Subject: 282 Support messages for Verizon Wireless Small Cells in Sonoma

Dear Honorable Mayor Harvey and Councilmembers:

I am very pleased to provide you with the attached letter from Verizon Wireless Manager Rynae Benson reflecting 217 text messages of support as well as 65 emails of support received by Verizon Wireless this month for small cells in Sonoma. These messages of support result from a text message sent from Verizon Wireless to customers in zipcode 95476, as described in Ms. Benson's letter.

The text message referred customers to the Verizon Wireless Sonoma Small Cell webpage at <http://improveyourwireless.com/Sonoma>, where customers could view photosimulations of the proposed small cells and forward emails of support. I encourage you to review the Verizon Wireless webpage and attached emails of support.

Next Monday, June 15, 2020, you will have an opportunity to review Verizon Wireless's proposal for three small cell facilities disguised as new light standards placed in three select commercial locations. The three light standards were approved by the Planning Commission earlier this year.

On Monday, you will hear Verizon Wireless's appeal to one of the conditions of approval that requires the single small pole-mounted radio be placed in an underground vault. Verizon Wireless is asking the City Council to allow for placement of the small radio behind a street sign on the pole to minimize aesthetic impact, reduce disturbance of the sidewalk and to ensure reliability. Placed underground, Verizon Wireless's radios would be subject to flooding failure any time it rains during a power outage when pumps could not operate.

Verizon Wireless has spent several years arriving at the proposed street light design and selected pole location. This week, Verizon Wireless government affairs representative Jay Day will be calling you to answer any questions you may have regarding the Verizon Wireless proposal .

We hope you will take the time to speak with Jay, or other Verizon Wireless representatives to answer any questions you may have regarding this multi-year process.

Thank you for your commitment to the continuing health and safety of residents and visitors to the City of Sonoma.

Paul

Re: 217 Text Responses in Support of Verizon Wireless' Small Cell Wireless Facilities in the Right-of-Way Use Permits Site-006 (near 574-552 Fifth Street West), Site-007 (near 550 Second Street West) and Site-012 (near 25 McDonell Street) in the City of Sonoma

Dear Mayor, Vice Mayor and City Council Members:

In connection with the applications referenced above, Verizon Wireless arranged for a text message to be sent to customers with billing addresses within ZIP code 95476 in Sonoma. The entire text message sent reads as follows:

Verizon Msg: To further improve Verizon Wireless service in your area, reply "Yes" to this message to tell the City of Sonoma you support small cells. Visit <http://improveyourwireless.com/Sonoma> to learn more and stay informed.

The text message above was sent on June 1, 2020. As of June 8, 2020, we have received 217 affirmative text message responses indicating support for Verizon's Small Cell wireless facilities and 14 respondents opposed. We also have received 65 emails of support (see attached). Text messages and emails received confirm the need to provide improved Verizon Wireless service in Sonoma.

I am available to verify the above information as you may require.

Sincerely,

Rynae Benson
