and Distribution:

- Post signage at each public entrance of the facility to inform all personnel and customers of the following:
- Do not enter the facility if you have COVID-19 symptoms;

Signage and Distribution (continued):

Order of the County Health Officer of the
County of Sonoma Extending the Shelter in Place

- Maintain a minimum six-foot distance from others, including when in line;
 - Sneeze and cough into a cloth or tissue or, if not available, into one's elbow;
 - Face covering required to enter (except if 12 years of age or under or medically inadvisable);
 - Do not shake hands or engage in any unnecessary physical contact.
- Post signage at appropriate locations throughout the facility reminding customers to maintain social distance.
 - Post a copy of your Social Distancing Protocol at each public entrance to the facility.
-

Personnel Training:

- Copies of this Protocol will be distributed to all personnel.
- Personnel are trained on COVID-19 information from the CDC, how to prevent COVID-19 from spreading, who is especially vulnerable to the disease, and when to seek medical attention.
- Personnel are trained on screening themselves for COVID-19 symptoms, including temperature and/or symptom checks using CDC guidelines.
- Personnel are trained on the need to stay home and get tested if they have a frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, recent loss of taste or smell, or if they or someone they live with have been diagnosed with COVID-19.
- Personnel are trained on CDC Return to Work Criteria to Discontinue Home Isolation for when it is safe to return to work if they are symptomatic or have tested positive for COVID-19.
- Personnel are trained on the need for frequent handwashing with soap and water, proper use of face coverings, the importance of social distancing, and other measures in this Protocol.
- Personnel are encouraged to get tested for COVID-19 in accordance with County guidance and given information on testing locations, which can be found here.
- Personnel have been informed that they can contact the Department of Industrial Relations – Labor Commissioner at www.dir.ca.gov to report any deficiencies in compliance with Social Distancing Protocol requirements by this business. They may also call their local law enforcement agency's non-emergency line to report a violation of a health order.

Personnel Training (continued):

- Personnel are trained on new or modified measures immediately upon updating this Protocol.
 - Educated employees and management carry out COVID-19 mitigation plans and protocols.
 - Optional – Describe other measures:
-

Individual Control Measures and Screenings:

- All personnel who can carry out their work duties from home have been directed to do so and are doing so.
- All personnel have been directed not to come to work if sick or exhibiting symptoms of COVID-19

- All personnel undergo a temperature check and other COVID-19 symptom screenings at the beginning of their shift, and all other vendors, contractors, and other workers are screened before entering the work space. Temperature must be below 100.0 F to enter the work space.
- Require all persons to properly wear face coverings at all times in the facility (except if under 12 years of age or under, medically inadvisable, or the face covering would create a safety hazard for workers under established health and safety guidelines, or another exception under the Health Order's facial covering requirement applies,

Handwashing and Hand-Sanitizing Protocols:

- Encourage frequent handwashing and use of hand sanitizer and provide frequent breaks for handwashing.
- Soap and water are available to all personnel at the following location(s): _____
- Hand sanitizer effective against COVID-19 is available to all frontline staff as well as to other personnel at the following location(s): _____
- Hand sanitizer and/or soap and water are available to the public at or near the facility entrance, at checkout counters, and at various locations throughout the facility to enable the public and staff to frequently clean their hands.
- Ensure that handwashing and other sanitary facilities are operational and stocked at all times.

Handwashing and Hand-Sanitizing Protocols (continued):

- Optional – Describe other measures: _____

Cleaning and Disinfecting Protocols:

- Thoroughly and regularly clean high traffic areas and frequently disinfect high-contact surfaces (including doorknobs, handrails, counters, tables, checkout areas, cash registers, telephones, etc.)
- Break rooms, bathrooms, and other common areas are disinfected frequently, on the following schedule:
 - Break room(s): _____
 - Bathroom(s): _____
 - Other (): _____
- Disinfectant and related supplies are available to all employees at the following location(s): _____
- Disinfecting wipes that are effective against COVID-19 are available for use by customers and personnel near shopping carts and baskets.
- Staff are assigned to disinfect carts and baskets regularly.
- Shared equipment and touchable surfaces like payment portals and pens are disinfected after each use.
- Adjust store hours to provide adequate time for cleaning and stocking, and provide time for workers to clean between shifts.

