**NEW YEARLY SEWER AVERAGES FOR RESIDENTIAL SEWER BEGIN ON THIS BILL**

This is the first month that your new sewer average is reflected on your bill. Your sewer rates are calculated from your water usage we receive from Oklahoma City and Bethany Water Departments. Every year the Oklahoma City and the Bethany Water Departments forwards to the City of Warr Acres a three (3) months average consumption of water usage for each residential property for the winter months of December, January and February. These three months are used because they are the months with the least amount of water being used during the year. The City of Warr Acres then takes this three (3) months winter average and figures the next year's sewer rates. This means that your sewer bill starting this month through April 2023 may have an increase, decrease, or your rate may remain the same depending on how much water consumption you had during December 2021 and January and February 2022.

## **For those of you on ebill:**

This is not the same as auto pay or ACH. Signing up to make payments on the website allows you to make monthly payments online, this does not mean that the payment is auto paid. It emails your bill instead of receiving a paper bill and gives you the option to make online payments. If you have any questions or concerns, please don't hesitate to call City Hall.

## **BULK TRASH DAY INFORMATION**

The City of Warr Acres has bulk trash pickup every three (3) months; the next bulk trash day will take place in July. Your bulk trash day will be listed on your Warr Acres utility bill, the newsletter and on the city's Facebook page. You are permitted to put your bulk trash items out three (3) days prior to your big trash day. **If you place big trash items on the curb PRIOR to your specific big trash day, sanitation will pick it up and you will be charged EXTRA on your bill.** There is a limit to how much big trash you can put out, and if you exceed this amount, you will be charged extra on your utility bill. The amount you can put out is eight (8) cubic yards,

which is equal to what one can place in the back of 2 full size pickup beds. A base flat fee of thirty-five (35.00) dollars shall be made for the removal of the material up to and including the first cubic yard. Additional material may be included and removed at a charge of fifteen (15) dollars per cubic yard up to a maximum of forty 40 cubic yards (Ord. 1124, 2012)
