## MEMORANDUM

**TO:** Board of Directors  
Mid-Willamette Valley Council of Governments

**DATE:** March 14, 2024

**THRU:** Scott Dadson  
Executive Director

**FROM:** Amber Mathiesen  
Finance Director

**SUBJECT:** Resolution No. 2024-01 Establishing Rates for Services for FY 2024-25

---

### ISSUE

Should the Mid-Willamette Valley Council of Governments (COG) Board of Directors adopt the attached resolution establishing rates for fee-for-service programs FY 2024-25?

### BACKGROUND

The COG, as an intergovernmental entity formed by agreement pursuant to ORS Chapter 190, has the authority to enter into intergovernmental agreements for the delivery of services to its member governments. The COG presently offers a host of fee-for-service programs on a contractual basis with its member governments, including but not limited to: land use planning, housing rehabilitation loan administration, revolving loan program administration, legal services, executive recruiting, and other technical services.

As part of the budget setting process, the Board adopts a rate schedule annually that sets out the fees that the COG charges for services provided to member and non-member governments.

### RECOMMENDATION

The Board adopt Resolution No. 2024-01 establishing rates for fee-for-service programs FY 2024-25.

### DISCUSSION

The following discussion summarizes the analysis that staff used to arrive at the rates on the attached resolution to include:

- Any relevant historical context for the program or service and its associated rates;
- The assumptions and methodology staff used to arrive at the recommended rate;

- Where applicable, how the recommended rate compares with private sector rates for similar work; and
- Whether the proposed rate will generate revenue in excess of expenses, only recover costs, or result in a program loss (and if so, why that is advisable).
- 

### **Member Services Rates**

Recruiting Services. The rates set forth in the attached resolution are based on an analysis that averages the number of hours spent on this service over a five-year period and tiered by entity size. The rates are well below that which recruiters charge (which based on recent recruitments in the area are \$25,000 - \$35,000 per recruitment). However, the services conducted by recruiters is markedly different, in that recruiters offer a guarantee and will also actively recruit candidates (whereas the COG's service approximates the role of an internal Human Resources staff - a passive recruitment model). The anticipated net effect of the attached rates is to be both revenue and cost neutral based on a five-year average.

Legal Services. The COG began providing legal services in 2018. The attached resolution contains two rates for attorney services. The first is for Legal Services subscriptions which allow members to get up to 10 hours of legal services for a flat rate. Then there are rates for general counsel and hearings officer services at a rate of \$200 per hour. Both rates are at or below what cities have historically paid for these services.

The COG's cost for providing this service is expected to be \$114 per hour starting July 1, 2024. On a strictly per-hour basis, this model results in a net revenue of \$86 per hour for attorney services. That net revenue goes to pay for the cost of legal services provided to the COG on internal matters. The anticipated net effect of the attached rates is to be revenue and cost neutral, with some potential for a net gain (depending on the degree to which the attorney is used for internal matters).

Strategic Planning / Goal Setting. The COG provides goal setting and strategic planning sessions through a contractor. The attached rates reflect the cost of the contractor. The net effect is to be both revenue and cost neutral.

Miscellaneous Services. The COG will occasionally provide additional member services on a fee for service basis. For example, members will contract with the COG to facilitate amendments to the city Charter, facilitate resolution of conflicts, or perform other studies within the skills and abilities of the Executive Director. The anticipated hourly cost for the Executive Director (including wages and benefits) is \$150.00. The anticipated hourly cost for administrative support is \$80.00. Staff recommends a rate of \$187 per hour for the Executive Director and \$84.00 per hour for the Administrative Support, which is the rate that most facilitators charge for similar services. Because the demand for this type of work is intermittent, it is difficult to accurately predict the revenue impact of this rate, but any revenue would be minimal.

## **Community Development Rates**

Land Use Planning. The COG provides land use planning services on a contractual, hourly basis for over twenty (20) jurisdictions throughout the region. The current contracts are set to expire on June 30, 2024.

Contract work includes current planning, special planning projects and long-range planning work, such as updating comprehensive plans, buildable land inventories and UGB expansions, code updates, mapping, etc. and this work is often shared between the local jurisdiction and private sector (if we are not successful in securing grant sources).

The staff recommended rates are intended to recover costs, however, some rates have historically been lower than cost recovery. In these cases, we are raising these rates incrementally 10% this year, and similar increases in following years)to improve recovery over time.

A market rate analysis of other planning services consultants within the region shows that, at the recommended rates, the COG proposed FY24/25 in the mid-range of other planning consultants within the region.

