How are my property taxes calculated?

The information provided below is intended to help you understand property taxes in general, the often confusing "mill," and how your property tax bill is calculated. **This is an example only - tax statements vary!**

THERE ARE THREE MOVING PARTS INVOLVED IN DETERMINING YOUR PROPERTY TAXES:

1. VALUE OF A MILL (TAX RATE)
2. TAXABLE VALUE
3. TAXING ENTITIES (OR DISTRICTS)

VALUE OF A MILL (TAX RATE)

A "mill" is simply 1/1000th of anything:

- 1/1000th of one meter is a millimeter
- 1/1000th of one gram is a milligram

On your property tax bill, the value of a mill is 1/1000th of your Taxable Value.

TAXABLE VALUE

Taxable Value is a percentage of the True & Full value of your property.

Residential

Taxable Value = True & Full x 4.5%

Commercial & Agricultural

Taxable Value = True & Full x 5%

TAXING ENTITIES (OR DISTRICTS)

When you pay your property tax bill, you are actually paying several different taxing entities or districts. These are your various forms of local government, such as your county, city, township, school board, park board and any other entity that is allowed to levy property taxes.

Each entity is governed by different elected officials. Citizens with concerns about local funding should contact these officials.

PUTTING IT ALL TOGETHER

Taxing District	Mills
School District	128
County	33
Township	18
Rural Fire	5
Rural Ambulance	12
UND Medical School (State)	1
Soil Conservation District	1
Garrison Conservancy District	1
Vector Control	1
Total	200

Note: The UND Medical School receives one mill from every property tax payer. This is the only property tax assessed by the state.

The amount of tax you pay (what is provided on your tax statement) is determined by the number of mills each taxing entity levies and the value of a mill for your property.

Here's an **example** of a property tax calculation for a residential property with a True & Full value of \$200,000 and using the number of mills in the table to the left.

Determine **taxable value**: \$200,000 X 4.5% = \$9,000

Determine **value of each mill**: \$9,000 / 1,000 = \$9.00

Determine **total property tax**: 200 mills X \$9.00 = **\$1,800**

IF THERE ARE ALL THESE TAXING ENTITIES, THEN WHY DO I GET ONE TAX STATEMENT FROM THE COUNTY?

Instead of getting several separate bills, you get one property tax statement from Williams County, and we distribute your payment to each of the other entities.

WHY DOES MY BILL GO UP OR DOWN?

Both the value of the mill AND the number of mills can affect your tax bill. If the same number of mills are on your tax statement this year as there were last year, but your home's value increased by 5%, your tax bill will rise by 5% as well.

*Revenue from transmission lines received by Williams County is allocated 1/3 to the County and 2/3 among the County and other taxing districts in proportion to their respective most recent property tax mill rates that apply where the transmission line is located. Revenue from the distribution company tax and generation tax received by Williams County is allocated among taxing districts in which the retail sale or generator is located in proportion to their respective most recent property tax mill rates (North Dakota Century Code § 57-33.2-19). Generation tax includes tax collected from wind farms and electric cooperatives. Taxing districts will only receive an Electric Generation, Distribution, or Transmission allocation if they assess a levy for that tax year.
