Re: Block of time for Elastic IT

RECEIVED

OCT 2 5 2024

CLERK OF COUNCIL STREETSBORO, OHIO

Mayor & B.O.C. Members:

I am requesting approval to purchase an additional block of 100 hours from Elastic IT. Elastic IT has been providing IT Services to the city for the past two months, assisting me with getting a few projects wrapped up. They are helping me finish the Intersection project, which we have made the most headway with their help than we have been able to make with three other companies that provided services to the City. I will also be recommending that we utilize Elastic IT in 2025 to provide backup IT services to the City, so it makes sense to continue utilizing them now through the rest of the year to get some of these projects wrapped up.

I am requesting an amount not to exceed \$16,500.00, which covers the new block of 100 hours as well as an existing block of 30 hours that we had already purchased through Elastic IT. The hourly rate is \$125.00/hour per the signed agreement that we have with Elastic IT. We have the money currently available in our budget under contractual services for this expenditure, utilizing GL 101.81.5338.

Please, if you have any questions, do not hesitate to either send me an e-mail at mcoffman@cityofstreetsboro.com or give me a call at 330-422-2095. Thank you!

Sincerely,

Matthew E. Coffman City of Streetsboro IT Administrator

#### INDEMNIFICATION AND INSURANCE AGREEMENT

ElasticIT agrees to indemnify the City, its officers and employees against any and all claims, losses or damages suffered by the City, its officers or employees resulting from personal injury or property damage occasioned in whole or in part by intentional, reckless or negligent acts or omissions of ElasticIT, its agents or employees in the performance of the network re-design and configuration of both the intersection network and the City's internal network. This includes access to the City of Streetsboro's internal IT infrastructure at all city entities (the "work"). Compensation for work performed by ElasticIT will be provided monthly upon receipt of invoice by ElasticIT for assistance provided to the city's internal IT department at an agreed upon rate of \$125.00 per hour. This indemnification shall survive the termination or expiration of work being performed. At all times during the time ElasticIT is performing the work, ElasticIT shall maintain Commercial General Liability ("CGL") insurance covering its operations as well as the above indemnification responsibility, in an amount not less than \$1,000,000 per occurrence, and \$1,000,000 in the aggregate. Coverage shall be on an "occurrence" basis. Upon request, ElasticIT shall provide certificates of insurance verifying CGL and workers' compensation coverage. It is understood that ElasticIT's ability to work may be suspended at its own cost if it is unable to provide evidence of insurance.

Re: Additional Ubiquiti Network Equipment

Mayor & B.O.C. Members:

I am requesting approval to purchase additional Ubiquiti Network equipment from Ubiquiti. I have attached the quotation from Ubiquiti for this equipment. This equipment includes replacement network switches for City Hall and the Police Department, which are needed for the installation of the new Spectrum dedicated Internet circuits. The current network switches will be utilized both as spare devices and to replace an older switch at the Water Tower. This quote also includes new Firewalls for the city. I will be replacing our SonicWall Firewalls with Ubiquiti Firewalls to match the rest of our network infrastructure. Lastly, this quote also includes network patch cables that are needed for the new switches. We will be able to re-use these patch cables next year when our move to the new City Hall is completed, saving us an expenditure at that time.

I am requesting an amount not to exceed \$13,000.00, which covers the new equipment in the amount of \$8,500.00 that I am requesting as well as existing Ubiquiti Purchase Orders that I have utilized in 2024. I have the money currently available in my budget under equipment for this new expenditure, utilizing GL 101.80.5745.

Please, if you have any questions, do not hesitate to either send me an e-mail at mcoffman@cityofstreetsboro.com or give me a call at 330-422-2095. Thank you!

Sincerely,

Matthew E. Coffman City of Streetsboro IT Administrator
