

NEWS FOR THE CITIZENS OF WARR ACRES

DECEMBER, 2023

*From the Mayor & city employees....
"Have a Merry Christmas and a safe and
Happy New Year!"*

END OF THE YEAR DATES CITY HALL WILL BE CLOSED:

CHRISTMAS	Friday	December 22, 2023
CHRISTMAS	Monday	December 25, 2023
CHRISTMAS	Tuesday	December 26, 2023
NEW YEAR'S DAY	Monday	January 3, 2024

Only city hall will be closed on Friday, December 22nd. Trash service will be picked up on this day. If your normal garbage day is missed due to a holiday, there will be curbside pick only on the following days;

Wednesday December 27, 2023
Wednesday January 3, 2024

Thank You to all of the volunteers who made our Christmas Tree Lighting Ceremony on December 2nd a success!! The hot drinks, snacks, and music were enjoyed by all who attended! Special thanks to our Police Chief and councilmembers, Shelly, Traci, Putnam City Silver Strings Orchestra, Cherokee Hills Christian Church, Putnam City United Methodist Church and Provisions Coffee Shoppe. And a special thank you to Santa! Also wanted to give a thank you to Chief Patty who lit the Christmas tree for us this year, his last year with the city. You will be missed! Happy retirement!

Our ambulance service, Pafford, is raising the fee for the subsidy paid by the City in their new 2024 contract. This, in turn, is requiring the City to implement a \$2.00 increase, city wide, to cover the cost of the service increase. This will be reflected on your January 2024 billing. If you have any questions, please contact the Mayor at 405-651-0070.

Recycling

Recycling dumpsters are available at Dorothy Cavener Park, in the area of NW 52nd and Hammond Avenue. **The Recycle center will be open first Saturday of the month only from 8:30am until 11:30am.** The Recycle Center is not open in January or July due to the weather. Closed during inclement weather. Warr Acres Recycle Committee 405-720-2949.

IMPORTANT MESSAGE

The City of Warr Acres is working on a comprehensive program to improve our sanitary sewer system throughout the city. Starting this month our engineering firm SRB along with their sub-contractors (Woolpert & HydroMax) will be accessing the sanitary sewer manholes for inspections. The crews will also be using closed circuit cameras to video the lines and will be using vacuum trucks to clean the sanitary sewer lines as well. Public Works staff and our crews will be notifying residents by door hangers prior to accessing the yards.

JANUARY IS RESIDENTIAL BIG TRASH PICKUP MONTH

Ward 1 Wednesday January 3, 2024
Ward 2 Wednesday January 10, 2024
Ward 3 Wednesday January 17, 2024
Ward 4 Wednesday January 24, 2024

Big Trash INCLUDES, but is not limited to: household appliances, furniture, carpet, mattresses, box springs, water tanks, fencing and similar non-contracted items, bagged grass, and brush produced as refuse from single-family dwellings. Compressors must be removed from all appliances **BEFORE** collection may be completed. Doors on refrigerators and other bulky items **MUST** be removed before placement on curb.

Items **EXCLUDED** under the definition of big trash include hospital and medical waste, poisons, acids and caustics, explosives, dirt and rocks, sewage and liquid waste, nuclear materials, gasoline, kerosene, propane tanks, degreasers, lubricants, tires and rims, antifreeze, paint, and commercial construction debris, bricks or concrete. Call sanitation at 491-6474 if you have any questions.

SIZE OF MATERIAL: Big trash shall be a length not exceeding 10 feet or a weight exceeding 250 pounds. Tree trimmings and branches must be placed together in piles with individual branches not longer than 8 feet and dead trees (not more than 6 inches in diameter).

The TOTAL amount allowed at the curb is 8 cubic yards (equal to what you can place in the back of 2 full size pickup beds level with the top of the cab). There will be an additional fee of \$15.00 for each cubic yard of bulky waste collected in excess of eight (8) cubic yards

Items cannot be placed out for pick-up earlier than **four** days preceding the regularly scheduled bulk waste collection day **FOR YOUR WARD**.

PLACEMENT AND LOCATION of big trash: Items shall be placed at least five feet (5') from mailboxes, cars, shrubs, or anything else that could interfere with hand loading or mechanical equipment. Items shall be placed at least ten feet (10') away from utility poles, guywires, signs, fire hydrants and gas meters to allow mechanized pick up.

***RESIDENTIAL is defined as a SINGLE-FAMILY home OR a duplex**

Storm Water News

In 2021, the Oklahoma Department of Environmental Quality has added Lake Hefner as an impaired waters with mercury. Citizens are encouraged to properly dispose of any items containing mercury at the City of Oklahoma City Household Hazardous Waste Facility located at 901 South Portland, OKC and not in their regular household trash in which the truck could crush the container and disperse onto the sanitation equipment and the surrounding roadways. Common items that could contain mercury are antique barometers, old thermometers measuring air temperature, old light switches, old wall thermostats for air conditioning systems. These would be found during demolition of a structure, replacement of existing electrical systems and cleaning out a shed, garage or even an entire house. The mercury contained in these items are usually sealed inside of a clear glass tube in which you can see the mercury inside. If found, carefully handle and place into a zip-lock bag and dispose of at the hazardous waste facility free of charge.