Optional – Describe other measures: _____

Measures to Maintain Social Distancing:

- To allow adequate social distancing (6 feet minimum) at all times and comply with any occupancy limitations in the Order, limit the number of people in the facility at any one time to _____
- Post an employee near the door to ensure that the maximum number of customers is not exceeded, that all customers are wearing face coverings to enter (except that children 12 years of age or under or persons for whom face coverings are medically inadvisable), and that customers comply with other provisions of this Protocol. Ensure that the posted employee is more than 6 feet away from customers to maintain adequate social distance.
- Place additional limitations on the number of workers in enclosed areas of the facilities (such as the break rooms) to ensure at least 6 feet of separation.
- Place per-person limits on goods that are selling quickly to reduce crowds and lines.
Explain: _____.

Measures to Maintain Social Distancing (continued):

- Place tape or other markings at least six feet apart in customer line areas inside the store and on sidewalks at public entrances with signs directing customers to use the markings to maintain distance.
- Separate order areas from delivery areas to prevent customers from gathering.
- Minimize exposure between cashiers and customers through social distancing or use of barriers where social distancing cannot be maintained. Describe: _____
- Increase remote (online and telephone) purchasing, deliver, and curbside pickup service options.
- Instruct staff to maintain at least six feet distance from customers and from each other, except staff may momentarily come closer when necessary to accept payment, deliver goods or services, or perform a job duty.
- Stagger personnel breaks, in compliance with wage and hour regulations, to maintain adequate social distancing.
- Minimize any in-person meetings and adjust those that are necessary to ensure adequate social distancing.
- Optional – Describe other measures: _____

Measures to Prevent Unnecessary Contact:

- Close all public shared seating areas.
- Prevent people from self-serving any food or drink related items, including from food bars or drink dispensers, bulk-item bins, and shared containers in break rooms. Discontinue product sampling.
- Do not allow customers to use their own cups or other reusable food containers from home for take away.
- Require customers using reusable bags from home to bag their own groceries or prevent use of reusable bags from home. Describe: _____
- Provide contactless payment systems if possible.
- Optional – Describe other measures (e.g. providing senior-only hours): _____

Describe additional health and safety measures implemented for this facility, including measures required for specific business sectors (See for example list at Appendix C):

Certification

I, _____, affirm that all information in this Social Distancing Protocol & Site-Specific Protection Plan (“Protocol”) is true and accurate to the best of my knowledge, that all employees will be provided a copy of this Protocol and receive trainings as required in this Protocol, that a copy of this Protocol will be posted as required herein, and that applicable measures are being implemented as set forth herein. I will provide a copy of this Protocol to the County of Sonoma or law enforcement upon request.

I further affirm that I have completed and passed the Sonoma County Business Mitigation Practices and Self-Certification assessment and have received and publicly posted my business’s Self-Certification form.

Appendix B — Face Coverings Requirements

For purposes of this Section, a “Face Covering” means a covering made of cloth, fabric, or other soft or permeable material, without holes, that covers only the nose and mouth and surrounding areas of the lower face. A covering that hides or obscures the wearer’s eyes or forehead is not a Face Covering. Examples of Face Coverings include a scarf or bandanna; a neck gaiter; a homemade covering made from a t-shirt, sweatshirt, or towel, held on with rubber bands or otherwise; or a mask, which need not be medical-grade. A Face Covering may be factory-made, or may be handmade and improvised from ordinary household materials. The Face Covering should be comfortable, so that the wearer can breathe comfortably through the nose and does not have to adjust it frequently, so as to avoid touching the face. For as long as medical grade masks such as N95 masks and surgical masks are in short supply, members of the public should not purchase those masks as Face Coverings under this Order; those medical grade masks should be reserved for health care providers and first responders. In general, even when not required by this Order, people are strongly encouraged to wear Face Coverings when in public. Also, for Face Coverings that are not disposed of after each use, people should clean them frequently and have extra ones available so that they have a clean one available for use.

The following types of coverings do not comply with this Order:

- Halloween or plastic masks;
- Ski masks with holes for the nose or mouth;
- Masks that have a one-way valve designed for easier breathing (the valves are often a raised plastic disk about the size of a quarter, on the front or side of the mask);

Holes or one-way valves allow droplets out of the mask, putting others nearby at risk.

1. All members of the public, except as specifically exempted below, must wear a Face Covering outside their home or other place they reside in the following situations:
 - a. When they are inside of or in line to enter any Allowed Business, including, but not limited to, grocery stores, convenience stores, supermarkets, laundromats, and restaurants;
 - b. When they are inside or at any location or facility engaging in Minimum Basic Operations or seeking or receiving Essential Government Functions;
 - c. When they are engaged in Essential Infrastructure work;
 - d. When they are obtaining services at Healthcare Operations—including hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, other healthcare facilities, mental health providers, or facilities providing veterinary care and similar healthcare services for animals—unless directed otherwise by an employee or worker at the Healthcare Operation; or
 - e. When they are waiting for or riding on public transportation (including without limitation any bus, SMART, or ferry) or paratransit or are in a taxi, private car service, or ride-sharing vehicle.
 - f. When they are walking through common areas such as hallways, stairways, elevators, and parking facilities.