Program attributes that sets the COG apart, in addition to our hourly services contracts, are:

- Direct representation of our local jurisdictions with an assigned planner they can become familiar with and develop firm relationships and understandings;
- Support from the Community Development program as a whole, including support from the Community Development Director, Housing Rehabilitation Specialist, Grant Administrator, and Small Business Loan Program staff; and
- Support from a total of seven (7) Community Development staff rather than a single land use planner providing office hours that can often serve as a siloed resource.

Grants Administration. COG staff also contract with cities and other local governments throughout the year for funding application assistance, administration of public infrastructure grants and loans, and/or income surveys or other tasks needed to ensure continued eligibility for various state and federal funding programs. The recommended rate will achieve full cost recovery for this program area and is well within market rates for similar services.

Housing Rehabilitation. Community Development staff support the Valley Development Initiatives (VDI) housing rehabilitation program and contracted hourly services to support housing rehabilitation program contracts for the cities of Jefferson, Mt. Angel, Scotts Mills, Silverton, and Woodburn who maintain their own housing funds and desire COG assistance with program administration. The recommended rate will achieve full cost recovery for this program area.

Other Economic Development Services. Community Development staff will occasionally provide other economic development services, such as urban renewal planning and other

economic development efforts as requested by member local governments to enhance the region. The recommended rates for these services will achieve full cost recovery for those activities.

### **Geographic Information Services (GIS) / Transportation Modeling Services Rates**

The COG provides various technical GIS services to member governments to include:

- Updates of zoning and comprehensive plan maps as well as other maps needed for local land use planning services;
- Requested services of a local government, such as address mapping, or assistance with Census program participation (e.g. Boundary and Annexation Survey)
- Support to Yamhill County to maintain and update the county's online GIS web application;
- Services for the Salem-Keizer School District to maintain and update data layers, update and create maps of school boundaries, and maintain the district's online GIS web application (the Salem-Keizer School Finder), and other services requested by the district; and
- Mailing list GIS services for ODOT Region 2.

The hourly member rate is the needed to cover COG's labor rate for a GIS analyst, plus indirect and material costs.

Modeling Services. On an infrequent basis (from two to four times per year), the COG transportation section will get requests for modeling forecasts from private sector companies (or their consultants) for projects associated with a private-sector land use development application. COG only provides this service only for the geographic area inside the SKATS MPO area. The proposed Transportation Modeling services hour charges of \$130/hour is higher than the "break-even" costs of \$110.00/hour for a Senior Planner- \$100/hour for an Associate Planner. In a typical year, the total amount of hours charge is less than 20 hours. Requests from our local governments within SKATS and ODOT for modeling forecasts and related outputs is not charged to those jurisdictions or ODOT since they provide local or state funds for matching the federal funds provided to the COG for SKATS.

### **Loan Program Service Rates**

The loan program bills the individual loan programs for the time spent to market, underwrite, funding and servicing the loans. The recommended staff rates are expected to achieve full cost recovery when loans are funded. However, because many prospective lending opportunities are not pursued by the business borrowers and their participating lenders, for a variety of reasons beyond the control of the loan program staff, the time spent working on these prospective projects is not billable, so the time and costs are not recovered in instances when a loan does not

fund. The costs of those activities are then borne by the carryover in program income from year to year, which derives from other program revenues.

The loan program budget is the aggregate revenues of each revenue source. For example, the SBA 504 program and the Oregon Business Development Fund generates income in excess of costs; the COG revolving loan fund and VDI loan programs fund most, to all of the revenues to cover expenses and the contract lending services provided two cities and one county is subsidized by the other COG lending activities.

The COG's rates are well below market rates and that of other public sector lenders. A true private sector comparison is problematic because a lender would reluctant to accept the liability risk and increased insurance costs inherent with a contract for lending services that are not core to the lenders activities. However, for comparisons purposes assume the COG's rate for loan officer and program manager to be doubled to match private sector salaries (loan officer and team leader) and add a factor of plus 50% for indirect costs; the loan servicing rates would be increased by an indirect increase of 50%. Public sector comparisons are limited to other Councils of Governments in the State, which either are understaffed, do not have the software capacity, and are unable to provide lending services outside of their area of operations. Typically, these public entities have higher staff rates because of their individual burden rates/indirect costs in comparison to MWVCOG, as per our prior affiliation with jointly operated (three COGs) Certified Development Company.

