COLD WEATHER TIPS

Help prevent freezing of water supply lines and pipes by following these recommendations:

- Remove outside hoses and cover faucets with Styrofoam cover or pipe insulation
- Open kitchen and bathroom cabinet doors to allow warmer air to circulate around the plumbing
- When the weather is very cold outside, let the cold water drip from the faucet served by exposed pipes. Running water through the pipe - even at a trickle - helps prevent pipes from freezing
- Keep the thermostat set to the same temperature both during the day and at night

SANITATION DEPARTMENT – ICE AND SNOW

The sanitation department has always attempted to provide garbage service throughout the city regardless of the weather. When the city experiences ice storms, we must alter the way we gather the garbage for the safety of our workers. For the safety of our citizens, it is suggested that they hold their trash until the next scheduled pick up day. When there is **ICE on the ground**, garbage **will not be picked up**. When there is **SNOW on the ground**, garbage **will be picked up curbside only**.
