Designed for residents of West Mead Township who are interested in learning about various options for garbage collection. This two-hour session will provide an overview of our current system which people contract with haulers of their choice if they want service and will provide other possible options for consideration including: establishing a Township wide garbage service, recycling options, contract language and specifications, and a hybrid version of exclusive non-mandatory service options.

The seminar will be led by those who work in the field to provide knowledge for both the Board of Supervisors and the residents of West Mead Township. This seminar will provide answers to common questions and be a great discussion time for anyone who has thoughts for continuing with no garbage collection or for those who may want other options.
