

MacArthur Place Arborist Report

**JOHNSON'S
TREE & GARDEN
SERVICE**

CERTIFIED ARBORIST #860

Job Name: Entitlements Tree Removal Plan

Date: 1/2/21

PURPOSE

IMH Financial has retained Johnson's Tree and Garden Service LLC to provide an arborist report based on the Tree Removal Plan per Girvin and Associates.

SCOPE OF WORK AND LIMITATIONS

1. Review tree removal and relocation plan provided by Girvin and Associates
2. Assess health of trees marked for removal
3. Review trees marked for relocation and confirm whether they can be relocated or need to be removed

OBSERVATIONS

1. 28" Juniperus chinensis- This Juniper is in overall good health with some signs of decay. That decay would most likely be age related.
2. 6" Pinus thunbergia-Tree in overall good health.
3. 5" Malus domestica- The espalier Apples are in moderate health. They are showing small signs of fire blight and should be treated accordingly.
4. 5" Acer palmatum- Japanese Maple is overall good health. No signs of crown dieback, cambium damage, or disease.

CONCLUSIONS

1. 28" Juniperus chinensis- It will need to be removed when construction of the entitlements begins.
2. 6" Pinus thunbergia- It will need to be removed when construction of the entitlements begins.
3. 5" Malus domestica- This Apple can be transplanted between November-March using attached ISA Guidelines
4. 5" Acer palmatum- This Maple can be transplanted between January-April using attached ISA Guidelines

C-27 #1021725 ISA# 860 C-61-D49

RECOMMENDATIONS

The Apple and Maple trees to be transplanted will need to be transplanted per attached ISA Tree Planting Guidelines. A tree removal permit will need to be issued by City of Sonoma prior to removal of the Juniperus and Pinus

Sincerely,
Paul Johnson Certified Arborist #860