- g. When they are unable to maintain a six-foot distance from another person who is not a member of the individual's own household or living unit at all times, whether indoors or outdoors.
2. Each driver or operator of any public transportation or paratransit vehicle, taxi, or private car service or ride-sharing vehicle must wear a Face Covering while driving or operating such vehicle, regardless of whether a member of the public is in the vehicle, due to the need to reduce the spread of respiratory droplets in the vehicle at all times.
 3. All Allowed Businesses, as well as entities and organizations with workers engaged in Essential Infrastructure work, Minimum Basic Operations, or Essential Government Functions (except for Healthcare Operations, which are subject to their own regulation regarding specified face coverings), must:
 - a. Require their employees, contractors, owners, and volunteers to wear a Face Covering at the workplace and when performing work off-site any time the employee, contractor, owner, or volunteer is:
 - i. interacting in person with any member of the public;
 - ii. working in any space visited by members of the public, such as by way of example and without limitation reception areas, grocery store or pharmacy aisles, service counters, public restrooms, cashier and checkout areas, waiting rooms, service areas, and other spaces used to interact with the public, regardless of whether anyone from the public is present at the time;
 - iii. working in any space where food is prepared or packaged for sale or distribution to others;
 - iv. working in or walking through common areas such as hallways, stairways, elevators, and parking facilities;
 - v. in any room or enclosed area when other people (except for members of the person's own household or living unit) are present, or
 - vi. unable to maintain a six-foot distance from another person who is not a member of the individual's own household or living unit at all times.

For clarity, a Face Covering is not required when a person is in a personal office (except for open cubical) when others outside of that person's household are not present as long as the public does not regularly visit the room. By way of example and without limitation, a construction worker, plumber, bank manager, accountant, or bike repair person is not required to wear a Face Covering if that individual is alone and in a space not regularly visited by the public, but that individual must put on a Face Covering when coworkers are nearby, when being visited by a client/customer, while in common areas, and anywhere members of the public or other coworkers are regularly present.

- b. Take reasonable measures, such as posting signs, to remind their customers and the public of the requirement that they wear a Face Covering while inside of or waiting in line to enter the business, facility, or

location. Allowed Businesses and entities or organizations that engaged in Essential Infrastructure work or Minimum Basic Operations must take all reasonable steps to prohibit any member of the public who is not wearing a Face Covering from entering and must not serve that person if those efforts are unsuccessful and seek to remove that person.

4. Any child aged two years or less must not wear a Face Covering because of the risk of suffocation. The Order does not require that any child aged twelve years or less wear a Face Covering. Parents and caregivers must supervise use of Face Coverings by children to avoid misuse.
5. When outdoors, all persons must carry a facial covering with them and keep it readily available, such as in a pocket or around the person's neck. This requirement applies to all outdoor activities including but not limited to while engaged in walking, hiking, bicycling, or running. Each person engaged in such activity must comply with Social Distancing and Hygiene Requirements including maintaining at least six feet of separation from all other people to the greatest extent possible. A facial covering must be worn whenever the required social distancing of six feet or more cannot be maintained, such as when passing on a trail or sidewalk. Because intense physical activity may cause people to more forcefully expel airborne particles, making the usual minimum 6 feet distance less adequate, individuals should consider taking additional precautions to avoid exposing others to those particles, which could include, but is not be required: wearing a Face Covering when possible, social distancing to the extent reasonably possible, and avoiding running or cycling directly in front of or behind another runner or cyclist who is not in the same household.
6. This Order does not require any person to wear a Face Covering while driving alone, or exclusively with other members of the same family or household, in a motor vehicle, unless the windows in the vehicle are lowered to interact with first responders, food service workers, or other persons who are not members of their households.
7. A Face Covering may be briefly removed when directed to do so by law enforcement or employee when there is a need to identify the individual.
8. A Face Covering is also not required by this Order to be worn by a particular individual if: (1) a Face Covering may pose a risk to the person wearing the mask for health or safety-related reasons; or (2) wearing a Face Covering would create a risk to the person related to their work as determined by local, state, or federal regulators or workplace safety guidelines. A Face Covering should also not be used by anyone who has trouble breathing or is unconscious, incapacitated, or otherwise unable to remove the Face Covering without assistance.

