## Temporary Sidewalk Extension Standard Plan and Additional Terms and Conditions for Encroachment Permits for Temporary Sidewalk Extensions

On Monday, May 18, 2020, Sonoma City Council adopted a resolution authorizing the City Manager to create and implement new re-opening and recovery measures through the issuance of Temporary Use Permits, Encroachment Permits, and/or Licensing Procedures to allow the City's businesses to expand their operating space utilizing public sidewalks, the Plaza, Grinstead amphitheater, public rights-of-way (including parking areas and roadways), their own property or neighboring properties with neighbor agreement, while respecting social distancing requirements. The City Manager and delegated staff are authorized to waive fees associated with these action as described in City fee schedules for the duration of the COVID-19 pandemic. This action was done to provide additional outdoor space for business operation and physical distancing due to the COVID-19 pandemic.

To streamline the issuance of temporary rights of encroachment into the public right-of-way, the City has created this streamlined Temporary Sidewalk Extension process.

Businesses seeking to encroach into the public right-of-way for purposes of extending the sidewalk so that they can conduct business in compliance with State and local social distancing requirements, shall agree to build to the Temporary Sidewalk Extension Standard outlined in **Exhibit A**. The purpose of the temporary sidewalk extensions is to provide a safe path for pedestrian traffic along the perimeter of outside sidewalk dining approved by the City of Sonoma. The sidewalk extension allows for the appropriate 6 feet of physical distancing between diners and pedestrians utilizing the public sidewalk.

### PLAN VIEW

Applicant is required to submit a site plan view that identifies the parking spaces they plan to utilize for the temporary sidewalk extension. Applicant is only allowed to request use of the parking places adjacent to the building they occupy, and it requires approval of the building owner. The City of Sonoma has the authority to limit or deny the number of spaces being requested.

The detailed drawing / visual representation of the area should include:

#### **Boundaries & Equipment:**

- Clearly show the property boundaries, building/business footprint, proposed area for the Temporary Sidewalk Extension, number of parking spaces to be eliminated, location and size of tables, number of outdoor sidewalk seats proposed and identify the names of any neighboring businesses.
- Label street names of adjacent streets.
- Identify and show all permanent public fixtures within the affected public sidewalk and Temporary Sidewalk Extension areas (i.e. sidewalks, trees, fire hydrants, trash or recycling receptacles, benches, etc.).

- Show an ADA compliant path of travel (Temporary Sidewalk Extension areas) that is not less than 48 inches in width with no more than 2% cross slope at the Temporary Sidewalk Extension areas (see Exhibit A).
- Identify and show any utility boxes (above-or below ground).
- Identify and show storm water inlets and how storm water drainage at the curb and gutter will be maintained.
