

Upcoming Project Information POR-303-4.50 (PID 116254)

The City of Streetsboro plans on improving the intersection of SR 303 and Diagonal Road. The proposed project will include the construction of a west bound left turn lane and an east bound right turn lane on SR 303 at Diagonal Road.

We welcome your questions and comments. Issues you may wish to comment on may include, but are not limited to, the effect of the project on local residents, air quality, the local economy, floodplains, and historic or cultural resources. Comments are requested by March 25, 2023, to ensure your comments may be considered during project development.

Please be aware that, at this stage in the project development, it will not be possible to provide you with specific information regarding potential real estate acquisition. If right-of-way acquisition is necessary from your property, a representative working for the City of Streetsboro will contact you directly at a later date to discuss the right-of-way needs, the acquisition process, and your rights under that process. Construction is currently scheduled to begin in early 2023.