RE: Willamina Solid Waste Collection Franchise

Dear Bridget:

In compliance with the terms of our franchise agreement, please find enclosed the following documents that make up the annual financial report:

1. Rate Review Report, which includes the following:
  - a. 2023 calendar year actual expenses, and all allowable expenses that we reasonably anticipate will be incurred in the upcoming rate year beginning July 1, 2024,
  - b. The allocation method used to allocate shared expenses,
  - c. The Operating Ratios for the preceding calendar year and the upcoming rate year, and
  - e. Projected Ratio with new proposed rates.
2. Proposed Rates for the City of Willamina.

One additional document, the third-party Financial Review, is not yet available but will be sent separately in the coming days.

Thank you for your patience and for the extra time to submit these documents to you as we have worked through lingering impacts of a cyber security incident that impacted all Recology sites during the last six months. We are happy to report that all systems are back online and Recology has taken considerable steps to prevent future incidents from occurring.

Despite the setbacks we incurred, on the ground services continued without noticeable impact to customers. We want to recognize our Valley operations teams who utilized both memory and experience to continue to provide safe and uninterrupted services over the past months.

Regarding the current rate review, inflationary and other pressures continued through 2023 and projections indicate that we will continue to see increasing costs in key areas that affect our collections operations. Here are some key drivers:

- Labor costs are up at the coast due to filling remaining vacancies and also for employee retention
- Disposal is up due to both increased labor costs and pass through disposal costs at the transfer station
- Fuel is up from the previous year (though there has been some softening lately in fuel prices)
- Supply chain issues continue to impact access to parts and equipment in addition to labor increases in our shop/maintenance service areas

Based on our projections for the upcoming rate year (July 1, 2024 – June 30, 2025), and to maintain the target operating Ratio of 90% going forward, Recology is proposing a 5.75% rate increase across all service rates.

We appreciate the opportunity to provide these essential services to our neighbors in Willamina. We take this obligation seriously, and we are committed to keeping our operations running as expected. We look forward to attending an upcoming council meeting, either in person or virtually. Dan Blue will be reaching out to you soon to coordinate scheduling.

Please let us know if you have any questions or need any additional information. You can reach out to me at (503) 803-4984 or by email at [ccarey@recology.com](mailto:ccarey@recology.com) or to Dan Blue at 503-405-0261 or [dblue@recology.com](mailto:dblue@recology.com).

Question 1.)

The field of city planning has always fascinated me, and I am passionate about contributing to the development and improvement of our city.

City planning plays a crucial role in shaping the physical, social, and economic aspects of our community. I believe that thoughtful and strategic planning is essential for creating sustainable, livable, and inclusive cities for all residents. By serving on the City Planning Commission, I hope to actively participate in the decision-making process and help shape the future of our city in a positive way.

Question 2.)

I would bring a unique skillset as a former Law Enforcement Officer and a sense of community with my prior volunteer work in Silver Bow County 4H and Montana Special Olympics Torch Run. This has inspired me to continue my journey in public service and volunteerism for my new community, and I am eager to explore new opportunities to further contribute to the betterment of society.

Question 3.)

I bring a unique perspective, a strong work ethic, and a dedication to community service to the table. I am dedicated to listening to the concerns and ideas of fellow residents, collaborating with stakeholders, and making informed decisions that will benefit our city for generations to come. I am excited about the possible opportunity to collaborate with fellow commissioners, engage with community members, and contribute to the planning initiatives that will benefit our city for years to come.

## Notice of Budget Committee Meeting

### & State Revenue Sharing Public Hearing

#### For the City of Willamina, Oregon

A public meeting of the Budget Committee of the City of Willamina, Yamhill County, State of Oregon, to discuss the budget for the fiscal year July 1, 2024 to June 30, 2025, will be held at the West Valley Fire District, 825 NE Main Street, Willamina, OR 97396. The meeting will take place on May 21, 2024 at 6:00 PM.

The purpose of the meeting is to receive the Budget Message and to receive public comment on the 2024-2025 proposed budget for the City of Willamina. This is a public meeting where deliberation of the Budget Committee will take place.

A public hearing to receive comments on the possible uses of the State Revenue Sharing funds will also be held at this time.

A copy of the budget document may be inspected or obtained on or after May 17, 2024 at the Willamina City Hall, 411 NE C St., Willamina, OR 97396, between the hours of 9:00 AM – 5:00 PM.

The public may participate in person or via Zoom. Additional information can be found on our Facebook page or website: [www.willaminaoregon.gov](http://www.willaminaoregon.gov) (<http://www.willaminaoregon.gov>).

If a second meeting is necessary, it will be held on May 23, 2024 at 6:00 PM.