Appendix C: State Sector Specific Guidance Table

All provisions of the State Stay at Home Order and related guidance, whether framed as discretionary, recommended or mandatory are hereby incorporated as enforceable elements of this Order. Additional resources and best management practices can be found on the Sonoma County Economic Development Board’s website: <http://sonomaedb.org/Business-Assistance/Coronavirus/Business-Management-Plans/>

Sector	Guidance + Checklist
Agriculture and Livestock	http://covid19.ca.gov/pdf/guidance-agriculture.pdf https://covid19.ca.gov/pdf/checklist-agriculture.pdf
Automobile Dealerships and Rentals NOTE: Automotive dealerships and renters that operate repair and/or car washing operations should follow the guidance for limited service	http://covid19.ca.gov/pdf/guidance-auto-dealerships.pdf http://covid19.ca.gov/pdf/checklist-auto-dealerships.pdf
Campgrounds, RV Parks, and Outdoor Recreation NOTE: Campgrounds with playgrounds, conference spaces, or meeting rooms should keep those areas closed until each of those types of establishments are allowed to resume modified or full operation. When allowed to reopen to modified or full operation, campgrounds and RV parks with these establishments should refer to guidance on such industries as it becomes available on the COVID-19 Resilience Roadmap website. The guidance does not apply to youth camps, team or contact sports, school and educational activities, and other public gatherings. For guidance on summer camps, refer to the guidance on the COVID-19 Resilience Roadmap website. All public events or concentrated gatherings at campgrounds or RV parks, including group bonfires, group campsites, presentations at outdoor amphitheaters, musical or other performances, or other events must be cancelled or postponed. Most organized activities and	https://covid19.ca.gov/pdf/guidance-campgrounds.pdf

Destination Shopping Centers, Strip and Outlet Malls, and Swap Meets NOTE: Shopping centers with movie theaters, bars, spas, salons, or other personal care services should keep those areas closed until each of those types of establishments are allowed to resume modified or full operation. When allowed to reopen to modified or full operation, shopping centers with these establishments should refer those retail tenants to guidance on such industries as it becomes available on the COVID-19 Resilience Roadmap website. Shopping center food courts, dining areas, or dine-in restaurant tenant operations must follow the guidelines for restaurants on the COVID-19 Resilience Roadmap website. All public events or concentrated gatherings, including musical or other performances at shopping centers must be cancelled or postponed.	https://covid19.ca.gov/pdf/guidance-shopping-centers.pdf

Restaurants – Dine In	https://covid19.ca.gov/pdf/guidance-dine-in-restaurants.pdf https://covid19.ca.gov/pdf/checklist-dine-in-restaurants.pdf
Restaurants, Wineries, Bars (Restaurants, brewpubs, craft distilleries, breweries, bars, pubs, and wineries) NOTE: Restaurants, bars, and wineries are encouraged to continue takeout and delivery service whenever possible. Venues that are currently authorized to sell beer, wine, and spirits to be consumed off premises should follow the guidance for retail. Producers of beer, wine, and spirits should follow the guidance for manufacturing. Restaurants, bars, and wineries that have game operations such as bowling alleys, pool tables, etc. should follow the guidance for family entertainment centers. This guidance is not intended for concert, performance, or entertainment venues. Restaurants, bars, and wineries must discontinue this type of entertainment until these types of activities are allowed to resume modified or full operation. All events or gatherings that would bring together persons from different households, such as private parties, must be cancelled or postponed until further notice.	http://covid19.ca.gov/pdf/guidance-restaurants-bars.pdf

Tribal Casinos The State has engaged in government-to-government consultation with California Native American tribal governments to inform the development of these guidelines, which are intended to assist in formulating tribal casino reopening and/or operating plans that are aligned with public health best practices. These guidelines are advisory in nature, as tribal governments are responsible for ensuring that tribal casinos are	https://covid19.ca.gov/pdf/guidance-casinos.pdf

<p>constructed, maintained and operated in a manner that adequately protects the public health and safety pursuant to 25 CFR § 522.6(b).</p> <p>NOTE: The State recommends that tribes that operate or lease hotels, restaurants, bars, spas, salons, fitness centers, swimming pools, nightclubs, lounges, retail shopping, conventions, indoor and outdoor sporting and entertainment venues, etc., should keep those areas closed until each of those types of establishments is allowed to resume modified or full operation in neighboring or surrounding counties. When the State allows counties to reopen these industries to modified or full operation, the State encourages tribes with these establishments to refer to the appropriate industry guidance as it becomes available on the COVID-19 Resilience Roadmap website. The State recommends that all public events or concentrated gatherings, including musical or other performances at these facilities, be cancelled or postponed.</p>
