

Williams County Agricultural Burn Ban Exception

This exception has been created for removing leftover standing crops. Burning will be allowed, despite the Forest Service's rating, only under the following a set of conditions.

- Immediate agricultural necessity - Required to prep cropland for planting.
- Must create a fire break prior to starting.
- Must have tractor and tillage implement on site.
- Must coordinate to have fire suppression readily available.
- Winds must be below 15 mph.
- Temperature and humidity restrictions.
- Hours of burning restrictions set by the fire department.
- Trash pits, brush piles, hay bales, pastures would not qualify as they can wait for lower fire danger ratings.
- The responding fire department chief or his designated representative is the approving authority.
- The requirement remains to notify the local fire department or emergency manager so they can inform 911 dispatch.
