Re: Replacement of Totaled Tahoe

I would request the following item be placed on the June 10, 2024 Safety Committee agenda for discussion and the June 10, 2024 Full Council for consideration under emergency legislation:

1. Amount:		\$61,354.75	Total
Vendor(s):	Ganley Chevrolet	\$52,160	(State Bid #XXXXXXX)
	Hall Public Safety:	\$8,223.75	
	Graphics Expressions:	\$971.00	
Account:	Cruisers: 401-11-5741, Hylant Underwriters for Love Insurance		

On May 1, 2024, one of our officers was involved in a collision that resulted in our officer having a minor injury but significant damage to one of our new 2023 Tahoes. (Another driver ran a redlight and struck the cruiser's driver's side pushing the cruiser into a telephone pole.) The insurance adjuster has deemed the cruiser a loss with damages over \$40,000. The at-fault driver was initially thought to not have insurance since the information he provided was for an expired policy. We began the process with the City's insurance, Love, underwritten by Hylant. The City has a 'total replacement cost' add-on meaning the insurance will cover the expenses to get another cruiser up and running for patrol use. The TRC includes the vehicle, equipment and installation and striping. Hylant will then make a claim against the other driver's insurance. This process allows us to get the process started much sooner than waiting for the other insurance company.

The total cost of the replacement Tahoe is \$62,354.75. That takes any of the usable equipment from the totaled car 8 and puts it into the replacement, along with purchasing new items to replace the ones that were destroyed. As always, we will use Hall Public Safety for the upfitting needs and Graphic Expressions for the striping. Ganley estimates having the 2025 Tahoes available in June of 2024.

The total purchase cost of this project will be \$61,354.75 but will not be a cost to the city. Once authorized, Hylant will make payment to the City and we can, in turn, order everything and pay the vendors.

Thank You,

*Patricia Wain*
