

West Mead Township Board of Supervisors

Public Study Session Agenda AMENDED AGENDA

August 9, 2022 - 6:00 p.m.

Note: This is a public meeting of the Board of Supervisors for purposes of general discussion of administrative, regulatory enforcement; police and road department and personnel; building and grounds; budget and related matters and issues related thereto that may or may not require action. It is also used to review and comment on the public meeting agenda for the regular public meeting.

Note: Informational Session was held on August 3, 2022 with David Mona and various neighbors on Williamson Road who may be interested in connecting to the Meadville Area Sewer Authority public system, as their existing on lot septic systems are in need updates and it may not be cost effective to have them replaced or repaired.

Note: PennDOT has been having management discussions regarding the Scope of Work on the French Creek Parkway and the Spring Street Bridge Improvement Projects. Gannett Fleming has been hired to design the project and it appears they have decided to reduce the current four lane to a two lane highway and to include a trail along the eastern side nearest Baldwin Street. Anticipated start of construction is 2023 and additional details will be forthcoming.

Note: The Crawford County Planning Office provided information on behalf of the Crawford County Commissioners changing the way in which reviews of Subdivision and Land Development Plans are handled as submitted from municipalities and developers. Their fee schedule was also updated and goes into effect on August 1, 2022 and will remain in place until further notice as they are focusing their efforts on updating the Crawford County Comprehensive Plan.

Note: West Mead Township received an additional \$830.32 in first round funding under The American Rescue Plan Act which was passed on March 11, 2021 to address the continued impact of the Corona Virus COVID-19 Pandemic. Second round funding should be received later this month and all funds must be spent by December 31, 2024.

Public Comment:

Jordan and Dunlap to provide an update on the status of the proposed public sewer system connection project for various residents located on Williamson Road. The Board may consider this update to the West Mead Township Act 537 Sewage Plan at the September meeting. Motion to authorize the Secretary and Solicitor to work on any necessary documents for the proposed public sewer system extension project on Williamson Road.

Dunlap to discuss obtaining repair and replacement costs for both West Mead Township building rooftop furnace units.

Amended Agenda:

Motion to add the following truck item to the agenda.

Shartle to discuss order status of two International CV515 trucks from Hunter Truck Sales and options available from Dave Hallman Chevrolet.

Review items on 7:00 meeting agenda.

Adjourn:
