Let's Create Defensible Space

CHECKLIST:

- Roofs and gutters are clean from leaves, conifer needles, and other debris.
- Flammable vegetation is removed from growing directly under the eaves. A minimum of five feet from the structure is recommended.
- eaves, conifer needles, deadwood, bark mulch, and other debris removed from the surface of, around, and below decks and fences.
- The driveway is accessible to first responders (e.g., clear of debris and obstructions; meets local height and width requirements; has clearly marked road signs, bridges, & culverts).
- Small BBQ tanks, not in use, are stored at least 30 feet away or in an outbuilding.
- Exterior attic vents, soffit vents, and areas below decks and patios are covered with 1/8" metal wire mesh.

For more information contact your local fire agency or reach out to our Defensible Space Program for more tips on how to protect yourself and your property this wildfire season.

We would like to invite you to our

Community Response Team/ Committee

We will be establishing a Community Response Team and Committee. We will be able to answer any questions and gauge interest levels if you email or call us.

The goal with this team is to create a community response that is trained in assisting our Emergency Services in the event of a large incident or natural disaster.

During these events every bit of support helps. Strengthen our community's resilience by volunteering with us today.

NEXT MEETING
